# The 13,000+ People of CACI

... our distinctive edge  
for shareholder value

**Our people set us apart.** Selected for talent, experience, ethics, and dedication to quality, every CACI employee is a source of innovation. Any one of them may deliver the breakthrough idea that solves a critical problem or opens a new area of business. Together, they're a force for accomplishment that drives growth and delivers value to our shareholders year after year.

Our business strategy unleashes the strengths of our people – a strategy of serving critical national challenges through practical innovation, advanced technologies, agile execution, and proven processes. Each person here is part of a bigger story as they help advance the solutions that make our nation stronger, safer, and more productive.

At CACI, our corporate culture provides the environment that helps our people thrive. Professional development promotes leadership and new ways of thinking. And every day, our employees enjoy the support of a management team committed to the highest levels of quality, achievement, and ethics.

These are the elements that make CACI a national resource for national priorities. Our success begins with 13,000 individual sources of innovation.

## SERVING NATIONAL PRIORITIES

# To Our Fellow Shareholders

## Another Record Year of Financial Performance in a Challenging Environment

Fiscal Year 2010 marked another year of delivering record financial results and meeting our major financial objectives of organic revenue growth of mid- to high-single digits and double-digit earnings growth. Our growth was across the company, generating record revenue, record net income, record diluted earnings per share, record operating cash flow, and record contract funding orders

for the year. Our progress continues to be driven by the key support we provide to the warfighter in the critical, well-funded priority areas in security operations and intelligence. Entering Fiscal Year 2011, our funded backlog was \$1.9 billion, 17.2 percent higher than a year earlier, and total backlog was \$6.8 billion. Our U.S.

Operations had approximately \$5.0 billion in submitted proposals under evaluation, with over 90 percent of those for new business.

These accomplishments are a direct result of our successful execution of the three pillars of our corporate strategy:

- To provide mission-critical systems and services for national security in high-priority, well-funded government programs.
- To build on our competitive advantages and long-term trusted client relationships in our areas of expertise: defense, intelligence, homeland security, and IT modernization and the transformation of government.
- To capitalize on new opportunities with our existing customer base while pursuing potential opportunities for growth in emerging national priorities through organic growth, strategic hires, and acquisitions.

We are confident that the continued execution of this strategy will be the key to sustaining the positive momentum we have developed.

### Adapting to a Challenging Environment

To address persistent federal budget deficits and a continually mounting national debt, decision-makers in Washington are evaluating all aspects of government spending. Federal departments and agencies are intensely focused on improving acquisition and contracting to save money and enhance government.

In this increasingly challenging environment for our government clients, we believe that CACI has the expertise and the proven track record to be a part of the solution.

We believe that the three pillars of our corporate strategy are strongly aligned with the drivers of demand for services from our customers – support for the warfighter, especially through precise intelligence; cyber defense; and government information technology efficiency. The alignment of our strategy should enable us to respond to our clients’ challenges. We believe this because the asymmetric threat of global terrorism is not going to subside. CACI provides vital services and solutions, and focuses on intelligence to support our clients in countering this threat.

Concerns remain high about the vulnerability of our nation’s critical infrastructure to cyber attacks and the ability to defend government networks against growing cyber threats. We believe this will lead to more demand for our cyber solutions. And as we noted above, there are initiatives across government to improve efficiency and effectiveness and further reduce costs. We believe our expertise in IT modernization and the transformation of government should present significant opportunities for our services and solutions that are directed to these major challenges. In summary, we believe that as a result of our operational excellence and our solid, long-term customer relationships, we are well-positioned to provide high-value solutions for our clients.

### Innovation – the Most Profitable Path to the Future

The theme of this annual report is innovation. It’s an important part of CACI’s culture. Innovation is an important factor in driving our growth, differentiating us from our competition, and helping us sustain our business base. The examples we provide in the next few pages illustrate how innovation at CACI is incorporated into our core competencies and throughout our company. They show how innovation will position us in responding to the challenging environment we face.

We know the success and results we have achieved would not be possible without the leadership of our highly qualified management team and the dedication of the more than 13,000 men and women of CACI. They deliver the creative solutions. These people contribute every day to the critical missions of our customers. They are the foundation for the successful execution of our strategy, our future growth, and our building shareholder value. We also thank you, our shareholders, for your continuing support.

# “CACI’s focus on critical national priorities

... keeps our project pipeline growing.”

**CACI follows a clear business strategy:** provide the solutions needed for America’s national priorities.

This strategy has served us well. As the priorities emerge, CACI is ready to answer the call. And that’s the secret. This isn’t just moving with the winds as they change. Our strategy requires us to provide deep mission understanding of our customers so we can anticipate needs effectively... align our resources and people where they will make the strongest contribution ... and direct our research and thought leadership where they will have the greatest impact for our company, our customers, and our nation.

Hank Hodge’s project team helps the Department of Homeland Security (DHS) safeguard America’s critical infrastructure and resources. According to Hodge, “Our 24/7 watch duty desk and operations support staff enhance communications and mission support for DHS and its Protective Security Advisors nationwide.”

Cindy Huerta – Counterterrorism Analyst  
Hank Hodge – Project Manager

## Cost-Effectively Enhancing Business Management at DoD

“CACI is a prime contractor on the multi-year Defense Agencies Initiative (DAI) program. This critical ERP-enabled transformation program will provide 28 Department of Defense agencies and field activities with a unified accounting system and standard business processes to improve financial efficiency.”

Andrew Keylor – Program Manager

## Order in the Court

“High-visibility lawsuits from events like Hurricane Katrina go on for years. CACI supports the Department of Justice with the large-scale document and knowledge management that long-term litigation demands to help attorneys access information quickly and efficiently.”

Camille Henry – Vice President

## Hospitals Ready to Deploy

“From combat operations to humanitarian relief, CACI-built deployable medical assemblages are standing by. We also build to need. Our ‘medkits’ have served in Afghanistan, Haiti, and more. We’ve never failed to answer the call and provide needed medical support to warfighters and people affected by natural disasters.”

Tim Morgan – Director

## Intelligence Support for National Security

“Sustained superior performance and innovative thinking on a series of mission-critical analytic contracts have made CACI a ‘go-to’ partner in defense intelligence – from assessing terrorism threats to tracing forensic evidence of improvised explosive devices (IEDs) and helping to eliminate their production at the source.”

James Reddig – Executive Director

NATIONAL FOCUS ... GLOBAL PRESENCE

**Our People Are Paramount.** That’s why CACI invests in attracting and developing the very best professionals in our industry. We provide them with the opportunities to grow their careers and have their accomplishments recognized. Our customers look to us for expertise and experience they won’t find anywhere else. And through an extensive learning and development program, industry certifications are current and our knowledge base is cutting edge.

# “Innovation is ... the most profitable path to the future.”

**Our customers rely on CACI** for many reasons. A greater edge to the warfighter. Modernized enterprise systems that lower operating costs. Better intelligence for national security. The path to address these needs is clear: **innovation**. Our people provide the thought leadership and expertise to deliver groundbreaking solutions – with a constant focus on providing the right solution to do the job right. That’s why we’ve turned repurposing into a science, upgrading existing technology to drive powerful innovation within the government’s budget requirements. This is innovation that wins customers and drives growth.

**Hoa Pham and Jamie Findlater help drive the federal government’s social media transformation. “CACI is on the cutting edge of the State Department’s move to collaborative 21st century statecraft,” says Findlater. Pham’s team helps the Library of Congress open new channels of access to the public.**

**Hoa Pham** – Web Developer  
**Jamie Findlater** – Systems Analyst

## Securing the Global Supply Chain

“CACI’s innovative supply chain security framework minimizes threats to the information systems and physical resources that keep America’s warfighters equipped and mission ready. We’ve emerged as a proven thought leader in this sector.”

*Paul Carey – Logistics Analyst*

## HighView® Advances Information Analysis

“HighView solutions have helped transform intelligence analysis, delivering an unmatched capacity to retrieve relevant information from diverse data types and collaboratively create and share knowledge. We help our customers extract additional value from existing data sources and streams in order to make more informed decisions.”

*Keith Herrington – Senior Scientist*

## ICE Modernizes Communications

“With the Atlas program, we’re helping U.S. Immigration and Customs Enforcement (ICE) upgrade to an interoperable narrowband radio network to improve communications for its agents. Every state will eventually have this coverage. And CACI is positioned to deliver it.”

*Jorge Hurtado – Program Manager*

## Innovative Process Automation Drives New Business

“When the U.S. Army Reserve saw how CACI was streamlining its internal lean business process management (BPM) with Serena Business Manager (SBM), it wanted the same. We delivered. Now more agencies are calling – as we find new ways to innovate with SBM and coordinate activities across people, systems, and processes.”

*Tyson Faircloth – Project Manager*

C Y B E R S O L U T I O N S

**Cyber Solutions Lab.** Our collaborative, state-of-the-art facility is the hub of our integrated lab network and a testbed of innovation for customers. They come here to test-drive solutions and security in a hands-on, multi-vendor setting. This is the place to see the future of cyber.

“The capability customers value most is what we do best:

... agile, process-driven execution.”

**A powerful strategy.** Groundbreaking innovation. They are only as good as our ability to meet changing customer requirements with high-quality solutions, delivered on time and within budget. That’s why CACI makes program performance and execution top company priorities. With the CACI 20000 initiative, we are fostering a company-wide culture of standards-driven best practices and processes for implementing IT and service delivery. Agility is woven into this environment. And the relationships we develop with our customers and business partners enable us to anticipate and swiftly respond to requirements that in today’s networked world shift and change at the speed of light.

Mark Kestler leads CACI’s C4ISR integration and fabrication facility in southern Maryland. Its many products and services range from engineering prototypes to fully operational mobile command centers. “Meeting unique needs around the globe, we’ve assisted the Department of Defense and other government agencies in support of military, contingency, and humanitarian relief operations.”

Mark Kestler – Program Manager

### Fast, Agile Reaction for Battlefield SIGINT

“We integrate, test, and rapidly insert signals intelligence (SIGINT) systems for the U.S. Army’s Quick Reaction Capability program. When the solution doesn’t exist for validated requirements, we work with our business partners to create it – battlefield-ready capabilities.”

Geoffrey Hermanstorfer – Program Manager

### Timely Intelligence From Captured Documents

“To help supply actionable intelligence to our customers, CACI has supported the HARMONY document exploitation and repository program in over 100 facilities worldwide. We provide mission, operational, and technical support for HARMONY deployed systems, databases, operations, users, and the national HARMONY database.”

Scott Batastini – Engineer

### Helping DEA Connect the Dots

“Our applications support Drug Enforcement Administration investigations worldwide. Each week, CACI rapid application developers issue improvements that help analysts and agents fight drug trafficking.”

Michael Cole – Project Manager

### The Word Is Out About CACI Training

“Our reliability-centered maintenance (RCM) support has helped the U.S. Navy and Coast Guard make huge efficiency gains. Now everyone wants RCM training – from the U.S. Marines to the Federal Aviation Administration and Johnson Controls.”

Kim Chojnowski – Director

CACI OPERATIONAL SUPPORT FACILITY

**Dedicated to DISA.** CACI’s Operational Support Facility in Ashburn, VA is a 150,000-square-foot office and warehouse consolidating integrated logistics and communications services for the Defense Information Systems Agency (DISA). This single resource provides DISA with support ranging from engineering and technical services, communications security, and technical training, to customer service and equipment installation.
