

# Sensata Technologies' Sustainability Report Highlights Innovation Advancing Sustainable Systems

2026-06-25

- Innovation across Sensata's key business segments is enabling more sustainable systems in transportation, energy, aerospace and industrial applications.
- Mission-critical technologies are helping customers navigate electrification, energy transition and automation.
- Achieved goal of 30% women in management and above roles globally, ahead of schedule.
- Reduced downstream Scope 3 emissions by 36% compared to 2021 baseline.

SWINDON, United Kingdom--(BUSINESS WIRE)-- **Sensata Technologies** (NYSE: ST) has published its sixth annual Sustainability Report, highlighting how innovation across its business segments is helping customers navigate global trends including electrification, energy transition and automation. The Report reflects Sensata's commitment to the four pillars of its sustainability strategy: Empowering Our Workforce, Innovating for Sustainability, Protecting Our Environment and Operating Responsibly.

Sensata Technologies' 2025 Sustainability Report highlights innovation advancing sustainable systems.

Below are some highlights from  
**Sensata's 2025  
Sustainability Report:**

- Innovations across Sensata's Automotive; Industrials; and Aerospace, Defense & Commercial Equipment segments support renewable energy infrastructure as well as cleaner and safer mobility.
- High-voltage contactors, power conversion technologies, gas detection sensors and other mission-critical solutions are helping customers navigate energy transition, automation and electrification.
- Achieved 30% women in management and above roles globally, ahead of schedule, supporting an inclusive workforce of more than 16,000 employees.
- Reduced downstream Scope 3 emissions by 36% compared to 2021 baseline and increased use of renewable

electricity across global operations.

“By advancing our product roadmap, investing in next-generation technologies and working closely with customers, we are strengthening Sensata’s role in more sustainable systems,” said **Stephan von Schuckmann**, Sensata’s Chief Executive Officer. “We are aligning innovation, operations and workforce progress to deliver long-term value.”
