Cautionary Statements

Forward-looking Statements

Statements in this presentation not based on historical facts are considered "forward-looking" and, accordingly, involve risks and uncertainties that could cause actual results to differ materially from those discussed. Although such forward-looking statements have been made in good faith and are based on reasonable assumptions, there is no assurance that the expected results will be achieved. These statements include (without limitation) statements as to future expectations, beliefs, plans, projections, targets, estimates, strategies, objectives, events, conditions, and financial performance. In connection with the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995, Ameren is providing this cautionary statement to identify important factors that could cause actual results to differ materially from those anticipated. In addition to factors discussed in this presentation, Ameren's press release issued August 2, 2023, with respect to its second quarter 2023 earnings, Ameren's Annual Report on Form 10-K for the year ended December 31, 2022, and its other reports filed with the SEC under the Securities Exchange Act of 1934 contain a list of factors and a discussion of risks that could cause actual results to differ materially from management expectations suggested in such "forward-looking" statements. All "forward-looking" statements included in this presentation are based upon information presently available, and Ameren, except to the extent required by the federal securities laws, undertakes no obligation to update or revise publicly any "forward-looking" statements to reflect new information or current events.

Earnings Guidance and Growth Expectations

In this presentation, Ameren has presented 2023 earnings guidance effective as of August 3, 2023, multi-year earnings per share growth expectations that were effective as of February 16, 2023, and multi-year rate base growth expectations that were effective as of May 5, 2023. Earnings guidance for 2023 assumes normal temperatures after June 2023 and multi-year growth expectations assume normal temperatures. Earnings guidance for 2023 and multi-year growth expectations, along with estimates for long-term infrastructure investment opportunities, are subject to the effects of, among other things, changes in 30-year U.S. Treasury bond yields; regulatory, judicial and legislative actions; energy center and energy distribution operations; energy, economic, capital and credit market conditions; severe storms; unusual or otherwise unexpected gains or losses; and other risks and uncertainties outlined, or referred to, in the Forward-looking Statements section of this presentation and in Ameren’s periodic reports filed with the SEC.
Strategic and Business Update

Marty Lyons
President and Chief Executive Officer, Ameren Corp.

Ameren Missouri’s Montgomery Community Solar Energy Center in service March 2022
Our Strategic Plan

INVEST

Invest in rate regulated energy infrastructure

ENHANCE

Enhance regulatory frameworks and advocate for responsible policies

OPTIMIZE

Optimize operating performance

To capitalize on opportunities to benefit our customers, shareholders and the environment
Our Sustainability Value Proposition

### ENVIRONMENTAL STEWARDSHIP

- **Accelerating transition to a cleaner and more diverse portfolio**
  - Target carbon reductions from 2005 levels: 60% by 2030; 85% by 2040; net zero by 2045<sup>1</sup>
  - Target additional renewable resources: 2,800 MW by 2030 and total of 4,700 MWs by 2040
  - Advance coal-fired energy center retirements; extend life of carbon-free nuclear energy center
  - Preferred plan consistent with objective of the Paris Agreement to limit global temperature rise to 1.5 degrees Celsius

- **Significant transmission investment supporting cleaner energy**
- **No cast or wrought iron pipes in natural gas system**

<sup>1</sup> Ameren’s goals include both Scope 1 and 2 emissions including other greenhouse gas emissions of methane, nitrous oxide and sulfur hexafluoride.

### SOCIAL IMPACT

- **Delivered value to customers in 2022 while focused on safety**
  - Ameren has ranked in the top quartile for overall residential customer satisfaction in the Midwest for three consecutive years
  - Ameren Missouri ranked #1 in business customer satisfaction among peers in the Midwest
  - Recordable Incident and Lost-Time Case Rates declined from 2018-2022

- **Socially responsible and economically impactful**
  - ~$145M to support eligible customers and charities from 2020-2022
  - Supporting core values of diversity, equity and inclusion
  - Inducted into Fair360 Hall of Fame in 2023; became 1 of 12 companies and only utility in Hall of Fame; previously in top 5 on utilities list since 2009
  - ~$1.1B in diverse supplier spend in 2022; 22% increase from 2021
  - $10M committed to non-profits focused on DE&I 2021-2025

### GOVERNANCE

- **Diverse BOD focused on strong oversight**
  - 57% women or racially/ethnically diverse; among the most diverse in the industry; average tenure of ~8 years

- **BOD and committee oversight aligned with sustainability matters**

- **Strong organizational focus: Chief Sustainability, Diversity, and Philanthropy Officer, Chief Ethics and Compliance Officer and Chief Renewable Development Officer**

- **Executive compensation supports sustainable, LT performance**
  - 10% long-term incentive for clean energy transition
  - 5% short-term incentive for supplier and workforce diversity

- **Among top ranked companies in CPA-Zicklin Index for Corp. Political Disclosure and Accountability**

### SUSTAINABLE GROWTH

- **Expect 6% to 8% EPS CAGR 2023-2027<sup>1,2</sup>**
- **Expect 8.4% rate base CAGR 2022-2027<sup>3</sup>**
- **Constructive frameworks for investment in all jurisdictions**
- **Strong long-term infrastructure investment pipeline of $48+ billion 2023-2032<sup>1</sup>**
- **Expect future dividend growth to be in line with long-term EPS growth expectations**

<sup>1</sup> Effective as of Feb. 16, 2023 Earnings Conference Call. <sup>2</sup> Using 2023 EPS guidance range midpoint of $4.35 as the base. <sup>3</sup> Effective as of May 5, 2023 Earnings Conference Call.
Earnings and Guidance Summary

• Remain focused on safely executing strategic plan

• Key Q2 earnings variance drivers
  ▲ Earnings on increased infrastructure investments across all business segments
  ▲ Lower Ameren Missouri and Ameren Illinois natural gas operations and maintenance expenses
  ▲ Higher allowed return on equity at Ameren Illinois Electric Distribution
  ▼ Lower Ameren Missouri electric retail sales primarily driven by weather

• Reaffirm expected 2023 EPS range of $4.25 to $4.45
2023 Strategic Business Objectives

**Invest**
- Continue robust infrastructure investment in electric, natural gas and transmission infrastructure projects
- Submit bids for MISO LRTP Tranche 1 competitive projects and support analysis for potential Tranche 2 projects

**Enhance**
- Constructively conclude Ameren Missouri electric rate review
- Successfully advocate for CCNs for future renewable generation at Ameren Missouri
- Constructively conclude Ameren Illinois electric distribution Multi-Year Rate Plan and Ameren Illinois natural gas rate review filings
- File Ameren Missouri Integrated Resource Plan

**Optimize**
- Maintain disciplined cost management to hold operations and maintenance expenses flat to 2022
Executing Our Strategy

Invest
• $1.8 billion of capital invested\(^1\) benefiting our customers and communities
  – Significant infrastructure investment in electric, natural gas and transmission infrastructure projects
• In May, submitted bid for one MISO LRTP Tranche 1 competitive project

Enhance
• Constructive regulatory and legislative outcomes
  – Ameren Missouri
    • In April, MoPSC approved CCN for Boomtown Solar Project
    • In June, MoPSC approved constructive settlement of electric rate review
    • In June, filed CCNs for four solar projects across Missouri and Illinois
  – Ameren Illinois
    • In June and July, submitted testimony in ongoing electric and gas rate reviews
    • In June, Beneficial Electrification Plan updated to include a total of $65 million of investment
  – Ameren Transmission
    • In May, Illinois HB 3445 passed providing incumbent utilities, including Ameren, right of first refusal to build projects approved by and under the control of MISO; sent to governor for signature June 22

Optimize
• Strong operational performance delivering safe, reliable and cleaner energy while keeping a focus on affordability
  – Maintained disciplined cost management

\(^1\) YTD June 30, 2023.
Illinois Energy Legislation
Enhancing regulatory frameworks and advocating for responsible energy and economic policies

Ameren Transmission

- Transmission Efficiency and Cooperation Law, HB 3445\(^1\), passed by General Assembly in May 2023
  - Provides incumbent utilities, including Ameren, the right of first refusal to build MISO LRTP projects in Illinois that are approved by year-end 2024
  - Supports the clean energy transition, benefiting customers, communities and the broader MISO region
  - Ameren is well-positioned to efficiently build, operate and maintain assets
  - Enables timely and cost-effective construction of MISO LRTP competitive projects
    - Tranche 1 project approved in July 2022
    - Tranche 2 projects expected to be approved in first half of 2024
  - Sent to governor for signature on June 22, 2023

---

\(^1\) See Illinois House Bill 3445, Amendment 4 for detail.
MISO Long-Range Transmission Planning Roadmap

Investing in rate regulated energy infrastructure to benefit our customers, shareholders and the environment

- In July 2022, MISO approved Tranche 1 projects of ~$10 billion
  - $1.8 billion\(^1\) assigned to Ameren; planning, design work and procurement underway
  - $0.7 billion\(^1\) competitive project opportunities; well-positioned to compete and execute

1 Will support Ameren Missouri’s compliance with the Missouri Renewable Energy Standard. 2 Will support Ameren Missouri’s Renewable Solutions program. See page 28 for program details. 3 Development-transfer consists of closing and taking ownership of a project prior to or during construction.
Robust Investment Opportunities Across All Businesses Over Next Decade

Modernizing the grid and investing in cleaner generation

$48B+
Strong Pipeline of Regulated Infrastructure Investments
2023-2032

- Modernize electric and gas transmission and distribution grid
- Operate generation facilities safely and reliably
- Comply with regulatory requirements
- Renewable and combined cycle generation investment opportunities at Ameren Missouri
- Regionally beneficial transmission projects included in MISO’s LRTP to support clean energy transition
- Electrification of transportation investment opportunities
- Assumes constructive energy policies and ratemaking

Investment Plan
2023-2027

($ billions)

- $19.7
- $3.8
- $1.9
- $3.6
- $10.4

1 Effective as of Feb. 16, 2023 Earnings Conference Call.
Long-term Total Return Outlook

• Remain on track to deliver strong long-term earnings growth
  – Expect 6% to 8% EPS CAGR from 2023-2027\(^1\)
    • Using 2023 original EPS guidance range midpoint of $4.35 as the base
  – Expect 8.4% rate base CAGR from 2022-2027\(^2\)
    • Infrastructure investment in rate base growth continues to reflect strategic allocation of capital

• Strong long-term infrastructure pipeline
  – $48+ billion of infrastructure pipeline 2023-2032\(^1\)

• Continue to deliver strong dividend
  – Dividend increased ~7% in Feb. 2023; increased 10\(^{th}\) consecutive year
  – Expect future dividend growth to be in line with long-term EPS growth expectations
  – Expect payout ratio to range between 55% and 70% of annual EPS

• Attractive total return potential
  – Believe execution of our strategy will deliver superior long-term value to customers, shareholders, and the environment

1 Effective as of Feb. 16, 2023 Earnings Conference Call. 2 Effective as of May 5, 2023 Earnings Conference Call. 3 Reflects year-end rate base except for Ameren Transmission, which is average rate base.
2023 Second Quarter Earnings Analysis – Key Drivers

↑ **Ameren Illinois Electric Distribution earnings**
   — Increased investments in infrastructure; higher allowed ROE

↑ **Ameren Transmission earnings**
   — Increased investments in infrastructure

↑ **Ameren Illinois Natural Gas earnings**
   — Increased investments in infrastructure
   — Lower operations and maintenance expenses¹: +$0.02

↑ **Parent Company and Other results**
   — Lower tax expense due, in part, to COLI: +$0.02
   — Higher interest expense primarily due to higher ST debt rates: $(0.02)

↔ **Ameren Missouri earnings**
   — Lower operations and maintenance expenses¹: +$0.06
      • Recovery of previously expensed items approved as part of 2023 rate order: +$0.04
      • Cash surrender value of COLI: +$0.02
   — Increased investments in infrastructure eligible for PISA: +$0.02
   — Lower electric retail sales: ~($0.06)
      • Weather vs. 2022: ~$(0.05); vs. normal ~+$0.00

¹ Not subject to regulatory recovery mechanisms including riders and trackers.

² EPS drivers are calculated using 2022 weighted-average basic common shares outstanding. The impact of higher weighted-average basic common shares outstanding in 2023 is $(0.01).
2023 EPS Guidance and Select Balance of the Year Considerations

- Reaffirm 2023 diluted EPS guidance range of $4.25 to $4.45

- Select considerations for Q3-Q4 2023 EPS compared to Q3-Q4 2022 EPS
  - Ameren Missouri new electric service rates effective July 9, 2023: Q3 ~+$0.09; Q4: ~+$0.04
  - Ameren Missouri return to normal weather in 2023: Q3 ~$(0.02); Q4 ~$(0.04)
  - Ameren Missouri lower energy efficiency performance incentives: Q3 ~$(0.03)
  - Ameren Illinois Electric Distribution estimated 2023 allowed ROE of 9.70%, which reflects a projected average 30-year Treasury rate of ~3.90%
  - Ameren Consolidated absence of 2022 COLI impacts¹: Q3 +$0.05; Q4 $(0.02)
  - Expect to issue 3.2 million common shares by year-end 2023 upon settlement of forward sale agreements

¹ 2023 earnings guidance includes no expectation of COLI gains or losses after June 2023.
Missouri Electric Regulatory Matters

Electric Distribution

• In June 2023, Commission approved a stipulation and agreement with MoPSC Staff, Office of Public Counsel and certain intervenors for a $140 million annual revenue increase\(^1\)
  – Allowed ROE, capital structure\(^2\) and rate base\(^3\) not specified
  – Continuation of existing FAC, RESRAM and other regulatory mechanisms

• New rates effective July 9, 2023

Securitization

• On July 28, 2023, filed 60-day notice with MoPSC for securitization of costs associated with Rush Island Energy Center\(^4\)
  – Expect to file for securitization as early as Q4 2023

\(^1\) Although no ROE was specified, acceptance of Staff’s mid-point ROE recommendation of 9.59% would result in a ~$50 million reduction from Ameren Missouri’s updated request filed March 24, 2023. Reflects lower depreciation, primarily related to the Callaway Energy Center and distribution investments of ~$20 million compared to Ameren Missouri’s updated request. \(^2\) At the time of true-up testimony, both Staff and Ameren Missouri’s filings reflected a 51.9% common equity ratio. \(^3\) The stipulation and agreement did not specify a rate base amount or any rate base disallowances. Rate base in Ameren Missouri’s updated request was $11.6 billion. \(^4\) As of June 30, 2023, the net book value of Rush Island was ~$550 million.
Illinois Multi-Year Rate Plan

**Electric Distribution**

- Multi-Year Rate Plan (MYRP) filed with ICC in Jan. 2023; request driven by infrastructure investment and cost of capital
  - On July 13, ICC Staff recommended cumulative increase of $317 million in revenues
  - On July 27, Ameren Illinois requested cumulative increase of $448 million in revenues; variance driven primarily by a difference in proposed return on equity ($63 million), common equity ratio ($18 million), capital additions ($33 million) and OPEB ($14 million)

¹ MYRP filing uses phase-in provision and proposes to defer 50% of the requested 2024 rate increase of $179 million as a regulatory asset to be collected from customers in 2026. ² Annual reconciliation for prior year initiated by May 1 annually. Subject to cap on actual costs of 105% of the approved revenue requirement, excluding certain variable items such as storms, weather-related events, new business, change in interest rates, change in taxes, facility relocations, changes in pension/OPEB, amortization expenses and changes in timing of when an expenditure or investment is made. Cap also does not apply to costs recovered through riders. ³ Actual revenue requirement would incorporate year-end rate base and actual capital structure, provided that the common equity ratio does not exceed that approved in the MYRP. ⁴ Seven performance metrics providing for +/- 24 basis points adjustment to allowed ROE. See page 29 for details. ⁵ Reflects 2022 average yield of 30-year Treasury bonds + 580 bps. Subject to annual true-up.
Illinois Regulatory Matters

Electric Distribution

- In July 2023, filed updated request with ICC for $125 million reconciliation adjustment to the 2022 revenue requirement reflecting actual costs
  - Based on 2022 year-end rate base, ROE and equity ratio
  - In June, ICC Staff recommended $109 million reconciliation adjustment; variance driven primarily by a difference in proposed common equity ratio
  - ICC decision required by Dec. 2023; expected to be in rates in 2024

Natural Gas

- In July 2023, filed updated request with ICC for $148 million annual base rate increase; includes ~$77 million that would otherwise be recovered in 2024 under QIP and other riders
  - Based on 10.3% ROE; 54% equity ratio; $2.9 billion rate base; 2024 future test year
  - Rate base is year-end 2023 plus estimated average 2024 rate base additions
  - In July, ICC Staff recommended $128 million annual base rate increase; 9.89% ROE; 50.0% equity ratio
  - Other intervenors recommended $98 to $106 million annual base rate increase; 9.50% ROE; 52.0% equity ratio
  - ICC decision required by late Nov. 2023; new rates expected to be effective early Dec. 2023
Financing

Debt Financing
- On Mar. 13, 2023, Ameren Missouri issued $500 million of 5.45% first mortgage bonds due 2053
  - Proceeds used to fund capital expenditures and refinance short term debt
- On May 31, 2023, Ameren Illinois issued $500 million of 4.95% first mortgage bonds due 2033
  - Proceeds used to repay a portion of short-term debt and to repay $100 million principal amount of 0.375% first mortgage bonds due June 15, 2023, at maturity

Equity Financing
- On Nov. 10, 2022, increased existing at-the-market (ATM) equity program by $1 billion to support expected equity needs in 2024 and beyond
  - In 2022, fulfilled 2023 expected equity needs through forward sale agreements; expect to issue 3.2 million common shares by year-end 2023
  - As of June 30, 2023, entered into forward sale agreements to fulfill ~$92 million of $500 million expected equity needs in 2024

Pension and OPEB
- As of Dec 31, 2022, Ameren’s pension and OPEB obligations were 99% and 149% funded, respectively; constructive regulatory mechanisms
  - Ameren Missouri costs recovered costs through tracker; Ameren Illinois Electric Distribution and Ameren Transmission costs recovered through formulaic rates

1 A credit rating is not a recommendation to buy, sell, or hold any security and may be suspended, revised, or withdrawn at any time.

1 Issued and effective as of Feb. 16, 2023 Earnings Conference Call.
Summary

Expect to deliver strong earnings growth in 2023 with guidance in a range of $4.25 to $4.45 per diluted share

Successfully executing our strategy; well-positioned for future growth
• Focused on delivering safe, reliable and cleaner energy while keeping a focus on affordability

Strong long-term growth outlook
• Expect 6% to 8% compound annual EPS growth 2023-2027\(^1,2\)
• Expect 8.4% compound annual rate base growth 2022 through 2027\(^3\)
• Strong long-term infrastructure pipeline of $48+ billion 2023-2032\(^1\)

Attractive dividend
• Annualized dividend rate of $2.52 per share provides yield of 3.0\(^%\)\(^4\)
• Dividend increased ~7% in Feb. 2023; increased 10\(^\text{th}\) consecutive year
• Expect future dividend growth to be in line with long-term EPS growth expectations
• Expect payout ratio to range between 55% and 70% of annual EPS

Attractive total shareholder return potential

\(^1\) Effective as of Feb. 16, 2023 Earnings Conference Call. \(^2\) Using 2023 EPS guidance range midpoint of $4.35 as the base. \(^3\) Effective as of May 5, 2023 Earnings Conference Call. \(^4\) Based on Aug. 1, 2023 closing share price.

</tr>
</tbody>
</table>
| • Allowed ROE is 10.52%, includes MISO participation adder of 50 basis points; ~56% average equity ratio | • Allowed ROE is 9.67%; 52% equity ratio | • MYRP filed Jan. 2023; current framework continues through 2023 | • Settled 2022 electric rate review; allowed ROE and common equity ratio not specified
| • Rates reset each Jan. 1 based on forward-looking calculation with annual reconciliation | • Infrastructure (QIP) rider for qualifying capital investments made between rate reviews; QIP rider expires Dec. 31, 2023 | • Allowed ROE is 580 basis points above annual average yield of 30-year U.S. Treasury; 50% equity ratio; ICC will determine allowed ROE for 2024 and beyond | • Infrastructure tracker for qualifying plant placed in-service between rate reviews (PISA) effective through Dec. 2028; Ameren Missouri must request and receive MoPSC approval for extension through Dec. 2033 |
| • Volume balancing adjustment (revenue decoupling) for residential and small non-residential customers | • Provides recovery of prudently incurred actual costs; based on year-end rate base | • Revenue decoupling; constructive energy efficiency framework where investments earn full WACC | • Fuel adjustment clause rider; pension/OPEB cost trackers; property tax trackers |
| • Constructive energy efficiency framework under MEEIA | • Constructive energy efficiency framework under MEEIA |  |

---

1. At the time of true-up testimony, MoPSC Staff’s mid-point ROE recommendation was 9.59% and both Staff and Ameren Missouri filings reflected a 51.9% common equity ratio.
2023 Earnings Analysis for Six Months Ended June 30

↑ Ameren Illinois Electric Distribution earnings
— Increased investments in infrastructure; higher allowed ROE

↑ Ameren Transmission earnings
— Increased investments in infrastructure

↑ Ameren Illinois Natural Gas earnings
— Lower operations and maintenance expenses\(^1\): +$0.03
  • Cash surrender value of COLI: +$0.01
— Increased investments in infrastructure

↑ Parent Company and Other results
— Lower tax expense due, in part, to COLI: +$0.04
— Higher interest expense primarily due to higher ST debt rates: $(0.04)

↓ Ameren Missouri earnings
— Lower electric retail sales: ~$(0.16)
  • Weather vs. 2022: ~$(0.13); vs. normal ~$(0.05)
  • WN sales vs. 2022 (excl. MEEIA): Res.:~(1.0)%, Com.: ~+0.5%, Ind.:~(2.5)%, Total: ~(0.5)%
— Higher interest expense: $(0.02)
— Lower operations and maintenance expenses\(^1\): +$0.07
  • Cash surrender value of COLI: +$0.05
  • Recovery of previously expensed items approved as part of 2023 rate order: +$0.04
— Investments eligible for PISA: +$0.04

1 Not subject to regulatory recovery mechanisms including riders and trackers.

2 EPS drivers are calculated using 2022 weighted-average basic common shares outstanding. The impact of higher weighted-average basic common shares outstanding in 2023 is $(0.03).
Ameren Missouri Smart Energy Plan filed with MoPSC on Feb. 16

Investing in rate regulated energy infrastructure to benefit our customers, shareholders and the environment

• $1.6 billion invested in 2022 to support reliability, address aged infrastructure and provide clean energy to the customers and communities we serve
  – Smart switches to reroute power until a line is fixed, supporting reliability
  – Hardened circuits to better withstand severe weather events
  – New or upgraded substations for reliable and resilient grid
  – 309,000 smart meters enabling better customer visibility into energy usage

• $9.9 billion investment plan\textsuperscript{1} in 2023-2027 with focus on modernizing energy infrastructure
  – Continued investment in grid modernization with smart switches, hardened circuits, and new or upgraded substations
  – Install 465,000 smart meters
  – Invest in ~1,600 megawatts of additional renewable generation
  – Will drive customer reliability, enable cleaner generation, create significant jobs and stimulate economic growth while keeping customer costs affordable

\textsuperscript{1} Excludes $0.1 billion and $0.5 billion of natural gas and other investment in Ameren Missouri’s 2023 and five-year capital expenditure, respectively. See page 12 for Ameren’s five-year capital expenditure plan.
Key outcomes meet customers’ rising needs and expectations for reliable, affordable and clean energy sources

- Targets substantial reductions in carbon emissions; 60% by 2030, 85% by 2040 and net-zero by 2045
- All coal-fired energy centers retired by 2042; Rush Island advanced from 2039 to 2025, Sioux extended from 2028 to 2030
- Adds 2,800 MW of renewable generation by 2030; 4,700 MW by 2040, investment opportunities of $4.3 billion and $7.5 billion, respectively
- Adds 1,200 MW of combined cycle generation by 2031, investment opportunity of $1.7 billion; planned transition to hydrogen or hydrogen blend with carbon capture retrofit by 2040
- Adds 800 MW of battery storage by 2040, investment opportunity of $650 million
- Continues robust, cost-effective customer energy efficiency and demand response programs
- Achieving goals dependent on variety of factors including cost-effective advancements in innovative clean energy technologies and constructive federal and state energy and economic policies

1 Filmed with the MoPSC on June 23, 2022. Updated Missouri IRP to be filed in Sep. 2023. 2 Reductions as of end of period indicated and based off 2005 levels. Ameren’s goals include both Scope 1 and 2 emissions including other greenhouse gas emissions of methane, nitrous oxide and sulfur hexafluoride.

• Other remaining CTGs located in Illinois retired by 2040 |
| Natural Gas Additions                | None                                          | 1,200 MW by 2031                              | • Transition to hydrogen or blend with carbon capture by 2040  
• $1.7 billion investment opportunity by 2031 |
| Battery Storage Additions            | None                                          | 400 MW by 2035 800 MW by 2040                 | • Provides reliability and flexibility  
• $650 million investment opportunity by 2040 |
| Nuclear Generation                   | 1,200 MW extended                             | 1,200 MW extended                             | • Expect to seek an extension of operating license beyond 2044 |
| Other Clean Dispatchable Additions   | 800 MW by 2043                                | 1,200 MW by 2043                              | • New technologies critical to achieving our net-zero goal |

¹ Reductions as of end of period indicated and based off 2005 levels.  
² Final timing of Rush Island retirement is dependent on a revised order from the U.S. District Court, including consideration of MISO reliability assessment.  
³ For comparison purposes, 700 MW of wind generation placed in service in 2020 and 2021 are excluded from the 2020 IRP renewable additions.
Building a Brighter and Cleaner Energy Future

Innovative Programs to Meet Customer Needs and Rising Expectations

- **Energy Efficiency Programs**: Robust portfolio of energy efficiency programs available to MO and IL customers to achieve energy saving goals.
- **Electric Vehicle Programs**: Incentives to support electrification and development of electric vehicle charging stations along highways and in MO and IL communities.
- **Solar Program**: Utility-owned solar generation in MO that benefits diverse communities with jobs training, solar education and public covered parking.
- **Neighborhood Solar Program**: IL energy legislation allows for utility-owned solar generation with optional battery pilot facilities in Peoria and East St. Louis.
- **Community Solar Program**: Subscription program available to MO residential and small business customers for up to 50% of their energy usage.
- **Renewable Solutions Program**: Subscription program available to mid-sized and large MO C&I customers and municipalities to enroll for up to 100% of their future energy usage.

Rush Island Energy Center

Ameren Missouri

• In 2021, the U.S. Court of Appeals ordered installation of a scrubber at the Rush Island Energy Center; Ameren Missouri subsequently announced its intent to retire the energy center

• In July 2022, MISO issued final Attachment Y report
  – Designated both Rush Island generating units as System Support Resources (SSR); designation to be evaluated annually
  – In Sep. 2022, Rush Island began operating consistent with the SSR Agreement
  – Certain mitigation measures, including transmission upgrades, are needed to ensure reliability before the energy center is retired
    • Upgrade projects approved by MISO; construction has begun; expect to complete by mid-2025
  – In July 2023, MISO determined the SSR designation should extend through Aug. 31, 2024; pending FERC approval

• District Court under no obligation or deadline to issue a ruling modifying its remedy order to reflect the MISO SSR determination or proposed operating parameters
  – Mar. 30, 2024 compliance date remains in effect unless extended by the court
  – Aug. 1, 2023, Ameren Missouri requested the District Court extend compliance date to Oct. 15, 2024

• MoPSC Staff reviewing Ameren Missouri’s plans to retire Rush Island; under no deadline to issue a final report
FERC Regulatory Matters

Ameren Transmission

- In Apr. 2021, FERC issued supplemental NOPR that would remove incentive adder for utilities that have been members of an RTO for three years or more
  - Current allowed base ROE of 10.02% (10.52% including 50 bps RTO participation adder)
  - 50 bps change in ROE impacts EPS by ~$0.05 annually
  - Ameren filed comments opposing proposed removal of RTO incentive adder
  - Unable to predict the outcome or timing of FERC decision

- In July 2021, FERC issued Advance NOPR on range of topics including future regional transmission planning and cost allocation processes
  - Ameren filed comments supporting current planning and cost allocation processes
  - In April 2022, FERC issued proposed rules:
    - Long-term transmission planning to meet needs driven by changes in resource mix and demand
    - Seek agreement regarding cost allocation of projects
    - Allows public utility transmission providers to file with FERC for approval of new federal rights of first refusal for incumbent transmission providers; subject to certain conditions
  - Unable to predict the outcome or timing of FERC decision

- In Aug. 2022, US Court of Appeals for the D.C. Circuit granted customers’ petition for review and vacated and remanded FERC’s orders establishing MISO’s base ROE methodology; agreed FERC failed to offer reasoned explanation for including risk premium model
  - Current allowed base ROE of 10.02% remains
  - Unable to predict the outcome or timing of FERC decision for an updated ROE methodology
Focused on Disciplined Cost Management to Drive Affordability

Optimize operating performance to benefit of our customers, shareholders and the environment

• Track record of disciplined cost management
  – Expect flat operations and maintenance expenses in 2023 as compared to 2022
  – Target flat operations and maintenance expenses through 2027

• Maintaining focus on continuous improvement and disciplined cost management through numerous customer affordability initiatives
  – Automation of field operations processes
  – Fossil and nuclear plant optimization
  – Installation of smart meters in Missouri
  – Hybrid and remote workforce practices, reducing facilities-related expenses and maintenance
  – Shared services transformation and centralization to automate and streamline processes in finance, supply chain and workforce
  – Customer service optimization and organizational streamlining

• New labor contracts extended through mid-to-late 2026 for nearly all Ameren union represented employees
  – Total labor makes up ~35% of operations and maintenance expenses
Federal Energy Legislation

• Inflation Reduction Act enacted in Aug. 2022
  - Enhances affordability of the clean energy transition for customers in Missouri and Illinois
    • Ameren Missouri customers expected to save more than ~$1 billion by 2032, or an average of more than ~4% per year, compared to what would have been paid, as result of wind and solar PTC and ITCs\(^1\)
    • Ameren Illinois customers expected to see benefits of tax credits over time through reduced purchased power costs
  - Do not expect corporate minimum tax of 15% on adjusted financial statement income to apply in 2023 and 2024; possible impact in 2025 and beyond\(^1,2\)
    • Pre-tax book income adjusted for tax depreciation
    • Liability reduced by up to 75% by renewable energy tax credits
    • Excludes any potential benefit resulting from nuclear PTCs
    • Potential incremental annual cash tax payments through the current capital plan not expected to be material
  - Allows for a 10% PTC or ITC adder for siting projects at existing energy communities, including retired coal-fired energy center locations

\(^1\) Estimate is based on renewable projects included in the 2022 Change to the 2020 Ameren Missouri IRP. \(^2\) Estimate is affected by amount and timing of capital expenditures placed in-service or retired, the timing of rate reviews, and additional guidance that may be issued by the IRS or the Department of Treasury, among other items. We continue to update our corporate minimum tax estimates as new information arises.

- All long-term debt is at fixed rates; refinancing of commercial paper borrowings subject to changes in interest rates.

### Recovery of Interest Expense

- A portion of interest cost is capitalized in the normal course as construction work in progress
- Ameren Illinois Electric Distribution and Ameren Transmission recovered through reconciliation process
- Ameren Illinois Natural Gas recovered through future test year rate reviews; rate review filed Jan. 2023
- Ameren Missouri recovered through rate reviews; cost of capital trued-up as of Dec. 31, 2022 in current rate review

---

\(^1\) Excludes maturities related to financing obligations related to certain energy centers.  
\(^2\) Repaid at maturity on June 15, 2023.

Second Quarter 2023 Earnings | Aug. 3, 2023
Investing in the Energy Grid

• Investing to modernize energy grid, making it cleaner, safer, more reliable, resilient and secure
  – Ameren Missouri Smart Energy Plan and Ameren Illinois MYRP filed with the MoPSC and ICC, respectively, supporting infrastructure investment to modernize the grid
  – Expect greater transmission investments to support additional renewable generation
  – Provide customers with new and improved tools to manage energy usage

• Transitioning to cleaner energy portfolio - target net-zero carbon emissions by 2045¹
  – Expect to add 2,800 MWs of renewable generation by 2030; total of 4,700 MWs by 2040
  – Expected retirement of coal-fired energy centers; retired Meramec in 2022
    • Rush Island in 2025²; Sioux in 2030²; Labadie: 2 units in 2036, 2 units in 2042
  – As of Dec. 31, 2022, coal-fired energy center rate base was ~$2 billion

• By 2027, rate base expected to be 82% electric and natural gas transmission and distribution, 10% renewable generation and 4% nuclear generation

• Ameren’s estimated coal-related revenues in 2022 were 12%⁴ and coal-fired generation rate base expected to be 3% by the end of 2027²
  – Coal-related capital expenditures 2023-2027 are expected to be ~$0.7 billion, or ~3.5% of Ameren’s five-year plan

¹ Ameren’s goals include both Scope 1 and 2 emissions including other greenhouse gas emissions of methane, nitrous oxide and sulfur hexafluoride. ² Reflects retirement date included in the 2022 Change to the 2020 IRP. Updated Missouri IRP to be filed in Sep. 2023. ³ Effective as of May 5, 2023 Conference Call. ⁴ See page 37 for additional details and calculations.
Ameren’s Estimated Coal-Related Revenues in 2022

Return on Investment Revenues

- Return on Investment: $2B x 52% x 9.50% = $99M

Cost Recovery Revenues

- Interest Expense: $2B x 48% x 3.91% = $38M
- (Interest Expense amount as included in Ameren Missouri’s 2021 rate review settled in Nov. 2021.)

Cost Recovery Revenues

- Federal (21%) and Missouri state (4%) income taxes charged on Ameren Missouri’s ROE
- Ameren Missouri’s total property tax on capital assets of $168M
- Ameren Missouri coal-related fuel, other O&M and depreciation expenses of $475M, $138M and $171M, respectively

Total Ameren’s 2022 Total Revenue

$7,957M = 12%

1 ~20%, or $2 billion, of Ameren Missouri’s $10.2 billion rate base in the 2021 rate review was coal-related. 2 Nov. 2021 settlement of 2021 electric rate review included implicit ROE range of 9.25% to 9.75%, using 9.50% for AFUDC. 3 Expense amounts as included in Ameren Missouri’s 2021 rate review settled in Nov. 2021.
