NEWS RELEASE

Lumentum to Exhibit at Five Tradeshows in the Next Three Months

2017-04-03

Milpitas, Calif., April 3, 2017

– Lumentum Holdings Inc. (“Lumentum”) announced it will exhibit at five tradeshows worldwide in the next three months. Lumentum will display numerous advanced products addressing the telecom, enterprise, data center, and 3D sensing, as well as laser micromachining and laser macromaterials markets. Presence at these shows demonstrates Lumentum’s commitment to and support of these dynamic markets.

About the Events:

Photonix, Fiber Optics Expo 2017 — April 5–7, 2017, in Tokyo, Japan at the Tokyo Big Sight -- Stand: #53-11. Photonix 2017 consists of three different exhibitions specializing in laser processing, optics, and optical measuring/analytical technology. Attendees include representatives from optical instruments, medical device, and automotive equipment manufacturers.

Thursday, April 6, 2017

> **The Latest Trends in Optical Components for Ultra-High-Speed Communications**
> Michael Ayliffe, R&D Director, Optical Communications, Transmission Components – 1:00 P.M. – 3:00 P.M.

Image Sensors Auto EU 2017 — April 25–26, 2017, in Dusseldorf, Germany at the Radisson Blu Scandinavia Hotel. The event concentrates on image sensors for automobile imaging systems from

optics, to processing, to OEM requirements for auto manufacturing.

Next Generation Optical Networking (NGON) Europe 2017 — June 20–22, 2017, in Nice, France at the Nice Acropolis Convention Center. NGON focuses on optical networks addressing optical data center interconnect (DCI), software defined networks (SDN), and photonic integration, amongst others.

Wednesday, June 21, 2017

> **Oxford Style Debates: Can Data Centers Skip 200GbE on the way to 400GbE?**
> Chris Pfistner, Vice President, Product Line Management, Datacom – 11:50 A.M. – 12:30 P.M.

EPMT 2017 — June 20–23, 2017, in Geneva, Switzerland at the Palexpo Geneva -- Booth: #G95. EPMT focuses on micro- and nano-technologies for lasers in a variety of applications including aeronautic, automotive, automation, robotics, and others.

Laser World of Photonics Munich 2017 — June 26–29, 2017, in Munich, Germany at the Messe Munich, Hall A2 -- Booth: #320. The event is held every two years and hosts a combination of research, innovative technology and industrial application sectors for photonics. It is one of the largest global conferences and exhibitions for the lasers and photonics community.

About Lumentum

Lumentum (NASDAQ: LITE) is a market-leading manufacturer of innovative optical and photonic products enabling optical networking and commercial laser customers worldwide. Lumentum's optical components and subsystems are part of virtually every type of telecom, enterprise, and data center network. Lumentum's commercial lasers enable advanced manufacturing techniques and diverse applications including next-generation 3D sensing capabilities. Lumentum is headquartered in Milpitas, California with R&D, manufacturing, and sales offices worldwide. For more information, visit www.lumentum.com.
