LEXAM VG GOLD INC.

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

JUNE 30, 2012 AND 2011

Unaudited - in Canadian dollars)

1. NATURE OF OPERATIONS

Lexam VG Gold Inc. (the “Company”, or “LexamVG”) was incorporated under the laws of Ontario through a Plan of Arrangement on January 1, 2011, amalgamating Lexam Explorations Inc. (“Lexam”) and VG Gold Corp (“VG Gold”). The Company is principally engaged in the business of exploring precious metal mineral properties. Substantially all of the efforts of the Company are devoted to these business activities and to date it has generated minimal revenues. As a result, the Company has no regular source of cash flow and will need to raise additional funds in the future in order to advance its exploration efforts. There can be no assurance that the Company will be successful at raising such funds or whether funds raised will be at terms economically favourable to existing shareholders. If in the future the going concern assumption is not appropriate, certain adjustments may be necessary to the financial statements. These adjustments could impact the carrying value of assets or liabilities, such as amounts receivable, prepaid expenses and deposits, accounts payable and accrued liabilities, and reported expenses.

The Company’s assets are comprised primarily of the Fuller property, the Buffalo Ankerite property and a 68.5% controlling interest in the Davidson Tisdale property. On June 13, 2012, the Company exercised its option to earn a 60% interest in the Paymaster property as all earn-in requirements were met.

2. BASIS OF PRESENTATION

Statement of compliance

These condensed interim consolidated financial statements have been prepared in accordance with IAS 34, Interim Financial Reporting (“IAS 34”) and do not include all of the information required for full annual financial statements and accordingly, they should be read in conjunction with the Company’s annual consolidated financial statements for the year ended December 31, 2011.

The policies applied in these condensed interim consolidated financial statements are consistent with the policies disclosed in Notes 2 and 3 of the annual consolidated financial statements for the year ended December 31, 2011.

The condensed interim consolidated financial statements were authorized for issue by the Board of Directors on August 7, 2012.

Basis of Measurement and Principles of Consolidation

The condensed interim consolidated financial statements have been prepared on the historical cost basis.

The condensed interim consolidated financial statements include all the accounts of the Company and all of its subsidiaries and investments, including its principle subsidiaries, Lexam Explorations (USA) Inc. and VG Gold Holdings Inc., as well as other non-significant subsidiaries.

LEXAM VG GOLD INC.**NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS****JUNE 30, 2012 AND 2011***(Unaudited - in Canadian dollars)***2. BASIS OF PRESENTATION (Continued)****Use of Estimates and Judgement**

The preparation of condensed interim consolidated financial statements in conformity with IFRS requires that management make estimates and assumptions about future events that affect the amounts reported in the interim consolidated financial statements and related notes to the financial statements. Actual results may differ from those estimates.

In preparing these condensed interim consolidated financial statements, the significant judgements made by management in applying the Company's accounting policies and key sources of estimation uncertainty are expected to be the same as those applied in the first annual IFRS financial statements.

Significant estimates used in the preparation of these condensed interim consolidated financial statements include, but are not limited to, the recoverability of exploration and evaluation ("E&E") assets, investments, automobile and equipment, decommissioning liabilities, share-based compensation, income taxes, the recording of liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, and the reported amounts of income and expenditures during the reporting period. Actual results could differ from management's best estimates.

3. INVESTMENT IN URANIUM VALLEY MINES ("UVM")

Lexam VG holds 4,000,000 common shares of UVM, reflecting an approximate ownership of 36%. The Company's investment in UVM is accounted for using the equity method. The following is a schedule of the equity accounted investment:

Beginning of period	\$ 274,318	\$ 300,000
Loss on equity investment	(38,136)	(25,682)
End of period	<u>\$ 236,182</u>	<u>\$ 274,318</u>
