

FACT SHEET

We're Chemours, a different kind of chemistry company.

Chemours is a company driven by our purpose to create a more colorful, capable, and cleaner world through the power of chemistry.

Built upon a 200-year-old legacy and a world-class product portfolio, we bring everyday convenience to virtually everything people touch—from paints and plastics to refrigeration, air conditioning, transportation, semiconductors, consumer electronics, telecommunications, and more. We offer solutions that are better, safer, more reliable, and more sustainable, through the power of chemistry.

Resilient and Responsible Growth

The resilience, grit, and determination of Chemours was on full display in 2020, and we rose to meet each challenge the year threw at us. We stayed focused on our North Star: putting the safety of our people and their families, our customers, and the communities in which we operate first. In the end, we delivered another year of solid results, reflective of that unity of purpose.

KEY 2020 MILESTONES

Division of Fluoroproducts

With the release of our Q4 2020 earnings, we announced the division of our Fluoroproducts segment into two new reportable segments: **Thermal & Specialized Solutions (TSS)** and **Advanced Performance Materials (APM)**. This change enables an enhanced customer-centered approach, management focus and decision-making, strengthened resource allocation, and increased transparency and accountability. Each business will be empowered to maximize its full potential through continued investments in innovation and technology.

Titanium Technologies

We continued to build on the success of our Ti-Pure™ Value Stabilization Strategy with new AVA contracts and an expansion of our Ti-Pure™ Flex portal.

Chemical Solutions

We continue to demonstrate the value of our Mining Solutions to the precious metals mining industry, and our Glyclean™ Hard Surface Cleaner received U.S. Environmental Protection Agency (EPA) approval for use against SARS-CoV-2, the virus that causes COVID-19.

OUR GROWTH PILLARS

Portfolio

We remain committed to managing our businesses proactively and strategically by continuing to invest in our market-leading businesses, and by adding complementary acquisitions. Creating a highly investable business portfolio is our top priority.

Partnerships

Through the power of collaboration, we continue to find new solutions to old problems, making the world better. We will continue to work hand in hand with our partners and customers to develop new opportunities.

Performance

To put it simply, we strive to be top-tier. We will continue to set clear targets and goals for ourselves: Adjusted EPS growth, higher Adjusted EBITDA margins, and improved ROIC. We'll communicate and measure our progress against these ambitious benchmarks.

People

A thriving workforce culture is the driving force of our success. We strive to unleash the power of our talented, experienced, and passionate employees, who make us Chemours.

2020 Financials from a Leading Provider of Performance Chemicals

CHEMOURS: AN OVERVIEW

OUR CORPORATE RESPONSIBILITY COMMITMENT

In 2018, we launched our first, formal corporate responsibility program with 10 ambitious goals, aligned with the United Nations Sustainable Development Goals (UN SDGs), which we aim to accomplish by 2030:

- Reduce absolute greenhouse gas (GHG) emissions from operations by 60%.
- Achieve net-zero GHG emissions by 2050.
- Reduce air and water process emissions of fluorinated organic chemicals by 99% or more.
- Reduce landfill volume intensity by 70%.
- Improve employee, contractor, process, and distribution safety performance by at least 75%.
- Invest \$50 million in our communities to improve lives by increasing access to STEM skills, safety initiatives, and sustainable environment programs.
- Globally, fill 50% of company positions with women.
- Within the U.S., achieve 20% ethnic diversity in our workforce.
- Generate 50% or more of our revenue from solutions that contribute to the UN SDGs.
- Show a 15% improvement in the sustainability performance of 80% of suppliers by spend.

THE FIVE VALUES WE LIVE BY

We believe that the power of chemistry can have a positive impact on the world. We live that commitment through the principles that drive us:

Customer Centered

Refreshing Simplicity

Collective Entrepreneurship

Safety Obsession

Unshakable Integrity

WHAT WE DO

Catalysts for Change

Titanium Technologies

We're a market leader in titanium dioxide (TiO₂) production, a premium white pigment used to deliver whiteness, brightness, opacity, and protection in a variety of applications. Our Ti-Pure™ TiO₂ enhances architectural and industrial coatings, plastics, laminates, coated paper, and coated paperboard used for packaging.

Advanced Performance Materials

We're a market leader in the manufacturing of advanced performance materials. Our Teflon™ fluoropolymers, Krytox™ performance lubricants, Nafion™ membranes and dispersions, and Viton™ fluoroelastomers can be applied across a wide variety of applications.

Thermal & Specialized Solutions

We're a market leader in producing refrigerants, propellants, blowing agents, and specialty solvents. With a leading position in the refrigerants market since the commercial introduction of Freon™ in 1930, we are leading the way in the development of sustainable technologies like Opteon™, one of the world's lowest global warming potential (GWP) refrigerant brands.

Chemical Solutions

We're a market leader in the Americas, our Mining Solutions and Performance Chemicals & Intermediates businesses produce industrial chemicals used in various applications by our customers, from precious metals mining to disinfectants and cosmetics.
