Universal Display Corporation Sponsors and Presents at ICDT 2023

EWING, N.J.--(BUSINESS WIRE)-- [Universal Display Corporation](#) (Nasdaq: OLED), enabling energy-efficient displays and lighting with its [UniversalPHOLED®](#) technology and materials, today announced its sponsorship and presentation at the [International Conference on Display Technology \(ICDT\) 2023 \(2023国际显示技术大会\)](#). Hosted by the Society for Information Display (SID), ICDT 2023 will be held March 31-April 3 at Nanjing International Exhibition Center, China.

“We are pleased to share our cutting-edge research work at the upcoming ICDT 2023 and to continue our sponsorship of this global display symposium and exhibition in China,” said Steven V. Abramson, President and Chief Executive Officer of Universal Display Corporation. “The proliferation of OLEDs continues to broaden in the consumer electronics landscape, from AR/VR and smartwatches, to smartphones, IT, automotive and TV applications. As a key enabler in the OLED ecosystem, UDC is continuing to invent and develop next-generation phosphorescent materials and technologies to enable higher energy efficiency and performance for our customers and for consumers around the world.”

This year's ICDT Symposium will include presentations by Universal Display's team discussing UDC's energy-efficiency roadmap, including our current and next-generation PHOLED technology and materials as well as our groundbreaking Plasmonic PHOLED platform for the next frontier of energy efficiency and lifetime gains. In addition, senior representatives from UDC Beijing, Chengdu, Hong Kong, Shanghai and Shenzhen subsidiaries will attend the conference in Nanjing.

- Session 18: OLED Devices 2 (OLEDs), where Dr. Nicholas Thompson, Associate Director, PHOLED R&D, of Universal Display will virtually present his Invited Paper on “Efficiency, Stability, and Angular Dependence of Plasmonic PHOLEDs,” on Sunday, April 2nd at 3:20 PM CST.
- Session 32: OLED Displays (OLEDs), where Dr. Mike Weaver, Vice President, PHOLED R&D, of Universal Display will virtually present his Invited Paper on “Future OLED Displays,” on Monday, April 3rd at 8:30 AM CST.

About Universal Display Corporation

Universal Display Corporation (Nasdaq: OLED) is a leader in the research, development and commercialization of organic light emitting diode (OLED) technologies and materials for use in display and solid-state lighting applications. Founded in 1994 and with subsidiaries and offices around the world, the Company currently owns, exclusively licenses or has the sole right to sublicense more than 5,500 patents issued and pending worldwide. Universal Display licenses its proprietary technologies, including its breakthrough high-efficiency UniversalPHOLED® phosphorescent OLED technology that can enable the development of energy-efficient and eco-friendly displays and solid-state lighting. The Company also develops and offers high-quality, state-of-the-art UniversalPHOLED materials that are recognized as key ingredients in the fabrication of OLEDs with peak performance. In addition, Universal Display delivers innovative and customized solutions to its clients and partners through technology transfer, collaborative technology development and on-site training.
