Miami – January 24, 2026 – It is with great sadness and deep emotion that we share the passing of Constantino de Oliveira Júnior, founder of GOL Airlines and one of the founders of the Abra Group. Constantino served as Executive Chairman of Abra Group, Chairman of Gol, and Board Member of Avianca.

Constantino was an entrepreneur and a true visionary, driven by a clear purpose: air travel should be accessible to everyone. Under his leadership, GOL became the first airline in Brazil to democratize air travel, fostering development and growth across the country, and Abra Group was founded to expand that purpose throughout Latin America.

Abra will continue his legacy, working toward a more balanced playing field in Latin America —enhancing connectivity, improving the way the region flies and promoting greater access to flying for all.
