## **Forward Looking Statements**

This presentation contains statements that are intended to be “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, and Section 21E of the Securities Exchange Act of 1934, as amended. All statements, other than statements of historical facts, included in this presentation that address activities, events or developments that the Company expects or anticipates will or may occur in the future are forward-looking statements. These statements are based on certain assumptions and analyses made by the Company in light of its experience and its perception of historical trends, current conditions and expected future developments, as well as other factors it believes are appropriate under the circumstances. Forward-looking statements may be identified through the use of terms such as “expect,” “may,” “will,” “should,” “intend,” “plan,” “guidance,” “outlook” and/or other similar expressions generally intended to identify forward-looking statements. Such forward-looking statements are not guarantees of future performance and involve risks and uncertainties, and actual results may differ materially from those projected in the forward-looking statements. Factors that might cause or contribute to a material difference include, but are not limited to, uncertainties associated with a protracted economic slowdown; uncertainties and volatility in the global capital markets; and other governmental, political, economic, public health, end-market, competitive, technological, acquisition-related, cybersecurity, government contracting, intellectual property, changes in fiscal or tax policies, litigation and foreign currency-related risk factors that may affect the Company’s operations, products, markets, suppliers, customers and prices. Details regarding various significant risks and uncertainties that may affect our operating and financial performance can be found in the Company’s Annual Report on Form 10-K, Quarterly Reports on Form 10-Q and other Company filings with the Securities and Exchange Commission including Current Reports on Form 8-K. Forward-looking statements set forth in this presentation speak only as of the date of this presentation and the Company does not undertake any obligation to revise or update these statements whether as a result of new information, future events or otherwise, except as required by law.

## **Non-GAAP Financial Measures**

The balances included within this presentation are prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”). This presentation also contains certain non-GAAP financial information, including Adjusted Operating Margin and Adjusted Diluted EPS (collectively, “non-GAAP financial measures”), which are intended to supplement the reported GAAP results. Management believes that such non-GAAP financial measures may be helpful to investors in assessing the Company’s overall financial performance, trends and period-over-period comparative results. The non-GAAP financial measures are defined within the Company’s Annual Report on Form 10-K and should be read in conjunction with the Company’s financial statements presented in accordance with GAAP.
