The homes at Elevon are designed for contemporary living, with modern kitchens overlooking large great rooms, expansive bedroom suites with walk-in closets, and lofts. Homebuyers can personalize their new home, from floor plan and exterior style to where they live in the community, and then bring their vision to life at the KB Home Design Studio, where they can select from a wide range of interior design choices that fit their style and budget.

"We are pleased to offer area homebuyers new one- and two-story homes with outstanding community amenities, including a pool, splash zone, walking trails, playgrounds and multiple sports courts," said Ben Clark, President of KB Home's Dallas division. "At KB Home, we focus on creating value through competitive, transparent pricing and giving buyers the ability to personalize their home based on what matters most to them. We put the customer in control, so they're not paying for features they don't value or compromising on ones they do."

KB homes are engineered to be highly energy and water efficient and include features that support healthier indoor environments. They are designed to be ENERGY STAR<sup>®</sup> certified, a standard that fewer than 12% of new homes nationwide meet, offering greater comfort, well-being and utility cost savings compared to new homes without certification.

The Elevon sales office and model home are now open for walk-in visits and private in-person tours by appointment. Live video tours are also available. For more information on KB Home, call 888-KB-HOMES or visit [kbhome.com](http://kbhome.com).
