

## Corporate Fact Sheet

Trinseo is a global materials company and manufacturer of plastics, latex binders and synthetic rubber. The company is dedicated to in-depth collaboration with its customers, who are global leaders in their respective industries: carpet, paper and paperboard, automotive, consumer electronics, electrical, lighting, medical devices, consumer goods, home appliances, packaging, building and construction, rubber goods, and tires.

Trinseo technologies and expertise play an intrinsic role in the innovative and sustainable solutions customers require to develop their next generation products. Trinseo is uniquely positioned to benefit from the interaction between its global asset base, longstanding customer relationships and a robust innovation pipeline, and has a track record built on successful customer-driven innovations.

**Table 1:**

2016 Revenue	
<b>Trinseo (All businesses)</b>	Approximately \$3.7 billion
<b>Performance Materials Division</b>	Approximately \$2.1 billion
<b>Basic Plastics and Feedstocks Division</b>	Approximately \$1.6 billion

### Executive Leadership Team

- Chris Pappas, President and Chief Executive Officer
- Barry Niziolek, Executive Vice President and Chief Financial Officer
- Angelo Chacras, Senior Vice President and Chief Legal Officer
- Marilyn Horner, Senior Vice President, Human Resources
- Catherine Maxey, Vice President, Public Affairs, Sustainability and Environment, Health and Safety
- Jeff Denton, Senior Vice President, Corporate Development and Business Services
- Hayati Yarkadas, Senior Vice President and Business President for Performance Materials
- Tim Stedman, Senior Vice President and Business President for Basic Plastics and Feedstocks

### Portfolio Overview

**Table 2: Basic Plastics and Feedstocks**

	Polystyrene	ABS/SAN	Polycarbonate
<b>Key Products</b>	<ul style="list-style-type: none"> <li>• General Purpose Polystyrene (GPPS)</li> <li>• High Impact Polystyrene (HIPS)</li> </ul>	<ul style="list-style-type: none"> <li>• Acrylonitrile Butadiene Styrene (ABS) Resins</li> <li>• Styrene Acrylonitrile (SAN) Resins</li> </ul>	<ul style="list-style-type: none"> <li>• Polycarbonate Resins (PC)</li> </ul>
<b>Top Brands</b>	<ul style="list-style-type: none"> <li>• STYRON<sup>TM</sup></li> <li>• STYRON A-TECH<sup>TM</sup></li> <li>• STYRON<sup>TM</sup> C-TECH</li> <li>• STYRON X-TECH<sup>TM</sup></li> </ul>	<ul style="list-style-type: none"> <li>• MAGNUM<sup>TM</sup></li> <li>• TYRIL<sup>TM</sup></li> </ul>	<ul style="list-style-type: none"> <li>• CALIBRE<sup>TM</sup></li> <li>• CALIBRE<sup>TM</sup> MEGARAD<sup>TM</sup></li> </ul>
<b>End Use</b>	<ul style="list-style-type: none"> <li>• Appliances</li> <li>• Building and Construction</li> <li>• Consumer Goods</li> <li>• Electrical</li> <li>• Lighting</li> <li>• Packaging</li> <li>• Consumer Electronics</li> </ul>	<ul style="list-style-type: none"> <li>• Appliances</li> <li>• Automotive and RV</li> <li>• Building and Construction</li> <li>• Consumer Goods</li> <li>• Furniture</li> <li>• Packaging</li> <li>• Sheet and Profile</li> </ul>	<ul style="list-style-type: none"> <li>• Appliances</li> <li>• Consumer Electronics</li> <li>• Consumer Goods</li> <li>• Medical Devices</li> <li>• Optical Media</li> <li>• Sheet and Profile</li> </ul>

The company also produces styrene monomer, a feedstock use in polymer production.

Table 3: Performance Materials

	Latex	Synthetic Rubber	Performance Plastics
<b>Key Products</b>	<ul style="list-style-type: none"> <li>Starch-containing Emulsion Technology</li> <li>Styrene-Butadiene Latex (SB Latex)</li> <li>Styrene-Acrylate Latex (SA Latex)</li> </ul>	<ul style="list-style-type: none"> <li>Emulsion-Styrene Butadiene Rubber (E-SBR)</li> <li>Lithium-Butadiene Rubber (Li-PBR)</li> <li>Nickel-Butadiene Rubber (Ni-BR)</li> <li>Solution-Styrene Butadiene Rubber (S-SBR)</li> </ul>	<ul style="list-style-type: none"> <li>Acrylonitrile Butadiene Styrene (ABS)</li> <li>Polycarbonate (PC) blends</li> <li>PC/ABS</li> <li>PC/PET</li> <li>Long-Glass-filled Polypropylene</li> <li>Glass-filled Alloys</li> <li>Polypropylene compounds</li> </ul>
<b>Top Brands</b>	<p>Carpet:</p> <ul style="list-style-type: none"> <li>ENVERSA™ Foam Latex</li> <li>EVEREST™ Latex Technology</li> <li>FOUNDATIONS™ Latex</li> <li>HPL™ Latex</li> <li>Latex Modifier A™ / NA</li> <li>LOMAX™ Technology</li> <li>MaxForte™</li> <li>MaxCoat™</li> <li>Two-in-One Technology</li> </ul> <p>(Note: paper technologies are not branded)</p>	<ul style="list-style-type: none"> <li>BUNA™ Rubber</li> <li>SPRINTAN™ Rubber</li> </ul>	<ul style="list-style-type: none"> <li>CALIBRE™</li> <li>CALIBRE™ MEGARAD™</li> <li>CELEX™</li> <li>EMERGE™</li> <li>ENLITE™</li> <li>INSPIRE™</li> <li>MAGNUM™</li> <li>PULSE™</li> <li>VELVEX™</li> </ul>
<b>End Use</b>	<ul style="list-style-type: none"> <li>Building and Construction Materials</li> <li>Carpet and Artificial Turf Backings</li> <li>Concrete Reinforcements</li> <li>Paper and Paperboard Coatings</li> </ul>	<ul style="list-style-type: none"> <li>Polymer Modification</li> <li>Standard and Performance Tires</li> <li>Technical rubber goods</li> </ul>	<ul style="list-style-type: none"> <li>Automotive</li> <li>Consumer Electronics</li> <li>Electrical</li> <li>Lighting</li> <li>Medical Devices</li> </ul>

## Technology

Trinseo operates world-class production assets, occupies leading positions in consolidating markets and serves customers in attractive segments and end markets, including emerging regions. Our Research & Development and Marketing people work closely together with our customers to ensure that research and innovation are driven by current and future industry needs. Building on more than seven decades of manufacturing experience, commercial expertise and technological know-how, we are passionately focused on delivering high-performance products and innovative thinking to our customers.

Trinseo materials are intrinsic to the functionality of our customers' products, which is demonstrated by the fact that customers come to Trinseo for help with complex material challenges. We collaborate and innovate with them to design brand new applications or technologies and to develop their next-generation products.

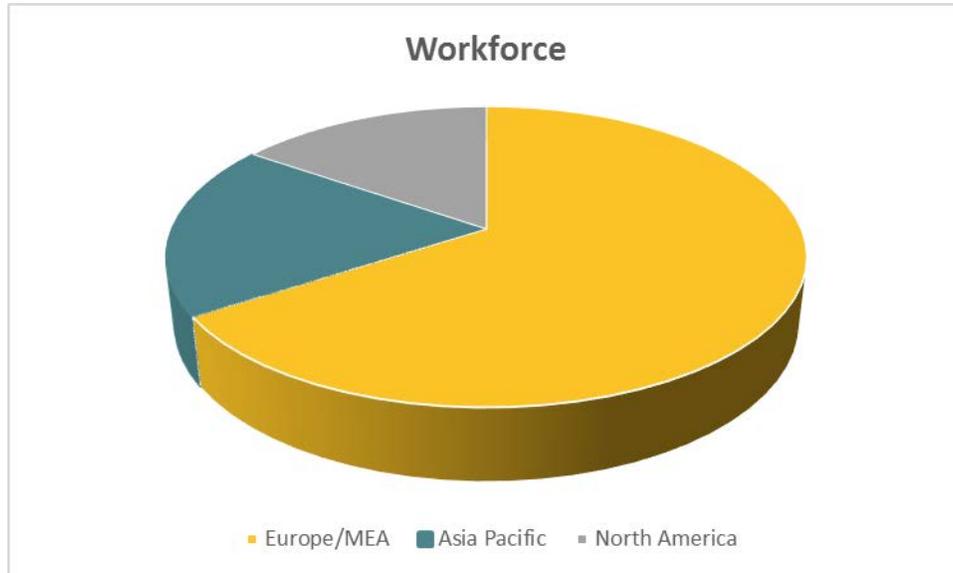

Trinseo's manufacturing sites display a long history of operating excellence, maintaining a strong track record of safety, quality metrics and efficiency. Our manufacturing assets boast a 99% asset mechanical reliability, 5% above the industry average. We continue to invest in the construction of new manufacturing plants and the development of innovative technologies such as S-SBR and Nd-BR.

## Locations

Trinseo has global scale and broad geographic reach with established teams in 27 countries around the world. We have 15 manufacturing sites located strategically in 15 countries. Our global operating center is located in Berwyn, Pennsylvania, USA (suburban Philadelphia), with regional operating centers in North America, Europe, Asia Pacific and Latin America.

## Workforce

Trinseo's nearly 2,200 employees across the globe.

## Joint Venture

Americas Styrenics is a joint venture equally owned by Trinseo LLC and Chevron Phillips Chemical Company LP Americas. It is a leading integrated producer of polystyrene and styrene monomer, offering solutions and services to customers in a variety of markets throughout the Americas.

## Sustainability

Trinseo is committed to managing its products in a safe and sustainable manner. We encourage our suppliers and customers to join our efforts to collaborate, innovate, and elevate industrial practices and expectations so that chemical products are managed safely and sustainably throughout their lifecycle.

Trinseo aims to be a preferred partner for sustainable solutions in plastics, latex and rubber. We understand our customer's needs and collaborate with them to develop new technologies that help them to continuously improve the sustainability performance of their value chain. We use our entrepreneurial nature, strong heritage, laser focus and flexibility to ensure that our innovation pipeline provides our customers with tangible and sustainable next-generation solutions. Our functionalized rubber technology offering, for example, will help customers around the world meet the increasing demand for green tires.

The people of Trinseo are committed to:

- continually innovating and developing new and improved products and processes that enhance Trinseo's and our customers' sustainability;
- promoting the responsible use of our materials through product stewardship;
- conducting ourselves responsibly with respect to the environment, health and safety, using resources more efficiently, adhering to the principles of Responsible Care®, and being a good neighbor in the communities in which we operate.
