5. CONFLICTS OF INTEREST AND CORPORATE OPPORTUNITIES

Company Personnel are expected to use their judgment to act, at all times and in all ways, in the best interest of Canada Goose. A "conflict of interest" exists when the personal interest of a member of Company Personnel interferes, or appears to interfere, with the best interest of the Company. For example, a conflict of interest may occur when an employee or a family member receives a personal benefit as a result of the employee's position with the Company. A conflict of interest may also arise from an employee's business or personal relationship with a customer, supplier, competitor, business partner, or other employee, if that relationship impairs the employee's objective business judgment.

Company Personnel are prohibited from (a) benefitting personally from opportunities that are discovered through the use of Company property, information or position; (b) using Company property, information, or position for personal gain; and (c) competing with the Company.

The Company has adopted a Conflict of Interest Policy providing guidelines regarding the avoidance of conflicts of interest, and providing a means for Company Personnel to communicate potential conflicts to the Head of Human Resources or the Head of the Legal Department who will consider the facts and circumstances of the situation to decide whether corrective or mitigating action is appropriate.

6. PROTECTION AND PROPER USE OF CORPORATE ASSETS

All Company Personnel should protect the Company's assets and ensure their efficient use. Theft, carelessness and waste have a direct impact on our profitability. All Company assets should be used for legitimate business purposes. The Company has adopted an Acceptable Technology Use Policy which should be referred to by all Company Personnel.

7. CONFIDENTIALITY AND INTEGRITY OF CORPORATE INFORMATION

Company Personnel should maintain the confidentiality of information entrusted to them by the Company or its customers, except when disclosure is authorized or legally mandated. Confidential information includes all non-public information that might be of use to competitors, or harmful to the Company or its customers, if disclosed. The Company has adopted a Disclosure Policy and a Social Media Policy that should be referred to by Company Personnel.

In addition, Canada Goose may collect, use and store personal information about its employees, contractors, customers, suppliers, associates and others in the course of its business activities. This collection, use and disclosure of personal information are subject to provincial, state, federal and international laws. Canada Goose respects the privacy rights of all individuals.

Canada Goose's books, records, accounts and financial statements must be maintained in appropriate detail, must properly reflect the Company's transactions and must conform both to applicable laws and to the Company's system of internal controls. Further, the Company's public financial reports must contain full, fair, accurate, timely and understandable disclosure as required by law. The Company's financial, accounting and legal groups are responsible for procedures designed to assure effectiveness of the Company's Disclosure Controls & Procedures and its Internal Control over Financial Reporting, and all Company Personnel should comply with these procedures.

The Company does not tolerate discrimination by any member of its Company Personnel and does not tolerate harassment of its employees, customers and suppliers in any form.

9. COMPLIANCE WITH LAWS, RULES AND REGULATIONS

As a member of Company Personnel, you must follow applicable laws, rules and regulations at all times and if you have questions about the applicability or interpretation of any law, rule or regulation, you should contact the Legal Department.

A. Insider Trading

Insider trading is both unethical and illegal, and shall be dealt with decisively. Federal and provincial/state laws prohibit trading in securities by persons who have material information that is not generally known or available to the public.

Company Personnel shall not trade in shares or other securities of Canada Goose while in possession of material non-public information; or, pass on material non-public information to others without express authorization by the Company or recommend to others that they trade in shares or other securities based on material non-public information.

The Company has adopted an Insider Trading Policy and all Company Personnel are expected to review and follow it at all times. Certain Company Personnel must also comply with trading windows and/or pre-clearance requirements when they trade Canada Goose securities.

B. Improper Payments

Company Personnel may not bribe anyone for any reason, whether in dealings with governments or the private sector. The Corruption of Foreign Public Officials Act in Canada, the U.S. Foreign Corrupt Practices Act, and similar laws in other countries, prohibit offering or giving anything of value, directly or indirectly, to government officials in order to obtain or retain business. Company Personnel may not make illegal payments to government officials themselves or through a third party. unsafe conditions, procedures, or behaviours. Violence and threatening behavior are not permitted. Company Personnel must report to work to perform their duties in a condition free from the influence of alcohol or illegal drugs.

D. Protection of Environment

The Company is committed to sound environmental management. It is the intent of the Company to conduct itself in partnership with the environment and community at large as a responsible and caring business entity. The Company is committed to managing all phases of its business in a manner that minimizes any adverse effects of its operations on the environment.

10.COMMITMENT TO TRACEABILITY AND TRANSPARENCY

As a function-first Company, authenticity is everything to Canada Goose. Since 1957 we have been focused on making the best products of their kind by using the highest quality raw materials and craftsmanship to ensure we deliver a product that performs when and where it's needed most.

We understand and respect that some people think animal products should never be used in any consumer products; however, we do not share that view. We are committed to providing full transparency about how we make our products, including the ethical sourcing and responsible use of animal products.

Ethically sourced down and fur have always been an important part of our story. We believe all animals are entitled to humane treatment in life and death, and are deeply committed to the responsible use and ethical sourcing of all animal materials in our products. We do not condone any willful mistreatment and neglect of animals or acts that maliciously cause undue pain, injury or suffering. We have implemented comprehensive traceability programs for both Fur and Down to ensure they are sourced from animals that have not been subjected to any unfair practices, willful mistreatment or undue harm, and materials are fully traceable throughout the supply chain.

The Canada Goose Down Transparency Standard™ is our commitment to tracking the source of all of our down, from farm to factory. Through a third-party audit program conducted by International Down & Feather Industries, we can certify that our down only comes as a by-product from the poultry industry and has not come from live-plucked or force-fed birds. It also ensures that all down we source adheres to the Five Freedoms policy set out by the World Organisation for Animal Health and European Convention for the Protection of Animals Kept for Farming Purposes.

The Canada Goose Fur Transparency Standard™ is our commitment to support the ethical, responsible and sustainable sourcing and use of real fur. As the first traceability program to cover the wild habitat, it ensures that all fur sourced by Canada Goose is in accordance with the Agreement of International Humane Trapping Standards (“AIHTS”) in Canada and the Best Managed Practices (“BMP”) in the United States, and is fully traceable throughout the supply chain. The standard certifies that we never purchase fur from fur farms, never use fur from endangered animals, and only purchase fur from licensed North American trappers strictly regulated by state, provincial and federal standards. We only use the best quality fur from the Northwest regions of Canada and the United States, where coyote populations are confirmed to be highly abundant. In fact, in many regions of North America, coyotes are considered a pest as they attack livestock, endangered prey species, pets and sometimes even people. We know that wearing fur is a personal choice and we respect that. In turn, we hope that people will respect our responsible use and ethical sourcing of fur.

11.REPORTING OF ANY ILLEGAL OR UNETHICAL BEHAVIOUR

The Company has adopted a Whistleblower Policy which makes it clear that Company Personnel and third parties can report wrong-doings or suspected wrong-doings confidentially and anonymously (if so desired) without fear of victimization, subsequent discrimination or disadvantage. The Whistleblower Policy is also intended as a clear statement that if any wrong-doing by the Company or Company Personnel is identified and reported to the Company, it will be dealt with expeditiously, investigated thoroughly and, if necessary, remediated in a timely manner. Examples of this include instances of misconduct including illegal or unethical behaviour, fraudulent activities, and violation of Company policies, particularly with respect to accounting, internal accounting controls or auditing matters. The Company will further examine and implement the means of ensuring that such wrong-doings can be prevented in future.

12.ADMINISTRATION OF THE CODE

Management of Canada Goose has established a Disclosure and Policy Compliance Committee for overseeing the development, communication, and monitoring of the effectiveness of the Company’s critical corporate policies including this Code.

This Code is owned and sponsored by the Head of Human Resources. All questions regarding this Code should be referred to the Head of Human Resources.

The Company expects its Company Personnel to exercise reasonable judgment when conducting the Company’s business. The Company encourages Company Personnel to refer to this Code frequently to ensure that they are acting within both the letter and the spirit of

this Code. The Company also understands that this Code will not contain the answer to every situation you may encounter or every concern you may have about conducting the Company's business ethically and legally. In these situations, or if you have questions or concerns about this Code, the Company encourages Company Personnel to speak with their supervisor (if applicable) or with the representatives of the Company's Human Resources and Legal Departments.

Company Personnel have other legal and contractual obligations to the Company. This Code is not intended to reduce or limit the other obligations that Company Personnel may have with the Company. Instead, the standards in this Code should be viewed as the minimum standards that the Corporation expects from Company Personnel in the conduct of the Company's business.

Waiver of all or part of this Code, such as for potential conflicts of interest, shall be granted only in exceptional circumstances and then only by the Board of Directors (or a Committee of the Board) in writing. Waivers granted to directors or executive officers shall be publicly disclosed as required by law.

Compliance with this Code is a condition of your employment or service agreement with the Company and any violation of this Code may result in disciplinary action, up to and including termination of your employment or service agreement.
