

NEWS RELEASE

BitGo Goes Live on Arc Mainnet With Day-One Wallet and Custody Support

2026-09-16

NEW YORK--(BUSINESS WIRE)-- BitGo Holdings, Inc. (NYSE: BTGO) ("BitGo" or the "Company"), the digital asset infrastructure company, today announced that its wallet and custody infrastructure is live on Arc, an open Layer-1 blockchain purpose-built for stablecoin-native financial applications. Eligible BitGo clients can deposit and withdraw USDC on Arc through Self-Custody MPC wallets, in both hot and cold configurations, Custody MPC wallets, and Go Account, with EURC support also available.

Arc uses USDC as gas and is designed to provide predictable, dollar-denominated transaction fees, sub-second deterministic finality, and EVM compatibility. These capabilities support stablecoin-based payments, treasury management, tokenized assets, and other financial workflows.

For institutions, adopting a new blockchain requires more than basic network connectivity. BitGo's Arc integration includes indexing for native USDC movements and transfers, along with auto-consolidation and bulk withdrawals. BitGo's Gas Tank covers gas costs generated during auto-consolidation, helping treasury teams manage that process without separately maintaining a gas balance.

"Arc's stablecoin-native design aims to address practical considerations for payments and treasury teams, including fee predictability and settlement speed," said Mike Belshe, CEO and Co-founder of BitGo. "We are excited to support the network from day one and make these capabilities available through BitGo's wallet and custody infrastructure."

The Arc integration reflects BitGo's broader strategy of extending its digital asset infrastructure to networks designed to support institutional use. By supporting emerging stablecoin and tokenized asset ecosystems within a consistent operational environment, BitGo helps clients access new networks while maintaining the security, controls, and workflows they rely on across their digital asset activities.

About BitGo

BitGo (NYSE: BTGO) is the digital asset infrastructure company delivering custody, wallets, staking, trading, financing, stablecoins, and settlement services from regulated cold storage. Since 2013, BitGo has focused on accelerating the transition of the financial system to a digital asset economy. BitGo maintains a global presence and multiple regulated entities, including BitGo Bank & Trust, National

Association, the first federally chartered digital asset trust bank owned by a publicly traded company. Today, BitGo serves thousands of institutions, including many of the industry's top brands, financial institutions, exchanges, and platforms, and millions of investors worldwide. Forward-Looking Statement

Certain statements in this press release constitute "forward-looking statements" within the meaning of the federal securities laws. Words such as "may," "might," "will," "should," "believe," "expect," "anticipate," "estimate," "continue," "predict," "forecast," "project," "plan," "intend" or similar expressions, or statements regarding intent, belief, or current expectations, are forward-looking statements. These forward-looking statements are subject to various risks and uncertainties, many of which are difficult to predict, that could cause actual results to differ materially from current expectations and assumptions from those set forth or implied by any forward-looking statements. Important factors that could cause actual results to differ materially from current expectations include, among others, the highly volatile nature of digital assets, technical issues in connection with the integration of supported digital assets and changes and upgrades to their underlying network, heightened scrutiny of our industry and operations, the theft, loss, or destruction of private keys required to access any digital assets held in custody for our own account or for our clients, errors in executing client transactions or managing our own trading activities, and the other factors discussed in the Company's Annual Report on Form 10-K filed with the U.S. Securities and Exchange Commission (the "SEC") on March 27, 2026, and its subsequent filings with the SEC, including subsequent periodic reports on Forms 10-Q and 8-K. Such forward-looking statements are based on facts and conditions as they exist at the time such statements are made and predictions as to future facts and conditions. While the Company believes these forward-looking statements are reasonable, readers of this press release are cautioned not to place undue reliance on any forward-looking statements. The information in this release is provided only as of the date of this release, and the Company does not undertake any obligation to update any forward-looking statement relating to matters discussed in this press release, except as may be required by applicable securities laws.

Disclaimers:

Arc is an open L1 blockchain launched by Arc Network Services LLC ("Arc LLC") and operated by a permissioned validator set. Arc LLC provides software services only and does not offer regulated financial or advisory services. Arc has not been reviewed or approved by the New York State Department of Financial Services or any other regulatory authority.

The Arc network is provided "as is" and "as available." Use of Arc involves inherent risks associated with blockchain technology, including smart contract vulnerabilities, network disruptions, and the absence of recourse for transaction errors or losses. The ability to transact on Arc depends on the ability to obtain and use USDC to pay gas fees. Neither Arc LLC nor any permissioned validator is responsible for the content, accuracy, legality, or functionality of third-party applications, protocols, or services built on or integrated with Arc. You are solely responsible for features or services you provide to users, including obtaining any necessary licenses or approvals and otherwise complying with applicable laws.

All Arc features may be modified, delayed, or cancelled at any time without notice. Nothing herein constitutes a commitment, warranty, guarantee or legal, regulatory, tax, or investment advice.
