CACI Awarded \$34 Million Contract to Support Advancement of Sensor Technologies for U.S. Army

Work Will Help Increase Situational Awareness for Soldiers Wherever They Serve

ARLINGTON, Va.--(BUSINESS WIRE)-- CACI International Inc (NYSE:CACI) announced today it has been awarded a \$34 million contract to continue supporting the advancement of specialized technologies for the U.S. Army's Night Vision and Electronic Sensors Directorate (NVESD). This two-year (one base plus one option year) contract was awarded under the Strategic Services Sourcing (S3) contract vehicle and sustains the company's business in its C4ISR (Command, Control, Communications, Computers, Intelligence, Surveillance, and Reconnaissance) market area.

NVESD, known as the "Night Vision Lab" and located at Fort Belvoir, VA, conducts research and development of advanced night vision and other sensor technologies, such as infrared weapon sights and surveillance systems, that enhance the effectiveness of our Armed Forces in nighttime and limited visibility conditions. With this contract, CACI will provide program management and systems engineering support for the development and advancement of electro-optical and infrared sensor components, which detect and identify air, sea, and ground targets.

CACI brings a strong track record of success in supporting NVESD with technical, management, and engineering solutions. CACI's program managers, engineers, and technology specialists have extensive experience providing support services to help build the advanced sensor technologies the Army requires to increase Soldier awareness of threats and adversaries.

John Mengucci, CACI's Chief Operating Officer and President of U.S. Operations, said, "CACI's subject matter experts have the specialized experience and critical understanding necessary to deliver advanced sensor technologies that give our warfighters an operational advantage wherever they serve."

According to CACI President and Chief Executive Officer Ken Asbury, "CACI has supported the Army's Night Vision and Electronic Sensors Directorate for many years and has a keen understanding of its mission. This contract continues our dedicated services for this important customer while enabling technological advancements that all the military services and Department of Defense entities can use to identify and target global threats."

CACI provides information solutions and services in support of national security missions and government transformation for Intelligence, Defense, and Federal Civilian customers. A *Fortune* magazine World's Most Admired Company in the IT Services industry, CACI is a member of the Fortune 1000 Largest Companies, the Russell 2000 Index, and the S&P SmallCap600 Index. CACI provides dynamic careers for over 16,200 employees in 120 offices worldwide. Visit www.caci.com.

There are statements made herein which do not address historical facts, and therefore could be interpreted to be forward-looking statements as that term is defined in the Private Securities Litigation Reform Act of 1995. Such statements are subject to factors that could cause actual results to differ materially from anticipated results. The factors that could cause actual results to differ materially from those anticipated include, but are not limited to, the risk factors set forth in CACI's Annual Report on Form 10-K for the fiscal year ended June 30, 2013, and other such filings that CACI makes with the Securities and Exchange Commission from time to time. Any forward-looking statements should not be unduly relied upon and only speak as of the date hereof.
