

ARITZIA

Aritzia Inc.

MANAGEMENT'S DISCUSSION AND ANALYSIS Second Quarter Ended August 28, 2022

October 12, 2022

The following Management's Discussion and Analysis ("MD&A") dated October 12, 2022 is intended to assist readers in understanding the business environment, strategies and performance and risk factors of Aritzia Inc. (together with its consolidated subsidiaries, referred to herein as "Aritzia", the "Company", "we", "us" or "our"). This MD&A provides the reader with a view and analysis, from the perspective of management, of the Company's financial results for the 13-week and 26-week periods ended August 28, 2022. This MD&A should be read in conjunction with the Company's unaudited condensed interim consolidated financial statements and accompanying notes for Q2 2023 and YTD 2023 (as hereinafter defined) and the Company's audited consolidated financial statements and accompanying notes for Fiscal 2022 (as hereinafter defined) and the related Management's Discussion and Analysis.

FORWARD-LOOKING INFORMATION

Certain statements made in this MD&A may constitute forward-looking information under applicable securities laws. Forward-looking statements are based on information currently available to management and on estimates and assumptions made by management regarding, among other things, general economic and geopolitical conditions and the competitive environment within the retail industry, in light of its experience and perceptions of historical trends, current conditions and expected future developments, as well as other factors that are believed to be appropriate and reasonable in the circumstances. These statements may relate to our future financial outlook, our plans relating to our new distribution facility, investments in our digital infrastructure and the anticipated results therefrom, our continued focus on driving digital innovation and eCommerce and Omni capabilities, our investment in talent and technology, our ability to maintain momentum in our business and advance our strategic growth drivers, our approach to boutique growth, the Company's response to supply chain disruptions, geopolitical risks, inflationary pressures and labour shortages, our outlook for: (i) net revenue in the third quarter of Fiscal 2023, (ii) net revenue in Fiscal 2023, (iii) gross profit margin in Fiscal 2023, (iv) SG&A as a percent of net revenue in Fiscal 2023, (v) net capital expenditure in Fiscal 2023, and (vi) new boutiques and expansion or repositioning of existing boutiques in Fiscal 2023. Particularly, information regarding our expectations of future results, targets, performance achievements, prospects or opportunities is forward-looking information. As the context requires, this may include certain targets as disclosed in the prospectus for our initial public offering, which are based on the factors and assumptions, and subject to the risks, as set out therein and herein. Often but not always, forward-looking statements can be identified by the use of forward-looking terminology such as "plans", "targets", "expects" or "does not expect", "is expected", "an opportunity exists", "budget", "scheduled", "estimates", "outlook", "forecasts", "projection", "prospects", "strategy", "intends", "anticipates", "does not anticipate", "believes", or variations of such words and phrases or state that certain actions, events or results "may", "could", "would", "might", "will", "will be taken", "occur" or "be achieved". In addition, any statements that refer to expectations, intentions, projections or other characterizations of future events or circumstances contain forward-looking information. Statements containing forward-looking information are not historical facts but instead represent our expectations, estimates and projections regarding future events or circumstances.

Implicit in forward-looking statements in respect of the Company's expectations for: (i) net revenue in the range of \$565 million to \$590 million for the third quarter of Fiscal 2023, representing an increase of approximately 25% to 30% from last year, (ii) net revenue in the range of \$2.0 billion to \$2.05 billion in Fiscal 2023, representing an increase of approximately 34% to 37% from Fiscal 2022, (iii) gross profit margin to decrease by approximately 100 bps to 150 bps compared to last year, (iv) SG&A as a percent of net revenue to increase approximately 50 bps to 100 bps compared to last year and (v) net capital expenditures in the range of \$110 million to \$120 million, are certain current assumptions including the continued strength in the United States across both its retail and eCommerce channels, as well as strong recovery of the Company's business in Canada. The Company's forward-looking information is also based upon assumptions regarding the overall retail environment, inflationary pressures,

the COVID-19 pandemic and related health and safety protocols and currency exchange rates for Fiscal 2023. Specifically, we have assumed the following exchange rates for Fiscal 2023: USD:CAD = 1:1.33.

Given this unprecedented period of uncertainty, there can be no assurances regarding: (a) the limitations or restrictions that may be placed on servicing our clients in reopened boutiques or potential re-closing of boutiques or the duration of any such limitations or restrictions; (b) the COVID-19-related impacts on Aritzia's business, operations, labour force, supply chain performance and growth strategies, (c) Aritzia's ability to mitigate such impacts, including ongoing measures to enhance short-term liquidity, contain costs and safeguard the business; (d) general economic conditions related to COVID-19 and impacts to consumer discretionary spending and shopping habits; (e) credit, market, currency, commodity market, inflation, interest rates, global supply chains, operational, and liquidity risks generally; (f) geopolitical events; and (g) other risks inherent to Aritzia's business and/or factors beyond its control which could have a material adverse effect on the Company.

Many factors could cause our actual results, level of activity, performance or achievements or future events or developments to differ materially from those expressed or implied by the forward-looking statements, including, without limitation, the factors discussed in the "Risk Factors" section of this MD&A and in the Company's annual information form dated May 5, 2022 for Fiscal 2022 (the "AIF"). A copy of the AIF and the Company's other publicly filed documents can be accessed under the Company's profile on the System for Electronic Document Analysis and Retrieval ("SEDAR") at www.sedar.com.

The Company cautions that the list of risk factors and uncertainties described in the AIF is not exhaustive and other factors could also adversely affect its results. Readers are urged to consider the risks, uncertainties and assumptions carefully in evaluating the forward-looking information and are cautioned not to place undue reliance on such information. The forward-looking information contained in this MD&A represents our expectations as of the date of this MD&A (or as the date they are otherwise stated to be made), and are subject to change after such date. However, we disclaim any intention or obligation or undertaking to update or revise any forward-looking information whether as a result of new information, future events or otherwise, except as required under applicable securities laws.

BASIS OF PRESENTATION

Our audited annual consolidated financial statements and unaudited condensed interim consolidated financial statements (together, the "consolidated financial statements") have been prepared in accordance with International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board ("IASB"), using the accounting policies described therein. All amounts are presented in thousands of Canadian dollars unless otherwise indicated. We manage our business on the basis of one operating and reportable segment.

All references in this MD&A to "Q2 2023" are to our 13-week period ended August 28, 2022, and to "Q2 2022" are to our 13-week period ended August 29, 2021, to "YTD 2023" are to our 26-week period ended August 28, 2022, to "YTD 2022" are to our 26-week period ended August 29, 2021. All references in this MD&A to "Fiscal 2023" are to our 52-week period ending February 26, 2023, and to "Fiscal 2022" are to our 52-week period ended February 27, 2022.

The unaudited condensed interim consolidated financial statements and accompanying notes for Q2 2023 and YTD 2023 and this MD&A were authorized for issue by the Company's Board of Directors.

OVERVIEW

Aritzia is a vertically integrated design house with an innovative global platform, home to an extensive portfolio of exclusive brands for every function and individual aesthetic. We're about good design, quality materials and timeless style that endures and inspires — all with the well-being of our People and Planet in mind. We call this Everyday Luxury.

Founded in 1984, in Vancouver, Canada, we create and curate products that are both beautiful and beautifully made, cultivate aspirational environments, offer engaging service that delights, and connect through captivating communications. We pride ourselves on providing immersive and highly personal shopping experiences at aritzia.com and in our 100+ boutiques throughout North America to everyone, everywhere.

Everyday Luxury. To Elevate Your World.™

RECENT EVENT

Normal Course Issuer Bid and Automatic Share Purchase Plan

On January 12, 2022, the Company announced the commencement of a normal course issuer bid (the "NCIB") to repurchase and cancel up to 3,732,725 of its subordinate voting shares, representing approximately 5% of the public float of 74,654,507, over the 12-month period commencing January 17, 2022 and ending January 16, 2023.

On May 18, 2022, the Company entered into an automatic share purchase plan (the "ASPP") with a designated broker for the purpose of permitting the Company to purchase its subordinate voting shares under the NCIB during self-imposed blackout periods.

Between January 17, 2022 and October 11, 2022, the Company repurchased a total of 1,783,780 subordinate voting shares for cancellation at an average price of \$38.77 per subordinate voting share for total cash consideration of \$69.2 million.

COVID-19 PANDEMIC

On March 11, 2020, the World Health Organization declared the outbreak of COVID-19 a worldwide pandemic. Aritzia's priorities have been the well-being of our people, clients and supporting the community while safeguarding the long-term financial strength of our business. In order to ensure the health and safety of our people, clients and communities, we implemented stringent protocols across our boutiques, distribution centre and support offices.

Since the start of the pandemic, the Company experienced intermittent temporary boutique closures and capacity restrictions as a result of government and health authority guidance. In the first quarter of Fiscal 2022, 34 locations in Ontario, Quebec and Nova Scotia were temporarily closed for approximately two-thirds of the quarter. As at July 12, 2021, all of the Company's boutiques had reopened. The Company's operations continue to be indirectly impacted by the COVID-19 pandemic through global supply chain disruptions.

The extent of the impact of COVID-19 on future periods will depend on future developments, including the duration or resurgence of the pandemic, the related government responses and the impact on the global economy, which are uncertain and cannot be predicted. Aritzia believes its eCommerce business is well-positioned to moderate these impacts.

See also the "Forward-Looking Information" and "Risk Factors" sections of this MD&A and in our AIF.

FINANCIAL HIGHLIGHTS

We refer the reader to the section entitled "How We Assess the Performance of Our Business" of this MD&A for the definition of the items discussed below and, when applicable, to the table entitled "Selected Consolidated Financial Information" for reconciliations of non-IFRS measures with the most directly comparable IFRS measure.

Q2 2023

- **Net revenue** increased 50.1% to \$525.5 million from Q2 2022, achieving comparable sales growth⁽¹⁾ of 28.3% compared to Q2 2022
- **USA revenue** increased 79.8% to \$263.2 million from Q2 2022, comprising 50.1% of net revenue in Q2 2023
- **Retail revenue** increased 60.1% to \$351.6 million from Q2 2022
- **eCommerce revenue** increased 33.3% to \$173.9 million from Q2 2022, comprising 33.1% of net revenue in Q2 2023
- **Gross profit margin**⁽¹⁾ decreased 270 bps to 41.9% from 44.6% in Q2 2022
- **Net income** increased 16.1% to \$46.3 million from Q2 2022
- **Adjusted EBITDA**⁽¹⁾ increased 13.3% to \$82.6 million from Q2 2022
- **Adjusted Net Income**⁽¹⁾ of \$0.44 per diluted share, compared to \$0.39 per diluted share in Q2 2022

YTD 2023

- **Net revenue** increased 56.4% to \$933.4 million, compared to \$597.0 million in YTD 2022
- **USA revenue** increased 80.3% to \$470.0 million from YTD 2022, comprising 50.3% of net revenue in YTD 2023
- **Retail revenue** increased 76.4% to \$639.5 million from YTD 2022

- **eCommerce revenue** increased 25.4% to \$294.0 million from YTD 2022, comprising 31.5% of net revenues in YTD 2023
- **Gross profit margin**⁽¹⁾ decreased 140 bps to 43.0% from 44.4% in YTD 2022
- **Net income** increased 37.7% to \$79.5 million from YTD 2022
- **Adjusted EBITDA**⁽¹⁾ increased 33.8% to \$152.2 million from YTD 2022
- **Adjusted Net Income**⁽¹⁾ of \$0.79 per diluted share, compared to \$0.57 per diluted share in YTD 2022

⁽¹⁾ See the sections below entitled “How We Assess the Performance of our Business”, “Selected Consolidated Financial Information” and “Non-IFRS Measures including Retail Industry Metrics” for further details concerning gross profit margin, comparable sales growth, Adjusted EBITDA, Adjusted Net Income and Adjusted Net Income per diluted share including definitions and reconciliations to the relevant reported IFRS measure.

OUTLOOK

The Company's strong momentum continued into the third quarter of Fiscal 2023. Aritzia is on track to deliver net revenue in the range of \$565 million to \$590 million in Q3 2023, representing an increase of approximately 25% to 30% from last year. This reflects continued strength in the United States across both its retail and eCommerce channels, as well as strong recovery of the Company's business in Canada.

For Fiscal 2023, Aritzia currently expects the following:

- Net revenue in the range of \$2.0 billion to \$2.05 billion, representing an increase of approximately 34% to 37% from Fiscal 2022, up from the Company's previous outlook of \$1.875 billion to \$1.9 billion. This is led by continued out performance in the United States across both channels, ongoing growth in Canada driven by eCommerce as well as the recovery in its boutiques, and contribution from retail expansion including:
 - Eight new boutiques with all but one in the United States, including five boutiques in the United States and one in Canada already opened; and
 - Five boutique expansions or repositions, including four locations in Canada and one in the United States.
- Gross profit margin to decrease by approximately 100 bps to 150 bps compared to last year, reflecting ongoing impacts from global supply chain disruptions, inflationary pressure, and discontinued COVID relief subsidies.
- SG&A as a percent of net revenue to increase approximately 50 bps to 100 bps compared to last year, reflecting ongoing investments to fuel our future growth;
- Net capital expenditures in the range of \$110 million to \$120 million, comprised of:
 - Boutique network growth,
 - New distribution centre in the Greater Toronto area, and
 - Ongoing investments in technology and infrastructure to enhance the Company's eCommerce capabilities and omni-channel experience, as well as support office expansion.

The foregoing outlook is based on management's current strategies and may be considered forward-looking information under applicable securities laws. Such outlook is based on estimates and assumptions made by management regarding, among other things, general economic and geopolitical conditions and the competitive environment as well as further COVID-19 resurgences. Readers are cautioned that actual results may vary. See also the “Forward-Looking Information” and “Risk Factors” sections of this MD&A and in our AIF.

SELECTED FINANCIAL INFORMATION

The following table summarizes our recent results of operations for the periods indicated. The selected consolidated financial information set out below has been derived from our audited annual consolidated financial statements and related notes. The selected consolidated financial information set out below for Q2 2023 and Q2 2022 is unaudited.

Total assets	\$ 1,514,373	\$ 1,424,586
Total non-current liabilities	\$ 508,303	\$ 506,450

SUMMARY OF FACTORS AFFECTING PERFORMANCE

We generally believe that our performance and future success depend on a number of factors that present significant opportunities for us. These factors are also subject to a number of inherent risks and challenges, some of which are discussed below. See also the “Risk Factors” section of this MD&A and in our AIF.

Our Brand and Products

Our exclusive fashion brands offer a strategic mix of exclusive brands that have been thoughtfully conceived, created, and developed. We believe that a key area of differentiation for us is that we design apparel and accessories for our collection of exclusive brands. Our multi-brand strategy gives us control over our products and provides us with the flexibility to optimize our brand mix as needed to address changes in client demand and fashion preferences, which has been critical to our growth while also reducing risk.

Our exclusive brands are supported by in-house design teams focused on creating beautiful, quality products that align with the unique positioning, look and feel of each brand. Each of our exclusive brands has its own vision and distinct aesthetic point of view. As a group, they are united by an unwavering commitment to superior fabrics, meticulous construction and relevant, effortless design.

Exclusive brands currently represent over 96% of Aritzia's net revenue. Our broad product assortment includes t-shirts, blouses, sweaters, jackets, coats, pants, shorts, skirts, dresses, denim, intimates, swimwear, accessories, and men's wear (resulting from our acquisition of CYC) for each season. We maintain a flexible mix of historically successful items and new seasonal styles. Our changing product mix is a blended reflection of client demands and fashion trends. This strategic mix helps us to drive client conversion by delivering fashion must-haves, while still generating a meaningful proportion of revenue from our fashion essentials. We complement our exclusive product mix with a strategically chosen selection of premium denim, accessories and footwear from leading contemporary third-party brands. Our expansive and diverse range of women's fashion apparel and accessories addresses a broad range of style preferences and lifestyle requirements for our clients, producing strong and enduring client loyalty.

Product Strategy

We control the design, merchandise planning, sourcing, production and retail functions of our exclusive brands and complement this with third-party brands as appropriate. This strategy allows us to ensure that we have the right product, at the right time, at the right price, in the right quantity and in the right place. Product design and quality are meticulously evaluated and controlled by us, from fabrics to trims, and styling to fit. In Fiscal 2021 we implemented our Product Lifecycle Management system to further support our product strategy and processes. This system has allowed us to consolidate and manage all of our product development data and tools into a single place and improved our focus on innovation and product quality, increase speed to market where appropriate, and ultimately has optimized manufacturing costs.

Creative Development

We have talented teams of in-house designers who focus on creating products featuring high quality fabrics, considered detailing, sophisticated construction and superior fit. Our product design and development process builds on proven sellers while taking new fashion trends into account with the goal of creating fashion must-haves each season. Our in-house technical team ensures all products are executed in a manner that is consistent with our design and delivers superior fit and sophisticated construction in the production of our exclusive brands. We partner with best in class mills and suppliers to create and sample garments, which are fit-tested twice before production. We ensure that the quality of our raw materials and the finished product are all held to our high standards and the expectations of our clients.

Merchandise Planning

Our demand-driven merchandise planning, buying and inventory strategies have been developed and refined for more than three decades, and are designed to ensure that we have the right product, at the right time, at the right price, in the right quantity and in the right place.

Each year we develop product in two or four seasonal collections for our exclusive brands. We generate a meaningful proportion of revenue from our proven sellers while driving excitement through new seasonal product assortment. We buy in initial quantities that allow us to gauge client demand and follow up with larger orders when proven successful to maximize revenue. We analyze sales data in order to make inventory adjustments and to respond to the latest trends. Our inventory management processes and systems provide us with the ability to optimize inventory across our channels to ensure that each boutique and aritzia.com is merchandised with products that resonate with local preferences. By actively monitoring sell-through rates and managing the mix of product categories in our boutiques and aritzia.com, we are able to respond to emerging trends in a timely manner, minimize our dependence on any particular category, style or fabrication and preserve a balanced, coordinated presentation of merchandise within each boutique while being able to offer our client the entire assortment online. We believe that our disciplined merchandise planning strategy allows us to optimize inventory levels and maximize full-price sales.

Sourcing and Production

We contract and maintain direct relationships with a diversified base of independent suppliers and manufacturers for our exclusive brands who provide us with the flexibility to source high quality materials and products at competitive costs. We believe that our approach of sourcing a majority of our raw materials and working directly

with suppliers and manufacturers enhances our ability to create beautiful and high-quality products in a timely manner.

We source the majority of our raw materials directly from mills, trim suppliers and manufacturers, located primarily in China, Italy, Japan, South Korea, and Taiwan which we believe to be best in class that uphold our standards for quality, lead time and cost. Our finished goods are sourced from manufacturers located primarily in Cambodia, China, Peru, Portugal, Romania, Sri Lanka and Vietnam. We continue to monitor and diversify our supplier base, taking into consideration the geopolitical and economic environment to mitigate risk. Capacity planning with our manufacturers is done at the beginning of the season to ensure flexibility. We engage third parties to inspect our manufacturers' factories to ensure quality control and engage independent expert service providers to conduct factory audits for compliance with local laws and regulations and global standards. We have implemented and enforce a Supplier Code of Conduct and initiatives to increase transparency with respect to the origins of our raw materials.

Boutiques

We have developed our boutique network in a measured and disciplined manner. We have a portfolio of boutiques situated in premier real estate locations in high performing retail malls and high streets in North America. Our strong boutique sales productivity continues to make us a sought-after tenant for top quality locations in premier shopping destinations. In addition to opening new Aritzia and exclusive brand boutiques (e.g. Wilfred, Babaton, Super World, and TNA), we generate attractive returns on capital by enhancing elements of our existing boutiques (including footprint, layout and assortment) through carefully considered boutique expansions and repositions.

See also the "COVID-19 Pandemic" section of this MD&A.

The following table summarizes the change in Aritzia's boutique count for the periods indicated (excluding CYC boutiques).

	Q2 2023	Q2 2022	YTD 2023	YTD 2022
Number of boutiques, beginning of period	109	102	106	101
New boutiques	3	2	6	3
Number of boutiques, end of period	112	104	112	104
Boutiques expanded or repositioned	—	1	—	1

In addition, CYC had four boutiques as at August 28, 2022.

eCommerce and Omni-Channel Innovation

Launched in fiscal 2013, our eCommerce business quickly surpassed our growth expectations and has continued to experience growth year over year in online traffic. We continue to invest in our digital capabilities to support our eCommerce business:

- *Drive our omni-channel growth and capabilities* – Our clients shop both online and in our boutiques, and we believe there are synergies between our boutique network and aritzia.com, with the success of each channel benefiting the other through increased brand awareness and affinity. We launched store inventory visibility to allow clients to pre-shop our boutiques. Our clients have responded positively and as a result, we are seeing an improvement in retail sales driven from store inventory visibility as well as a reduction in call volume to our Concierge team regarding store inventory availability. We are now focusing our efforts on buy online, ship from store, buy online, pickup from store and omni order history. Due to the growth of our omni-channel client base, we anticipate significant benefit from the evolution of these omni services.
- *Capitalize on digital marketing channels to drive client acquisition and retention* – We are directing resources with a renewed focus on digital marketing, including programs centered on search engine optimization enhancements, refinement of our email marketing, and further leveraging our social media. We made numerous technical enhancements to improve our search engine optimization results, including navigation bread crumbs, improved product descriptions, and data driven category naming. We are pleased with the positive impact this has had on new client visits.
- *Deliver personalized experiences* – We are in the early phases of leveraging advanced business intelligence and behaviour analytics to further enhance our understanding of our clients. This includes optimizing our online operations to enhance personalization which we believe will drive higher conversion and client loyalty. We have

begun to customize merchandising and content experience based on geography and climate and will continue to evolve personalized experiences into Fiscal 2023. We are planning on leveraging personalization technology in Fiscal 2023 which will allow us to be more targeted and nimble as we scale our capabilities.

- *Improve the digital experience to enhance the shopping experience online* – Aritzia is focused on improving the digital experience across all devices (e.g., desktop, mobile, tablet) to work towards making shopping frictionless. We continue to implement a number of core optimizations including user reviews and fit guides, enhancing site search functionality, landing page templates, and numerous checkout improvements to reduce client friction. The core areas of our client's digital journey including discovery, evaluating, and purchase are continuously improved resulting in increased conversion rate and average order value. We have also re-set our optimization program, embedding a culture of test and learn on how we go to market with new features and capabilities. For example, we have tested the optimal placement of visual size and fit guides on our category and product pages.

Distribution Facilities

Our current distribution network consists of three distribution centres, two in Canada and one in the United States, that are well positioned to service our boutiques and eCommerce business. We operate our distribution centre located in New Westminster, British Columbia, while the distribution centres located in Mississauga, Ontario and Columbus, Ohio are operated by third-party logistics providers. Our inventory is centrally managed, and shared amongst our boutiques and eCommerce business.

Our distribution centres include a 223,000 square foot facility in New Westminster, British Columbia, a 150,000 square foot third-party facility in Mississauga, Ontario, and a 240,000 square foot third-party facility in Columbus, Ohio. We continue to upgrade our warehouse management system to enhance our supply chain system flexibility and scalability. In Fiscal 2022, we started retro-fitting work in our New Westminster, British Columbia and Columbus, Ohio distribution centres in order to expand capability and capacity to accommodate the surge of eCommerce growth without having to add more space. These expansions support both our retail and eCommerce businesses with added capacity to handle higher levels of throughput. Our current facilities are set up to flexibly manage multi-channel and omni-channel demands, as our business continues to grow.

In Fiscal 2022 we broke ground on a new facility that we will be operating in Vaughan, Ontario. This new facility will be in-sourced and will replace our existing 150,000 square feet distribution centre operated by a third-party logistics provider with a new 552,300 square feet distribution centre operated by Aritzia. It is anticipated that the new facility will be operational by summer 2023.

Systems and Infrastructure

Our focus on building our digital infrastructure impacts everything we do. In our view, digital is about more than just our technology and eCommerce operations, it runs through the business all the way from design to the service we deliver in boutiques. We use best-in-class information systems to support the major functional aspects of our business. Ongoing upgrades and investments are expected to increase our efficiency and support our growth.

Enterprise Management

Across the organization, we use SAP, a sophisticated enterprise resource planning system, to provide business process support and intelligence across customer, marketing, Concierge, merchandise planning, inventory management, production, costing, order management, finance, accounting, reporting and analysis. As the backbone of our infrastructure, this system has the flexibility to support global and multi-channel expansion.

Clients – Omni Project

Our Omni Project builds on the foundation of our point-of-sale system and our investment in digital selling tools to enable omni-channel capabilities such as store inventory visibility, buy online, ship from store and buy online, pickup in store. The project includes multiple work streams spanning a store order fulfillment solution, the physical optimization of our backroom spaces, foundational order sourcing technology, and enhancements to our digital customer experience.

- *Store Inventory Visibility* – Launched in Fiscal 2022, this functionality enhances the client experience on aritzia.com by providing visibility of product availability in stores. This initiative drives cross-channel shopping behavior and reduces contacts to our Concierge team by enabling customers to self-serve on common product availability related questions.

- Buy Online, Ship From Store – Launching in summer 2023, along with foundational systems to enable future omni channel capabilities. This new capability introduces store inventory online, ensuring our full product assortment is available on aritzia.com. It also enables strategic targeting of inventory across our network of boutiques and minimizes delivery time to our clients.
- Buy Online, Pickup In Store – Launching in summer 2023, this functionality provides clients with the option to pick up their online order in store. Building on Store Inventory Visibility, this capability further integrates the online and in-store experiences leveraging the exceptional service in our boutiques to deliver an elevated, yet convenient experience.

We are also focused on improving the availability of fulfillment data and analytics. We believe that reporting optimizations and visibility into key performance indicators will help to set our boutique teams up to maintain accurate inventory and monitor performance on key fulfillment metrics.

Concierge

Launched in Fiscal 2020, this integrated solution enhances our client experience throughout the lifecycle of their purchase. It is also a revenue generating opportunity as we personalize each client interaction through our client care centre. This platform was instrumental in supporting the significant increase in client care engagements during Fiscal 2021 as a direct result of the surge in eCommerce volumes.

Boutiques

We utilize Oracle Retail as our point-of-sale system to facilitate client transactions and fulfill boutique-initiated orders across our network to provide a seamless shopping experience for our clients. We are currently working on a fulfillment app which will allow boutiques to fulfil eCommerce orders as well as enable buy online and pick up in-store capabilities.

eCommerce

aritzia.com is powered by Salesforce Commerce Cloud since its launch in fiscal 2013. With our eCommerce business growing, we continue to invest in our digital capabilities. In Fiscal 2022 we launched store inventory visibility, digital e-gift cards, SuperWorld.com, personalized merchandising, and design enhancements and improvements throughout the client journey. We have seen a positive impact to our retail sales with the launch of store inventory visibility, as well as decreased call volume to our Concierge team regarding store inventory. Digital gift card adoption was immediate during holiday 2021 and clients received access to the gifts cards immediately, and we reduced operational costs as well as reduced packaging. Our SuperWorld.com online experience propelled our brand and allowed us to showcase the unique Super World brand aesthetic while distinguishing from the look and feel of aritzia.com. We saw improvements to our conversion rate driven by our thoughtful merchandising strategy, prioritizing relevant styles to shoppers based on our unique point of view and where clients live. Our branding and design evolution has also manifested itself online, creating a compelling and elevated look and feel that is consistent with our brand objectives.

Going forward, we continue to evolve and refine our omni-channel capabilities to further elevate our clients' shopping experience, to provide a centralized view of inventory and unlock order fulfillment capabilities to improve cross channel activities such as, buy online, ship from store and buy online, pickup in store. We are also directing resources with a renewed focus on digital marketing and increasing the use of data analytics to improve online conversion and client loyalty through increased personalization.

Product

We utilize SAP technologies to manage our enterprise inventory system of record. In Fiscal 2021, we successfully completed and implemented Centric 8 PLM Software, a new Product Lifecycle Management System ("PLM"), to support our ongoing product expansion strategy. Supporting our Creative, Technical Development and Manufacturing teams, our PLM application is used to manage all of the data and support all of the processes to bring a product to market (from concept to commercialization). This system consolidates and centralizes all of our product development data and tools to improve our focus on innovation and product quality, increase speed to market where appropriate, and ultimately optimize manufacturing costs.

Distribution and Logistics

Blue Yonder is the primary system used in our distribution centre in New Westminster, British Columbia to support our fulfillment processes. We will also be using Blue Yonder in our new distribution centre in Vaughan, Ontario

when it is operational. We continue to upgrade our warehouse management system to enhance our supply chain system flexibility and scalability to support our boutique and eCommerce growth initiatives.

Business Support

We utilize Workday as our human resource information system. This integrated platform supports strategic human capital decisions for our growing business.

In Fiscal 2021, we established a new Data & Analytics function to maximize the value of our data. Leveraging our existing investments and the capability of Google Cloud, we are building capacity across our people, processes and technology to further enhance efficiencies and decision making in our operations.

We continue to migrate our workloads to the cloud in order to scale our technology with our growing business and to provide greater resiliency and flexibility to support the business.

Furthermore, during COVID-19, we were able to effectively support the move to a flexible, remote business model; supporting initiatives and leveraging our systems in different ways. We continue to invest in identity and access management programs including multi-factor authentication technologies, and third-party company engagements to proactively monitor security, conduct penetration testing, and support compliance validation.

See also the “COVID-19 Pandemic” section of this MD&A.

Environment, Social & Governance (ESG)

Aritzia recognizes that as a leader in the fashion industry and for our long-term success, we have a responsibility to continue to accelerate our ESG commitments and performance. To deliver Everyday Luxury, for today and tomorrow, we will strengthen the environmental and social contributions that amplify the positive impact Aritzia is making across our operations and wider value chain.

Our ESG priorities are distributed across our value chain from raw material sourcing and third-party manufacturing, our owned and directly operated boutiques, offices and distribution centres, through to our products' use and end of life impacts. We have prioritized efforts based on our material impacts and risks in line with The Sustainability Accounting Standards Board's reporting framework for the Apparel, Accessories and Footwear industry as well as Aritzia's internally conducted materiality assessment.

For a detailed discussion on ESG, refer to the "FY2022 Aritzia Community™ ESG Report", which is available at www.aritzia.com and the “Environment, Social & Governance (ESG): Our Impacts and our Progress” section of the Company's AIF, which is available on SEDAR at www.sedar.com.

Consumer Trends

The apparel industry is subject to shifts in consumer trends, preferences and consumer spending and our revenue and operating results depend, in part, on our ability to respond to such changes in a timely manner. Our differentiated multi-brand strategy gives us control over our products and provides us with the flexibility to optimize our brand mix as needed to address changes in consumer demand and fashion preferences, which has been a critical driver of the consistency of our growth. Our diversified mix of exclusive brands satisfies a broad range of fashion needs, which allows us to attract a wide client base and increases our addressable market. Our revenue is also impacted by discretionary spending by consumers, which is affected by many factors that are beyond our control, including, but not limited to, general economic conditions, consumer disposable income levels, consumer confidence levels, consumer debt, the cost of basic necessities and other goods and the effects of weather, natural disasters or global pandemics. We believe that our track record demonstrates the success of our exclusive brand strategy at responding to changes in fashion demands through all stages of economic cycles.

Seasonality

The women's apparel industry is seasonal in nature, with a higher proportion of net revenue and operating income generated in the second half of the fiscal year, which includes the back-to-school and holiday seasons. We also have higher working capital requirements in the periods preceding the launch of new seasons as we receive and pay for new inventory. We manage our working capital needs through cash flow from operations and our revolving credit facility.

Average quarterly share of annual net revenue over the last three completed fiscal years is as follows:

First fiscal quarter	17%
Second fiscal quarter	24%
Third fiscal quarter	29%
Fourth fiscal quarter	30%
<hr/>	
Yearly total	100%

Weather

Extreme weather conditions in the areas in which our boutiques are located could adversely affect our business and financial results. For example, frequent or unusually heavy snowfall, ice storms, rainstorms or other extreme weather conditions over a prolonged period could make it difficult for our clients to travel to our boutiques and thereby reduce our revenue and profitability. This is potentially mitigated by our clients' ability to buy our products through aritzia.com. Our business is also susceptible to unseasonable weather conditions. For example, extended periods of unseasonably warm temperatures during the winter season or cool weather during the summer season could render a portion of our inventory incompatible with those unseasonable conditions, which could adversely affect our ability to execute our strategy to effectively present seasonal inventory.

Competition

We operate in the women's apparel industry, primarily within the North American market. We are strategically positioned in the global fashion landscape between fast fashion and luxury. We compete with a diverse group of specialty apparel retailers, department stores, fast fashion retailers, athletic retailers and other manufacturers and retailers of branded apparel. Market participants compete on the basis of, among other things, the location of boutiques, the breadth, style, quality, price and availability of merchandise, the level of client service and brand recognition. We believe that we successfully compete on the basis of several factors that include our strategic mix of exclusive brands, offering of a combination of high quality products at an attainable price point, our refined and proven merchandise planning strategy, our focus on providing an aspirational shopping experience and exceptional client service, our premier real estate portfolio and our market positioning, collectively resulting in a fashion brand loved by women all over the world.

Foreign Exchange

Our net revenue is derived in Canadian and U.S. dollars while the vast majority of our cost of goods sold is denominated in U.S. dollars. Fluctuations in the exchange rate of the Canadian dollar versus the U.S. dollar could materially affect our gross profit margins and operating results. From time to time, we use foreign currency forward contracts to mitigate risks associated with forecasted U.S. dollar merchandise purchases sold in Canada, but there can be no assurances that such strategies will prove to be successful. See "Financial Instruments" and "Risk Factors" sections of this MD&A.

HOW WE ASSESS THE PERFORMANCE OF OUR BUSINESS

In assessing the performance of our business, we consider a variety of financial and operating measures that affect our operating results.

Net revenue reflects our sale of merchandise, less returns and discounts. Retail revenue at point-of-sale is measured at the fair value of the consideration received at the time the sale is made to the customer, net of discounts and estimated allowance for returns. For merchandise that is ordered and paid in a boutique and subsequently picked up by or delivered to the customer, revenue is deferred until control of the merchandise has been transferred to the customer. eCommerce revenue is recognized at the date of estimated delivery to the customer, and measured at the fair value of consideration received, net of discounts and an estimated allowance for returns. Revenues are reported net of sales taxes collected for various governmental agencies.

Comparable sales growth is a retail industry metric used to explain our total combined revenue growth in eCommerce and established boutiques. Comparable sales from established boutiques is calculated based on revenue from boutiques that have been opened for at least 56 weeks, and excludes boutiques that were expanded or repositioned, boutiques in centres where we opened a new additional boutique and boutiques significantly impacted by nearby construction and other similar disruptions during this period. Our comparable sales growth

calculation excludes the impact of foreign currency fluctuations. We apply the prior year's average quarterly exchange rate to both current year and prior year comparable sales to achieve a consistent basis for comparison (i.e. on a constant currency basis).

Due to temporary boutique closures from COVID-19 in Fiscal 2022 and Fiscal 2021 which resulted in boutiques being removed from our comparable store base, we believe total comparable sales growth was not representative of our business and therefore we have not reported figures on this metric for Fiscal 2022 or Fiscal 2021 in this MD&A.

Gross profit reflects our net revenue less cost of goods sold. Cost of goods sold includes inventory and product-related costs, variable lease payments and other occupancy-related expenses, as well as depreciation expense for our boutique and distribution centre assets. Our cost of goods sold may include different costs compared to other retailers. Gross profit margin is impacted by the components of cost of goods sold, product mix and markdowns. We define gross profit margin as our gross profit divided by our net revenue.

Selling, general and administrative ("SG&A") expenses consists of selling expenses that are generally variable with net revenue and general and administrative operating expenses that are primarily fixed. Our SG&A expenses also include depreciation and amortization expenses for all support office assets and intangible assets. We expect our SG&A expenses to increase as we continue to open new boutiques, grow our eCommerce business, increase brand awareness and invest in our infrastructure and people.

SG&A expenses as a percentage of net revenue, excluding strategic investments in technology and infrastructure, are usually higher in the lower-volume first and second quarters, and lower in the higher-volume third and fourth quarters because a portion of these costs are relatively fixed. Our SG&A expenses may include different expenses compared to other retailers.

EBITDA is defined as consolidated net income before depreciation and amortization, finance expense and income tax expense.

Adjusted EBITDA is a useful measure of operating performance, as we believe it provides a more relevant picture of operating results in that it excludes the effects of financing and investing activities by removing the effects of interest, depreciation and amortization expenses that are not reflective of underlying business performance and other one-time or non-recurring expenses. We use Adjusted EBITDA to facilitate a comparison of our operating performance on a consistent basis from period-to-period and to provide for a more complete understanding of factors and trends affecting our business. We define Adjusted EBITDA as consolidated net income before depreciation and amortization, finance expense and income tax expense, adjusted for the impact of certain items, including stock-based compensation expense, unrealized gains or losses on equity derivative and forward contracts, a deduction of interest expense and depreciation relating to our leases to reflect an estimate of rent expense, fair value adjustment for inventories acquired in CYC, fair value adjustments of NCI in exchangeable shares liability and other non-cash items and/or items that we consider non-recurring and not representative of our ongoing operating performance.

Adjusted Net Income (per Diluted Share) is a useful measure of performance, as we believe it provides a more relevant picture of results by excluding the effects of expenses that are not reflective of underlying business performance and other one-time or non-recurring expenses. We use Adjusted Net Income to facilitate a comparison of our performance on a consistent basis from period-to-period and to provide for a more complete understanding of factors and trends affecting our business. We define Adjusted Net Income as consolidated net income, adjusted for the impact of certain items, including stock-based compensation expense, unrealized gains or losses on equity derivative and forward contracts, fair value adjustment for inventories acquired in CYC, fair value adjustments of NCI in exchangeable shares liability and other non-cash items and/or items that we consider non-recurring and not representative of our ongoing operating performance, net of related tax effects. We define Adjusted Net Income per Diluted Share by dividing Adjusted Net Income by the weighted average number of diluted shares outstanding.

Capital cash expenditures (net of proceeds from lease incentives) is a useful measure as we believe it is a more useful indicator of the net cash capital investment relating to our boutiques and infrastructure. We define capital cash expenditures (net of proceeds from lease incentives) as cash used in investing activities, excluding cash used in business combinations, less proceeds from lease incentives.

Free cash flow is an important metric because it is an indicator of how much cash is available for business acquisitions, debt repayment, share repurchases and other investing and financing activities. Our sustained ability to generate free cash flow is an indicator of the financial strength of our business, as we require regular capital expenditures to build and maintain boutiques and invest in infrastructure. We define free cash flow as net cash generated from operating activities excluding interest paid on credit facilities, plus proceeds from lease incentives, less repayments of principal on lease liabilities and cash used for the purchase of property, equipment and intangible assets.

NON-IFRS MEASURES INCLUDING RETAIL INDUSTRY METRICS

This MD&A makes reference to certain non-IFRS measures including certain retail industry metrics. These measures are not recognized measures under IFRS, do not have a standardized meaning prescribed by IFRS and are therefore unlikely to be comparable to similar measures presented by other companies. Rather, these measures are provided as additional information to complement those IFRS measures by providing further understanding of our results of operations from management's perspective. Accordingly, these measures should not be considered in isolation or as a substitute for analysis of our financial information reported under IFRS. We use non-IFRS measures including "EBITDA", "Adjusted EBITDA", "Adjusted Net Income", "Adjusted Net Income per Diluted Share", "capital cash expenditures (net of proceeds from lease incentives)", and "free cash flow." This MD&A also makes reference to "gross profit margin" as well as "comparable sales growth", which are commonly used operating metrics in the retail industry but may be calculated differently compared to other retailers. Gross profit margin and comparable sales growth are considered supplementary measures under applicable securities laws. Our comparable sales growth calculation excludes the impact of foreign currency fluctuations. These non-IFRS measures, including retail industry metrics, are used to provide investors with supplemental measures of our operating performance and thus highlight trends in our core business that may not otherwise be apparent when relying solely on IFRS measures. We believe that securities analysts, investors and other interested parties frequently use non-IFRS measures, including retail industry metrics, in the evaluation of issuers. Our management also uses non-IFRS measures, including retail industry metrics, in order to facilitate operating performance comparisons from period to period, to prepare annual operating budgets and forecasts and to determine components of management compensation. For definitions and reconciliations of these non-IFRS measures to the relevant reported measures, please see the "How We Assess the Performance of Our Business" and "Selected Consolidated Financial Information" sections of this MD&A.

RESULTS OF OPERATIONS

Analysis of Results for Second Quarter Fiscal 2023

Consolidated Statements of Operations				
<i>(in thousands of Canadian dollars, unless otherwise noted)</i>				
	Q2 2023		Q2 2022	
Net revenue	\$ 525,523	100.0%	\$ 350,069	100.0%
Cost of goods sold	305,250	58.1%	193,873	55.4%
Gross profit	220,273	41.9%	156,196	44.6%
Operating expenses				
Selling, general and administrative	147,154	28.0%	92,115	26.3%
Stock-based compensation expense	8,981	1.7%	8,262	2.4%
Income from operations	64,138	12.2%	55,819	15.9%
Finance expense	6,658	1.3%	6,516	1.9%
Other expense (income)	(6,496)	(1.2)%	(7,161)	(2.0)%
Income before income taxes	63,976	12.2%	56,464	16.1%
Income tax expense	17,715	3.4%	16,616	4.7%
Net income	\$ 46,261	8.8%	\$ 39,848	11.4%
Adjusted EBITDA ⁽¹⁾	\$ 82,563	15.7%	\$ 72,891	20.8%
Adjusted Net Income ⁽¹⁾	\$ 50,619	9.6%	\$ 44,411	12.7%
Adjusted Net Income ⁽¹⁾ per Diluted Share	\$ 0.44		\$ 0.39	

Net revenue increased by 50.1% to \$525.5 million, compared to \$350.1 million in Q2 2022. The Company continues to see an unprecedented acceleration of sales in the United States, where net revenues increased by 79.8% to \$263.2 million, compared to \$146.4 million in Q2 2022.

- **Retail revenue** increased by 60.1% to \$351.6 million, compared to \$219.6 million in Q2 2022. The increase was led by outstanding performance of our existing and new boutiques in the United States, strong double digit comparable sales growth in Canada, as well as boutique revenue from 34 of our boutiques which were closed for approximately one-third of Q2 2022. Boutique count at the end of Q2 totaled 112 compared to 104 boutiques at the end of Q2 2022.
- **eCommerce revenue** increased by 33.3% to \$173.9 million, compared to \$130.4 million in Q2 2022, driven by exceptional performance in the United States and double digit growth in Canada.

The following table provides net revenue by channel and geographic location for the periods indicated.

<i>(in thousands of Canadian dollars)</i>	Q2 2023	Q2 2022
Retail revenue	\$ 351,630	\$ 219,639
eCommerce revenue	173,893	130,430
Net revenue	\$ 525,523	\$ 350,069
	Q2 2023	Q2 2022
Canada	\$ 262,335	\$ 203,711
United States	263,188	146,358
Net revenue	\$ 525,523	\$ 350,069

Gross profit increased by 41.0% to \$220.3 million, compared to \$156.2 million in Q2 2022. Gross profit margin was 41.9%, compared to 44.6% in Q2 2022. The 270 bps decrease in gross profit margin was primarily driven by discontinued COVID relief subsidies and higher freight costs and distribution centre costs, as well as normalized markdowns from Q2 2022 due to low inventory levels last year. These impacts were partially offset by leverage on occupancy and depreciation costs.

SG&A expenses increased by 59.8% to \$147.2 million, compared to \$92.1 million in Q2 2022. SG&A expenses were 28.0% of net revenue, compared to 26.3% in Q2 2022. The increase in SG&A expenses was primarily due to variable selling costs associated with the increase in revenue. The Company made additional investments in talent, technology, and marketing initiatives to fuel its accelerated momentum and to ensure its future growth.

Depreciation and amortization increased by \$3.9 million to \$31.4 million, compared to \$27.5 million in Q2 2022.

The following table provides the depreciation and amortization expense for the periods indicated.

(in thousands of Canadian dollars)

	Q2 2023	Q2 2022
Depreciation and amortization	\$ 12,504	\$ 10,780
Depreciation on right-of-use assets	18,908	16,686
Total depreciation and amortization	<u>\$ 31,412</u>	<u>\$ 27,466</u>

Stock-based compensation expense was \$9.0 million, compared to \$8.3 million in Q2 2022.

Included in Q2 2023 is \$5.6 million in expenses related to the accounting for the Company's deferred, preferred and restricted share units and \$3.4 million in expenses primarily related to the accounting for options under the Company's long-term incentive plan (the "Omnibus Plan").

Included in Q2 2022 is \$5.5 million in expenses related to the accounting for the Company's deferred, preferred and restricted share units and \$2.8 million in expenses primarily related to the accounting for options under the Company's Omnibus Plan.

We use equity derivative contracts to offset our cash flow variability of the expected payment associated with our deferred and restricted share units. Unrealized gains and losses related to these equity derivative contracts are recorded in other expense (income).

Finance expense increased by \$0.1 million to \$6.7 million, compared to \$6.5 million in Q2 2022. The increase in finance expense was primarily due to higher interest expense on lease liabilities in Q2 2023.

Other expense (income) was \$(6.5) million, compared to other income of \$(7.2) million in Q2 2022.

Other expense (income) of \$(6.5) million in Q2 2023 primarily relates to:

- unrealized gain on equity derivative contracts of \$3.8 million,
- unrealized and realized operational foreign exchange gains of \$2.0 million and
- interest and other income of \$0.7 million.

Other expense (income) of \$(7.2) million in Q2 2022 primarily related to:

- unrealized gain on equity derivative contracts of \$5.3 million
- unrealized and realized operational foreign exchange gains of \$3.0 million, and
- interest income of \$0.6 million, partially offset by
- transaction costs relating to the acquisition of CYC Design of \$1.7 million, and
- transaction costs relating to the Secondary Offering of \$0.1 million

Income tax expense is recognized based on management's best estimate of the weighted average annual income tax rate expected for the full fiscal year. To the extent that forecasts differ from actual results, adjustments are recognized in subsequent periods. The statutory income tax rates for Q2 2023 and Q2 2022 were 26.6%.

Income tax expense was \$17.7 million, compared to \$16.6 million in Q2 2022 and the effective tax rates for Q2 2023 and Q2 2022 were 27.7% and 29.4%, respectively. The effective tax rates are driven by the proportionate amount of non-deductible stock-based compensation expense on equity settled plans relative to net income.

Net income was \$46.3 million, an increase of 16.1% compared to \$39.8 million in Q2 2022. The increase in net income was primarily due to a 50.1% increase in net revenue, partially offset by the Company's continued investment in talent, technology and marketing initiatives.

Net income per diluted share was \$0.40, an increase of 14.3% compared to \$0.35 in Q2 2022, primarily due to the factors discussed above.

Adjusted EBITDA⁽¹⁾ was \$82.6 million, or 15.7% of net revenue, an increase of 13.3% compared to \$72.9 million, or 20.8% of net revenue in Q2 2022. The decrease in Adjusted EBITDA as a percentage of net revenue was primarily due to the Company's continued investment in talent, technology and marketing initiatives, partially offset by a 50.1% increase in net revenue.

Adjusted Net Income⁽¹⁾ was \$50.6 million, an increase of 14.0% compared to \$44.4 million in Q2 2022, primarily due to the factors discussed above.

Adjusted Net Income⁽¹⁾ per Diluted Share was \$0.44, an increase of 12.8% compared to \$0.39 in Q2 2022, primarily due to the factors discussed above.

Cash and cash equivalents at the end of Q2 2023 totaled \$65.4 million compared to \$131.8 million at the end of Q2 2022.

Inventory at the end of Q2 2023 was \$455.1 million, an increase of 150% compared to \$181.9 million at the end of Q2 2022. This season's inventory was planned at an 83% increase from the extremely low levels last year in order to meet sales targets. Inventory was booked earlier in order to mitigate the risk of supply chain disruptions. On top of that as an extra precautionary measure, the Company pulled forward the purchase of selective product for Spring. The Company is comfortable with its inventory position to meet client demand and for the season, expects normalized markdowns to be no greater than pre-pandemic levels.

Capital cash expenditures (net of proceeds from lease incentives)⁽¹⁾ were \$22.8 million in Q2 2023, compared to \$9.3 million in Q2 2022.

Analysis of Results for YTD 2023

Consolidated Statements of Operations				
<i>(in thousands of Canadian dollars, unless otherwise noted)</i>				
	YTD 2023		YTD 2022	
Net revenue	\$ 933,433	100.0%	\$ 596,985	100.0%
Cost of goods sold	532,264	57.0%	331,681	55.6%
Gross profit	401,169	43.0%	265,304	44.4%
Operating expenses				
Selling, general and administrative	267,433	28.7%	162,497	27.2%
Stock-based compensation expense	9,654	1.0%	11,297	1.9%
Income from operations	124,082	13.3%	91,510	15.3%
Finance expense	12,706	1.4%	12,950	2.2%
Other income	26	0.0%	(3,305)	(0.6)%
Income before income taxes	111,350	11.9%	81,865	13.7%
Income tax expense	31,828	3.4%	24,114	4.0%
Net income	\$ 79,522	8.5%	\$ 57,751	9.7%
Adjusted EBITDA ⁽¹⁾	\$ 152,209	16.3%	\$ 113,793	19.1 %
Adjusted Net Income ⁽¹⁾	\$ 91,490	9.8%	\$ 66,062	11.1 %
Adjusted Net Income ⁽¹⁾ per Diluted Share	\$ 0.79		\$ 0.57	

Net revenue increased by 56.4% to \$933.4 million, compared to \$597.0 million in YTD 2022. The Company has seen an unprecedented acceleration of sales in the United States, where net revenues increased by 80.3% to \$470.0 million compared to \$260.6 million in YTD 2022. The Company also saw meaningful growth in Canada where net revenue increased by 37.8% to \$463.5 million, compared to \$336.4 million in YTD 2022

- **Retail revenue** increased by 76.4% to \$639.5 million, compared to \$362.6 million in YTD 2022. The increase in revenue was led by outstanding performance of our existing and new boutiques in the United States, strong double digit comparable sales growth in Canada, as well as boutique revenue from 34 of our boutiques which were closed for approximately two-thirds of Q1 2022 and one-third of Q2 2022.
- **eCommerce revenue** increased by 25.4% to \$294.0 million, compared to \$234.4 million in YTD 2022. Overall eCommerce revenue growth was moderated by the channel shift to retail in Eastern Canada where 34 of our boutiques were closed for approximately two-thirds of Q1 2022 and one-third of Q2 2022.

The following table provides net revenue by channel and geographic location for the periods indicated.

(in thousands of Canadian dollars)

	YTD 2023	YTD 2022
Retail revenue	\$ 639,454	\$ 362,591
eCommerce revenue	293,979	234,394
Net revenue	<u>\$ 933,433</u>	<u>\$ 596,985</u>

	YTD 2023	YTD 2022
Canada	\$ 463,461	\$ 336,376
United States	469,972	260,609
Net revenue	<u>\$ 933,433</u>	<u>\$ 596,985</u>

Gross profit increased by 51.2% to \$401.2 million, compared to \$265.3 million in YTD 2022. Gross profit margin was 43.0%, compared to 44.4% in YTD 2022. The 140 bps decrease in gross profit margin was primarily due to higher freight costs, partially offset by leverage on occupancy and depreciation costs.

SG&A expenses increased by 64.6% to \$267.4 million, compared to \$162.5 million in YTD 2022. SG&A expenses were 28.7% of net revenue, compared to 27.2% in YTD 2022. The increase in SG&A expenses was primarily due to variable selling costs associated with the increase in revenue and continued investment in talent, technology, and marketing initiatives.

Depreciation and amortization increased by \$7.3 million to \$61.5 million, compared to \$54.2 million in YTD 2022.

The following table provides the depreciation and amortization expense for the periods indicated.

(in thousands of Canadian dollars)

	YTD 2023	YTD 2022
Depreciation and amortization	\$ 24,804	\$ 21,221
Depreciation on right-of-use assets	36,679	33,004
Total depreciation and amortization	<u>\$ 61,483</u>	<u>\$ 54,225</u>

Stock-based compensation expense was \$9.7 million, compared to \$11.3 million in YTD 2022.

Included in YTD 2023 is \$3.4 million in expenses related to the accounting for the Company's deferred, preferred and restricted share units and \$6.3 million in expenses primarily related to the accounting for options under the Company's Omnibus Plan.

Included in YTD 2022 is \$6.6 million in expenses related to the accounting for the Company's deferred, preferred and restricted share units and \$4.7 million in expenses primarily related to the accounting for options under the Company's Omnibus Plan.

We use equity derivative contracts to offset our cash flow variability of the expected payment associated with our deferred and restricted share units. Unrealized gains and losses related to these equity derivative contracts are recorded in other expense (income).

Finance expense decreased by \$0.2 million to \$12.7 million, compared to \$13.0 million in YTD 2022. The decrease in finance expense was primarily due to a reduction in interest expense from having repaid the term loan of \$75.0 million during Q2 2022 and no amounts drawn on the revolving credit facility compared to YTD 2022, partially offset by a higher interest expense on lease liabilities in YTD 2023.

Other expense (income) was \$26 thousand, compared to \$(3.3) million in YTD 2022.

Other expense (income) of \$26 thousand in YTD 2023 primarily relates to:

- unrealized loss on equity derivative contracts of \$4.8 million, partially offset by
- unrealized and realized operational foreign exchange gains of \$3.5 million and
- interest and other income of \$1.2 million

Other expense (income) of \$(3.3) million in YTD 2022 primarily related to:

- unrealized gain on equity derivative contracts of \$5.2 million,
- interest and other income of \$0.8 million and
- unrealized and realized operational foreign exchange gains of \$0.2 million, partially offset by
- transaction costs relating to the acquisition of CYC Design of \$2.4 million and
- transaction costs relating to the Secondary Offering of \$0.5 million

Income tax expense is recognized based on management's best estimate of the weighted average annual income tax rate expected for the full fiscal year. To the extent that forecasts differ from actual results, adjustments are recognized in subsequent periods. The statutory income tax rates for YTD 2023 and YTD 2022 were 26.6%.

Income tax expense was \$31.8 million, compared to \$24.1 million in YTD 2022 and the effective tax rates for YTD 2023 and YTD 2022 were 28.6% and 29.5%, respectively. The effective tax rates are driven by the proportionate amount of non-deductible stock-based compensation expense on equity settled plans relative to net income.

Net income was \$79.5 million, an increase of 37.7% compared to \$57.8 million in YTD 2022. The increase in net income was primarily due to a 56.4% increase in net revenue, partially offset by the Company's continued investment in talent, technology, and marketing initiatives.

Net income per diluted share was \$0.69, an increase of 38.0%, compared to \$0.50 in YTD 2022, primarily due to the factors discussed above.

Adjusted EBITDA⁽¹⁾ was \$152.2 million, or 16.3% of net revenue, an increase of 33.8%, compared to \$113.8 million, or 19.1% of net revenue in YTD 2022. The decrease in Adjusted EBITDA as a percentage of net revenue was primarily due to the Company's continued investment in talent, technology and marketing initiatives, partially offset by a 56.4% increase in net revenue.

Adjusted Net Income⁽¹⁾ was \$91.5 million, an increase of 38.5%, compared to \$66.1 million in YTD 2022, primarily due to the factors discussed above.

Adjusted Net Income⁽¹⁾ per Diluted Share was \$0.79, an increase of 38.6%, compared to \$0.57 in YTD 2022, primarily due to the factors discussed above.

Capital cash expenditures (net of proceeds from lease incentives)⁽¹⁾ were \$47.2 million in YTD 2023, compared to \$15.9 million in YTD 2022.

LIQUIDITY AND CAPITAL RESOURCES

Overview

Our principal uses of funds are for operating expenses, capital expenditures and debt service requirements. We believe that cash generated from operations, together with amounts available under our credit facility, are expected to be sufficient to meet our future operating expenses, capital expenditures, debt service requirements and return to shareholders (share buybacks). Our ability to fund future operating expenses, capital expenditures, debt service requirements and return to shareholders (share buybacks) will depend on, among other things, our future operating performance, which will be affected by general economic, financial and other factors, including factors beyond our control. See "Summary of Factors Affecting Performance", "Recent Events" and "Risk Factors" of this MD&A for additional information. We review investment opportunities in the normal course of our business and may make select investments to implement our business strategy when suitable opportunities arise. Historically, the funding for any such investments has come from cash flows from operating activities and/or our revolving credit facility.

Revolving Credit Facility

We have a revolving credit facility of \$175.0 million which bears interest at BA, LIBO or Prime plus a marginal rate between 0.50% and 2.50%. As at August 28, 2022, no amounts were drawn on the revolving credit facility.

In addition, we also have letters of credit facilities of \$75.0 million, secured *pari passu* with the revolving credit facility. The interest rate for the letters of credit is between 1.00% and 2.50%.

See "Contractual Obligations – Off-Balance Sheet Arrangements and Commitments" for letters of credit issued.

The credit facility agreement contains restrictive covenants customary for credit facilities of this nature, including restrictions on us and each credit facility guarantor, subject to certain exceptions, to incur indebtedness, grant liens,

merge, amalgamate or consolidate with other companies, transfer, lease or otherwise dispose of all or substantially all of its assets, liquidate or dissolve, engage in any material business other than the fashion retail business, make investments, acquisitions, loans, advances or guarantees, make any restricted payments, enter into transactions with affiliates, repay indebtedness, enter into restrictive agreements, enter into sale-leaseback transactions, ensure pension plan compliance, sell or discount receivables, enter into agreements with unconditional purchase obligations, issue shares, create or acquire a subsidiary or make any hostile acquisitions.

Cash Flows

The following table presents cash flows for the periods indicated.

<i>(in thousands of Canadian dollars)</i>	Q2 2023	Q2 2022⁽⁴⁾	Fiscal 2023	Fiscal 2022⁽⁴⁾
Net cash (used in) generated from operating activities	\$ (40,685)	\$ 103,790	\$ (50,003)	\$ 129,562
Net cash used in financing activities	(47,636)	(87,107)	(92,412)	(90,793)
Cash used in investing activities	(26,320)	(46,101)	(57,572)	(56,506)
Effect of exchange rate changes on cash and cash equivalents	707	3,336	166	386
Change in cash and cash equivalents	\$ (113,934)	\$ (26,082)	\$ (199,821)	\$ (17,351)

⁽⁴⁾ Certain prior period amounts have been reclassified for consistency with current period presentation. These reclassifications have no effect on the reported results of operations. A reclassification has been made for proceeds from lease incentives from cash generated from operating activities to net cash used in financing activities.

Analysis of Cash Flows for the Second Quarter and YTD 2023

Cash Flows Generated from Operating Activities

For Q2 2023, cash flows used in operating activities totaled \$40.7 million, compared to \$103.8 million generated from operating activities in Q2 2022. This change was primarily attributable to a higher use of working capital due to higher inventory purchases and timing of payments along with an increase in income taxes paid, partially offset by an increase in income from operations.

For YTD 2023, cash flows used in operating activities totaled \$50.0 million, compared to \$129.6 million generated from operating activities in YTD 2022. This change was primarily attributable to a higher use of working capital due to higher inventory purchases and timing of payments along with an increase in income taxes paid, partially offset by an increase in income from operations.

Cash Flows Used in Financing Activities

For Q2 2023, cash flows used in financing activities totaled \$47.6 million, compared to \$87.1 million in Q2 2022. Financing activities in Q2 2023 primarily relate to the \$30.3 million repurchase of subordinate voting shares for cancellation and the repayment of principal on lease liabilities, partially offset by proceeds received from lease incentives and proceeds received from options exercised. Financing activities in Q2 2022 primarily relate to a \$75.0 million term loan repayment and the repayment of principal on lease liabilities, partially offset by proceeds received from lease incentives and proceeds received from options exercised.

For YTD 2023, cash flows used in financing activities totaled \$92.4 million, compared to \$90.8 million in YTD 2022. Financing activities in YTD 2023 primarily relate to the \$55.8 million repurchase of subordinate voting shares for cancellation and the repayment of principal on lease liabilities, partially offset by proceeds received from lease incentives and proceeds received from options exercised. Financing activities in YTD 2022 primarily relate to a \$75.0 million term loan repayment and the repayment of principal on lease liabilities, partially offset by proceeds received from lease incentives and proceeds received from options exercised.

Cash Flows Used in Investing Activities

For Q2 2023, cash flows used in investing activities totaled \$26.3 million, compared to \$46.1 million in Q2 2022. Investing activities in Q2 2023 primarily relate to new boutiques, boutique expansions and repositions, and distribution center projects. Investing activities in Q2 2022 primarily relate to the acquisition of CYC, net of cash assumed of \$32.6 million and new boutique expansions and repositions.

For YTD 2023, cash flows used in investing activities totaled \$57.6 million, compared to \$56.5 million in YTD 2022. Investing activities in YTD 2023 primarily relate to new boutiques, boutique expansions and repositions, and distribution center projects as well as a \$5.6 million contingent consideration payout to CYC's shareholders. Investing activities in YTD 2022 primarily relate to the acquisition of CYC, net of cash assumed of \$32.6 million and new boutique expansions and repositions.

CONTRACTUAL OBLIGATIONS AND COMMITMENTS

The following table summarizes our significant undiscounted maturities of our contractual obligations and commitments as at August 28, 2022.

<i>(in thousands of Canadian dollars)</i>	Less than 1 year	1 to 5 years	More than 5 years	Total
Accounts payable and accrued liabilities	\$ 295,595	\$ —	\$ —	\$ 295,595
Lease liabilities	117,123	332,952	152,151	602,226
Contingent consideration	6,619	—	—	6,619
Minimum lease commitments with future commencement dates	10,884	105,343	234,175	350,402
Total contractual obligations and commitments	<u>\$ 430,221</u>	<u>\$ 438,295</u>	<u>\$ 386,326</u>	<u>\$ 1,254,842</u>

As part of the CYC acquisition, CYC issued exchangeable shares to minority shareholders in exchange for their 25% share of the total common shares at acquisition, resulting in a non-controlling interest in exchangeable shares liability (refer to section below "Financial Instruments - Non-controlling interest in exchangeable shares liability"). As at August 28, 2022, the fair value of the non-controlling interest in exchangeable shares liability was \$35.5 million (February 27, 2022 - \$35.5 million).

OFF-BALANCE SHEET ARRANGEMENTS

Our third party manufacturers purchase raw materials on our behalf to be used for future production. As at August 28, 2022, we had purchase obligations of \$197.0 million, which represent commitments for fabric expected to be used during upcoming seasons, made in the normal course of business.

We enter into trade letters of credit to facilitate the international purchase of inventory. We also enter into standby letters of credit to secure certain of our obligations, including leases and duties related to import purchases. As at August 28, 2022, letters of credit totaling \$44.0 million have been issued.

Other than those items disclosed here and elsewhere in this MD&A and our consolidated financial statements, we do not have any material off-balance sheet arrangements or commitments as at August 28, 2022.

FINANCIAL INSTRUMENTS

In connection with the acquisition of CYC, we entered into two financial instruments that will be revalued on a recurring basis in the consolidated financial statements: contingent consideration and non-controlling interest in exchangeable shares liability. Changes in the fair value of these two financial instruments are recorded in net income.

Contingent consideration

We have a contingent consideration under the CYC purchase agreement that is based on future operating results of CYC during the measurement period ending January 31, 2023. As at the acquisition date of CYC on June 25, 2021, we recorded a contingent consideration liability of \$13.2 million which is payable in two equal installments of \$6.6 million on May 31, 2022 and May 31, 2023. In Q1 2023, the first installment was paid to CYC net of \$1.0 million in indemnities and shared costs pursuant to the purchase agreement. In Q2 and YTD 2023, there was no change in fair value of the remaining contingent consideration.

Non-controlling interest in exchangeable shares liability

In conjunction with the acquisition, CYC issued exchangeable shares to minority shareholders (“exchangeable shareholders”) in exchange for their 25% share of the total common shares at acquisition. The exchangeable shares allow the holders to put back their shares to CYC in the following periods: one-third from May 1, 2024 to August 31, 2024, one-third from May 1, 2025 to August 31, 2025, and one-third from May 1, 2026 to August 31, 2026 (the “put options”). In the event that the exchangeable shareholders do not exercise the put option by August 31, 2026, we have an open-ended call option, but not an obligation, to purchase all of the shares held by the exchangeable shareholders (the “call option”).

The exercise prices of the put option and the call option are based on certain specific operating results of CYC in the most recently completed fiscal year prior to exercise, subject to a capped enterprise value of \$60.0 million (remaining 25% purchase). Upon exercise, the options are settled through a variable number of the Company's shares based on a volume weighted average price (VWAP) of the Company's shares for 30 consecutive trading days.

As at August 28, 2022, the fair value of the non-controlling interest in exchangeable shares liability was \$35.5 million (February 27, 2022 - \$35.5 million).

Equity derivative contracts

We have equity derivative contracts to hedge the share price exposure on our cash-settled deferred and restricted share units. These contracts are not designated as hedging instruments for accounting purposes. Changes in the fair value of equity derivative contracts are recorded in net income. As at August 28, 2022, the equity derivative contracts had a positive fair value of \$10.8 million (February 27, 2022 - \$15.6 million) which is recorded in prepaid expenses and other current assets.

RELATED PARTY TRANSACTIONS

During Q2 2023 and YTD 2023, we made payments of \$1.3 million and \$2.5 million, respectively (Q2 2022 and YTD 2022 - \$1.3 million and \$2.4 million, respectively) for lease of premises and management services and \$0.6 million and \$0.6 million, respectively (Q2 2022 and YTD 2022 - \$0.2 million and \$0.3 million, respectively) for the use of an asset wholly or partially owned by companies that are owned by a director and officer of the Company. As at August 28, 2022, the outstanding balance of lease liabilities owed to these companies was \$11.9 million (February 27, 2022 - \$13.3 million). As at August 28, 2022, \$0.2 million was included in accounts payable and accrued liabilities (February 27, 2022 - \$0.5 million). These transactions were measured at the amount of consideration established at market terms.

TRANSACTIONS WITH KEY MANAGEMENT

Key management includes our directors and executive team. Compensation awarded to key management includes:

<i>(in thousands of Canadian dollars)</i>	Q2 2023		Q2 2022		YTD 2023		YTD 2022	
Salaries, directors' fees and short-term benefits	\$	1,212	\$	1,148	\$	2,401	\$	2,194
Stock-based compensation		2,843		3,365		2,234		4,241
	\$	4,055	\$	4,513	\$	4,635	\$	6,435

CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

The preparation of consolidated financial statements in accordance with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Estimates and assumptions are continuously evaluated and are based on management's best judgments and experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. Actual results may differ from these estimates.

The following discusses the most significant accounting judgments and estimates made by management in preparation of the consolidated financial statements:

Return Allowances

Recognizing provisions for sales return allowances requires the use of estimates of the return rate of merchandise based on historical return patterns.

Valuation of Finished Goods Inventory

Inventory is stated at the lower of cost and net realizable value. We periodically review our inventories and make provisions which requires the use of estimates related to product quality, damages, future demand, selling prices, and market conditions.

Impairment of Goodwill and Indefinite Life Intangible Assets

Goodwill and indefinite life intangible asset impairment testing requires the use of estimates in the impairment testing model. On an annual basis, we test whether goodwill and indefinite life intangible assets are impaired. The recoverable value is determined using discounted future cash flow models, which incorporate estimates regarding future events, specifically future cash flows, growth rates and discount rates. We use judgment in determining the grouping of assets to identify our CGUs for purposes of testing for impairment. In testing for impairment, goodwill acquired in a business combination is allocated to the group of CGUs that are expected to benefit from the synergies of the business combination, which involves judgment.

Leases

We estimate the incremental borrowing rate used for calculating lease liabilities and right-of-use assets. We determine the incremental borrowing rate of each leased asset as the rate of interest that we would have to pay to borrow, over a similar term with a similar security, the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment.

We exercise judgment in determining the appropriate lease term at the lease commencement date. We exercise judgment on whether we will exercise available renewal or termination options, and thus include such options in the lease terms. We consider all facts and circumstances that create an economic incentive to exercise a renewal or termination option.

Business Combinations

Business combinations require judgment in applying the acquisition method of accounting and estimates to value identifiable assets and liabilities at the acquisition date. We may engage independent third parties to determine the fair value of inventory, property and equipment and intangible assets. Assumptions and estimates are used to determine cash flow projections, including the period of future benefit, future growth and discount rates, among other factors. The values placed on the acquired assets and liabilities assumed affect the amount of goodwill recorded on an acquisition.

Non-Controlling Interest in Exchangeable Shares Liability

Non-controlling interest in exchangeable shares involves uncertainty in estimating the fair value of the obligation on a recurring basis. The fair value estimate includes inputs associated with expected volatility, anticipated timing and discount rate associated with the obligation.

SIGNIFICANT NEW ACCOUNTING STANDARDS

Standards Issued But Not Yet Adopted

Classification of Liabilities as Current or Non-Current (Amendments to IAS 1)

In January 2020, IASB issued Classification of Liabilities as Current or Non-Current, which amends IAS 1 –

Presentation of Financial Statements. The narrow scope amendments affect only the presentation of liabilities in the statement of financial position and not the amount or timing of its recognition. It clarifies that the classification of liabilities as current or non-current is based on rights that are in existence at the end of the reporting period and specifies that classification is unaffected by expectations about whether an entity will exercise its right to defer settlement of a liability. It also introduces a definition of 'settlement' to make clear that settlement refers to the transfer to the counterparty of cash, equity instruments, other assets or services. The amendments are effective for annual reporting periods beginning on or after January 1, 2023. Earlier application is permitted. The Company is currently assessing the potential impact of these amendments.

Definition of Accounting Estimates (Amendments to IAS 8)

In February 2021, the IASB issued Definition of Accounting Estimates, which amends IAS 8. The amendments introduce a new definition for accounting estimates, clarifying that they are monetary amounts in the financial statements that are subject to measurement uncertainty. The amendments also clarify the relationship between accounting policies and accounting estimates by specifying that a company develops an accounting estimate to achieve the objective set out by an accounting policy. The amendments are effective for annual periods beginning on or after January 1, 2023 with earlier adoption permitted. The Company is currently assessing the potential impact of these amendments.

Disclosure of Accounting Policies (Amendments to IAS 1 and IFRS Practice Statement 2)

In February 2021, the IASB issued Disclosure of Accounting Policies, which amends IAS 1 and IFRS Practice Statement 2. The amendments are intended to help preparers in deciding which accounting policies to disclose in their financial statements. The amendments to IAS 1 require companies to disclose their material accounting policy information rather than their significant accounting policies. The amendments also clarify that accounting policies related to immaterial transactions, other events or conditions are themselves immaterial and as such need not be disclosed, and not all accounting policy information that relates to material transactions, other events or conditions is material to the financial statements. The amendment to IFRS Practice Statement 2 adds guidance and examples to the materiality practice statement, which explains how to apply the materiality process to identify material accounting policy information. The amendments are effective for annual periods beginning on or after January 1, 2023 with earlier adoption permitted and are to be applied prospectively. The Company is currently assessing the potential impact of these amendments.

Deferred Tax related to assets and liabilities arising from a single transaction (Amendments to IAS 12)

In May 2021, the IASB issued targeted amendments to IAS 12 – Income Taxes to specify how companies account for deferred tax on transactions such as leases and decommissioning obligations. In specific circumstances, companies are exempt from recognizing deferred tax when they recognize assets or liabilities for the first time. Previously, there had been some uncertainty about whether the exemption applied to transactions such as leases and decommissioning obligations transactions for which companies recognize both an asset and a liability. The amendments clarify that the exemption does not apply and that companies are required to recognize deferred tax on such transactions. The aim of the amendments is to reduce diversity in the reporting of deferred tax on leases and decommissioning obligations. The amendments are effective for annual reporting periods beginning on or after January 1, 2023, with early application permitted. The Company is currently assessing the potential impact of these amendments.

RISK FACTORS

For a detailed description of risk factors associated with the Company, including COVID-19 risks, refer to the “Risk Factors” section of the Company’s AIF, which is available on SEDAR at www.sedar.com.

In addition, we are exposed to a variety of financial risks in the normal course of operations including foreign exchange, interest rate, credit, liquidity and equity price risk, as summarized below. Our overall risk management program and business practices seek to minimize any potential adverse effects on our consolidated financial performance.

Risk management is carried out under practices approved by our Audit Committee. This includes reviewing and making recommendations to the Board of Directors on the adequacy of our risk management policies and procedures with regard to identifying the Company’s principal risks and implementing appropriate systems and controls to manage these risks. Risk management covers many areas of risk including, but not limited to, foreign exchange risk, interest rate risk, credit risk, liquidity risk and equity price risk.

Foreign Exchange Risk

We source the majority of our raw materials and merchandise from various suppliers in Asia and Europe with the vast majority of purchases denominated in U.S. dollars. Our foreign exchange risk is primarily with respect to the U.S. dollar but we have limited exposure to other currencies as well. We may use foreign exchange forward contracts to mitigate risks associated with forecasted U.S. dollar merchandise purchases sold in Canada.

Interest Rate Risk

We have a revolving credit facility which provides available borrowings in an amount up to \$175.0 million. Because the revolving credit facility bears interest at a variable rate, we are exposed to market risks relating to changes in interest rates on outstanding balances. As at August 28, 2022, no advances were made under the revolving credit facility.

Credit Risk

Credit risk refers to the possibility that we can suffer financial losses due to the failure of our counterparties to meet their payment obligations. We are exposed to minimal credit risk. We do not extend credit to clients, but do have some receivable exposure in relation to tenant improvement allowances. To reduce this risk, we enter into leases with landlords with established credit history, and for certain leases, we may offset rent payments until accounts receivable are fully satisfied. We deposit our cash and cash equivalents with major financial institutions that have been assigned high credit ratings by internationally recognized credit rating agencies. We only enter into derivative contracts with major financial institutions, as described above, for the purchase of foreign currency forward contracts.

Liquidity Risk

Liquidity risk is the risk that we cannot meet a demand for cash or fund our obligations as they come due. We manage liquidity risk by continuously monitoring actual and projected cash flows, taking into account the seasonality of our revenue, income and working capital needs. The revolving credit facility is used to maintain liquidity.

Equity Price Risk

We are exposed to risk arising from the cash settlement of our deferred and restricted share units, as an appreciating subordinate voting share price increases the potential cash outflow. We record a liability for the potential future settlement of our deferred and restricted share units by reference to the fair value of the liability. We may use equity derivative contracts to offset our cash flow variability of the expected payment associated with our deferred and restricted share units. We only enter into equity derivative contracts with major financial institutions.

DISCLOSURE CONTROLS AND PROCEDURES

Management is responsible for establishing and maintaining a system of disclosure controls and procedures over the public disclosure of financial and non-financial information regarding the Company. Such controls and procedures are designed to provide reasonable assurance that all relevant information is gathered and reported to senior management on a timely basis, including the CEO and the CFO, so that they can make appropriate and timely decisions regarding public disclosure, including information contained in annual and interim filings, including the consolidated financial statements, MD&A, AIF, and other documents and external communications.

INTERNAL CONTROL OVER FINANCIAL REPORTING

Management is also responsible for establishing and maintaining adequate internal controls over financial reporting to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial reports for external purposes in accordance with IFRS. The Company's internal controls over financial reporting include, but are not limited to, detailed policies and procedures relating to financial accounting and reporting, and controls over systems that process and summarize transactions. The Company's procedures for financial reporting also include the active involvement of qualified financial professionals, senior management and its Audit Committee.

In designing such controls, it should be recognized that due to inherent limitations, any control, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives and may not prevent or detect misstatements. Additionally, management is required to use judgment in evaluating controls and procedures. Therefore, even when determined to be designed effectively, disclosure controls and internal control over financial reporting can provide only reasonable assurance with respect to financial statement preparation and presentation.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting during Q2 2023 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

CURRENT SHARE INFORMATION

As of October 11, 2022, an aggregate of 87,717,469 subordinate voting shares, 21,937,349 multiple voting shares and no preferred shares are issued and outstanding. All of the issued and outstanding multiple voting shares are, directly or indirectly, held or controlled by Brian Hill, our principal shareholder, Founder and Executive Chair. As of October 11, 2022, an aggregate of 9,991,507 options and 545,120 performance share units and restricted share units to acquire subordinate voting shares are outstanding.

ADDITIONAL INFORMATION

Additional information relating to the Company, including the Company's AIF, is available on SEDAR at www.sedar.com. The Company's subordinate voting shares are listed for trading on the Toronto Stock Exchange ("TSX") under the symbol "ATZ".

SUMMARY OF CONSOLIDATED QUARTERLY RESULTS AND CERTAIN PERFORMANCE MEASURES

The following table summarizes the results of our operations for the last eight most recently completed quarters. This unaudited quarterly information, other than Adjusted EBITDA, Adjusted Net Income, Adjusted Net Income per Diluted Share, free cash flow and comparable sales growth, has been prepared in accordance with IFRS. Due to seasonality, the results of operations for any quarter are not necessarily indicative of the results of operations for the fiscal year.

Consolidated Quarterly Results

<i>(in thousands of Canadian dollars, unless otherwise noted)</i>								
	Fiscal 2023		Fiscal 2022				Fiscal 2021	
	Q2	Q1	Q4	Q3	Q2	Q1	Q4	Q3
Financial Summary:								
Net revenue	\$ 525,523	\$ 407,910	\$ 444,322	\$ 453,323	\$ 350,069	\$ 246,916	\$ 267,525	\$ 278,254
Cost of goods sold	305,250	227,014	264,816	243,181	193,873	137,808	164,600	152,171
