NEWS RELEASE

Sensata Technologies Exhibits at the Farnborough Air Show with Products That Improve Aircraft Safety, Efficiency and Performance

2018-07-16

SWINDON, United Kingdom and FARNBOROUGH, United Kingdom, July 16, 2018 (GLOBE NEWSWIRE) -- Sensata Technologies (NYSE:ST), an industrial technology company and a leading provider of sensors, announced that it is making its debut at the Farnborough International Airshow from July 16-20. At the show, Sensata will highlight its expanded Aerospace business which includes aircraft circuit protection, linear variable differential transformers (LVDTs), and pressure and temperature sensors.

Together with its historic sub-brands like Klixon and Kavlico, Sensata offers a broad product portfolio with years of proven expertise in the extremely demanding automotive, industrial and aerospace industries. This synergy of leading brands allows Sensata to provide the highest level of quality, service, and technical expertise on a global level. “Customers who have had relationships with our brands in the past will be pleased with the level of expertise and size of the service network now available to them,” said Stuart Parker, General Manager, Aerospace.

There are over 1 million Sensata LVDTs installed in aircrafts worldwide where they are used for applications in flight control actuation, engine valve control, landing gear actuation, cockpit controls, and environment control systems. With more than 1,500 mission critical sensors and controls on one commercial jet alone, Sensata’s products help improve safety, efficiency, comfort and performance for millions of people every day.

Sensata will feature its LVDT, circuit breaker, pressure and temperature sensor product lines at booth 41366 in Hall 4. Stop by or **arrange a meeting** with our team at the show to see how Sensata can help empower innovation in your next aerospace application.

About Sensata Technologies

Sensata Technologies is one of the world's leading suppliers of sensing, electrical protection, control and power management solutions with operations and business centers in twelve countries. Sensata's products improve safety, efficiency and comfort for millions of people every day in automotive, appliance, aircraft, industrial, military, heavy vehicle, heating, air-conditioning and ventilation, data, telecommunications, recreational vehicle and marine applications.
