offerings made under the listed issuer financing exemption in the 12 months immediately before the date of this offering document, will not exceed \$5,000,000.

- **The issuer will not close this Offering unless the issuer reasonably believes it has raised sufficient funds to meet its business objectives and liquidity requirements for a period of 12 months following the distribution.**
- **The issuer will not allocate the available funds from this Offering to an acquisition that is a significant acquisition or restructuring transaction under securities law or to any other transaction for which the issuer seeks security holder approval.**

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING INFORMATION

This offering document contains “forward-looking information” within the meaning of applicable Canadian and United States securities laws, which is based upon the Company’s current internal expectations, estimates, projections, assumptions and beliefs. The forward-looking information included in this offering document are made only as of the date of this offering document. Such forward-looking statements and forward-looking information include, but are not limited to, statements concerning future exploration plans at the Company’s mineral properties, including exploration timelines and anticipated costs; the Company’s expectations with respect to the use of proceeds and the use of the available funds following completion of the Offering; the potential gross proceeds of the Offering; and completion of the Offering and any concurrent offering and the date of such completion. Forward-looking statements or forward-looking information relate to future events and future performance and include statements regarding the expectations and beliefs of management based on information currently available to the Company. Such forward-looking statements and forward-looking information often, but not always, can be identified by the use of words such as “plans”, “expects”, “potential”, “is expected”, “anticipated”, “is targeted”, “budget”, “scheduled”, “estimates”, “forecasts”, “intends”, “anticipates”, or “believes” or the negatives thereof or variations of such words and phrases or statements that certain actions, events or results “may”, “could”, “would”, “might” or “will” be taken, occur or be achieved.

Forward-looking statements or forward-looking information are subject to a variety of risks and uncertainties which could cause actual events or results to differ materially from those reflected in the forward-looking statements or forward-looking information, including, without limitation, risks and uncertainties relating to: general business and economic conditions; regulatory approval for the Offering; completion of the Offering and any concurrent offering; changes in commodity prices; changes in project parameters as exploration plans continue to be refined; costs of exploration including labour and equipment costs; risks and uncertainties related to the ability to obtain or maintain necessary licenses, permits or surface rights; the ability to procure equipment and operating supplies in sufficient quantities and on a timely basis; the availability of qualified employees and contractors; market competition; exploration results not being consistent with the Company’s expectations; the ability to obtain or maintain necessary licenses, permits, or water access; changes in environmental regulation; environmental compliance issues; and other risks of the mining industry. Should one or more of these risks and uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those described in forward-looking statements or forward-looking information. Although the Company has attempted to identify important factors that could cause actual results to differ materially, there may be other factors that

could cause results not to be as anticipated, estimated or intended. For more information on the Company and the risks and challenges of its business, investors should review the Company's annual filings that are available at www.sedar.com. Readers are cautioned that this list of risk factors should not be construed as exhaustive.

The Company provides no assurance that forward-looking statements or forward-looking information will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements and information. Accordingly, readers should not place undue reliance on forward-looking statements and forward-looking information. Any forward-looking statement speaks only as of the date on which it is made and, except as may be required by applicable securities laws, the Company disclaims any intent or obligation to update any forward-looking information, whether as a result of new information, changing circumstances, or otherwise.

PART 2 SUMMARY DESCRIPTION OF BUSINESS

What is our business?

GFG is a North American precious metals exploration company focused on district scale gold projects in tier one mining jurisdictions, Ontario and Wyoming. In Ontario, the Company operates three gold projects, each large and highly prospective gold properties within the prolific gold district of Timmins, Ontario, Canada. The projects have similar geological settings that host most of the gold deposits found in the Timmins Gold Camp which have produced over 70 million ounces of gold. The Company also owns 100% of the Rattlesnake Hills Gold Project, a district scale gold exploration project located approximately 100 km southwest of Casper, Wyoming, U.S.

Recent developments

On December 5, 2023 and January 17 and February 15, 2024, GFG reported the final assay results from the recently completed 2023 Phase 2 drill program at its Goldarm Project (which includes the Montclerg Gold Project), located 40 km east of Timmins, Ontario. This is the second drill program completed on the Aljo Mine target and GFG announced that additional drilling is warranted based on the strong results and nature of the gold system. In the Phase 2 drill program, the Company completed a total of 3,613 m from 15 holes (7 at Montclerg and 8 at Aljo). The program focused on step-out and in-fill drilling at Montclerg and tested a spectrum of targets at Aljo located within the Goldarm Property.

On October 24, 2023, the Company announced that it had completed its obligations under a definitive agreement to acquire a 100% interest in the Montclerg Gold Project. See "Montclerg Acquisition" below.

On September 11, 2023, the Company announced the termination of its option and earn-in agreement with Group 11 Technologies Inc. ("Group 11"), to advance GFG's Rattlesnake Hills Gold Project in Wyoming, United States. Under the terms of the agreement, Group 11 had the right to acquire, in multiple stages, up to 70% of the project by completing a series of exploration and development expenditures and making staged cash and equity payments to GFG. The Project remains 100% owned and controlled by GFG.

On June 27 and September 6, 2023, GFG reported gold assay results from its 13-hole 2023 Phase 1 drill program at the Montclerg Gold Project, where GFG has continuously proven and grown a robust gold system since the Company acquired the asset in October 2021. The Phase 1 drill program was

designed to complete infill drilling to confirm continuity in the Montclerg Central area and drill significant step-out holes to determine if gold mineralization occurs over one km to the east. The Phase 1 drill program was higher risk by design as the Company believes that the opportunity to discover new zones of gold mineralization at depth and along strike at Montclerg is high.

On May 15, 2023, GFG announced the appointment of Mr. Anders Carlson as Vice President, Exploration.

On April 11, 2023, GFG reported continued high-grade gold assay results from its 2022 Phase 2 drill program at the Montclerg Gold Project. The results from the final five drill holes from the 2022 Phase 2 program demonstrated strong continuity and further expansion east of the Montclerg gold system and the high-grade potential at Aljo. Overall, the Phase 2 drill program successfully achieved its objectives of growing and demonstrating continuity at Montclerg, extending gold mineralization at least 1 km to the east and outlining the significant opportunity present at Aljo for a second robust gold system on the Goldarm Property

On March 21, 2023, GFG closed an oversubscribed, private placement financing to raise gross proceeds of C\$4,199,578. In connection with the offering, Alamos Gold Inc. purchased securities to increase their position to a 9.99% interest in the Company. Pursuant to the offering, GFG issued (i) 13,389,076 units of the Company at a price of C\$0.13 per unit for gross proceeds of C\$1,740,580; (ii) 2,250,000 Common Shares that will qualify as "flow-through shares" at a price of C\$0.15 per share for gross proceeds of C\$337,500; and (iii) 11,369,231 premium units of the Company at a price of C\$0.1866 each for gross proceeds of C\$2,121,498. Each unit consisted of one Common Share and one-half of one share purchase warrant, with each whole share purchase warrant (a "2023 Warrant") entitling the holder thereof to acquire one additional Common Share at an exercise price of C\$0.18 for a period of 36 months from the date of issuance (subject to acceleration). Each premium unit consisted of one "flow-through" Common Share and one-half of one 2023 Warrant.

Aljo Mine Claims

On April 27, 2022, the Company announced that it had finalized the acquisition of a 100% interest in 14 unpatented mining claims (the "Aljo Mine Claims"), subject to a net smelter royalty return royalty of 2%. The Aljo Mine Claims are adjacent to and form part of, the Company's newly consolidated Goldarm Property, which also includes the Montclerg Gold Project and the WWCC property, east of the Timmins Gold District. Under the terms of the Aljo Mine agreement, GFG has acquired a 100% interest in the Aljo Mine Claims in consideration of the following:

- The issuance of 700,000 Common Shares on closing of the Aljo Mine agreement (issued);
- The completion of a cash payment of \$50,000 to the vendors (paid);
- The grant to the vendors of a 2% net smelter royalty ("NSR") with the right to buy-back one half (1%) of the NSR for \$1,000,000; and
- The undertaking to make a success payment of \$1.0 million in cash within 60 days of announcement of any National Instrument 43-101 ("NI 43-101") compliant mineral resource of 1,000,000 million ounces of gold on the Aljo Mine Claims.

WWCC Acquisition

On April 13, 2022, the Company announced that it had completed its initial obligations under a definitive agreement (the "WWCC Agreement") with International Explorers and Prospectors Inc.

("IEP") to acquire a 100% interest in the 6,500-hectare WWCC property. Under the terms of the WWCC agreement, GFG has the right to acquire 100% interest in the WWCC property over a four-year period, subject to a net smelter return royalty of up to a maximum of 2% (the "IEP Royalty") by:

- The issuance of an aggregate of 1,016,949 Common Shares (issued);
- The issuance of Common Shares following the anniversary date of the WWCC Agreement based on the volume weighted average price ("VWAP") for the five trading days immediately preceding the date of each anniversary date as follows:
 - 12 months following the effective date, valued at \$150,000 (issued)
 - 24 months following the effective date, valued at \$200,000
 - 36 months following the effective date, valued at \$250,000
 - 48 months following the effective date, valued at \$250,000;
- Spending a minimum of \$2.0 million in exploration expenditures over four years on the WWCC property;
- GFG will transfer \$400,000 in assessment credits to IEP within 48 months following the effective date;
- Should GFG make a public announcement of a NI 43-101 compliant Mineral Resource of a minimum of 1,000,000 ounces of gold equivalent on certain claims comprising the WWCC property, GFG will make a one-time payment of \$1.0 million in cash or Common Shares; and
- Should GFG make a subsequent public announcement(s) of a further NI 43-101 compliant Mineral Resource of a minimum of 1,000,000 ounces of gold equivalent on certain claims comprising the WWCC property and that reside outside a two-kilometre ("km") radius from any previous announcement, GFG will make a one-time payment in respect of each such subsequent announcement in the amount of \$1.0 million, in either cash or in Common Shares.

Montclerg Acquisition

On October 24, 2023, the Company announced that it had completed its obligations under a definitive agreement (the "Montclerg Agreement") with IEP to acquire a 100% interest in the Montclerg Gold Project. Under the terms of the Montclerg Agreement, GFG acquired a 100% interest in the Montclerg Gold Project, subject to a net smelter royalty of up to 2% on certain of the claims, by:

- The issuance of an aggregate of 7,423,905 Common Shares (issued);
- The issuance of Common Shares 12 months following the date of the Montclerg Agreement, valued at \$500,000, based on the VWAP for the five trading days immediately preceding the 12-month anniversary of the Montclerg Agreement (issued);
- The issuance of Common Shares 24 months following the date of the Montclerg Agreement, valued at \$500,000, based on the VWAP for the five trading days immediately preceding the 24-month anniversary of the Montclerg Agreement (issued);
- Spending a minimum of \$1.0 million in exploration expenditures over 24 months on the project following the date of the Montclerg Agreement (incurred); and
- The transfer by GFG of \$1.0 million in assessment credits of which, \$500,000 were transferred to IEP within 6 months following the date of the Montclerg Agreement (complete) and the remaining \$500,000 were transferred 18 months following the date of the Montclerg Agreement (complete).

Material facts

There are no material facts about the securities being distributed that have not been disclosed in this

offering document or in any other document filed by the Company in the 12 months preceding the date of this offering document.

What are the business objectives that we expect to accomplish using the available funds?

The Company intends to use the net proceeds from the Offering together with other available funds for the exploration of the Company's Montclerg and Goldarm Properties, other exploration work, and for general corporate and working capital purposes. With the anticipated minimum funding, the Company's priorities are to:

1. Complete ongoing exploration and drilling programs at the Montclerg Property over the next 12 months. The programs include 3,000 to 4,000 metres of drilling.
2. Complete surface exploration and drilling programs at the Goldarm Property over the next 12 months. The programs include 2,000 to 3,000 metres of drilling and surface exploration activities that include till and rock sampling, geochemistry and geophysics analysis.
3. Complete surface exploration and potentially a drilling program at the Dore Gold Project over the next 12 months. The surface exploration activities include till and rock sampling, geochemistry and geophysics analysis.

PART 3 USE OF AVAILABLE FUNDS

What will our available funds be upon the closing of the Offering?

The expected availability of funds is set forth below:

		Assuming 100% of Offering
A.	Amount to be raised by this Offering	\$800,000
B.	Selling commissions and fees	\$48,000
C.	Estimated offering costs (e.g., legal, accounting, audit)	\$20,000
D.	Net proceeds of offering: $D = A - (B+C)$	\$732,000
E.	Working capital as at most recent month end (deficiency)	\$700,000
F.	Additional sources of funding	\$2,500,000 ⁽¹⁾
G.	Total available funds: $G = D+E+F$	\$3,932,000

(1) The Company is completing a concurrent offering to accredited investors to raise additional gross proceeds of up to \$2,500,000.

How will we use the available funds?

Description of intended use of available funds listed in order of priority	Assuming 100% of Offering
Ongoing exploration and drilling program on the Goldarm Property which includes the Montclerg Gold Project, and the Dore Gold Project	\$2,600,000
General and administrative expenses	\$1,300,000
Unallocated working capital	\$32,000
Total	\$3,932,000

The above noted allocation and anticipated timing represents the Company's current intentions with respect to its use of proceeds based on current knowledge, planning and expectations of management of the Company. Although the Company intends to expend the proceeds from the Offering as set forth above, there may be circumstances where, for sound business reasons, a reallocation of funds may be deemed prudent or necessary and may vary materially from that set forth above, as the amounts actually allocated and spent will depend on a number of factors, including the Company's ability to execute on its business plan.

The most recent audited annual financial statements and interim financial report of the Company included a going-concern note. The Company is still in the exploration stage and the Company has not yet generated positive cash flows from its operating activities, which may cast doubt on the Company's ability to continue as a going concern. The Offering is intended to permit the Company to continue to explore its properties and conduct additional drilling, and is not expected to affect the decision to include a going concern note in the next annual financial statements of the Company.

How have we used the other funds we have raised in the past 12 months?

Previous financing activity	Intended Use of Funds	Use of Funds to Date
\$4.199 million Non-Brokered Private Placement in March 2023	Montclerg and Goldarm properties, general working capital	\$3,299,000 ⁽¹⁾

- (1) The Company has allocated the funds to date towards the Montclerg and Goldarm properties and general working capital. There are no variances between the previously disclosed use of funds and the use of such funds to date.

PART 4 FEES AND COMMISSIONS

Who are the dealers or finders that we have engaged in connection with this offering, if any, and what are their fees?

Agent:	Unknown/To be determined
Compensation Type:	Cash fee
Cash Commission:	Up to 6.0% cash fee

Does the Agent have a conflict of interest?

NA
