TMX VettaFi Acquires End-to-End Index Provider iINDEX Research and Development

2024-10-15

TMX VettaFi adds a proven provider to its comprehensive ETF solution business, increasing its access to EMEA markets and strengthening its equity and fixed income capabilities

Toronto, Ontario--(Newsfile Corp. - October 15, 2024) - TMX VettaFi, an indexing, digital distribution, analytics and thought leadership company and TMX Group subsidiary, announced today the acquisition of iINDEX Research and Development (iINDEX Research), an end-to-end index provider that designs, calculates, and manages indexes across global equities and fixed income markets.

"Today marks another exciting step in our global expansion strategy, enhancing the suite of services we provide to a growing international network of clients and partners," said Tom Hendrickson, President, TMX VettaFi. "The acquisition of iINDEX Research adds new talent as well as operational and client service capabilities focused on European time zones. We look forward to supporting and partnering with even more clients around the globe as we continue to bring TMX VettaFi's offering to Europe and beyond."

Established in 2015, iINDEX Research features US\$10B in linked assets across equity and fixed income exposures, including more than 200 ETFs/index funds, 20 passive pension and study funds, and quantitative investments models for hedge funds.

The acquisition of iINDEX Research marks the third major indexing firm acquired by TMX VettaFi in the last 18 months, following the acquisition of the ROBO Global Index Suite in April 2023, and EQM Indexes in September 2023.

"From our first meeting with the TMX VettaFi team, it was clear that both our capabilities and our cultures were highly aligned - nimble, innovative, and client-focused," said Yaniv Kunis, founder and CEO, iINDEX Research. "As we embark on this next chapter, I am excited for the entire iINDEX Research team, and for the enhanced value we can deliver to our clients and the global investment community."
