MELVILLE, N.Y., May 5, 2026 – Henry Schein, Inc. (Nasdaq: HSIC), the world’s largest provider of health care solutions to office-based dental and medical practitioners, today reported financial results for the first quarter ended March 28, 2026.

“I am pleased with our strong first quarter results that reflect continuing momentum from the second half of last year as we grow market share and expand gross margins. Our growth outlook, combined with the progress made on value-creation initiatives and a strong start to the year, reinforces my confidence that we will deliver on our 2026 financial guidance,” said Fred Lowery, Chief Executive Officer of Henry Schein. “I am committed to the Company’s goal of achieving greater than \$200 million of annual operating income improvement within the next few years, with a \$125 million run-rate by the end of 2026. These initiatives, along with continued execution of our strategic plan, will contribute to us achieving high-single digit to low-double digit earnings growth in the coming years.”

“Over the last two months as I have immersed myself in the business and spoken with customers, suppliers and employees, it is clear that Henry Schein has great assets with a differentiated platform to serve as a trusted partner to healthcare practitioners worldwide. Share Repurchases

During the first quarter of 2026, the Company repurchased approximately 1.6 million shares of common stock at an average price of \$77.64 per share for a total of \$125 million.

2026 Financial Guidance

Henry Schein today reaffirmed its financial guidance for 2026. Guidance is for current continuing operations and does not include the impact of restructuring expenses and related costs, amortization expense of acquired intangible assets, the impairment of intangible assets, changes in contingent consideration, costs associated with shareholder advisory matters, select implementation-related costs supporting value creation initiatives, and litigation settlements. This guidance also assumes that foreign currency exchange rates remain generally consistent with current levels.

- 2026 non-GAAP diluted EPS attributable to Henry Schein, Inc. is unchanged and expected to be \$5.23 to \$5.37.

- 2026 total sales growth is unchanged and expected to be approximately 3% to 5% over 2025.
- 2026 Adjusted EBITDA³ is unchanged and expected to grow mid-single digits compared with 2025.

Adjustments to 2026 GAAP Net Income and Diluted EPS

The Company is providing guidance for 2026 diluted EPS and for 2026 Adjusted EBITDA on a non-GAAP basis, as noted above. The Company is not providing a reconciliation of its 2026 non-GAAP diluted EPS guidance to its projected 2026 diluted EPS prepared on a GAAP basis, or its 2026 Adjusted EBITDA guidance to net income prepared on a GAAP basis. This is because the Company is unable to provide without unreasonable effort an estimate of restructuring expenses and related costs, including its ongoing value-creation initiatives, and the corresponding tax effect, which will be included in the Company's 2026 diluted EPS and net income, prepared on a GAAP basis. The inability to provide this reconciliation is due to the uncertainty and inherent difficulty of predicting the occurrence, magnitude, financial impact and timing of related costs.

Management does not believe these items are representative of the Company's underlying business performance. For the same reasons, the Company is unable to address the probable significance of the unavailable information, which could be material to future results.

Included within the press release are non-GAAP financial measures that supplement the Company's Consolidated Statements of Income prepared under generally accepted accounting principles (GAAP). These non-GAAP financial measures adjust the Company's actual results prepared under GAAP to exclude certain items. In the schedule attached to the press release, the non-GAAP measures have been reconciled to and should be considered together with the Consolidated Statements of Income. Management believes that non-GAAP financial measures provide investors with useful supplemental information about the financial performance of our business, enable comparison of financial results between periods where certain items may vary independent of business performance and allow for greater transparency with respect to key metrics used by management in operating our business. The impact of certain items that are excluded include integration and restructuring costs, amortization of acquisition-related assets, the insurance claim recovery associated with the cybersecurity incident, changes in contingent consideration, costs associated with shareholder advisory matters and select value creation consulting costs, and litigation settlements because the amount and timing of such charges are significantly impacted by the timing, size, number and nature of the acquisitions we consummate and occur on an unpredictable basis. These non-GAAP financial measures are presented solely for informational and comparative purposes and should not be regarded as a replacement for corresponding, similarly captioned, GAAP measures.

¹ See Exhibit A for details of sales growth. Internal sales growth is calculated from total net sales using constant foreign currency exchange rates and excludes sales from acquisitions.

² See Exhibit B for a reconciliation of GAAP net income and diluted EPS to non-GAAP net income and diluted EPS.
