## **CACI Awarded \$26.6 Million Contract to Continue Engineering Support for U.S. Navy Weapons Systems**

### ***Continuing Work Strengthens Presence in C4ISR Market***

ARLINGTON, Va.--(BUSINESS WIRE)-- CACI International Inc ([NYSE:CACI](http://NYSE:CACI)) announced today that it has been awarded a \$26.6 million contract award to provide Engineering and Technical Related Services (ETRS) in support of the Naval Surface Warfare Center Indian Head Explosive Ordnance Disposal Technology Division (NSWC IHEODTD). This contract, which is for one base year and two one-year options, was awarded under the SeaPort-e contract vehicle that CACI received in 2004. It represents continuing work for CACI and strengthens its presence in its C4ISR (command, control, communications, computers, intelligence, surveillance, and reconnaissance) market area.

NSWC IHEODTD, located in Indian Head, Md., is one of nine Warfare Center divisions that report to the Naval Sea Systems Command (NAVSEA). It provides research, development, engineering, manufacturing, testing, evaluation, and in-service support for energetics, ordnance, and EOD solutions for the Navy and joint forces. The ETRS contract supports the division's Picatinny Detachment, which manages gun systems, ammunition, and ordnance materials for the Navy.

Under the contract, CACI will continue to support weapon systems engineering, technology, and logistics. The company will provide technical systems engineering analysis and basic engineering studies of weapon systems and performance as well as technical documents, drafting, and illustrations.

John Mengucci, CACI's Chief Operating Officer and President of U.S. Operations, said, "On the ETRS contract supporting the Naval Surface Warfare Center Indian Head EOD Technology Division, CACI offers seamless engineering support of the Navy's critical missions along with unmatched knowledge of their business requirements and technical environment."

According to CACI President and Chief Executive Officer Ken Asbury, "CACI's award of the ETRS contract by the Naval Surface Warfare Center Indian Head EOD Technology Division continues our long-term partnership with this customer and is an excellent example of our commitment to customer service and satisfaction. This contract is also a demonstration of the success of our strategy to secure ongoing work in our high-volume C4ISR market area."

CACI provides information solutions and services in support of national security missions and government transformation for Intelligence, Defense, and Federal Civilian customers. A *Fortune* magazine World's Most Admired Company in the IT Services industry, CACI is a member of the Fortune 1000 Largest Companies, the Russell 2000 Index, and the S&P SmallCap 600 Index. CACI provides dynamic careers for over 15,500 employees in 120 offices worldwide. Visit [www.caci.com](http://www.caci.com).

*There are statements made herein which do not address historical facts, and therefore could be interpreted to be forward-looking statements as that term is defined in the Private Securities Litigation Reform Act of 1995. Such statements are subject to factors that could cause actual results to differ materially from anticipated results. The factors that could cause actual results to differ materially from those anticipated include, but are not limited to, the risk factors set forth in CACI's Annual Report on Form 10-K for the fiscal year ended June 30, 2013, and other such filings that CACI makes with the Securities and Exchange Commission from time to time. Any forward-looking statements should not be unduly relied upon and only speak as of the date hereof.*
