

McEwen Mining Inc. has four producing mines, located in Nevada, Ontario, Mexico and Argentina, and also owns a very large, underdeveloped copper deposit in Argentina. Our goal is to further develop into a strong and profitable gold and silver producer, focused on the Americas. In order to that, we need great talent. McEwen Mining currently has an opening at our **Black Fox Mill Site** for a:

Millwright

Reporting to the Maintenance Supervisor, the Millwright is a full-time position, responsible for installing, inspecting, adjusting, and repairing equipment while following safety rules and regulations. You will be required to maintain all equipment to required standards and be responsive to production needs and equipment failures. You will work as part of a team but would routinely perform work independently and maintain a high level of accuracy and safety, while performing your duties.

Primary Responsibilities Include:

- Follow McEwen Mining Safety Policies, Programs and Legislative Standards
- Complete specific work orders, providing sufficient detail for co-workers to acknowledge work completion and/or equipment issues
- Provide mechanical expertise and apply trouble shooting skills to assist operations, maintenance, and technical personnel in identifying and problem solving
- Safely operate specific units of mobile equipment including man lifts and forklifts
- Assist in the commissioning of new installations and modifications
- Identify, develop, and implement continuous improvement opportunities
- Ensure that safety issues are reported to the supervisor and promptly remedied
- Participate in activities while promoting a positive workplace environment

Qualifications and Skills Requirements:

- Ontario provincial or inter-provincial (Red Seal) Industrial Mechanic Millwright trade certificate, 3 years'+ related experience in an industrial/mining processing plant environment as a Millwright
- Additional certification as a welder or machinist with the ability to interpret equipment design and blueprints is an asset
- Thorough knowledge of hydraulic, pneumatic, and mechanical principles
- Experience installing, maintaining, and repairing equipment (hydraulic, pneumatic, power transmission, mechanical drives, conveyor systems, pumps, overhead cranes)
- Experience with grinding and crushing equipment is an asset
- Experience in computer-based maintenance systems
- Must possess a valid Driver's License class G, and able to arrange transportation to and from work in order to meet a variable schedule
- Must be physically fit, able to work outdoors, exposed to the elements throughout all seasons

Diversity and Inclusion

McEwen is strongly committed to Diversity and Inclusion and aims to create a healthy, accessible, and rewarding work environment which highlights employees' unique contributions to our company's success. As an equal opportunity employer, we welcome applications from all to help us build a diverse workforce which reflects the diversity of our communities, in which we live and work.
