ECS Achieves AWS Managed Service Provider Status for Tenth Consecutive Year

2024-09-03

FAIRFAX, Va.--(BUSINESS WIRE)-- **ECS** , an IT systems integrator focused on data and artificial intelligence (AI), cybersecurity, and enterprise transformation solutions, and an ASGN (NYSE: ASGN) brand, announced today that it has achieved Amazon Web Services (AWS) Managed Service Provider status for the tenth consecutive year. This designation recognizes that ECS has demonstrated excellence in providing end-to-end AWS solutions that help customers at any stage of the cloud journey achieve their planning, design, building, migration, operations, support, automation, and optimization goals.

Achieving the AWS Managed Service Provider designation differentiates ECS as an AWS Partner Network (APN) member that provides specialized consulting and managed services designed to help enterprises adopt, develop, and deploy complex projects on AWS. To receive the designation, APN members must possess deep AWS expertise and deliver solutions seamlessly on AWS.

“As we mark a decade of success as an audited AWS Managed Service Provider, I'm proud of the trust our government customers have placed in us to help them achieve their mission-critical goals,” said **Ross Serino, vice president of Cloud Operations** at ECS. “Our AWS partnership enables us to deliver secure, scalable, and agile cloud solutions that meet the unique needs of the federal sector.”

“We're excited to continue pushing the boundaries of what's possible by leveraging AI and machine learning to drive better outcomes for customers,” said **John Heneghan, president of ECS** . “Whether we’re modernizing legacy systems, enhancing cybersecurity, or driving digital transformation, we're committed to helping our government customers stay ahead of the curve and achieve their goals.”

AWS is enabling scalable, flexible, and cost-effective solutions from startups to global enterprises. To support the seamless integration and deployment of these solutions, AWS established the **AWS Competency Program** to help customers identify Consulting and Technology APN Partners with deep industry experience and expertise.

About ECS

ECS, part of ASGN’s Federal Government Segment, delivers advanced solutions in cybersecurity, data and artificial intelligence (AI), cloud, application and IT modernization, science, and engineering. The company solves critical, complex challenges for customers across the U.S. public sector, including defense and intelligence organizations.

ECS maintains partnerships with leading cloud, cybersecurity, and AI/ML providers and holds specialized certifications in their technologies. Headquartered in Fairfax, Virginia, ECS has nearly 4,000 employees throughout the United States. For more information, visit **ECStech.com** .

About ASGN Incorporated
