On August 17, 2021, the Company sold its Oxford business to an affiliate of H.I.G. Capital for $525.0 million. The gain on the sale was $216.9 million ($168.8 million net of income taxes). The financial results of that business are reported as discontinued operations in the accompanying condensed consolidated statements of operations.

There were no significant operating results from discontinued operations subsequent to December 31, 2021. The following table summarizes the results of operations of the Oxford business (in millions):

	Three Months Ended June 30, 2021	Six Months Ended June 30, 2021
Revenues	$ 134.1	$ 252.8

During the six months ended June 30, 2022, the Company received $9.8 million related to the finalization of the purchase price, which mainly related to the settlement of net working capital. The following table provides select cash flow information related to the Oxford business for the six months ended June 30, 2021 (in millions):

Net cash provided by operating activities	$	11.5
Net cash used in investing activities	$	(3.2)

5. Long-Term Debt

Long-term debt consisted of the following (in millions):

	June 30, 2022	December 31, 2021
Senior Secured Credit Facility:		
Borrowings under $250 million revolving credit facility, due 2024	$ —	$ —
Term B loan facility, due 2025	490.8	490.8
Unsecured Senior Notes, due 2028	550.0	550.0
	1,040.8	1,040.8
Unamortized deferred loan costs	(6.3)	(6.9)
	$ 1,034.5	$ 1,033.9

Senior Secured Credit Facility — The senior secured credit facility consists of a term B loan and a $250.0 million revolving credit facility. Borrowings under the term B loan bear interest at LIBOR plus 1.75 percent, or the bank's base rate plus 0.75 percent. Borrowings under the revolver bear interest at LIBOR plus 1.25 to 2.25 percent, or the bank's base rate plus 0.25 to 1.25 percent, depending on leverage levels. A commitment fee of 0.20 to 0.35 percent is payable on the undrawn portion of the revolver. There are no required minimum payments on the facility. The revolver is limited to a maximum ratio of senior secured debt to trailing 12-months of lender-defined consolidated EBITDA of 3.75 to 1.00, which was 0.91 to 1.00 at June 30, 2022. The facility is secured by substantially all of the Company's assets and includes various restrictive covenants. At June 30, 2022, the Company was in compliance with its debt covenants. In July 2021, the Company amended its facility to, among other things, permit the sale of its Oxford business and allow the net cash proceeds (approximately $0.4 billion) to be used for future acquisitions and other permitted investments. With the acquisition of GlideFast Holdings, LLC and affiliated entities ("GlideFast") on July 6, 2022 (see *Note 11. Subsequent Events*), and other investments of the net cash proceeds, prepayments, if any, are expected to be insignificant.

Unsecured Senior Notes — The Company has $550.0 million of unsecured senior notes, which bear interest at 4.625 percent payable semiannually in arrears on May 15 and November 15. These notes are unsecured obligations and are subordinate to the senior secured credit facility. These notes also contain certain customary limitations including, among other terms and conditions, the Company's ability to incur additional indebtedness, engage in mergers and acquisitions, transfer or sell assets and make certain distributions.

6. Commitments and Contingencies

The Company is involved in various legal proceedings, claims and litigation arising in the ordinary course of business. The Company does not believe that the disposition of matters that are pending or asserted will have a material effect on its financial statements.

7. Income Taxes

For interim reporting periods, the Company's provision for income taxes is calculated using its annualized estimated effective tax rate for the year. This rate is based on its estimated full year income and the related income tax expense for each jurisdiction in which the Company operates. The effective tax rate can be affected by changes in the geographical mix, permanent differences and the estimate of full year pretax accounting income. This rate is adjusted for the effects of discrete items occurring in the period.

10. Fair Value Measurements

Recurring Fair Value Measurements — The carrying amounts of cash and cash equivalents, accounts receivable, accounts payable and accrued payroll and contract professional pay approximate their fair value based on their short-term nature. The carrying amount of long-term debt recorded in the Company’s balance sheet at June 30, 2022 was $1.0 billion (see *Note 5. Long-Term Debt*) and its fair value was $1.0 billion, which was determined using quoted prices in active markets for identical liabilities (Level 1 inputs).

Certain acquisitions contain provisions requiring the Company to pay contingent consideration in the event the acquired business achieves certain specified earnings results in 2021 or obtains specified contract awards. Contingent consideration liabilities had a fair value of $15.1 million at December 31, 2021. In the six months ended June 30, 2022, $8.1 million of that liability was paid and is reflected in cash flows from financing activities in the accompanying condensed consolidated statement of cash flows and the remaining fair value was reduced to zero as a measurement period adjustment, with no effect on results of operations. There were no contingent consideration liabilities at June 30, 2022.

Nonrecurring Fair Value Measurements — Certain assets, such as goodwill and trademarks, are not measured at fair value on an ongoing basis but are subject to fair value adjustments in certain circumstances, such as, when there is evidence of impairment. There were no fair value adjustments for non-financial assets or liabilities during the three and six months ended June 30, 2022.

11. Subsequent Events

On July 6, 2022, the Company acquired GlideFast, an Elite ServiceNow provider, for total cash consideration of $350.0 million. The results of operations of GlideFast will be included in the Commercial Segment from the date of acquisition.

On July 27, 2022, the Company's Board of Directors approved a new stock repurchase program under which the Company may repurchase up to $400.0 million of its common stock over the next two years. Under terms of the program, purchases can be made in the open market or under a Rule 10b5-1 trading plan. The stock repurchase program does not obligate the Company to acquire any particular amount of the Company's stock and may be suspended at any time at the Company's discretion. The new program replaces the Company's previous $350.0 million stock repurchase program.

Commercial Segment — Revenues from our Commercial Segment (74.5 percent of total revenues) were up 19.4 percent over the second quarter of last year. Assignment revenues totaled $628.4 million (73.9 percent of the segment's revenues), up 10.6 percent year-over-year. Consulting services revenues were $222.2 million (26.1 percent of the segment's revenues), up 53.9 percent year-over-year. All commercial divisions (IT services and solutions, creative digital marketing and permanent placement) and revenue streams had double-digit growth over the second quarter of last year with the highest growth coming from our commercial consulting, creative digital marketing and permanent placement services. All five industry verticals: (i) financial services, (ii) consumer and industrials, (iii) healthcare, (iv) technology, media and telecom and (v) business and government services, were also up double-digit year-over-year.

Within the Commercial Segment, IT services and solutions revenues, which accounted for 83.1 percent of the segment's revenues in the quarter, were up 19.1 percent over the second quarter of last year driven by high growth in consulting services and high single-digit growth in assignment revenues. Gross Profit and Gross Margin

The table below shows gross profit and gross margin by segment for the three months ended June 30, 2022 and 2021 (in millions).

	Gross Profit			Gross Margin		
	2022	2021	Change	2022	2021	Change
Commercial	$ 281.7	$ 228.3	23.4 %	33.1 %	32.0 %	1.1 %
Federal Government	62.3	48.0	29.8 %	21.4 %	18.3 %	3.1 %
Consolidated	$ 344.0	$ 276.3	24.5 %	30.1 %	28.3 %	1.8 %

Gross profit is comprised of revenues less costs of services, which consist primarily of compensation for our contract professionals, allowable materials and reimbursable out-of-pocket expenses. Consolidated gross profit was up 24.5 percent on revenue growth of 17.1 percent.

Gross margin was 30.1 percent, an expansion of 180 basis points over the second quarter of 2021. Both business segments and all operating divisions reported year-over-year expansion in gross margin. The expansion in gross margin of the Commercial Segment was driven by the double-digit growth of its high-margin services (commercial consulting, creative digital marketing and permanent placement). The expansion in gross margin of the Federal Government Segment was driven by changes in business mix, including the contribution of high-margin businesses acquired in 2021, a lower mix of revenues from low-margin services and higher profitability under certain firm fixed price contracts.

Selling, General and Administrative Expenses

Selling, general and administrative ("SG&A") expenses consist primarily of compensation expense for our field operations and corporate staff, rent, information systems, marketing, telecommunications, public company expenses and other general and administrative expenses. SG&A expenses were $220.4 million (19.3 percent of revenues), compared with $176.4 million (18.1 percent of revenues) in the second quarter of 2021. This increase was commensurate with the growth in the business, including growth of high-margin commercial revenue streams (which carry a higher SG&A expense component than IT staffing and federal government services revenues).

Amortization of Intangible Assets

Amortization of intangible assets was $13.5 million, up from $12.0 million in the second quarter of 2021. This increase relates to the effects of the three businesses acquired in 2021.

Interest Expense

Interest expense was $10.1 million and was comprised of $3.3 million of interest on the senior secured credit facility, $6.3 million of interest on the unsecured senior notes, and $0.5 million in amortization of deferred loan costs. The weighted-average outstanding borrowings for the quarter were $1.0 billion and the weighted-average interest rate was 3.7 percent.

Provision for Income Taxes

The provision for income taxes was $27.4 million, up from $21.2 million in the second quarter of 2021, related to the growth in income before income taxes as the effective tax rate for the current quarter was only slightly higher than the second quarter of 2021.

Income from Continuing Operations

Income from continuing operations was $72.6 million, up from $57.3 million in the second quarter of 2021 driven by the growth in the business and the expansion of our gross margin.

Net Income

Net income of $72.5 million was comprised of income from continuing operations of $72.6 million and loss from discontinued operations of $0.1 million.

RESULTS OF OPERATIONS FOR THE SIX MONTHS ENDED JUNE 30, 2022 COMPARED WITH THE SIX MONTHS ENDED JUNE 30, 2021

Excluding the contributions from acquisitions, revenues were up 14.6 percent year-over-year. The table below shows our revenues by segment for the six months ended June 30, 2022 and 2021 (in millions).

Commercial Segment - Consulting Metrics

Commercial consulting bookings are defined as the value of new contracts entered into during a specified period, including adjustments for the effects of changes in contract scope and contract terminations. The underlying contracts are terminable by the client on short notice with little or no termination penalties. The book-to-bill ratio for our commercial consulting revenues is the ratio of our commercial consulting bookings to the commercial consulting revenues for a specified period. The average duration of commercial consulting projects is one year.

	Three Months Ended June 30,		Six Months Ended June 30,	
(dollars in millions)	2022	2021	2022	2021
Bookings	$ 340.6	$ 217.7	$ 638.1	$ 399.7
Book-to-Bill Ratio	1.5 to 1.0	1.5 to 1.0	1.5 to 1.0	1.5 to 1.0

Federal Government Segment Metrics

Contract backlog for our Federal Government Segment represents the estimated amount of future revenues to be recognized under awarded contracts including task orders and options. These estimates are subject to change and may be affected by the execution of new contracts, the extension or early termination of existing contracts, the non-renewal or completion of current contracts and adjustments to estimates for previously included contracts. Changes in the funded contract backlog are also affected by the funding cycles of the government.

(in millions)	June 30, 2022	December 31, 2021	June 30, 2021
Funded Contract Backlog	$ 455.5	$ 529.2	$ 449.1
Negotiated Unfunded Contract Backlog	2,395.2	2,472.0	2,272.5
Contract Backlog	$ 2,850.7	$ 3,001.2	$ 2,721.6

The book-to-bill ratio for our Federal Government Segment was 0.9 to 1.0 for the trailing-twelve-months ended June 30, 2022. The book-to-bill ratio was calculated as the sum of the change in total contract backlog during the period plus revenues for the period, divided by revenues for the period. The contract backlog coverage ratio (backlog at June 30, 2022 divided by trailing-twelve-months of Federal Government Segment revenues) was 2.5 to 1.0.

Liquidity and Capital Resources

Our working capital at June 30, 2022 was $873.9 million, and our cash and cash equivalents were $490.6 million. Our cash flows from operating activities have been our primary source of liquidity and have been sufficient to fund our working capital and capital expenditure needs. At June 30, 2022, we had full availability under our $250.0 million revolving credit facility. We believe that our cash and cash equivalents on hand, expected operating cash flows and availability under our revolving credit facility will be sufficient to fulfill our obligations, working capital requirements and capital expenditures for the next 12 months.

Net cash provided by operating activities was $144.4 million for the first half of 2022, compared with $204.7 million in the first half of last year. Net cash provided by operating activities before changes in operating assets and liabilities was $208.2 million, up from $180.2 million in

the first half of last year. Changes in operating assets and liabilities resulted in net cash usage of $63.8 million, compared with net cash generation of $24.5 million in the first half of last year. This change mainly related to the revenue growth in the Commercial Segment and an increase in accounts receivable days sales outstanding.

Net cash used by investing activities was $6.1 million for the first half of 2022 and included $9.8 million in cash received related to the finalization of the purchase price for the sale of the Oxford business and $18.4 million in capital expenditures. Net cash used in investing activities in the first half of last year was $103.4 million and was comprised of $85.8 million for acquisitions and $17.6 million for capital expenditures.

Net cash used in financing activities was $177.1 million for the first half of 2022, compared with net cash provided of $0.1 million in the first half of last year. Net cash used in financing activities for the first half of 2022 was primarily comprised of $168.1 million to repurchase the Company's common stock. There were no repurchases of common stock in the first half of last year.

Senior Secured Credit Facility — The senior secured credit facility consists of a term B loan and a $250.0 million revolving credit facility. At June 30, 2022, the Company had $490.8 million outstanding under the term B loan and no outstanding borrowings under the revolver. Borrowings under the term B loan bear interest at LIBOR plus 1.75 percent, or the bank's base rate plus 0.75 percent. Borrowings under the revolver bear interest at LIBOR plus 1.25 to 2.25 percent, or the bank's base rate plus 0.25 to 1.25 percent, depending on leverage levels. A commitment fee of 0.20 to 0.35 percent is payable on the undrawn portion of the revolver. There are no required minimum principal payments on the facility until maturity. The facility is secured by substantially all of the Company's assets and includes various restrictive covenants. In July 2021, the Company amended its facility to, among other things, permit the sale of its Oxford business and allow the net sale proceeds (approximately $0.4 billion) to be used for future acquisitions and other permitted investments. With the acquisition of GlideFast on July 6, 2022 (see *Note 11. Subsequent Events*), and other investments of the net cash proceeds, required prepayments, if any, are expected to be insignificant.

Unsecured Senior Notes — The Company has $550.0 million of unsecured senior notes due in 2028, which bear interest at 4.625 percent payable semiannually in arrears on May 15 and November 15. These notes are unsecured obligations and subordinate to the senior secured credit facility. These notes contain certain customary limitations including, among other terms and conditions, our ability to incur additional indebtedness, engage in mergers and acquisitions, transfer or sell assets and make certain distributions.
