

## Baker Hughes to Supply Advanced Artificial Lift Solutions to Enhance Production in Kuwait Oil Company Fields

December 17, 2025

- *Leucipa™, FusionPro™ integration will optimize ESP operation:*
- *Agreement follows third-quarter award for advanced wireline, perforation technology*

HOUSTON and LONDON, Dec. 17, 2025 (GLOBE NEWSWIRE) -- Baker Hughes (NASDAQ: BKR), an energy technology company, announced Wednesday a major award from Kuwait Oil Company (KOC) to provide advanced artificial lift systems and associated services to enhance production in Kuwait's oil and gas fields.

Under the multi-year agreement, Baker Hughes will supply its portfolio of [electrical submersible pumps](#) (ESPs), as well as installation, surveillance and maintenance services. ESP performance will be further optimized through the integration of the [FusionPro™ intelligent production drive](#) and [Leucipa™ automated field production solution](#), which will enhance operational reliability and reduce nonproductive time.

"Technology is unlocking new value from established fields around the world, and Baker Hughes and KOC have been at the forefront of these advancements," said Amerino Gatti, executive vice president of Oilfield Services & Equipment at Baker Hughes. "Our industry-leading artificial lift systems have proven themselves in Kuwait's oilfields for nearly two decades and established a reputation for reliability and efficiency."

This agreement follows a third-quarter award from KOC to provide advanced wireline and perforation technology and services including [Proxima™ advanced logging services](#) to enhance reservoir evaluation, optimize production and increase recovery.

Baker Hughes has a long history of supporting Kuwait's energy sector by providing advanced technologies and solutions. The company operates a 25,000-square-meter workshop in the country for equipment testing and failure analysis of artificial lift systems. Earlier this year, Baker Hughes also signed a memorandum of understanding to establish a research and development center in the country's Ahmadi Innovation Valley, which will help address technology challenges in the upstream sector and build local expertise.

### About Baker Hughes

Baker Hughes (NASDAQ: BKR) is an energy technology company that provides solutions to energy and industrial customers worldwide. Built on a century of experience and conducting business in over 120 countries, our innovative technologies and services are taking energy forward – making it safer, cleaner and more efficient for people and the planet.
