

CACI Achieves Premier Consulting Partner Status in the Amazon Web Services Partner Network

Company to Demonstrate Secure Cloud-Based Solutions at AWS Public Sector Summit

Arlington, Va., June 20, 2018 - CACI International Inc ([NYSE: CACI](#)) announced today it has achieved Premier Consulting Partner status in the Amazon Web Services (AWS) Partner Network (APN). In achieving Premier Consulting Partner status in the APN, CACI also meets the criteria for its achieving AWS DevOps and AWS Government Competency status.

These distinctions mark the successful culmination of a review of CACI's expertise in cloud infrastructure, cloud-based DevSecOps, and application migration for a range of government customers. APN Premier Consulting Partners must meet the APN's highest criteria. These criteria include a significant investment in the company's AWS practice, extensive experience deploying customer solutions on AWS, a strong team of trained and certified technical consultants, expertise in project management, and a healthy revenue-generating consulting business on AWS.

CACI is also an AWS Public Sector Partner and Authorized Reseller and has developed secure, mission-critical cloud solutions for customers across all data classification levels. CACI has planned and performed hundreds of cloud migrations, working in tandem with customers to develop secure and efficient cloud architectures while adhering to all regulatory and compliance requirements.

CACI Chief Operating Officer [John Mengucci](#) said, "CACI is pleased to achieve Premier Consulting Partner Status in the Amazon Web Services Partner Network, a recognition achieved by less than one percent of federal information technology providers. Our dedication and focus on investing in both our talented workforce and partners demonstrates our continued commitment to CACI's growth and enables us to bring creative and cost-effective solutions to our customers to meet their critical missions."

Additionally, CACI will showcase secure cloud-based solutions that enable improved operations for Intelligence Community, Defense, and Federal Civilian customers at the 2018 AWS Public Sector Summit at the Walter E. Washington Convention Center in Washington, D.C. June 20-21. At the summit, CACI subject matter experts will deliver a "Tech Talk" about the five pillars of cloud-native design and the deployment of DevSecOps for effective automation and continuous operational improvement while greatly reducing the time required to achieve Authority to Operate. CACI will also demonstrate intelligence outcomes enabled by a deep learning framework for object detection in full motion video streams.

For more information on CACI's Cloud Solutions, visit us at booth 563 at the Summit or at www.caci.com/aws.
