

Powering a Reliable, Sustainable Tomorrow

AGA Financial Forum

May 20-21, 2024

Cautionary Statements

Use of Non-GAAP Financial Measures

In this presentation, Ameren has presented weather-normalized and core earnings per share and operations and maintenance expenses excluding COLI, which are non-GAAP financial measures and may not be comparable to those of other companies. A reconciliation of GAAP to non-GAAP information is included in this presentation. Generally, core earnings or losses include earnings or losses attributable to Ameren common shareholders and exclude income or loss from significant discrete items that management does not consider representative of ongoing earnings. Ameren uses core earnings internally for financial planning and for analysis of performance. Ameren also uses core earnings as the primary performance measurement when communicating with analysts and investors regarding its earnings results and outlook, as the company believes that core earnings allow the company to more accurately compare its ongoing performance across periods. Weather-normalized earnings exclude estimated effects of weather compared to normal, as calculated internally using data from the National Oceanic and Atmospheric Administration for the applicable period. Ameren uses operations and maintenance expenses excluding COLI internally for financial analysis.

Forward-looking Statements

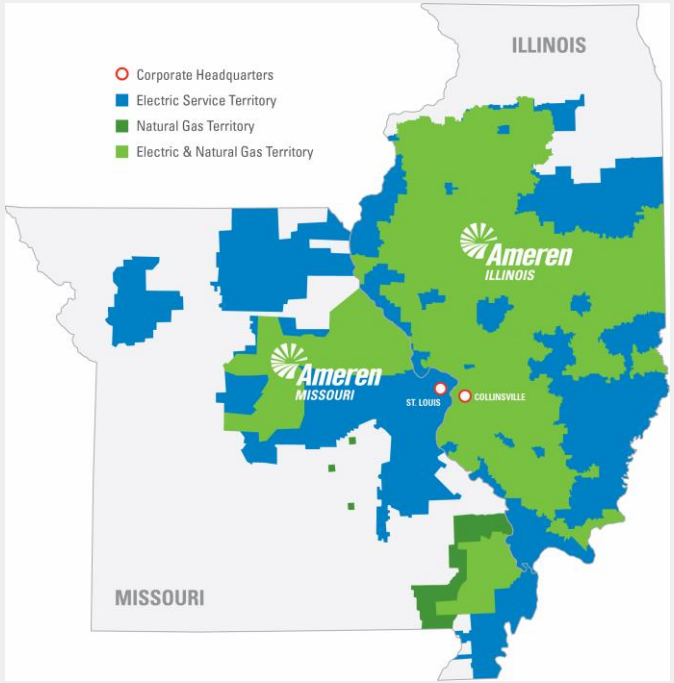

Statements in this presentation not based on historical facts are considered "forward-looking" and, accordingly, involve risks and uncertainties that could cause actual results to differ materially from those discussed. Although such forward-looking statements have been made in good faith and are based on reasonable assumptions, there is no assurance that the expected results will be achieved. These statements include (without limitation) statements as to future expectations, beliefs, plans, projections, targets, estimates, strategies, objectives, events, conditions, and financial performance. In connection with the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995, Ameren is providing this cautionary statement to identify important factors that could cause actual results to differ materially from those anticipated. In addition to factors discussed in this presentation, Ameren's Annual Report on Form 10-K for the year ended December 31, 2023, and its other reports filed with the SEC under the Securities Exchange Act of 1934, as amended, contain a list of factors and a discussion of risks that could cause actual results to differ materially from management expectations suggested in such "forward-looking" statements. All "forward-looking" statements included in this presentation are based upon information presently available, and Ameren, except to the extent required by the federal securities laws, undertakes no obligation to update or revise publicly any "forward-looking" statements to reflect new information or current events.

Earnings Guidance and Growth Expectations

In this presentation, Ameren has presented 2024 earnings guidance, multi-year earnings per share growth expectations, and multi-year rate base growth expectations effective as of February 23, 2024. Earnings guidance for 2024 assumes normal temperatures after March 2024 and multi-year growth expectations assume normal temperatures. Earnings guidance for 2024 and multi-year growth expectations, along with estimates for long-term infrastructure investment opportunities, are subject to the effects of, among other things, regulatory, judicial and legislative actions; energy center and energy distribution operations; energy, economic, capital and credit market conditions; customer usage; severe storms; market returns on COLI investments; unusual or otherwise unexpected gains or losses; and other risks and uncertainties outlined, or referred to, in the Forward-looking Statements section of this presentation and in Ameren's periodic reports filed with the SEC.

Company Description

Fully rate-regulated electric and natural gas utility

2.4M electric customers

0.9M gas customers

~5,000 circuit miles FERC-regulated electric transmission

~10,000MW regulated electric generation capability

S&P 500 Component of Stock Index

Ameren Businesses

Ameren Missouri

- Electric transmission, distribution, and generation business and a natural gas distribution business in Missouri regulated by MoPSC
- Serves 1.2 million electric and 0.1 million gas customers
- ~10,000 MW of total generation capability

Ameren Illinois Electric Distribution

- Electric distribution business in Illinois regulated by ICC
- Serves 1.2 million electric customers

Ameren Illinois Natural Gas

- Natural gas distribution business in Illinois regulated by ICC
- Serves 0.8 million gas customers

Ameren Transmission

- Electric transmission businesses of Ameren Illinois and ATXI regulated by FERC
- Ameren Illinois invests in local reliability projects
- ATXI invests in regionally beneficial projects

Our Value Proposition for Customers, Shareholders and the Environment

Strong long-term growth outlook

- **Expect 6% to 8% EPS CAGR 2024-2028[1,2]**
- **Expect ~8.2% rate base CAGR 2023-2028[1]**
- **Four regulatory frameworks for investment**
- **Strong long-term infrastructure investment pipeline of $55+ billion 2024-2033[1]**
- **Net-zero carbon emissions goal by 2045[3] and transformative expansion of renewable generation and transmission**

Attractive dividend and long-term dividend growth outlook

- **Annualized equivalent dividend rate of $2.68 per share provides attractive yield**
  - Dividend increased 6.3% in Feb. 2024; increased for the 11th consecutive year
- **Expect future dividend growth to be in line with long-term EPS growth expectations**
- **Expect payout ratio to range between 55% and 65% of annual EPS**
  - 2024 EPS guidance range midpoint of $4.62 implies 58% payout using annualized dividend rate of $2.68 per share

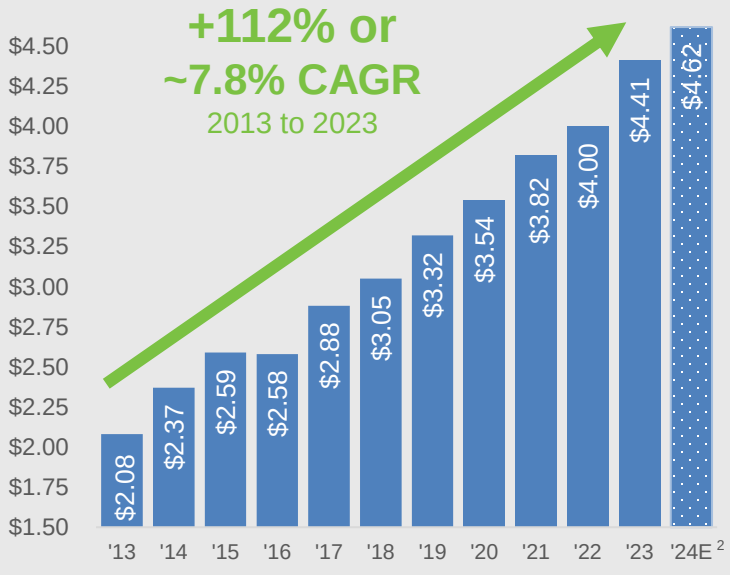

Attractive total return potential

- **Track record of delivering strong results**
- **Attractive combined earnings and dividend growth outlook compared to regulated utility peers**
- **We believe execution of our strategy will continue to deliver superior long-term value for customers, communities, shareholders and the environment**

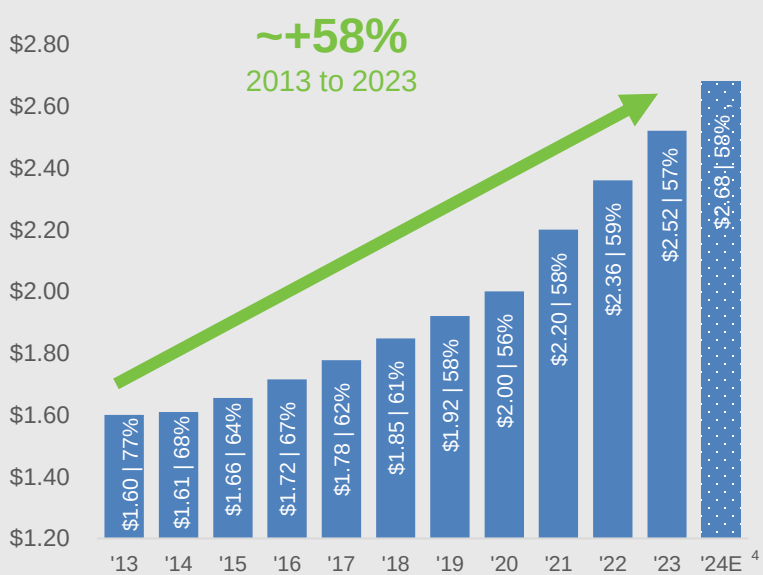

[1] Effective as of Feb. 23, 2024 Earnings Conference Call. [2] Using 2024 EPS guidance range midpoint of $4.62 as the base. [3] Ameren's goals include both Scope 1 and 2 emissions, including other greenhouse gas emissions of methane, nitrous oxide and sulfur hexafluoride.

Strong Track Record of EPS and Dividend Growth

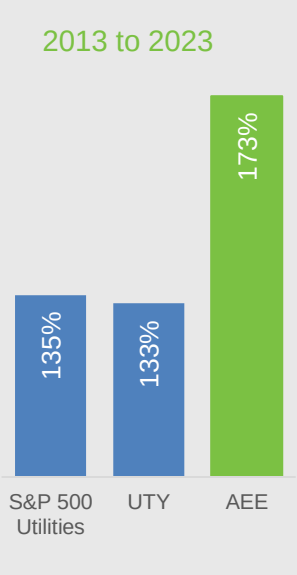

Weather-Normalized Core Earnings per Diluted Share[1]

Dividends Paid per Share[3] and Payout as a % of WN EPS

Total Shareholder Return

[1] See pages 36 and 37 for GAAP to core and weather-normalized reconciliations. [2] Represents midpoint of 2024 EPS guidance range of $4.52 to $4.72. [3] Unrounded dividends 2015-2018 are $1.655, $1.715, $1.7775 and $1.8475. [4] Annualized dividend equivalent rate. Future dividend decisions will be driven by earnings growth, cash flow, investment requirements and other business conditions.

Our Strategic Plan

INVEST

Invest in rate regulated energy infrastructure

ENHANCE

Enhance regulatory frameworks and advocate for responsible policies

OPTIMIZE

Optimize operating performance

To capitalize on opportunities to benefit our customers, communities, shareholders and the environment

Four Regulatory Frameworks

Ameren Transmission

FERC-regulated: Formula ratemaking

- Allowed ROE is 10.52%, includes MISO participation adder of 50 basis points; ~56% average equity ratio
- Rates reset each Jan. 1 based on forward-looking calculation with annual reconciliation

Ameren Illinois Natural Gas

ICC-regulated: Future test year ratemaking

- Allowed ROE is 9.44%; 50% equity ratio[1]
- Volume balancing adjustment (revenue decoupling) for residential and small non-residential customers

Ameren Illinois Electric Distribution

ICC-regulated: Performance-based ratemaking

- Multi-Year Rate Plan effective from 2024 to 2027[1]
- Allowed ROE is 8.72%; 50% equity ratio[1]
- Provides recovery of prudently incurred actual costs; based on year-end rate base
- Revenue decoupling
- Constructive energy efficiency framework where investments earn allowed ROE of 5.8% + average annual 30-Year U.S. Treasury Rate
- Annual revenue requirement reconciliation subject to cap of 105%, adjusted for certain items

Ameren Missouri

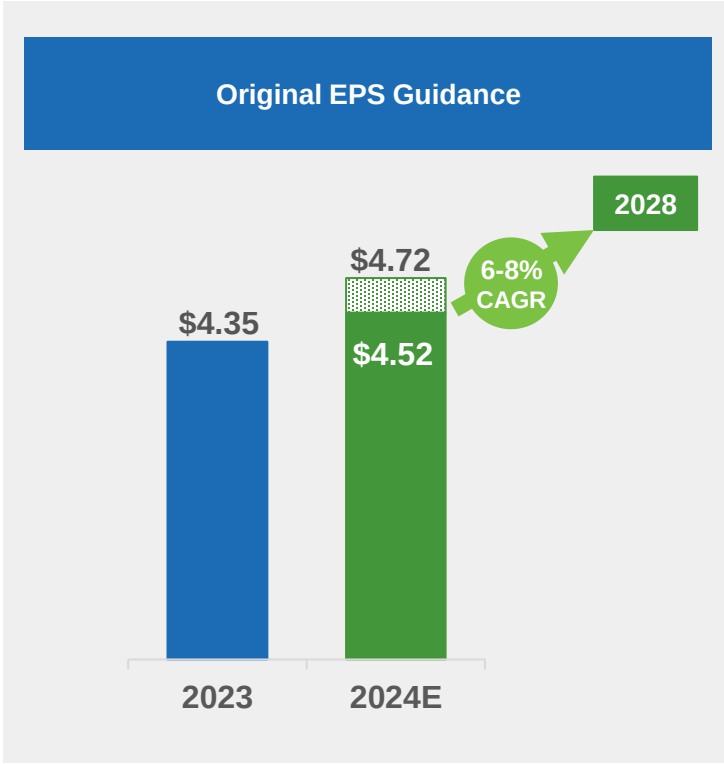

MoPSC-regulated: Historical test year ratemaking with constructive trackers and riders

- Settled 2022 electric rate review; allowed ROE and common equity ratio not specified[2]
- Infrastructure tracker for qualifying plant placed in-service between rate reviews (PISA) effective through Dec. 2028; Ameren Missouri must request and receive MoPSC approval for extension through Dec. 2033
- Fuel adjustment clause rider; pension/OPEB cost trackers; property tax trackers
- Constructive energy efficiency framework under MEEIA
- Settled 2021 natural gas rate review; allowed ROE and common equity ratio not specified

[1] Ameren Illinois has appealed the ICC's Nov. and Dec. 2023 orders with the Illinois 5th District Appellate Court. [2] At the time of true-up testimony, MoPSC Staff's midpoint ROE recommendation was 9.59% and both Staff and Ameren Missouri filings reflected a 51.9% common equity ratio.

Expect to Deliver Strong Long-Term EPS and Dividend Growth

- **Expect 2024 EPS in a range of $4.52 to $4.72[1]**
  - Midpoint represents 6.2% EPS growth compared to 2023 original guidance midpoint of $4.35
- **Remain on track to deliver strong long-term earnings growth**
  - Expect 6% to 8% EPS CAGR from 2024-2028[1]
    - Using 2024 EPS guidance range midpoint of $4.62 as the base
  - Driven by continued execution of our strategy, including investing in infrastructure for the benefit of customers
  - Outlook accommodates several factors, including range of sales growth, spending levels, financing assumptions, regulatory and legislative developments
- **Expect future dividend growth to be in line with long-term EPS growth expectations and to range between 55% and 65% of annual EPS**
  - Future dividend decisions will be driven by earnings growth, cash flow, investment requirements and other business conditions
  - Dividend increased 6.3% in Feb. 2024; increased 11th consecutive year

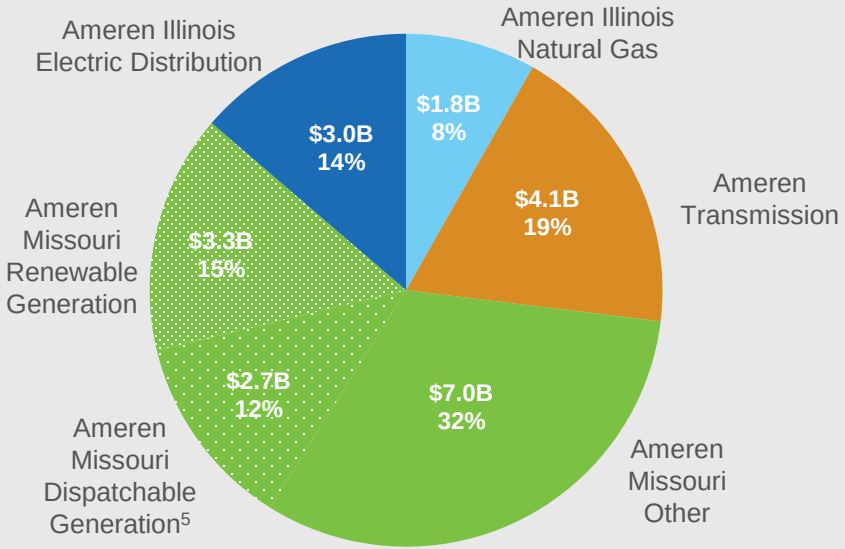

[1] Effective as of Feb. 23, 2024 Earnings Conference Call.

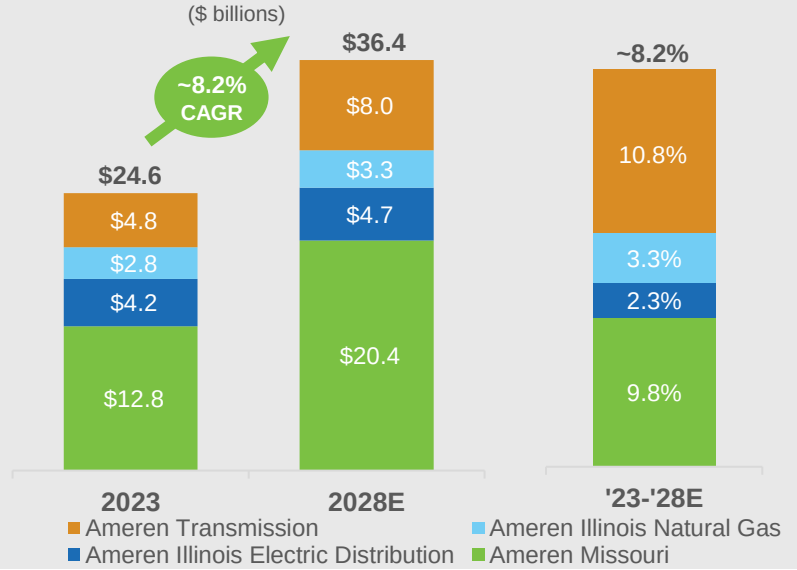

Strategically Allocated Rate Base Growth[1]

Increased five-year infrastructure investment plan by $2.2B[2]

$21.9 Billion of Regulated Infrastructure Investment 2024-2028

2023 to 2028E Regulated Infrastructure Rate Base[3,4]

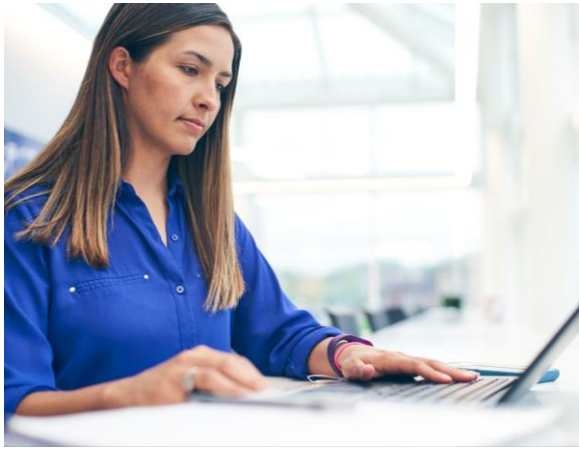

Five-Year Rate Base CAGR[4,5]

[1] Effective as of Feb. 23, 2024 Earnings Conference Call. [2] Investment plan issued Feb. 16, 2023 reflected $19.7 billion of investment from 2023-2027. [3] Reflects year-end rate base except for Ameren Transmission, which is average rate base. [4] Rate base for Ameren Illinois does not include energy efficiency investments of $0.4 billion and $0.5 billion in 2023 and 2028, respectively, which earn an allowed ROE of 5.8% + average annual 30-year Treasury rate. [5] Coal-related capital expenditures 2024-2028 expected to be ~$0.9 billion, or ~4% of Ameren's five-year plan.

Expected 2024-2028 Funding Plan[1]

- **Cash from Operations**
  - ~$2 billion of income tax deferrals and tax asset utilization
    - Income tax deferrals primarily driven by capital expenditures
    - Includes utilization of ~$60 million of federal and state tax credit carryforwards at year-end 2023
    - 15% corporate minimum tax on adjusted financial statement income not expected to apply
- **Debt financing**
  - Issue long-term debt to refinance maturing obligations and to fund a portion of cash requirements
- **Equity financing[2]**
  - ~$300 million in 2024 and ~$600 million/year from 2025-2028
    - Sources include Ameren's dividend reinvestment plan, employee benefit plans, and at-the-market equity program issuances
    - Expect to settle ~$230 million under forward sale agreements by year-end 2024
- **Credit agreements of $2.6 billion in place through Dec. 2027**

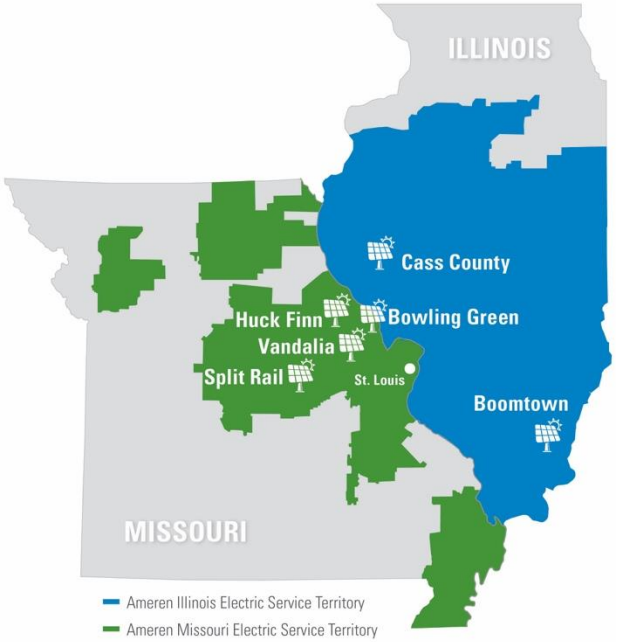

[1] Effective as of Feb. 23, 2024 Earnings Conference Call. [2] Funding plan issued Feb. 16, 2023 reflected $2.8 billion of equity 2023-2027, compared to current funding plan which reflects $2.7B of equity.

Ameren Missouri Solar Projects

Investing in rate regulated energy infrastructure to benefit our customers, communities, shareholders and the environment

	Huck Finn[1,2]	Boomtown[2,3]	Split Rail	Vandalia[2]	Bowling Green[2]	Cass County[3]
Facility size	200-MW	150-MW	300-MW	50-MW	50-MW	150-MW
Agreement type	Build-transfer	Build-transfer	Build-transfer	Self-Build	Self-Build	Development-transfer[4]
Developer	EDF Renewables	Invenergy Renewables	Invenergy Renewables	Ameren Missouri	Ameren Missouri	Savion / Ameren Missouri
CCN Status	Approved Feb. 2023	Approved Apr. 2023	Approved Mar. 2024			Approval Subject to Condition Mar. 2024[3]
Earliest completion date	Q4 2024	Q4 2024	Mid-2026	Q4 2025	Q1 2026	Q4 2024

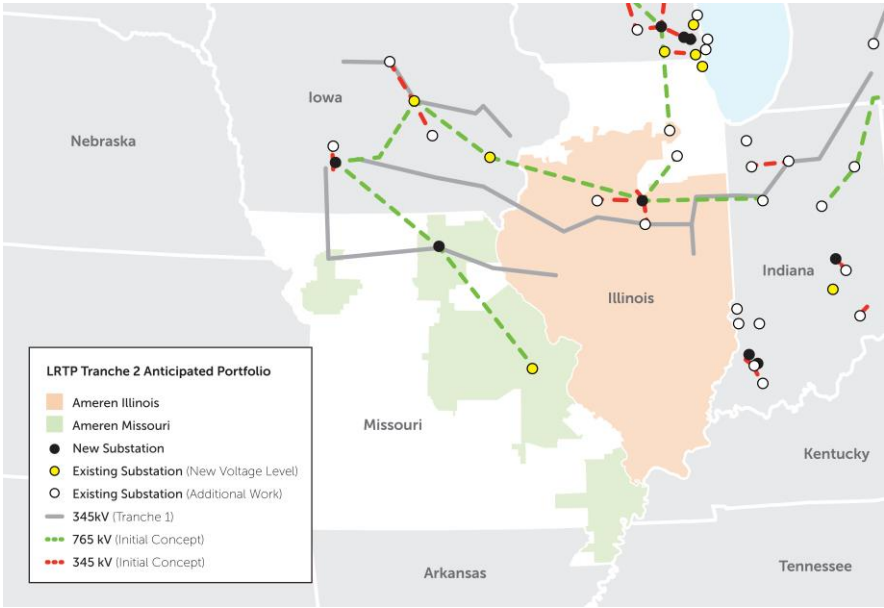

[1] Will support Ameren Missouri's compliance with the Missouri Renewable Energy Standard. [2] These projects collectively represent ~$0.85 billion of expected capital expenditures. [3] Cass County Solar facility fully subscribed under Ameren Missouri's Renewable Solutions program. Expect MoPSC approval of Cass County CCN by July. [4] Development-transfer consists of closing and taking ownership of a project prior to or during construction.

MISO Long-Range Transmission Planning Roadmap

Investing in rate regulated energy infrastructure to benefit our customers, communities, shareholders and the environment

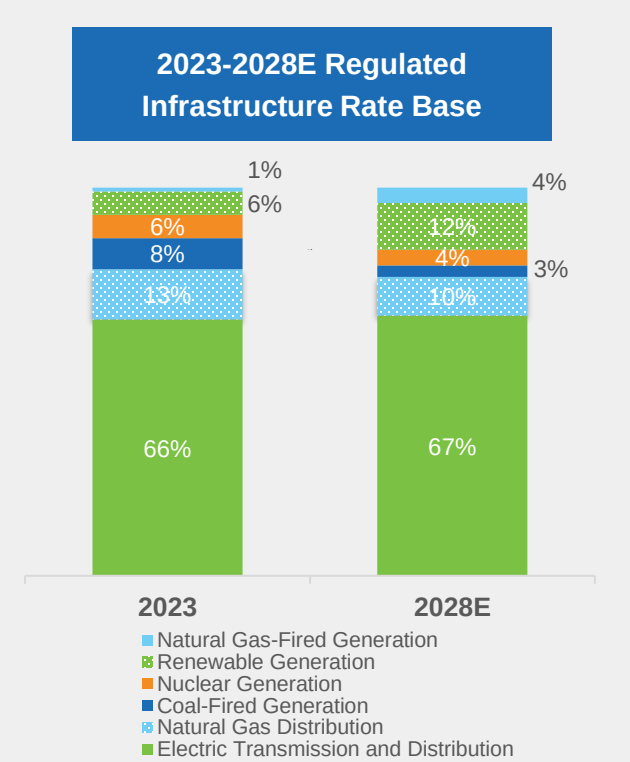

- **In Apr. 2024, ATXI was awarded third and final Tranche 1 competitive project**
  - Denny-Zachary-Thomas Hill-Maywood project represents investment of ~$0.3 billion
  - Project jointly owned by ATXI and Missouri Electric Commission at 51% and 49%, respectively
- **In Mar. 2024, MISO announced proposed Tranche 2 projects of $17 billion to $23 billion[1]**
  - Tranche 2 portfolio focuses on creating high-voltage transmission highways within the MISO region to maximize value based on land use, line distances, transfer levels, and costs
  - Reliability and economic analysis underway to identify issues with and refine proposed solutions
- **MISO expects approval of Tranche 2 portfolio in Q3 2024**

[1] Reflects MISO's cost estimate.

Investing in the Energy Grid

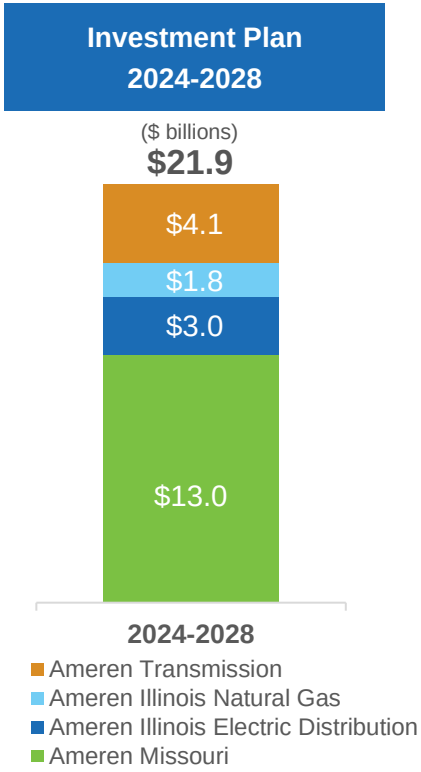

- **Investing to modernize energy grid, making it cleaner, safer, more reliable, resilient and secure**
  - Ameren Missouri Smart Energy Plan filed with the MoPSC supporting infrastructure investment to modernize the grid
  - Expect greater transmission investments to support additional renewable generation
  - Provide customers with new and improved tools to manage energy usage
- **Transitioning to cleaner energy portfolio - target net-zero carbon emissions by 2045[1]**
  - Expect to add 2,800 MWs of renewable generation by 2030; total of 4,700 MWs by 2036
  - Expected retirement of coal-fired energy centers
    - Rush Island in 2024; Sioux in 2032; Labadie: 2 units in 2036, 2 units in 2042
  - As of Dec. 31, 2023, coal-fired energy center rate base was ~$1.9 billion
- **By 2028, rate base expected to be 77% electric and natural gas transmission and distribution, 12% renewable generation and 4% nuclear generation**
- **Ameren's estimated coal-related revenues in 2023 were 14%[2] and coal-fired generation rate base expected to be 3% by the end of 2028**
  - Coal-related capital expenditures for 2024-2028 are expected to be ~$0.9 billion, or ~4% of Ameren's five-year plan

[1] Ameren's goals include both Scope 1 and 2 emissions including other greenhouse gas emissions of methane, nitrous oxide and sulfur hexafluoride. [2] See page 35 for additional details and calculations.

Robust Investment Opportunities Across All Businesses Over Next Decade[1]

Modernizing the grid and investing in cleaner generation

$55B+

Strong Pipeline of Regulated Infrastructure Investments 2024-2033

- Modernize electric and gas transmission and distribution grid
- Operate generation facilities safely and reliably
- Comply with regulatory requirements
- Renewable, simple-cycle and combined-cycle generation investment opportunities at Ameren Missouri
- Regionally beneficial transmission projects included in MISO's LRTP to support clean energy transition
- Electrification of transportation investment opportunities
- Assumes constructive energy policies and ratemaking

[1] Effective as of Feb. 23, 2024 Earnings Conference Call.

Financial and Regulatory Updates

Ameren Transmission
Monopole Tower 2024

2024 First Quarter Earnings Analysis – Key Drivers

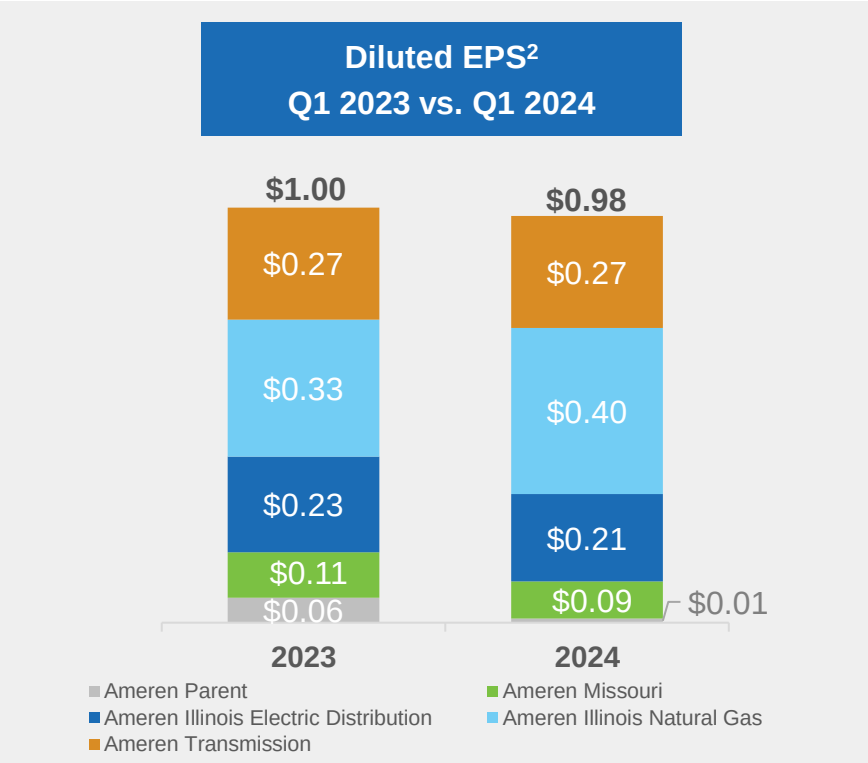

↓ **Parent Company and Other results**
- — Reduced tax benefits for share-based compensation: $(0.03)

↓ **Ameren Missouri earnings**
- — Higher operations and maintenance expenses[1]: $(0.07)
  - Charge for proposed additional mitigation relief related to Rush Island Energy Center litigation: $(0.04)
- — Higher interest expense primarily due to higher debt balances: $(0.03)
- — New electric service rates effective July 9, 2023: +$0.04
- — Increased investments in infrastructure eligible for PISA and AFUDC: +$0.03
- — Higher electric retail sales, partially offset by milder weather: ~+$0.02
  - Weather vs. 2023: ~$(0.02); vs. normal ~$(0.07)

↓ **Ameren Illinois Electric Distribution earnings**
- — Lower allowed ROE

↔ **Ameren Transmission earnings**
- — Increased investments in infrastructure, offset primarily by lower AFUDC due to timing of financings and project expenditures

↑ **Ameren Illinois Natural Gas earnings**
- — New delivery service rates effective Nov. 28, 2023: +$0.04
- — Change in rate design; not expected to impact full-year results: +$0.03

[1] Not subject to regulatory recovery mechanisms including riders and trackers. [2] EPS drivers are calculated using 2023 weighted-average basic common shares outstanding. The impact of higher weighted-average basic common shares outstanding in 2024 is $(0.02).

Financing

Debt Financing

- **On Jan. 9, 2024, Ameren Missouri issued $350 million of 5.25% first mortgage bonds due 2054**
  - Net proceeds were used to fund capital expenditures and/or refinance short-term debt
- **On Apr. 4, 2024, Ameren Missouri issued $500 million of 5.20% first mortgage bonds due 2034**
  - Net proceeds were used to fund capital expenditures and/or refinance short-term debt

Equity Financing

- **As of Mar. 31, 2024, ~$770 million of common stock available for sale under the $1.75 billion ATM equity program to support expected equity needs in 2024 and beyond**
  - Expected equity issuances in 2024 totaling ~$300 million[1]
  - Entered into forward sale agreements to fulfill ~$230 million; expect to issue ~2.9 million common shares by year-end upon settlement
  - Expect remainder of 2024 equity needs from DRIP/401(k)

Credit Ratings[2] and External Debt Balances

As of Mar. 31, 2024	$ in millions	Moody's	S&P
Ameren Corporation (Issuer: Baa1/BBB+)

ATXI (Issuer: A2/--)			
• Senior unsecured long-term debt	$570	A2	—

[2] A credit rating is not a recommendation to buy, sell, or hold any security and may be suspended, revised, or withdrawn at any time.

[1] Issued and effective as of Feb. 23, 2024 Earnings Conference Call.

Missouri Electric Regulatory Matters

Securitization of Rush Island

- **On Nov. 21, 2023, filed for securitization of costs associated with the Rush Island Energy Center**
  - Requested ~$519 million be securitized and recovered
  - Includes undepreciated plant, decommissioning costs, materials and supplies inventory, upfront financing costs, among others
  - Expect securitization to result in significant savings for customers as compared to financing and recovery through traditional ratemaking
- **In March 2024, intervenors filed updated recommendations on securitization**
  - MoPSC Staff recommended $497 million be securitized and recovered
  - Office of Public Counsel opposed securitization
- **Expect MoPSC securitization decision by June 21, 2024**
- **Rush Island Energy Center scheduled to retire Oct. 15, 2024**

Federal Regulatory Matters

Rush Island New Source Review Proceedings

- **In Dec. 2021, Ameren Missouri announced its intention to accelerate the Rush Island Energy Center retirement, in lieu of installing a flue gas desulfurization scrubber system**
- **In March 2024, the District Court[1] ordered parties to file proposed orders outlining additional mitigation relief programs beyond plant closure**
  - On May 1, 2024, Ameren Missouri and the U.S. Department of Justice (DOJ) filed proposed mitigation relief for district court consideration
  - Programs proposed by Ameren Missouri valued at $20 million[2]
  - DOJ estimates the cost of its proposal to be $120 million
  - Expect hearings to take place mid-2024
  - Expect a decision from the District Court in second half of 2024

[1] The U.S. District Court for the Eastern District of Missouri. [2] Ameren Missouri accrued $5 million and $15 million in Dec. 2022 and Mar. 2024, respectively.

Illinois Regulatory Matters

Electric Distribution Reconciliation for 2023

- **In Apr. 2024, requested $160 million reconciliation adjustment to the 2023 revenue requirement reflecting actual costs**
  - Based on 2023 year-end rate base, ROE, and 50% equity ratio
  - Includes investments related to 2023 storm response and ROE increase tied to the average 2023 30-year U.S. Treasury rate
  - Expect ICC decision by Dec. 2024
  - Applied to customer bills beginning Jan. 2025, and recovered throughout the year, replacing prior year reconciliation adjustment of $110 million, for a net customer impact of $50 million or ~1.5% increase in total average residential bill

Illinois Multi-Year Rate Plan for 2024 - 2027

Electric Distribution Rehearing[1]

- **In Apr. 2024, Ameren Illinois requested a cumulative revenue increase from 2023 of $305 million**
  - Includes 2023 rate base and base level of grid reliability investment
  - Base level of grid reliability investment includes preventative and corrective maintenance, inventory, metering, new business, customer relocation, digital, facilities, and fleet
- **In Mar. 2024, Staff recommended a cumulative revenue increase from 2023 of $283 million**
  - Variance from Ameren Illinois request driven primarily by removal of OPEB from rate base ($13 million) and 2023 projects Staff deemed not in scope of rehearing ($11 million)
- **On May 17, 2024, Administrative Law Judge recommended a cumulative revenue increase from 2023 of $291 million**
  - Variance from Ameren Illinois request driven primarily by removal of OPEB from rate base ($12 million)
- **ICC decision expected by late June 2024**
  - New interim rates expected to be effective by July
  - Ameren Illinois' request would result in ~2% increase to total average residential bill

	AIC REHEARING REQUEST			
Key Components	**2024**	**2025**	**2026**	**2027**
Revenue Requirement[2] *(millions)*	$1,213	$1,299	$1,369	$1,417
Average Rate Base *(billions)*	$4.2	$4.5	$4.7	$4.9

	ADMINISTRATIVE LAW JUDGE RECOMMENDATION			
Key Components	**2024**	**2025**	**2026**	**2027**
Revenue Requirement *(millions)*	$1,203	$1,288	$1,357	$1,404
Average Rate Base *(billions)*	$4.1	$4.3	$4.6	$4.8

[1] Data provided in rehearing testimony is based upon the original record of Docket No. 23-0082. [2] Based on ROE of 8.72% and common equity layer of 50%. ROE is under appeal.

Illinois Multi-Year Rate Plan for 2024 - 2027, cont'd

Electric Distribution Revised MYRP[1]

- **In Mar. 2024, Ameren Illinois filed revised Multi-Year Grid Plan and Multi-Year Rate Plan requesting a cumulative revenue increase from 2023 of $321 million**
  - Supports an affordable, equitable transition to a clean energy future
  - Includes base level of grid reliability investments and investments to advance CEJA objectives
  - Annual revenues will reflect actual recoverable costs, year-end rate base, 50% equity layer and an 8.72% ROE[2] adjusted for any performance incentives or penalties[3]
- **In May 2024, Staff recommended a cumulative revenue increase from 2023 of $286 million**
  - Variance driven primarily by removal of certain capital projects from rate base ($13 million), removal of OPEB from rate base ($13 million) and certain O&M ($9 million)
- **Expect final order by Dec. 2024 with new rates effective Jan. 1, 2025**
  - Rates expected to supersede rates established in rehearing

	AIC REVISED MYRP REQUEST			
Key Components	**2024**	**2025**	**2026**	**2027**
Revenue Requirement *(millions)*	$1,207	$1,286	$1,371	$1,433
Average Rate Base *(billions)*	$4.2	$4.4	$4.7	$4.9

	STAFF MYRP RECOMMENDATION			
Key Components	**2024**	**2025**	**2026**	**2027**
Revenue Requirement *(millions)*	$1,192	$1,265	$1,344	$1,398
Average Rate Base *(billions)*	$4.1	$4.2	$4.5	$4.7

Rehearing Procedural Schedule Key Dates (Docket No.: 23-0082)

June 7, 2024
Ameren Rebuttal Testimony Due

July 3, 2024
Intervenor Rebuttal Testimony Due

July 30-31, 2024
Evidentiary Hearings

Oct. 8, 2024
ALJ Proposed Order

[1] 2023 rates reflected a revenue requirement of $1,112 million. ICC Dec. 2023 order approved a $50 million interim increase to rates beginning in 2024. [2] Ameren Illinois requests ICC consider increasing allowed ROE to 9.24%, which if approved as requested, would result in a cumulative revenue increase from 2023 of $339 million. [3] See page 30 for additional detail on performance metrics. ROE is under appeal.

Summary

Expect to deliver strong earnings growth in 2024 with guidance in a range of $4.52 to $4.72 per diluted share[1]

Successfully executing our strategy; well-positioned for future growth

- Focused on delivering a cleaner and sustainable energy future in a responsible manner

Strong long-term growth outlook

- Expect 6% to 8% compound annual EPS growth 2024-2028[1,2]
- Expect ~8.2% compound annual rate base growth 2023 through 2028[1]
- Strong long-term infrastructure pipeline of $55+ billion 2024-2033[1]

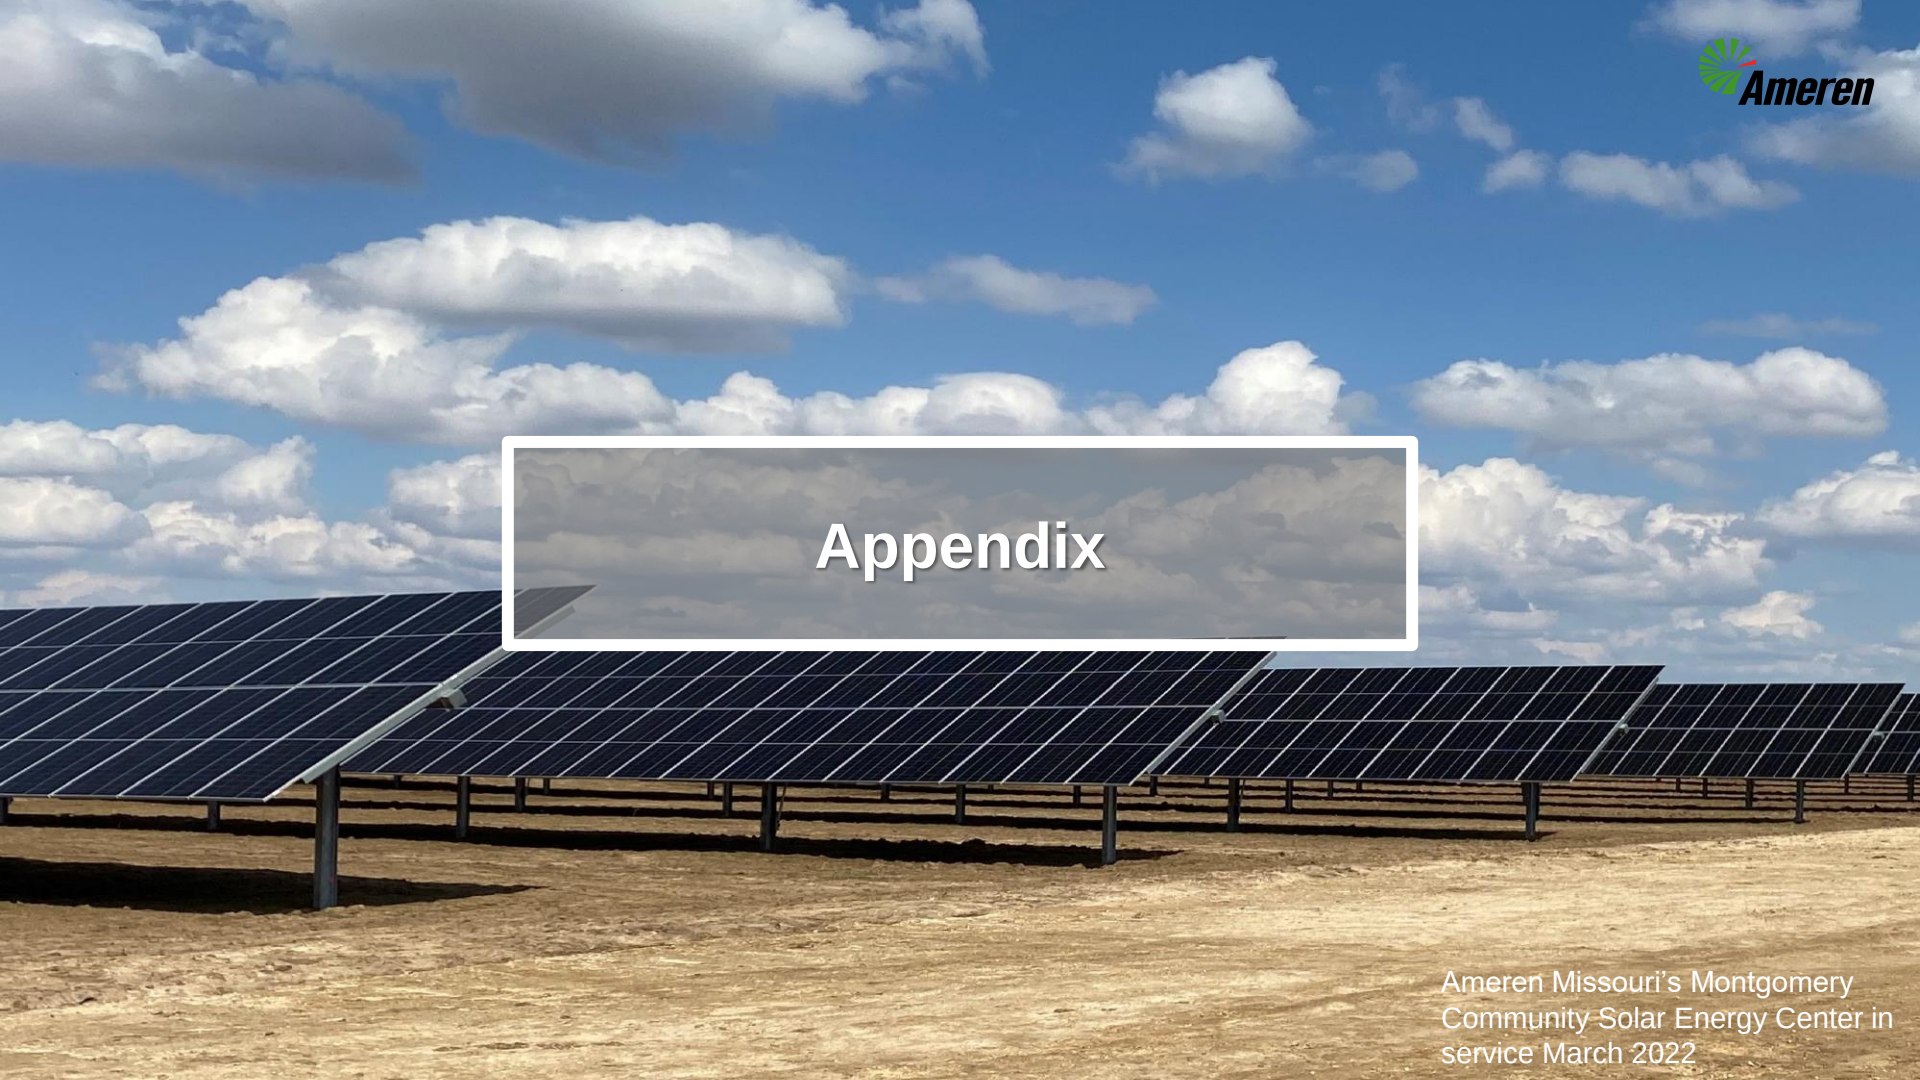

Attractive dividend

- Annualized equivalent dividend rate of $2.68 per share provides yield of 3.6%[2]
- Dividend increased 6.3% in Feb. 2024; increased 11th consecutive year
- Expect future dividend growth to be in line with long-term EPS growth expectations
- Expect payout ratio to range between 55% and 65% of annual EPS

Attractive total shareholder return potential

[1] Effective as of Feb. 23, 2024 Earnings Call. [2] Using 2024 EPS guidance range midpoint of $4.62 as the base. [3] Based on May 17, 2024 closing share price.

Appendix

Ameren Missouri's Montgomery Community Solar Energy Center in service March 2022

Our Sustainability Value Proposition

ENVIRONMENTAL STEWARDSHIP

- **Responsibly transitioning to a cleaner and more diverse portfolio**
  - Target carbon reductions from 2005 levels: 60% by 2030; 85% by 2040; net zero by 2045[1]
  - Target additional renewable resources: 2,800 MW by 2030 and total of 4,700 MWs by 2036
  - Systematic coal-fired energy center retirements; extend life of carbon-free nuclear energy center
  - Preferred plan consistent with objective of the Paris Agreement to limit global temperature rise to 1.5 degrees Celsius
- **Significant transmission investment supporting cleaner energy**
- **No cast or wrought iron pipes in natural gas system**

[1] Ameren's goals include both Scope 1 and 2 emissions including other greenhouse gas emissions of methane, nitrous oxide and sulfur hexafluoride.

SOCIAL IMPACT

- **Delivered value to customers in 2023 while focused on safety**
  - Ameren-supplied residential customer rates, on average, below Midwest average
  - Ameren achieved top quartile reliability performance[1]
  - Ameren achieved its lowest Recordable Incident Rate
- **Socially responsible and economically impactful**
  - Small and diverse business spend in MO and IL ~26% of 2023 sourceable spend
  - ~$215M to support eligible customers and charities in 2023
- **Supporting core values of diversity, equity and inclusion**
  - Inducted into Fair360 Hall of Fame in 2023; became 1 of 12 companies and only utility in Hall of Fame; previously in top 5 on utilities list since 2009
  - $10M committed to non-profits focused on DE&I 2021-2025

[1] As measured by Ameren Missouri and Ameren Illinois outage frequency indexes (SAIFI).

GOVERNANCE

- **Diverse BOD focused on strong oversight**
  - 69% women or racially/ethnically diverse; average tenure of ~8.5 years
- **BOD and committee oversight aligned with sustainability matters**
- **Strong organizational focus: Chief Sustainability, Diversity, and Philanthropy Officer, Chief Ethics and Compliance Officer and Chief Renewable Development Officer**
- **Executive compensation supports sustainable, LT performance**
  - 10% long-term incentive for clean energy transition
  - 5% short-term incentive for supplier and workforce diversity
- **Among top ranked companies in CPA-Zicklin Index for Corp. Political Disclosure and Accountability**

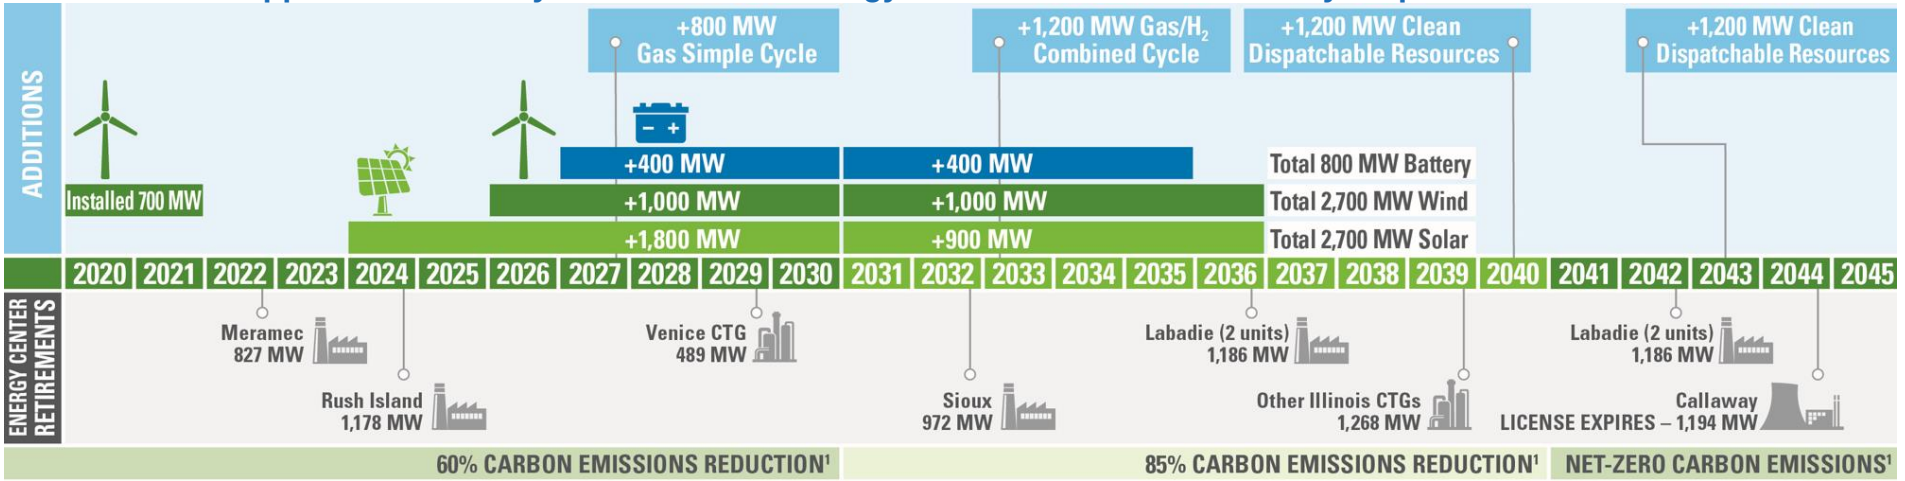

SUSTAINABLE GROWTH

- **Expect 6% to 8% EPS CAGR 2024-2028[1,2]**
- **Expect 8.2% rate base CAGR 2023-2028[1]**
- **Four regulatory jurisdictions for investment**
- **Strong long-term infrastructure investment pipeline of $55+ billion 2024-2033[1]**
- **Expect future dividend growth to be in line with long-term EPS growth expectations**

[1] Effective as of Feb. 23, 2024 Earnings Conference Call. [2] Using 2024 EPS guidance range midpoint of $4.62 as the base.

Missouri Integrated Resource Plan filed with MoPSC Sept. 2023

Least-cost approach to reliably meet customer energy needs in an environmentally responsible manner

- **Carbon emissions[1]:** Targets substantial reductions; 60% by 2030, 85% by 2040 and net-zero by 2045
- **Coal:** All energy centers retired by 2042; Rush Island advanced from 2025 to 2024, Sioux extended from 2030 to 2032
- **Renewables:** Add 2,800 MW by 2030; incremental 1,900 MW by 2036, investment opportunity of $5.3B and $4.1B, respectively
- **Natural gas:** Add 800 MW by 2027; incremental 1,200[2] MW by 2033, investment opportunity of $0.8B and $1.7B, respectively
- **Battery storage:** Add 400 MW by 2030; incremental 400 MW by 2035, investment opportunity of $0.6B and $0.7B, respectively
- **Clean dispatchable:** Add 1,200 MW by 2040; incremental 1,200 MW by 2043
- **Customer programs:** Continues robust, cost-effective energy efficiency and demand response programs
- **IRP goals:** Achievement dependent on variety of factors including cost-effective advancements in innovative clean energy technologies and constructive federal and state energy and economic policies

[1] Reductions as of end of period indicated and based off 2005 levels. Ameren's goals include both Scope 1 and 2 emissions, including other greenhouse gas emissions of methane, nitrous oxide and sulfur hexafluoride. [2] Planned transition to hydrogen or hydrogen blend with carbon capture or offset by 2040.

Ameren Missouri Smart Energy Plan filed with MoPSC on Feb. 23

Investing in rate regulated energy infrastructure to benefit our customers, shareholders and the environment

- **$1.7 billion invested in 2023 to support reliability, address aged infrastructure and provide clean energy to the customers and communities we serve**
  - Smart meter installation reached ~90% of electric customers providing more precise energy usage information to customers
  - Energized 22 new or upgraded substations providing a more reliable and resilient grid
  - Reduced customer outages despite experiencing the worst storm season in over a decade
    - Stronger poles, automated switching devices and other grid upgrades helped customers avoid 31 million minutes of outages
    - Hardened ~200 miles of circuits which withstood severe storms with 50+mph winds and experienced no damage
- **$12.4 billion[1] investment plan in 2024-2028 with focus on modernizing energy infrastructure to benefit customers**
  - Modernize grid by installing 800+ smart switches and energizing ~80 new or upgraded substations
  - Harden ~250 miles with stronger poles and wind resistant conductors to better withstand severe storms
  - Invest in ~800 MW of new dispatchable generation and ~1,775 MW of additional renewable generation
  - Drive customer reliability, enable cleaner generation, create significant jobs and stimulate economic growth
- **From Apr. 1, 2017 through Dec. 31, 2023, customer rates CAGR was 1.8%, remaining well beneath the 2.85% CAGR cap on customer rates which expired at the end of 2023[2]**

In St. Louis County, crews replaced Switchgear at a 50+ year old substation to support reliability for over 10,000 customers.

To meet the growing community's energy needs, a new substation, constructed in 2023, will benefit over 2,500 customers at the Lake of the Ozarks

[1] Excludes $0.2 billion and $0.6 billion of natural gas and other investment in Ameren Missouri's 2024 and five-year capital expenditure plans, respectively. See page 14 for Ameren's five-year capital expenditure plan.
[2] SB745, effective Aug. 2022, modified rate cap from all-in 2.85% CAGR cap on customer rates to a 2.5% average annual cap on rate impacts from PISA deferrals.

Building a Brighter and Cleaner Energy Future

Innovative Programs to Meet Customer Needs and Rising Expectations

Utility-owned solar generation in MO that benefits diverse communities with jobs training, solar education and public covered parking

IL energy legislation allows for utility-owned solar generation with optional battery pilot facilities in Peoria and East St. Louis

Incentives to support electrification and development of electric vehicle charging stations along highways and in MO and IL communities

Subscription program available to MO residential and small business customers for up to 50% of their energy usage

Subscription program available to mid-sized and large MO C&I customers and municipalities to enroll for up to 100% of their future energy usage

Robust portfolio of energy efficiency programs available to MO and IL customers to achieve energy saving goals

Illinois Multi-Year Rate Plan for 2024 - 2027

Electric Distribution MYRP ICC Dec. Order

- **In Dec. 2023, ICC approved a cumulative revenue increase from 2023 of $142 million versus Ameren Illinois' request of $444 million**
  - ICC rejected Multi-Year Grid Plan and adopted alternative rate base and revenue requirement for each year which will remain in effect unless rehearing or an approved revised Grid Plan results in an updated revenue requirement
  - New rates were effective Jan. 1, 2024
  - Annual reconciliations incorporate year-end rate base and possibility of performance metrics incentives or penalties[1]
- **In Jan. 2024, Ameren Illinois filed for rehearing with the ICC**
  - Rehearing request focused on ROE, use of the 2022 rate base for establishing revenue requirement for 2024-2027, legal standards applied when establishing the order, among other things
  - On Jan. 31, ICC ordered a partial rehearing regarding a base level of grid reliability investments, use of 2022 rate base and certain O&M items
- **In Jan. 2024, Ameren Illinois appealed with Illinois 5th District Appellate Court**
  - Appeal focused on ROE, among other things
  - Court under no deadline to address appeal

	ICC ORDER DEC. 2023 – ORIGINAL RECORD			
Key Components	**2024**	**2025**	**2026**	**2027**
Revenue Requirement[1] *(millions)*	$1,162[3]	$1,210	$1,242	$1,255
Return on Equity	8.72%	8.72%	8.72%	8.72%
Common Equity Ratio	50.0%	50.0%	50.0%	50.0%
Average Rate Base[2] *(billions)*	$3.9	$3.9	$3.9	$3.9

[1] Annual reconciliation for prior year initiated by May 1 annually. Subject to cap on actual costs of 105% of the approved revenue requirement, excluding certain variable items such as storms, weather-related events, new business, change in interest rates, change in taxes, facility relocations, changes in pension/other post-employment benefits, amortization expenses and changes in timing of when an expenditure or investment is made. Cap also does not apply to costs recovered through riders. [2] ICC adopted the 2022 year-end rate base approved in Docket 23-0320 of ~$3.872 billion, which will continue through 2027 unless rehearing or approval of a revised Grid Plan results in an updated revenue requirement. [3] 2023 rates reflected a revenue requirement of $1,112 million. ICC Dec. 2023 order approved a $50 million interim increase to rates beginning in 2024.

Ameren Illinois Electric Distribution Multi-Year Rate Plan Performance Metrics

Metric	Description	Adjustment / Incentive (+/- bps)
1. Reliability	Improve System Average Interruption Duration Index (SAIDI) systemwide; improve interruption and duration outages (SAIDI, SAIFI, CEMI, and CELID) in environmental justice and equity investment eligible communities	7
2. Peak Load Reduction	Reduce peak loads through Electric Vehicle Charging Program enrollment and other Demand Response programs	6
3. Supplier Diversity	Expand diverse contractor participation	3
4. Customer Affordability	Reduce disconnections for customers in targeted zip codes with high rates of disconnections	3
5. Interconnection Requests	Enhance level of service for utility review time of interconnection requests	3
6. Customer Service	Provide industry-leading customer service performance for expeditiously answering customer calls	1
7. Distribution Automation	Enhance ability to effectively and efficiently achieve current and anticipated future energy needs by serving more customers on circuits with self-healing distribution automation (DA) schemes	1
	Total Performance Adjustments / Incentives	**+/- 24 bps**

Illinois Regulatory Matters

Natural Gas Distribution

- **On Nov. 16, 2023, ICC approved a $112 million annual base rate increase; includes $77 million that would otherwise be recovered in 2024 under riders**
  - 2024 future test year
  - 9.44% allowed return on equity and 50% common equity ratio
  - $2.85 billion rate base (vs. $2.9 billion request)
  - Rate base is year-end 2023 plus estimated average 2024 rate base additions
  - New rates were effective late Nov. 2023
- **On Jan. 3, 2024, ICC denied Ameren Illinois rehearing request**
- **On Jan. 3, 2024, Ameren Illinois appealed to the Illinois 5th District Appellate Court**
  - Appeal focused on ROE, transmission and distribution plant disallowances, among other things
  - Court under no deadline to address appeal

Federal Energy Legislation

- **Inflation Reduction Act enacted in Aug. 2022**
  - Enhances affordability of the clean energy transition for customers in Missouri and Illinois
    - Ameren Missouri customers expected to save ~$1.6 billion by 2033, as result of wind and solar tax credits[1]
    - Ameren Illinois customers expected to see benefits of tax credits over time through reduced purchased power costs
  - Do not expect corporate minimum tax of 15% on adjusted financial statement income to apply during the 2024-2028 capital plan[1,2]
    - Pre-tax book income adjusted for tax depreciation
    - Liability reduced by up to 75% by renewable energy tax credits
    - Excludes any potential benefit resulting from nuclear PTCs
    - Potential incremental annual cash tax payments through the current capital plan not expected to be material
  - Allows for a 10% PTC or ITC adder for siting projects at existing energy communities, including retired coal-fired energy center locations

[1] Estimate is based on renewable projects included in Ameren Missouri 2023 IRP. [2] Estimate is affected by amount and timing of capital expenditures placed in-service or retired, the timing of rate reviews, and additional guidance that may be issued by the IRS or the Department of Treasury, among other items. We continue to update our corporate minimum tax model as new information arises.

Focused on Disciplined Cost Management to Drive Affordability

Optimize operating performance to benefit our customers, shareholders and the environment

- **Track record of disciplined cost management**
  - Target flat operations and maintenance expenses through 2028
- **Maintaining focus on continuous improvement and disciplined cost management through numerous customer affordability initiatives**
  - Cross-functional collaboration
  - Automation of field operations processes
  - Customer service optimization and organizational streamlining
  - Fossil and nuclear plant optimization
  - Complete smart meter installation
  - Shared services optimization to automate and streamline processes in finance, supply chain and workforce
  - Support economic development by attracting new business and expanding opportunities with existing customers
- **Labor contracts extend through mid-to-late 2026 for nearly all Ameren union represented employees**
  - Labor makes up ~40% of operations and maintenance expenses

Long-Term Debt Maturities and Interest Rates

Issuer	2024[1]	2025	2026	2027	2028
Ameren Corp.	$450 million 2.50% senior unsecured notes		$350 million 3.65% senior unsecured notes $600 million 5.70% senior unsecured notes	$500 million 1.95% senior unsecured notes	$450 million 1.75% senior unsecured notes
Ameren Missouri	$350 million 3.50% senior secured notes			$400 million 2.95% senior secured notes	
Ameren Illinois		$300 million 3.25% senior secured notes			$430 million 3.80% first mortgage bonds $60 million 6.125% senior secured notes
ATXI	$49 million 3.43% senior unsecured notes			$50 million 3.43% senior unsecured notes	
Total	**$849 million**	**$300 million**	**$950 million**	**$950 million**	**$940 million**

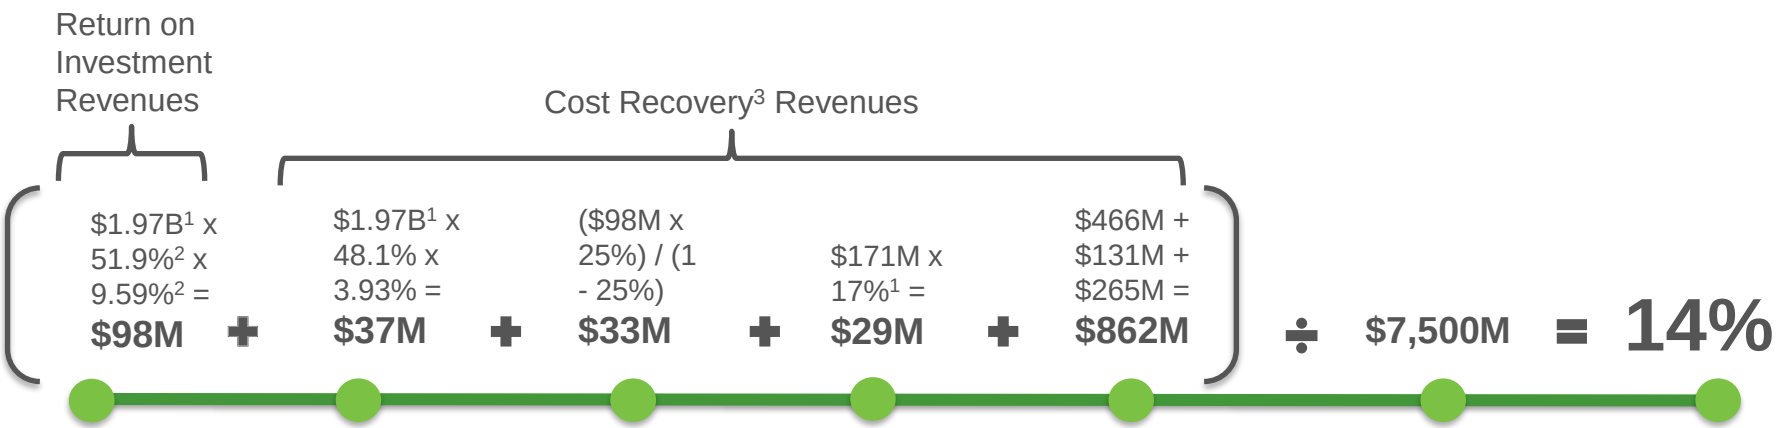

- All long-term debt is at fixed rates; refinancing of commercial paper borrowings subject to changes in interest rates

Recovery of Interest Expense

- A portion of interest cost is capitalized in the normal course as construction work in progress
- Ameren Illinois Electric Distribution and Ameren Transmission recovered through annual reconciliation process
- Ameren Illinois Natural Gas recovered through periodic future test year rate reviews
- Ameren Missouri recovered through periodic rate reviews; cost of capital trued-up as of Dec. 31, 2022 in recent rate review

[1] 2024 long-term debt maturities for ATXI and Ameren Corp. are due Aug. 31 and Sep. 15, respectively. Ameren Missouri $350 million of senior secured notes matured Apr. 15.

Ameren's Estimated Coal-Related Revenues in 2023

Return on Equity

51.9% of Ameren Missouri's rate base investment funded with equity at an allowed rate of return of 9.59%[2]

Interest Expense

48.1% of Ameren Missouri's rate base investment funded with debt at an average interest rate of 3.93%

Tax Expense

Federal (21%) and Missouri state (4%) income taxes charged on Ameren Missouri's ROE

Property Taxes

Ameren Missouri's total property tax on capital assets of $171M

Fuel, other O&M and depreciation

Ameren Missouri coal-related fuel, other O&M and depreciation expenses of $466M, $131M and $265M, respectively

Ameren's 2023 Total Revenue

Ameren Coal-Related Revenues

[1] ~17%, or $1.97 billion, of Ameren Missouri's $11.6 billion rate base in the 2022 rate review was coal-related. [2] At the time of true-up testimony, MoPSC Staff's midpoint ROE recommendation was 9.59% and both Staff and Ameren Missouri filings reflected a 51.9% common equity ratio. [3] Costs according to Ameren Missouri 2022 FERC Form 1 included as proxy for 2022 electric rate review, which utilized a true-up date of Dec. 31, 2022.
