Notes to Ameren Missouri Eligible Bond Allocation Report

Note 1: Eligible Project Criteria

Expenditures reflected in this allocation report include projects within the following Eligible Project categories, as listed in the Mortgage Bonds prospectus supplement. Specific allocations to actual eligible projects and expenditures are listed above in the Allocation Report.

- Renewable Energy
 - Expenditures for the technologies below related to (i) the development, construction, maintenance, research and development, and acquisition of renewable energy generation and infrastructure for, or (ii) purchases of renewable energy pursuant to long-term power purchase agreements or virtual power purchase agreements entered into prior to the commencement, or in the case of repowering projects, the re-commencement, of commercial operation of the renewable project for:
 - Wind,
 - Solar, or
 - Hydropower with capacity of 25 megawatts or less;
- Climate Change Adaptation
 - Investments in transmission and distribution infrastructure designed to make the system more resilient and improve customer reliability when considering climate change-related impacts such as severe weather events, including more frequent and severe storms, flooding, and heatwaves, as well as other impacts and changing weather patterns.
- Energy Efficiency
 - Expenditures and programs related to development, construction, research and development, and maintenance of infrastructure to support improvements to system efficiency and energy-efficient strategies, methods, technologies or assets.

Report of Independent Accountants

To the Management of Union Electric Company

We have examined the accompanying management assertion of Union Electric Company that an amount equal to the net proceeds of \$445.5 million from the October 7, 2024 issuance of the \$450 million 5.125% First Mortgage Bonds due March 15, 2055 was allocated to finance or refinance expenditures for certain Eligible Projects (as defined in management's assertion) during the period from October 7, 2021 to December 31, 2024 as included on the "Ameren Missouri Eligible Bond Allocation Report" as of December 31, 2024. Union Electric Company's management is responsible for its assertion. Our responsibility is to express an opinion on management's assertion based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether management's assertion is fairly stated, in all material respects. An examination involves performing procedures to obtain evidence about management's assertion. The nature, timing and extent of the procedures selected depend on our judgment, including an assessment of the risks of material misstatement of management's assertion, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

We are required to be independent and to meet our other ethical responsibilities in accordance with relevant ethical requirements related to the engagement.

In our opinion, management's assertion that an amount equal to the net proceeds of \$445.5 million from the October 7, 2024 issuance of the \$450 million 5.125% First Mortgage Bonds due March 15, 2055 was allocated to finance or refinance expenditures for certain Eligible Projects (as defined in management's assertion) during the period from October 7, 2021 to December 31, 2024 as included on the "Ameren Missouri Eligible Bond Allocation Report" as of December 31, 2024 is fairly stated, in all material respects.
