CACI Becomes Anchor Partner in Cyber-Physical System Security Program With Virginia Tech Hume Center

Partnership Focused on the Convergence of Cyber Security and UAVs

ARLINGTON, Va.--(BUSINESS WIRE)-- CACI International Inc ([NYSE MKT: CACI](#)) and Virginia Tech's [Ted and Karyn Hume Center for National Security and Technology](#) announced today that they have entered into a partnership to develop the next generation of technology leaders in cyber-physical system security. During the five-year partnership, CACI will be an anchor partner in the Hume Center's Cyber-Physical System Security (CPSS) program, with a focus on cyber security for unmanned aerial vehicles (UAV). The partnership will help to underwrite research and the Hume Center's CPSS Lab, and provide industry mentoring and research support for undergraduate and graduate students.

The Hume Center at Virginia Tech is a leading research institution, sponsoring cutting-edge research into the biggest threats facing America's national security. Under the terms of this agreement, CACI will be working closely with academic experts and students at the Hume Center to develop curriculum, research initiatives, and support projects focused on cyber security threats to platforms, specifically including UAVs. This partnership will help both organizations meet the pressing demand for highly trained, highly skilled national security professionals.

Hume Center Director [Charles Clancy](#) said, "We are extremely excited to be working with CACI as an anchor partner in our CPSS program. Their commitment to innovation from today's youth, post-graduate opportunities in national security, and focus on the benefits of research to mitigate key national security threats makes this a unique match that will help our students and faculty stay on the cutting edge of innovative national security technology and practices."

[Ken Asbury](#), CACI's President and Chief Executive Officer, said, "The threat of cyber attacks on platforms like unmanned aerial vehicles, as well as industrial control systems, vehicles, and even weapon systems, grows more pressing every day. At CACI, we take great pride in helping customers counter these threats, and we are exceptionally proud to be developing the next generation of national security leaders through this partnership with the Hume Center and Virginia Tech."

CACI provides information solutions and services in support of national security missions and government transformation for Intelligence, Defense, and Federal Civilian customers. A *Fortune* magazine World's Most Admired Company in the IT Services industry, CACI is a member of the Fortune 1000 Largest Companies, the Russell 2000 Index, and the S&P SmallCap600 Index. CACI provides dynamic careers for over 20,000 employees worldwide. Visit www.caci.com.

There are statements made herein which do not address historical facts, and therefore could be interpreted to be forward-looking statements as that term is defined in the Private Securities Litigation Reform Act of 1995. Such statements are subject to factors that could cause actual results to differ materially from anticipated results. The factors that could cause actual results to differ materially from those anticipated include, but are not limited to, the risk factors set forth in CACI's Annual Report on Form 10-K for the fiscal year ended June 30, 2015, and other such filings that CACI makes with the Securities and Exchange Commission from time to time. Any forward-looking statements should not be unduly relied upon and only speak as of the date hereof.
