Becker Professional Education Awards $485,000 in 2018 Scholarships

2018-01-22

Newton D. Becker Program Provides 240 Scholarships to Assist CPA Candidates Prepping for the CPA Exam

CHICAGO--(BUSINESS WIRE)-- **January 22, 2018 –** Becker Professional Education, a global leader in professional education and a part of Adtalem Global Education, announced the recipients of more than $485,000 in scholarship funds from its annual Newton D. Becker Scholarship Program. Through this program, 240 Certified Public Accountant (CPA) candidates will receive full or partial scholarships for Becker's CPA Exam Review.

The program, which has now awarded more than $1.2 million in financial assistance, honors Newton D. Becker, who passed away in 2012. Newton founded Becker Professional Education in 1957 and pioneered a new approach to preparing candidates for the CPA Exam. The purpose of the scholarship program is to continue Becker's legacy and help intelligent, dedicated students and professionals fulfill their dreams of an accounting career by earning the CPA credential.

"At Becker, we are thrilled to provide nearly a half million in scholarship funds to candidates striving to attain their CPA credential," said Michael Malee, president of Becker Professional Education. "This scholarship program is an excellent way to carry on Newton's legacy by enabling dedicated students and professionals across the country to pursue the gold standard in the profession: the CPA credential."

To qualify, applicants had to meet the requirements to sit for the CPA Exam at the time of enrollment, demonstrate financial need and, through a personal statement, exhibit traits important to Newton Becker: high moral character, strong leadership qualities and commitment to community service.

"I had been trying to figure out the best path to pursue from this point forward regarding my accounting career, and this scholarship answered all of those unknowns," said Bryan Jones, 2018 Becker scholarship recipient. "I cannot properly express how much this means after the financial investment and sacrifices my wife, two teenage boys and myself made for me to undertake my undergraduate and graduate school degrees."

For Jones, he is hoping his degrees work toward achieving the CPA credential and ultimately a PhD in Accounting that will help him accomplish his goal of becoming an Accounting Professor. Jones is excited to help others learn and grow, as well as become a mentor to other accounting students in the future.

“Going into a doctoral program already having taken the CPA Exam will be an immeasurable benefit,” Jones noted. “I am so grateful to Becker for this tremendous, life-changing gift.”
