

Transforming For Our Future

First Quarter 2022 Earnings

May 6, 2022

Cautionary Statements

Forward-looking Statements

Statements in this presentation not based on historical facts are considered "forward-looking" and, accordingly, involve risks and uncertainties that could cause actual results to differ materially from those discussed. Although such forward-looking statements have been made in good faith and are based on reasonable assumptions, there is no assurance that the expected results will be achieved. These statements include (without limitation) statements as to future expectations, beliefs, plans, projections, targets, estimates, strategies, objectives, events, conditions, and financial performance. In connection with the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995, Ameren is providing this cautionary statement to identify important factors that could cause actual results to differ materially from those anticipated. In addition to factors discussed in this presentation, Ameren's Annual Report on Form 10-K for the year ended December 31, 2021, and its other reports filed with the SEC under the Securities Exchange Act of 1934 contain a list of factors and a discussion of risks that could cause actual results to differ materially from management expectations suggested in such "forward-looking" statements. All "forward-looking" statements included in this presentation are based upon information presently available, and Ameren, except to the extent required by the federal securities laws, undertakes no obligation to update or revise publicly any "forward-looking" statements to reflect new information or current events.

Earnings Guidance and Growth Expectations

In this presentation, Ameren has presented 2022 earnings guidance effective as of May 6, 2022, and multi-year growth expectations that were effective as of February 18, 2022. Earnings guidance for 2022 assumes normal temperatures after March 2022 and multi-year growth expectations assume normal temperatures. Earnings guidance for 2022 and multi-year growth expectations, along with estimates for long-term infrastructure investment opportunities, are subject to the effects of, among other things, the impact of COVID-19; changes in 30-year U.S. Treasury bond yields; regulatory, judicial and legislative actions; energy center and energy distribution operations; energy, economic, capital and credit market conditions; severe storms; unusual or otherwise unexpected gains or losses; and other risks and uncertainties outlined, or referred to, in the Forward-looking Statements section of this presentation and in Ameren's periodic reports filed with the SEC.

Business Update

Marty Lyons

President and Chief Executive Officer,
Ameren Corp.

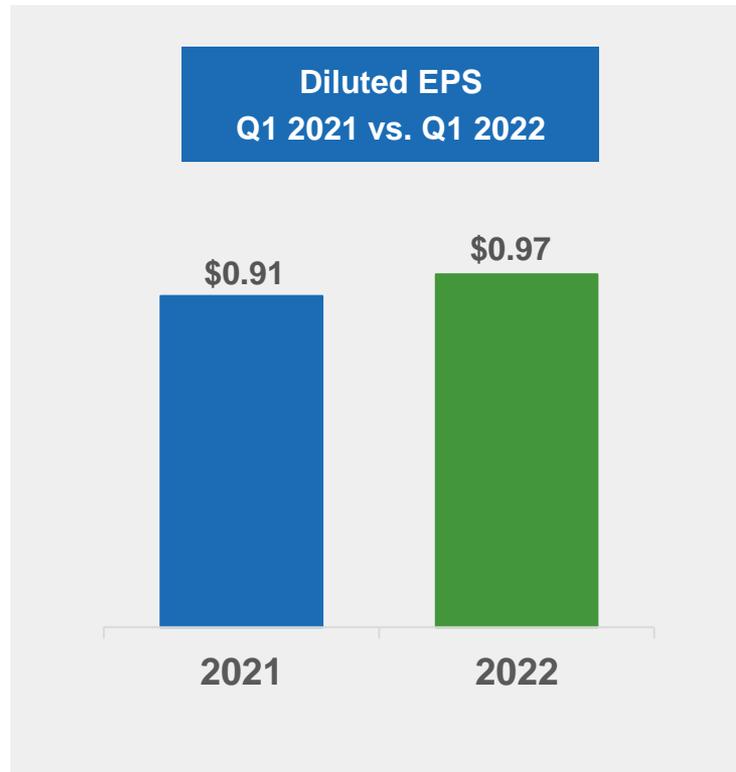

Ameren Missouri's 400 MW High
Prairie Renewable Energy Center
in service Dec. 2020

Earnings and Guidance Summary

- Remain focused on safety and executing strategic plan
- Key Q1 earnings variance drivers
 - ↑ Earnings on increased infrastructure investments across all business segments
 - ↑ Higher Ameren Missouri electric retail sales primarily driven by weather
 - ↑ Absence of FERC order on historical recovery of materials and supplies inventories
 - ↑ Higher allowed return on equity at Ameren Illinois Electric Distribution
 - ↓ Higher Ameren Missouri and Ameren Illinois Natural Gas other operations and maintenance expenses driven, in part, by unfavorable market returns on COLI investments
- Affirm expected 2022 EPS range of \$3.95 to \$4.15

Our Strategic Plan

- Investing in and operating our utilities in a manner consistent with existing regulatory frameworks
- Enhancing regulatory frameworks and advocating for responsible energy and economic policies
- Creating and capitalizing on opportunities for investment for the benefit of our customers, shareholders and environment

Executing Our Strategy

Investing in and operating our utilities in a manner consistent with existing regulatory frameworks

- **Significant infrastructure investments in each business segment are delivering value**
- **Regulatory rate review filings**
 - Ameren Missouri new electric and natural gas service rates effective Feb. 28
 - Ameren Illinois performance-based rate update request for \$83 million increase filed Apr. 14
- **Continuous improvement and disciplined cost management to keep rates affordable**

Illinois Energy Legislation

Enhancing regulatory frameworks and advocating for responsible energy and economic policies

Ameren Illinois Electric Distribution

- **Illinois Energy Transition Legislation (SB 2408) enacted in 2021**
 - Allows for electric utility to opt-in to four-year plan (Multi-Year Rate Plan) for rates effective beginning in 2024
 - Working with key stakeholders through various workshops to establish specific procedures, including performance metrics
 - Expect performance metrics to be approved by the ICC by late September
 - Allows for utility-owned solar with optional battery storage pilot projects in two communities, Peoria and East St. Louis, at a cost not to exceed \$20 million each
 - Subject to finalizing key aspects of this ratemaking framework, anticipate filing Multi-Year Rate Plan by Jan. 20, 2023

Missouri Energy Legislation

Enhancing regulatory frameworks and advocating for responsible energy and economic policies

Ameren Missouri

- **On May 5, 2022, SB 745 passed General Assembly, will be sent to Governor for signature**
 - Bill enhances current Smart Energy Plan legislation
 - Modifies rate cap from current all-in 2.85% CAGR cap on customer rates to a 2.5% average annual cap on rate impacts of PISA deferrals
 - Expands and extends economic development incentives
 - Provides for a property tax tracker
 - Extends the sunset date on current Smart Energy Plan legislation through Dec. 31, 2028 with extension through Dec. 31, 2033 if utility requests and MoPSC approves

Rush Island Energy Center

Ameren Missouri

- **In Aug. 2021, U.S. Court of Appeals affirmed the U.S. District Court's Sep. 2019 order to install a flue gas desulfurization system at the Rush Island Energy Center**
 - Reversed the District Court's order to install a dry sorbent injection system at the Labadie Energy Center
 - In Nov. 2021 Court of Appeals issued order denying Ameren Missouri's rehearing request
- **In Dec. 2021, Ameren Missouri announced its intention to retire the energy center in lieu of installing a scrubber; requested a modification from the District Court to facilitate the accelerated retirement and address any reliability issues**
- **In Jan. 2022, MISO issued preliminary assessment of reliability impacts due to the accelerated retirement**
 - Identified transmission upgrades and additional voltage support needed on the transmission system to ensure reliability
 - Preliminary assessment presented to District Court in Feb. 2022
- **On Feb. 28, 2022, filed MISO Attachment Y notice; expect MISO's draft report in May**
 - District Court is under no deadline to issue final order
- **MoPSC Staff reviewing Ameren Missouri's plans to retire Rush Island; under no deadline to issue a final report**
- **Expect to file an update to the 2020 Integrated Resource Plan with MoPSC in June 2022**

MISO Long-Range Transmission Planning Roadmap

Creating and capitalizing on opportunities for investment for the benefit of our customers, shareholders and the environment

Ameren Transmission

- In Apr. 2021, MISO issued report outlining preliminary long-range transmission planning roadmap through 2039
 - Generation resources in MISO states are rapidly evolving
 - Significant additions of renewable generation are expected
 - Significant transmission investments needed to meet additional reliability needs and enable clean energy transition
- Projected transmission needs reflected in Future 1 serve as starting point for potential needs in Futures 2 and 3
 - Under Future 1, MISO estimates ~\$30 billion of transmission investment is needed; under Future 3 ~\$100 billion is needed
- Agreement reached on cost allocation to sub-region benefiting from projects; pending FERC approval
- MISO Tranche 1 projects identified
 - Projects totaling ~\$10 billion
 - Includes certain projects crossing Missouri and Illinois
- Expect MISO approval of Tranche 1 projects in late July 2022

Source: MISO

Our Sustainability Value Proposition

ENVIRONMENTAL STEWARDSHIP

- **Accelerating transition to a cleaner and more diverse portfolio¹**
 - Target carbon reductions from 2005 levels: 50% by 2030; 85% by 2040; net-zero by 2050²
 - Target additional renewable resources: 2,400 MWs by 2030 and total of 4,700 MWs by 2040
 - Advance coal-fired energy center retirements; extend life of carbon-free nuclear energy center
 - Preferred plan consistent with objective of the Paris Agreement to limit global temperature rise to 1.5 degrees Celsius
- **Significant transmission investment supporting cleaner energy**
- **No cast or wrought iron pipes in natural gas system**

¹ Based on Ameren Missouri 2020 IRP. Expect to file an update to the IRP in June 2022.

² Includes Scope 1 emissions as described in Ameren's 2021 Climate Report.

SOCIAL IMPACT

- **Delivered value to customers in 2021 while focused on safety**
 - Improved reliability: 12% better since 2013
 - Affordable rates: ~25% below Midwest average
 - Customer satisfaction 23% better since 2013; Ameren Illinois ranked #1 in residential customer satisfaction among peers in the Midwest for 2021
- **Socially responsible and economically impactful**
 - ~\$140M to support eligible customers and charities from 2019-2021
- **Supporting core value of DE&I**
 - Ranked #1 by DiversityInc on Top Utilities list in 2022; in top 5 on utilities list since 2009; a top company for ESG
 - ~\$900M in diverse supplier spend in 2021; 11% increase from 2020
 - \$10M committed to non-profits focused on DE&I 2021-2025

GOVERNANCE

- **Diverse BOD focused on strong oversight**
 - 57% women or racially/ethnically diverse; among the most diverse in the industry; average tenure of ~6 years
- **BOD and committee oversight aligned with ESG matters**
- **Mgmt-level Sustainability Executive Steering Committee**
- **Named Chief Sustainability and Diversity Officer and Chief Renewable Development Officer**
- **Executive compensation supports sustainable, LT performance**
 - 10% long-term incentive for clean energy transition
 - 5% short-term incentive for supplier and workforce diversity
- **Among top ranked companies in CPA-Zicklin Index for Corp. Political Disclosure and Accountability**

SUSTAINABLE GROWTH

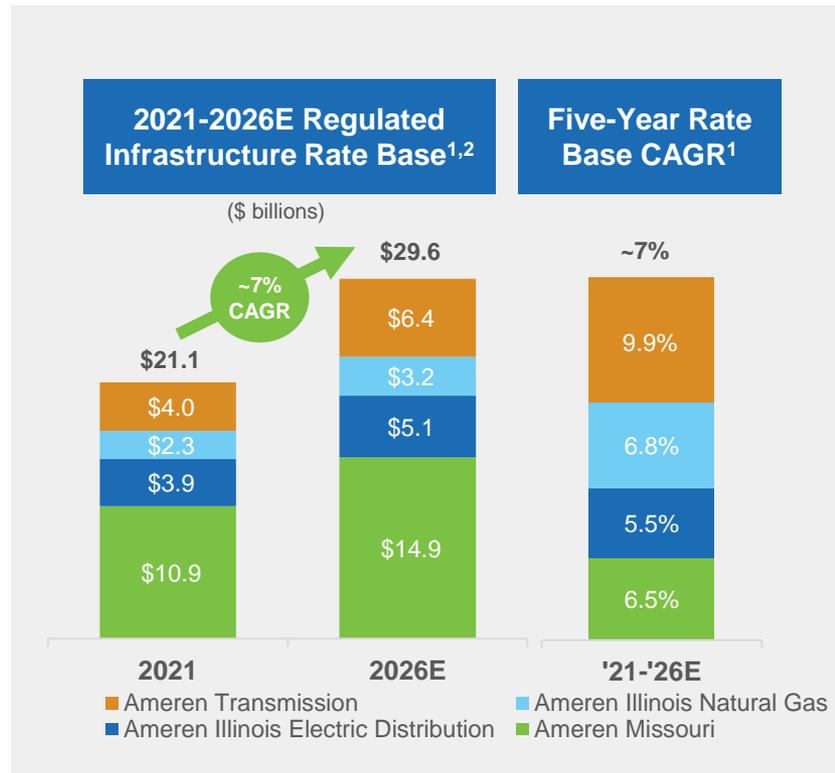

- **Expect 6% to 8% EPS CAGR 2022-2026¹**
- **Expect ~7% rate base CAGR 2021-2026¹**
- **Constructive frameworks for investment in all jurisdictions**
- **Strong long-term infrastructure investment pipeline of \$45+ billion 2022-2031¹**
- **Expect future dividend growth to be in line with long-term EPS growth expectations**

¹ Issued and effective as of Feb. 18, 2022 Earnings Conference Call.

Long-term Total Return Outlook

- **Remain on track to deliver strong long-term earnings growth**
 - Expect 6% to 8% EPS CAGR from 2022-2026¹
 - Using 2022 EPS guidance range midpoint of \$4.05 as the base
 - Expect ~7% rate base CAGR from 2021-2026^{1,2}
 - Infrastructure investment in rate base growth continues to reflect strategic allocation of capital
 - Renewable generation and regionally beneficial transmission represent additional investment opportunities
- **Strong long-term infrastructure pipeline**
 - \$45+ billion of infrastructure pipeline 2022-2031¹
- **Continue to deliver strong dividend**
 - Dividend increased ~7% in Feb. 2022; increased 9th consecutive year
 - Expect future dividend growth to be in line with long-term EPS growth expectations
 - Expect payout ratio to range between 55% and 70% of annual EPS
- **Attractive total return potential**
 - Believe execution of our strategy will deliver superior long-term value to customers, shareholders, and the environment.

¹ Issued and effective as of Feb. 18, 2022 Earnings Conference Call. ² Reflects year-end rate base except for Ameren Transmission, which is average rate base.

Financial Update

Michael Moehn

Executive Vice President and
Chief Financial Officer, Ameren Corp.

2022 First Quarter Earnings Analysis – Key Drivers

↑ Ameren Missouri earnings

- Higher electric retail sales: ~+\$0.03
 - Weather vs. 2021: ~+\$0.02; vs. normal ~+\$0.02
 - WN sales vs. 2021 (excl. MEEIA): Res.: ~(0.5)%, Com.: ~+1.5%, Ind.: ~+0.5%, Total: ~+0.5%
- Increased investments in infrastructure and wind generation eligible for PISA and RESRAM: +\$0.03
- Higher other operations and maintenance expenses: \$(0.05)
 - Cash surrender value of COLI: \$(0.02)

↑ Ameren Transmission earnings

- Absence of FERC order addressing the historical recovery of materials and supplies inventories: +\$0.03
- Increased investments in infrastructure

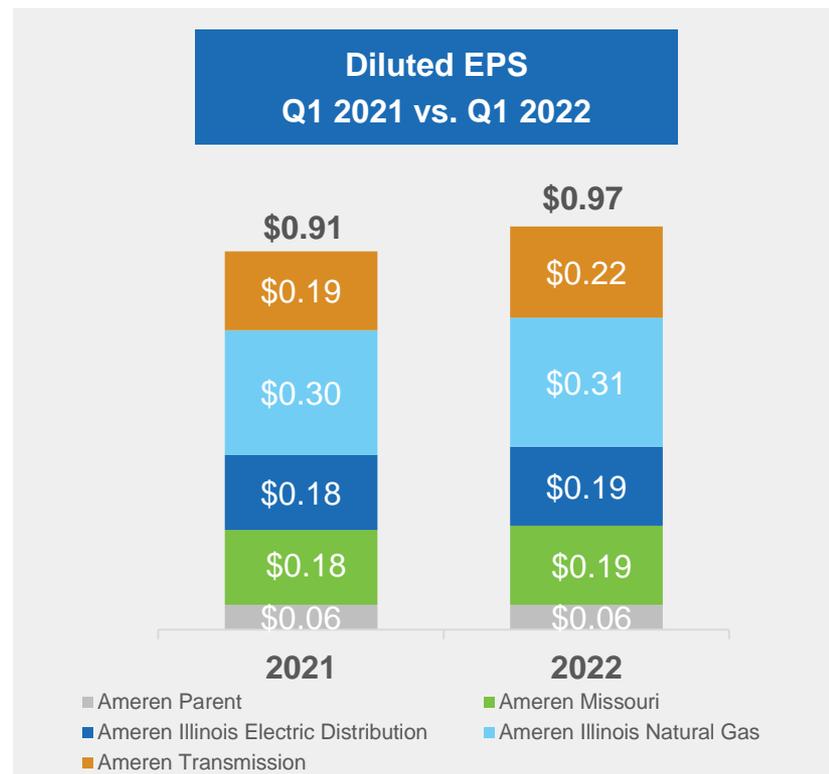

↑ Ameren Illinois Natural Gas earnings

- Increased investments in infrastructure and higher delivery service rates: +\$0.03
- Higher other operations and maintenance expenses: \$(0.02)

↑ Ameren Illinois Electric Distribution earnings

- Increased investments in infrastructure; higher allowed ROE

↔ Parent Company and Other results

2022 EPS Guidance and Select Balance of the Year Considerations

- **Affirm 2022 diluted EPS guidance range of \$3.95 to \$4.15**
- **Select considerations for Q2-Q4 2022 EPS compared to Q2-Q4 2021 EPS**
 - Ameren Missouri return to normal weather in 2022: Q2 ~\$(0.01); Q3 ~\$(0.02); Q4 ~+\$0.02
 - Ameren Missouri higher energy efficiency performance incentives: Q3 ~+\$0.01; Q4 ~+\$0.03
 - Ameren Missouri expects to realize earnings related to new electric service rates that were effective Feb. 28 primarily in Q3 due to seasonal rates and higher demand during the summer: Q3 ~+0.09
 - Ameren Illinois Electric Distribution estimated 2022 allowed ROE of 8.5%, which reflects a projected average 30-year Treasury rate of ~2.7%
 - Expect to issue 3.4 million common shares by year-end 2022 upon settlement of forward sale agreements

Select Regulatory Matters – Ameren Illinois

Electric Distribution

- In Apr. 2022, requested \$83 million annual performance-based rate update from ICC; ~3.5% rate increase request¹
 - Expect ICC decision by Dec. 2022, with new rates effective in Jan. 2023
 - Major investments included in the request
 - Installation of outage avoidance/detection technology
 - Integration of storm-hardening equipment and resiliency updates to the electric grid (stronger wires and poles and new substations)
 - Adoption of clean energy technologies, including transitioning portions of the Ameren Illinois fleet to electric vehicles to reduce the company's carbon footprint
 - Implementing new technology to continue customer-centric focus, including optimizing interactions with customers through new platforms
 - Each year's electric distribution earnings are a function of the rate formula and are not directly determined by that year's rate update filing or the current rates charged to customers

¹ For a typical non-electric heat residential customer using 10,000 kWh per year, all else equal. Includes June 2021-May 2022 plan year power supply prices.

Financing

Debt Financing

- On Apr. 1, 2022, Ameren Missouri issued \$525 million of 3.90% green first mortgage bonds due 2052
 - Proceeds to fund capital expenditures and refinance short-term debt; intend to allocate an amount equal to proceeds to sustainable projects meeting certain eligibility criteria

Equity Financing

- On May 12, 2021, established a \$750 million at-the-market (ATM) equity program to support expected equity needs through 2023
 - Expected equity issuances in 2022 totaling ~\$300 million¹
 - As of Apr. 1, entered into forward sale agreements expected to fulfill 2022 equity needs; expect to issue 3.4 million common shares by year-end 2022 upon settlement

Pension and Postretirement Benefit Obligations

- As of Dec 31, 2021, Ameren's pension and postretirement benefit obligations were 105% and 138% funded, respectively

¹ Issued and effective as of Feb. 18, 2022 Earnings Conference Call.

Ameren Credit Ratings and External Debt Balances²

As of Mar. 31, 2022	\$ in millions	Moody's	S&P
Ameren Corporation (Issuer: Baa1/BBB+)			
• Commercial paper	\$466	P-2	A-2
• Senior unsecured long-term debt	\$2,550	Baa1	BBB
Ameren Missouri (Issuer: Baa1/BBB+)			
• Commercial paper	\$528	P-2	A-2
• Senior secured long-term debt ³	\$5,421	A2	A
Ameren Illinois (Issuer: A3/BBB+)			
• Commercial paper	\$107	P-2	A-2
• Senior secured long-term debt	\$4,438	A1	A
ATXI (Issuer: A2/--)			
• Senior unsecured long-term debt	\$525	A2	—

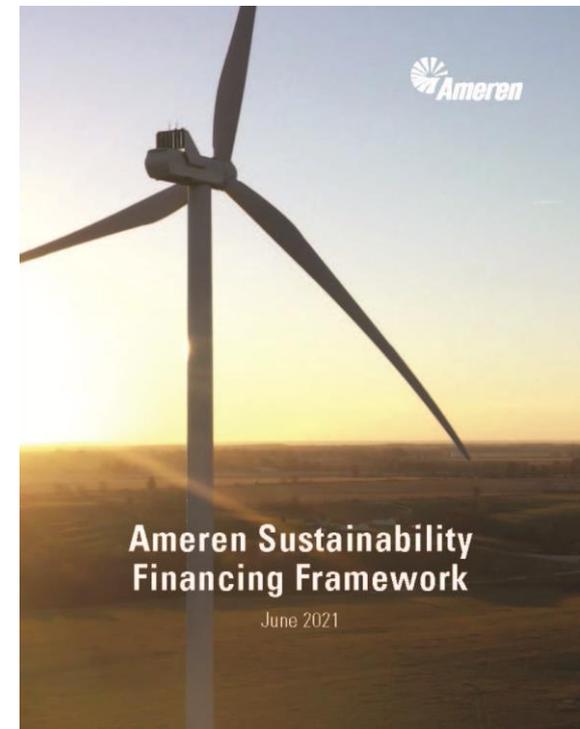

² Debt balances exclude unamortized debt expense, unamortized discount / premium, and financing obligations related to certain energy centers. A credit rating is not a recommendation to buy, sell, or hold any security and may be suspended, revised, or withdrawn at any time.

³ Does not include Ameren Missouri's green first mortgage bonds of \$525 million issued on April 1, 2022.

Sustainability Financing Framework and Green Bond Issuances

- **On June 2, 2021, Ameren published a Sustainability Financing Framework; one of the first utilities in the nation to do so**
 - Framework supports Ameren’s sustainability goals and target of net-zero carbon emissions by 2050¹, as well as social initiatives
 - Allows Ameren and its subsidiaries to elect to finance projects with environmental or social benefits through green, social and sustainability bonds or green loans
- **Financing proceeds will be allocated to eligible environmental and social projects**
 - Environmental, or green, projects include renewable energy, climate change adaptation, energy efficiency, clean transportation, green buildings and green innovation
 - Social projects include socioeconomic advancement and empowerment, employment creation and access to essential services

Green First Mortgage Bonds	\$ in millions	Rate	Due
Ameren Missouri			
• Issued on October 9, 2020	\$550	2.625%	2051
• Issued on June 22, 2021	\$525	2.15%	2032
• Issued on April 1, 2022	\$525	3.90%	2052
Ameren Illinois			
• Issued on June 29, 2021	\$350	2.90%	2051

¹ Includes Scope 1 emissions as described in Ameren's 2021 Climate Report, "Committed to Clean, Transformational Changes to Net-Zero".

Summary

Expect to deliver strong earnings growth in 2022 with guidance in a range of \$3.95 to \$4.15 per diluted share

Successfully executing our strategy; well-positioned for future growth

- Focused on delivering a cleaner and sustainable energy future in a responsible manner

Strong long-term growth outlook

- Expect 6% to 8% compound annual EPS growth 2022-2026^{1,2}
- Expect ~7% compound annual rate base growth 2021 through 2026¹
- Strong long-term infrastructure pipeline of \$45+ billion 2022-2031¹

Attractive dividend

- Annualized equivalent dividend rate of \$2.36 per share provides yield of 2.5%³
- Dividend increased ~7% in Feb. 2022; increased 9th consecutive year
- Expect future dividend growth to be in line with long-term EPS growth expectations
- Expect payout ratio to range between 55% and 70% of annual EPS

Attractive total shareholder return potential

¹ Effective as of Feb. 18, 2022 Earnings Conference Call. ² Using 2022 EPS guidance range midpoint of \$4.05 as the base. ³ Based on May 4, 2022 closing share price.

A photograph of work gloves and tools. In the foreground, a pair of worn, brown leather work gloves lies on a dark, speckled surface. Behind them, a light-colored canvas tool bag is open, revealing various tools. A white rectangular box with a thin black border is superimposed over the center of the image, containing the word "APPENDIX" in white, bold, uppercase letters. The background is blurred, showing what appears to be a work site with a wooden beam and a metal structure.

APPENDIX

Four Constructive Regulatory Frameworks

Ameren Transmission

FERC-regulated: Formula ratemaking

- Allowed ROE is 10.52%, includes MISO participation adder of 50 basis points; ~56% average equity ratio
- Rates reset each Jan. 1 based on forward-looking calculation with annual reconciliation

Ameren Illinois Natural Gas

ICC-regulated: Future test year ratemaking

- Allowed ROE is 9.67%; 52% equity ratio
- Infrastructure (QIP) rider for qualifying capital investments made between rate reviews; QIP rider expires Dec. 31, 2023
- Volume balancing adjustment (revenue decoupling) for residential and small non-residential customers

Ameren Illinois Electric Distribution

ICC-regulated: Performance-based ratemaking

- IETL allows for ability to opt-in to four-year rate plan in 2024; current framework continues through 2023¹
- Allowed ROE is 580 basis points above annual average yield of 30-year U.S. Treasury; 50% equity ratio; ICC will determine allowed ROE for 2024 and beyond
- Provides recovery of prudently incurred actual costs; based on year-end rate base
- Revenue decoupling; constructive energy efficiency framework

Ameren Missouri

MoPSC-regulated: Historical test year ratemaking with constructive trackers and riders

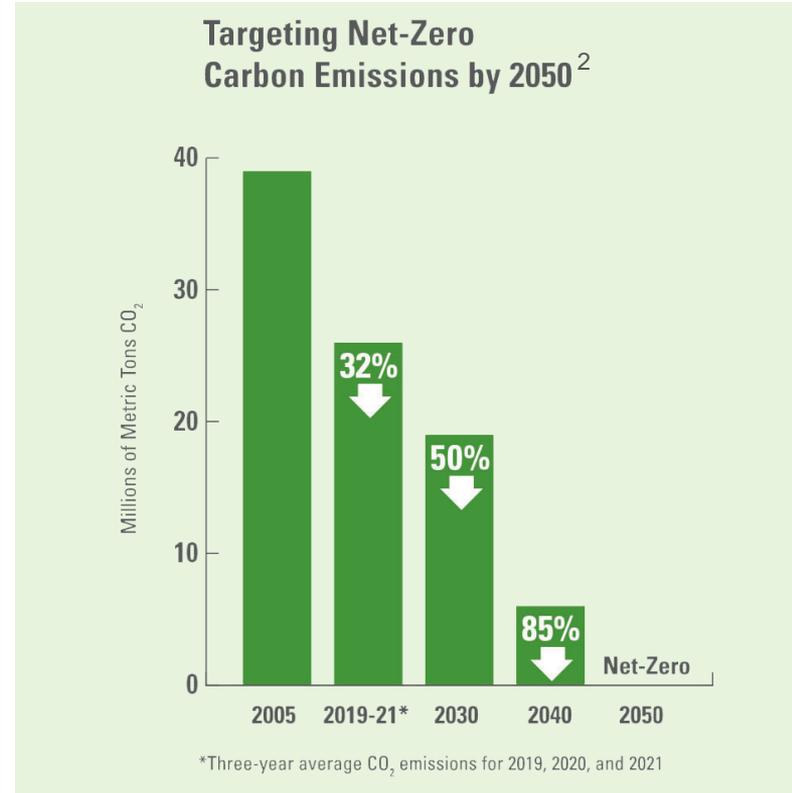

- Settled 2021 electric rate review; allowed ROE not specified; 51.97% common equity ratio²
- Infrastructure tracker for qualifying plant placed in-service between rate reviews (PISA) effective through Dec. 2023; Ameren Missouri must request and receive MoPSC approval for extension through Dec. 2028
- Fuel adjustment clause rider; pension/OPEB cost tracker
- Constructive energy efficiency framework under MEEIA
- Settled 2021 natural gas rate review; allowed ROE and common equity ratio not specified

¹ See pages 7 and 31 for details of IETL enacted in Sep. 2021. ² Applies to PISA and RESRAM. PISA return recognized in earnings at long-term debt rate of ~4%.

Our Focus on Delivering a Cleaner Energy Future Responsibly¹

While providing safe, reliable and affordable energy to customers

- **Climate risk management and mitigation**
 - Targeting significant reductions in greenhouse gases
 - Implementing robust customer energy efficiency programs
 - Investing to modernize the energy grid and harden system
 - Investing in transmission to support clean energy transition
 - Investing in renewable generation and advancing clean electrification, including electric vehicles
 - Investing in research and development for clean energy technology
- **Emissions reductions**
 - Targeting net-zero carbon emissions by 2050²
 - Well below federal and state limits for NO_x, SO₂, and Hg
 - 0% cast and wrought iron pipeline on natural gas delivery system to reduce risk of methane leaks
- **Resource management**
 - Significant utilization of coal combustion residuals from landfill through recycling in cement and concrete production
 - Targeting 95% reduction in water use by 2050 at thermal energy centers based on a 2005 baseline
 - More sustainable office operations: fleet, workplace and waste

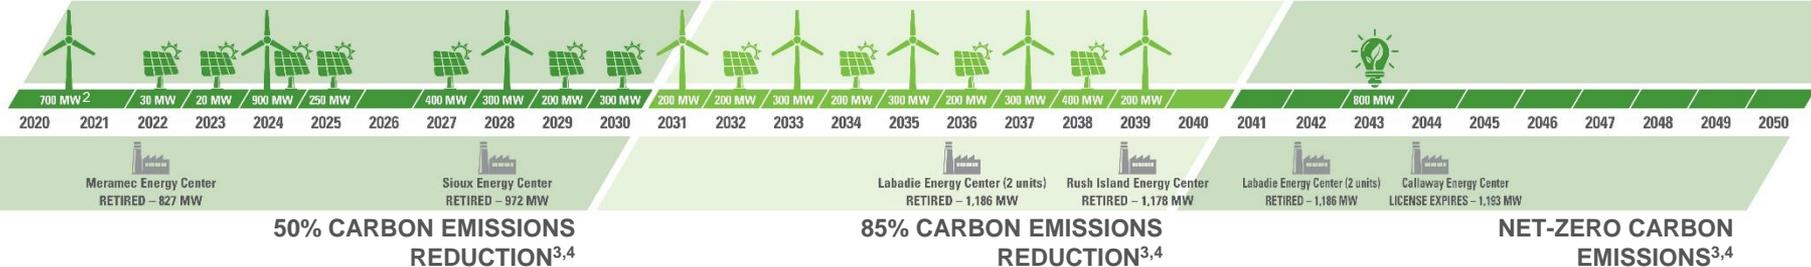

¹ Based on Sep. 2020 IRP. Ameren Missouri expects to file an update to the IRP in June 2022.

² Includes Scope 1 emissions as described in Ameren's 2021 Climate Report, "Committed to Clean, Transformational Changes to Net-Zero".

Ameren Missouri Generation Transformation¹

Transition to a cleaner and more diverse portfolio in a responsible fashion

- Ameren Missouri filed its preferred Integrated Resource Plan with the MoPSC in Sep. 2020**
 - Targets substantial reductions in carbon emissions^{3,4} – 50% by 2030, 85% by 2040 and net-zero by 2050
 - Advances retirement of coal-fired energy centers
 - Sioux Energy Center from 2033 to 2028 and Rush Island Energy Center from 2045 to 2039
 - All coal-fired energy centers retired by 2042
 - Adds 2,400 MWs of renewable generation by 2030, an investment opportunity of ~\$3.3 billion, and a total of 4,700 MWs by 2040, an investment opportunity of ~\$7 billion
 - Expect to seek an extension of operating license of our carbon-free Callaway Nuclear Energy Center beyond 2044
 - Continues robust, cost-effective customer energy efficiency and demand response programs
 - Allows flexibility needed to take advantage of changes in technology, such as battery storage
 - Expect to create thousands of new construction jobs, benefitting local economy, including diverse suppliers

¹ Ameren Missouri expects to file an update to the 2020 Integrated Resource Plan in June 2022 to reflect, among other things, the accelerated retirement of the Rush Island Energy Center.

² 400 MW and 300 MW facilities in-service in Dec. 2020 and June 2021, respectively. ³ Reductions as of end of period indicated and based off 2005 levels. Wind and solar additions, energy center retirements by end of indicated year. Assumes unspecified carbon-free generation in 2043. ⁴ Includes Scope 1 emissions as described in Ameren's 2021 Climate Report, "Committed to Clean, Transformational Changes to Net-Zero".

Building a Brighter and Cleaner Energy Future

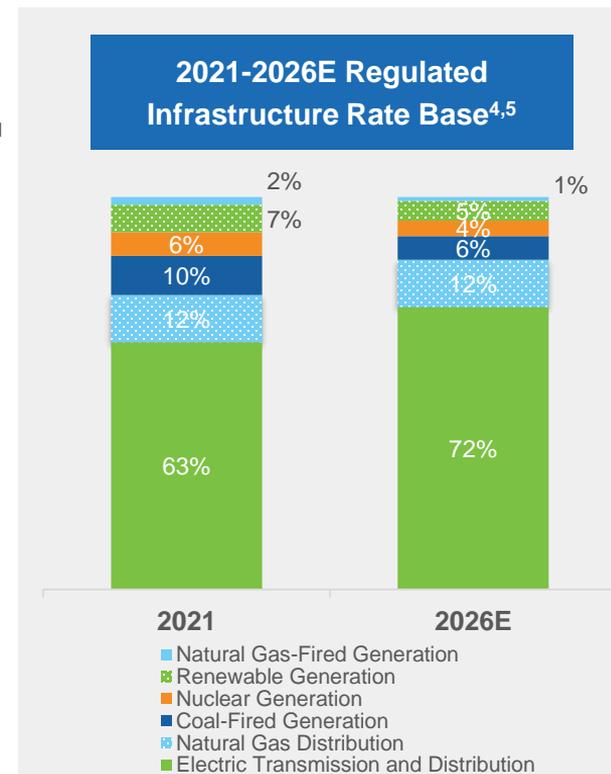

Innovative Programs to Meet Customer Needs and Rising Expectations

Investing in the Energy Grid

- **Investing to modernize energy grid, making it cleaner, safer, more reliable, resilient and secure**
 - Expect greater transmission investments to support additional renewable generation
 - Provide customers with new and improved tools to manage energy usage
- **Transitioning to cleaner energy portfolio - target net-zero carbon emissions by 2050¹**
 - Expect to add 2,400 MWs of renewable generation by 2030; total of 4,700 MWs by 2040²
 - Expected retirement of coal-fired energy centers²
 - Meramec in 2022; Sioux in 2028; Labadie: 2 units in 2036, 2 units in 2042; Rush Island in 2039
 - As of Dec. 31, 2021, coal-fired energy center rate base was ~\$2.1 billion
 - \$0.9, \$0.7, \$0.4 and \$0.1 billion for Labadie, Sioux, Rush Island and Meramec energy centers, respectively
- **By 2026, rate base expected to be 84% electric and natural gas transmission and distribution, 5% renewable generation and 4% nuclear generation²**
- **Ameren’s estimated coal-related revenues in 2021 were 15%³ and coal-fired generation rate base expected to be 6% by 2026**
 - Coal-related capital expenditures 2022-2026 are expected to be ~\$0.7 billion, or ~4% of Ameren’s five-year plan

¹ Includes Scope 1 emissions as described in Ameren's 2021 Climate Report, "Committed to Clean, Transformational Changes to Net-Zero". ² Based on Sep. 2020 Integrated Resource Plan. Ameren Missouri expects to file an update to the Integrated Resource Plan in June 2022 to reflect, among other things, an accelerated retirement of the Rush Island Energy Center. ³ See page 33 for additional details and calculations. ⁴ Renewable generation and regionally beneficial transmission represent additional investment opportunities. ⁵ Effective as of Feb. 18, 2022 Earnings Conference Call.

Robust Investment Opportunities Across All Businesses Over Next Decade¹

Modernizing the grid and investing in cleaner generation

\$45B+

Strong Pipeline of Regulated
Infrastructure Investments
2022-2031

Additional Investment Opportunities

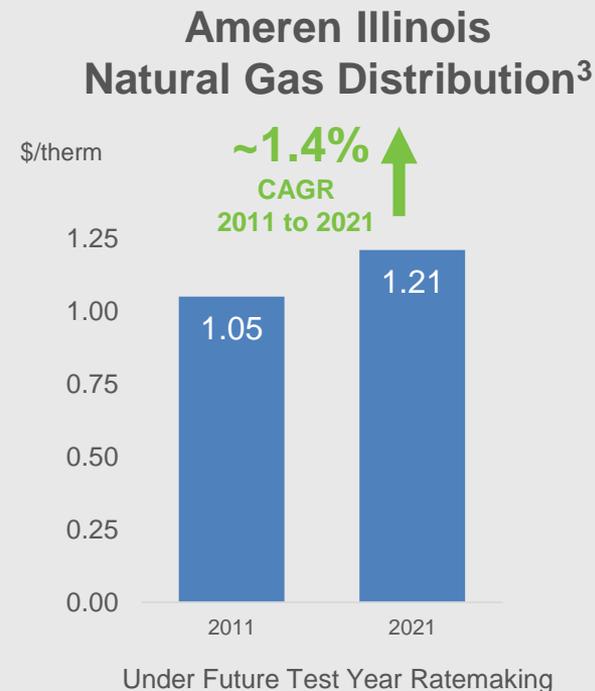

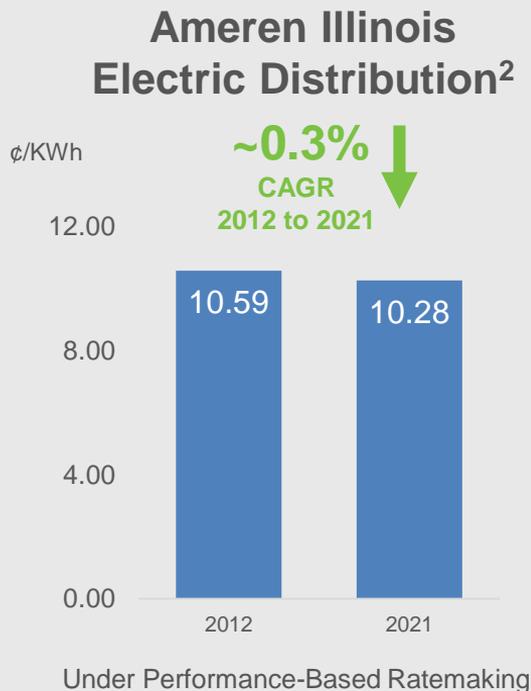

- Modernize electric and gas transmission and distribution grid
- Operate generation facilities safely and reliably
- Comply with regulatory requirements
- Renewable investment opportunities at Ameren Missouri
- Regionally beneficial transmission projects to support clean energy transition
- Electrification of transportation investment opportunities
- Assumes constructive energy policies and ratemaking

¹ Effective as of Feb. 18, 2022 Earnings Conference Call.

Focused on Delivering Affordable Service to Our Customers

Residential rates since key legislative or regulatory enhancements

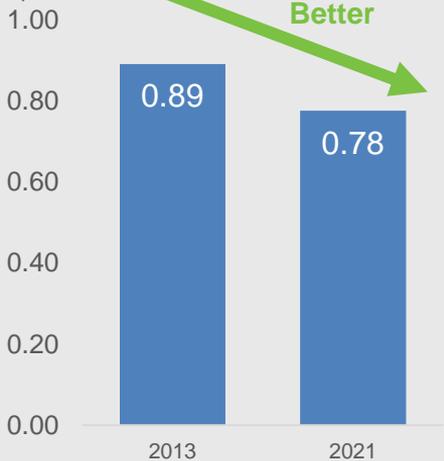

¹ Average annual residential rates, excluding MEEIA rider, effective Apr. 1, 2017 and Dec. 31, 2021. 2.85% CAGR rate cap utilizes a total rate for all classes as of Apr. 1, 2017, excluding the MEEIA rider, less ~3%, representing half the income tax rate reduction in 2018. ² Average all-in residential rates for 12 months ended May 31. ³ Average all-in residential rates for 12 months ended Dec. 31.

Delivering Strong Value to our Customers

Achieving top quartile performance in reliability, affordability and customer satisfaction

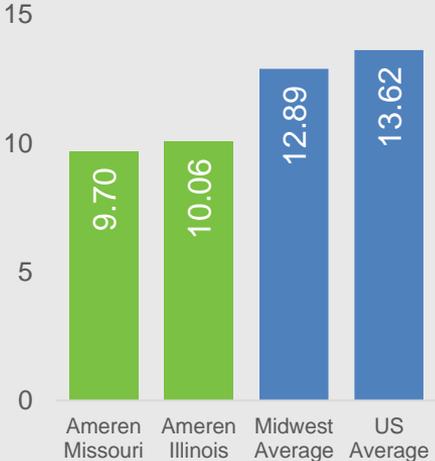

Improved Reliability¹

Outage Frequency (per customer per year)

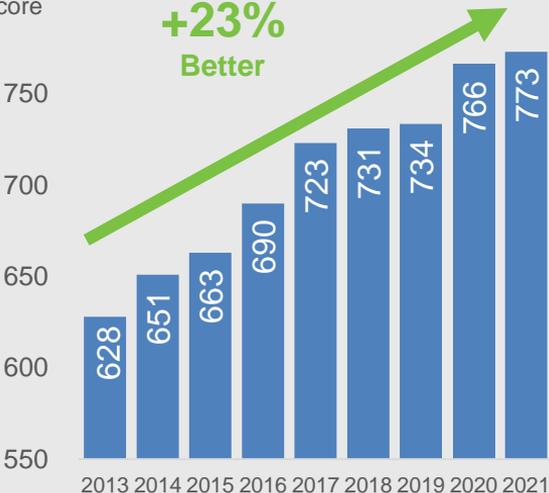

Affordable Rates²

¢/KWh

Increased Customer Satisfaction³

JD Power Score

¹ As measured by the System Average Interruption Frequency Index (SAIFI). Represents the average of Ameren Missouri and Ameren Illinois. ² Edison Electric Institute, "Typical Bills and Average Rates Report" for the 12 months ended June 30, 2021. ³ As measured by the J.D. Power Residential Electric Customer Satisfaction Index. Scores represent the average of the Ameren Missouri and Ameren Illinois scores at year-end within the Midwest Large Segment.

FERC Regulatory Matters

Enhancing regulatory frameworks and advocating for responsible energy and economic policies

Ameren Transmission

- **In Apr. 2021, FERC issued supplemental NOPR that would remove incentive adder for utilities that have been members of an RTO for three years or more**
 - Current allowed base ROE of 10.02% (10.52% including 50 bps RTO participation adder)
 - 50 bps change in ROE impacts EPS by ~\$0.05 annually
 - Ameren filed comments opposing proposed removal of RTO incentive adder
 - Unable to predict the outcome or timing of FERC decision
- **In July 2021, FERC issued Advance NOPR on range of topics including future regional transmission planning and cost allocation processes**
 - Ameren filed comments supporting current planning and cost allocation processes
 - In April 2022, FERC issued proposed rules:
 - Long-term transmission planning to meet needs driven by changes in resource mix and demand
 - Seek agreement regarding cost allocation of projects
 - Incumbent utilities permitted right of first refusal to build transmission facilities selected in a regional plan for purposes of cost allocation, conditioned on the incumbent utility transmission provider establishing unaffiliated joint ownership of projects
 - Unable to predict the outcome or timing of FERC decision

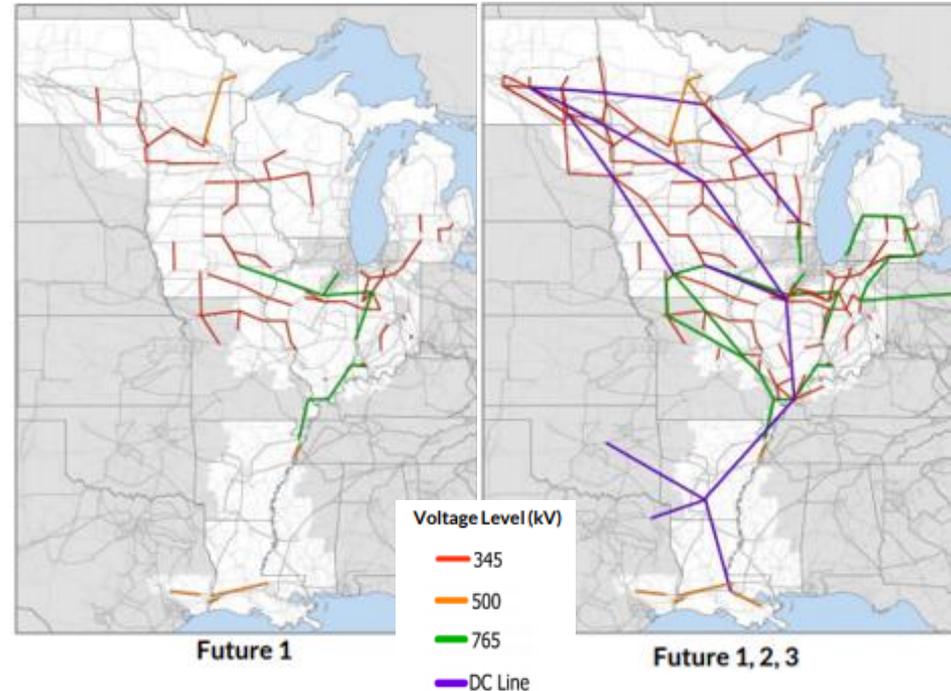

MISO Long-Range Transmission Planning Roadmap

Creating and capitalizing on opportunities for investment for the benefit of our customers, shareholders and the environment

Ameren Transmission

- In Apr. 2021, MISO issued report outlining preliminary long-range transmission planning roadmap through 2039
 - Generation resources in MISO states are rapidly evolving
 - Significant additions of renewable generation are expected
 - Significant transmission investments needed to meet additional reliability needs and enable clean energy transition
- **Projected transmission needs reflected in Future 1 roadmap serve as starting point for potential needs in Futures 2 and 3**
 - Future 1 in line with 100% of then-current utility IRPs and 85% of utility announcements, state mandates or goals
 - Under Future 1, MISO estimates ~\$30 billion of transmission investment is needed; under Future 3 ~\$100 billion is needed
 - Indicative maps represent potential transmission needs vs. final proposals
 - Process to assess specific transmission projects has commenced
- **Agreement reached on cost allocation to sub-region benefiting from projects; pending FERC approval**
- **Expect MISO approval of certain projects in Future 1 roadmap in late July 2022**
