"With City Vista, we're bringing beautiful new paired homes to Escondido, a highly desirable city in San Diego County. The new community includes planned on-site amenities and is close to local schools, parks and outdoor recreation," said Steve Ruffner, Regional General Manager of KB Home's Coastal division. "At KB Home, we focus on creating value through competitive, transparent pricing and giving buyers the ability to personalize their home based on what matters most to them. We put them in control, so they're not paying for features they don't value or compromising on ones they do."

KB homes are engineered to be highly energy and water efficient and include features that support healthier indoor environments. They are designed to be ENERGY STAR® certified, a standard that fewer than 12% of new homes nationwide meet, offering greater comfort, well-being and utility cost savings compared to new homes without certification.

Additionally, the homes at City Vista are built to the Insurance Institute for Business & Home Safety's (IBHS®) highest wildfire resilience standards, incorporating fire-resistant materials and construction methods designed to protect against direct flame contact, radiant heat and wind-driven embers.
