TMX Group Limited Reports Results for First Quarter of 2023

5/1/2023

- Record revenue of \$299.1 million, up 4% from \$287.4 million in Q1/22
- Diluted earnings per share of \$1.59, down 67% from \$4.75 in Q1/22, including \$3.16 gain per share from acquisition of voting control of BOX in Q1/22
- Adjusted diluted earnings per share¹ of \$1.85, up 2% from \$1.82 in Q1/22

TORONTO, May 1, 2023 /CNW/ - TMX Group Limited (TSX: X) ("TMX Group") today announced results for the first quarter ended March 31, 2023.

Commenting on Q1 results, John McKenzie, Chief Executive Officer of TMX Group, said:

"TMX delivered positive results in the first quarter, with year-over-year growth in revenue and sustained momentum in priority initiatives designed to accelerate our long-term, global growth strategy. Increased revenue in the quarter again reflects the value of TMX's deep portfolio of assets, with double-digit growth in our expanding Global Solutions, Insights and Analytics business, including TMX Datalinx and Trayport, as well as Derivatives Trading and Clearing, excluding BOX. These gains were partially offset by decreased revenue from Equities and Fixed Income Trading and Clearing, and capital raising activity, due to challenging market conditions. Driven by our purpose to make markets better and empower bold ideas, TMX is firmly committed to building on our track record of innovation and leadership in serving capital markets into the future."

Commenting on TMX Group's performance in the first quarter of 2023, David Arnold, Chief Financial Officer of TMX Group, said:

"Our results for the first quarter reflect the continued resiliency of our diverse business model as we work through a challenging macro backdrop. Revenue excluding Wall Street Horizon, SigmaLogic, and BOX increased by 6% compared with the first quarter of last year, as we continue to invest in growth to meet our long-term financial objectives."

Non-GAAP Measures

Adjusted net income is a non-GAAP measure², and adjusted earnings per share, adjusted diluted earnings per share, and adjusted earnings per share CAGR are non-GAAP ratios³, and do not have standardized meanings prescribed by GAAP and are, therefore, unlikely to be comparable to similar measures presented by other companies.

Management uses these measures, and excludes certain items, because it believes doing so provides investors a more effective analysis of underlying operating and financial performance, including, in some cases, our ability to generate cash. Management also uses these measures to more effectively measure performance over time, and excluding these items increases comparability across periods. The exclusion of certain items does not imply that they are non-recurring or not useful to investors.

We present adjusted earnings per share, adjusted diluted earnings per share, and adjusted net income to indicate ongoing financial performance from period to period, exclusive of a number of adjustments as outlined under the heading "Adjusted Net Income and Adjusted Earnings Per Share Reconciliation for Q1/23 and Q1/22".

¹ Adjusted diluted earnings per share is a non-GAAP ratio, see discussion under the heading "Non-GAAP Measures".

² As defined in National Instrument 52-112 Non-GAAP and Other Financial Measures Disclosure.

Net Income attributable to equity holders of TMX Group and Earnings per Share

Net income attributable to equity holders of TMX Group in Q1/23 was \$89.0 million, or \$1.60 per common share on a basic and \$1.59 per common share on a diluted basis, compared with \$267.4 million, or \$4.78 per common share on a basic and \$4.75 on a diluted basis, for Q1/22. The decrease in net income attributable to equity holders of TMX Group is largely due to a non-cash gain of \$177.9 million being recognized in Q1/22 resulting from the revaluation of our interest in BOX upon acquisition of voting control, and a decrease in income from operations of \$2.4 million (includes 100% income from operations of BOX of which 52.1% relates to non-controlling interests). The decrease in income from operations from Q1/22 to Q1/23 was driven by an increase in operating expenses of \$14.1 million, which included \$3.3 million of expenses related to SigmaLogic (acquired control February 16, 2023), WSH (acquired November 9, 2022), and acquisition and related expenses for equity-accounted investments. There were also higher expenses related to higher headcount and payroll costs, revenue related expenses, increased IT operating costs, and employee performance incentive plan costs. This was somewhat offset by an increase in revenue of \$11.7 million in Q1/23 compared with Q1/22, of which \$1.7 million related to WSH, and \$0.2 million of revenue for SigmaLogic.

The decrease in earnings per share was partially offset by a decrease in the number of weighted average common shares outstanding from Q1/22 to Q1/23.

4 Adjusted net income is a non-GAAP measure, see discussion under the heading "Non-GAAP Measures".
5 Adjusted earnings per share is a non-GAAP ratio, see discussion under the heading "Non-GAAP Measures".

Adjusted Net Income attributable to equity holders of TMX Group⁶ and Adjusted Earnings per Share⁷ Reconciliation for Q1/23 and Q1/22

The following tables present reconciliations of net income attributable to equity holders of TMX Group to adjusted net income attributable to equity holders of TMX Group and earnings per share to adjusted earnings per share.

The financial results have been adjusted for the following:

These costs are a component of Depreciation and amortization expenses.

Acquisition and related costs in Q1/22 and Q1/23 related to the SigmaLogic transaction (equity-accounted prior to the acquisition of control in February 2023). Q1/23 also includes acquisition related costs of WSH (acquired November 9, 2022), and the equity-accounted investment in VettaFi (January 2023). These costs are included in Selling general, and administration and Net Finance Costs.

Integration costs related to integrating the AST Canada acquisition in Q1/22. This cost is included in Compensation and benefits, Information and trading systems, and Selling, general and administration.

Gain resulting from the revaluation of our interest in BOX upon acquisition of voting control (effective January 3, 2022) in Q1/22. This gain is included in Other Income

Revenue

(in millions of dollars)	Q1/23	Q1/22	\$ increase / (decrease)	% increase / (decrease)
Capital Formation	\$63.5	\$63.9	\$(0.4)	(1) %
Equities and Fixed Income Trading and Clearing	61.5	62.1	(0.6)	(1) %
Derivatives Trading and Clearing	71.5	71.5	0.0	0 %
Global Solutions, Insights and Analytics	102.6	89.9	12.7	14 %
	\$299.1	\$287.4	\$11.7	4 %

Revenue was \$299.1 million in Q1/23 up \$11.7 million or 4% compared with \$287.4 million in Q1/22 attributable to an increase in revenue from Global Solutions, Insights and Analytics, partially offset by decreases in Equities and Fixed Income Trading and Clearing, and Capital Formation revenue. The increase from Q1/22 to Q1/23 included \$1.7 million of revenue for WSH (acquired November 9, 2022), and \$0.2 million of revenue for SigmaLogic (acquired on February 16, 2023), offset by a \$5.3 million decrease in BOX revenue. Excluding revenue from WSH, SigmaLogic and BOX, revenue was up 6% in Q1/23 compared with Q1/22.

Operating expenses

(in millions of dollars)	Q1/23	Q1/22	\$ increase	% increase
Compensation and benefits	\$77.1	\$71.3	\$5.8	8 %
Information and trading systems	23.2	20.0	3.2	16 %
Selling, general and administration	31.1	25.8	5.3	21 %
Depreciation and amortization	28.0	28.2	(0.2)	(1) %
	\$159.4	\$145.3	\$14.1	10 %

Operating expenses in Q1/23 were \$159.4 million, up \$14.1 million or 10%, from \$145.3 million in Q1/22. The increase from Q1/22 to Q1/23 reflected approximately \$3.3 million of expenses related to SigmaLogic (control acquired February 16, 2023), WSH (acquired November 9, 2022), of which there was approximately \$0.7 million related to amortization of acquired intangibles for WSH, as well as \$0.4 million related to acquisition and related expenses for SigmaLogic, WSH and VettaFi. There were also higher expenses related to higher headcount and payroll costs, revenue related expenses, increased IT operating costs, employee performance incentive plan costs, and increased expenses for travel and entertainment and marketing costs.

Partially offsetting these increases was a decline in legal fees, long term employee performance incentive plan costs, and severance. We also incurred \$1.2 million in integration costs related to AST Canada in Q1/22. Excluding expenses from SigmaLogic, WSH, AST Canada, and VettaFi, operating expenses increased 8% in Q1/23 compared with Q1/22.

Additional Information

Share of (loss) income from equity-accounted investments

(in millions of dollars)	Q1/23	Q1/22	\$ (decrease)	% (decrease)
	(\$0.5)	\$(0.1)	\$(0.4)	(400) %

- In Q1/23, our share of loss from equity-accounted investments increased by \$0.4 million. For Q1/23, our share of (loss) income from equity-accounted investments includes VettaFi¹⁸, SigmaLogic¹⁹ and Ventriks compared with Q1/22, which included CanDeal²⁰ and SigmaLogic.

¹⁸ Equity-accounted investment as of January 9, 2023.

¹⁹ Consolidated February 16, 2023.

²⁰ Effective February 28, 2022, TMX discontinued the application of the equity method of accounting for CanDeal.

Other Income

(in millions of dollars)	Q1/23	Q1/22	\$ (decrease)	% (decrease)
	\$0.0	177.9	\$(177.9)	(100) %

- In Q1/22, we recognized a non-cash gain of \$177.9 million resulting from the revaluation of our interest in BOX upon acquisition of voting control (January 3, 2022).

Income tax expense and effective tax rate

Income Tax Expense (in millions of dollars)		Effective Tax Rate (%)	
Q1/23	Q1/22	Q1/23	Q1/22
\$32.9	\$31.5	26 %	10 %

Excluding adjustments, primarily related to the item noted below, the effective tax rate would have been approximately 27%, excluding NCI, for Q1/23, an increase of 1% from Q1/22 primarily due to an increase in the U.K. corporate income tax rate from 19% to 25% effective April 1, 2023. A blended tax rate of 23.5% was applied through the tax year as required for corporations with a December 31st year-end.

Q1/22

- In Q1/22, there was a non-taxable gain resulting from the revaluation of our interest in BOX upon acquisition of voting control (effective January 3, 2022).

Net income attributable to non-controlling interests

(in millions of dollars)	Q1/23	Q1/22	\$ (decrease)
	\$7.7	11.8	\$(4.1)

- The decrease in net income attributable to non-controlling interests (NCI) for Q1/23 compared to Q1/22 is primarily due to lower net income in BOX driven by lower revenue and higher operating expenses.
