Part II Organizational Action Attach additional statements if needed. See back of form for additional questions.

14 Describe the organizational action and, if applicable, the date of the action or the date against which shareholders' ownership is measured for the action ► On July 9, 2026, Issuer distributed cash to common shareholders. All or a portion of each distribution constitutes a non-taxable return of capital.

15 Describe the quantitative effect of the organizational action on the basis of the security in the hands of a U.S. taxpayer as an adjustment per share or as a percentage of old basis ► The portion of the distribution that constitutes a non-taxable return of capital will decrease a U.S. taxpayer's basis in the shares of the Issuer. The \$0.10 per share distribution on July 9, 2026 was entirely a non-taxable return of capital, and therefore a U.S. taxpayer's basis in the shares of the Issuer will be reduced by \$0.10 per share.

16 Describe the calculation of the change in basis and the data that supports the calculation, such as the market values of securities and the valuation dates ► Issuer's estimated current and accumulated earnings and profits were compared to the distribution paid on July 9, 2026. The non-taxable return of capital represents the estimated amount of the distribution paid on July 9, 2026 that is estimated to be in excess of Issuer's current and accumulated earnings and profits under IRC section 316.
