FAIRHAVEN, MA – March 22, 2017 – Acushnet Holdings Corp. (NYSE: GOLF) (“Acushnet”), a global leader in the design, development, manufacture and distribution of performance-driven golf products, today reported financial results for the three and twelve months ended December 31, 2016.

Wally Uihlein, Acushnet President and CEO, said, “2016 was a good year for Acushnet Holdings as we continued to execute on our proven strategy and strengthen our relationships with dedicated golfers and trade partners. We are pleased with how our team delivered solid revenue and Adjusted EBITDA growth in a year highlighted by industry right-sizing. We are also encouraged by indications that the industry long-term metrics appear to be stabilizing. Looking forward, we feel very good about our market position and opportunity for continued success.”

Uihlein continued, “We are confident in our strategy and ability to execute into the future. Our Board of Directors shares this confidence and today declared our first quarterly cash dividend of \$0.12 per share.”

(1) All figures in this release reflect certain immaterial revenue adjustments made for periods during 2016. See Schedule A for the impact of the adjustments.

David Maher, Acushnet COO, said, “Our businesses continued to deliver solid performance over the course of 2016, driven in part by our focus on accelerating growth and share gains outside of the United States. Globally, we saw annual growth in the key business segments of golf clubs, golf wear and golf gear capped by the successful fourth quarter introduction of the 917 drivers and fairways and the strong momentum of the new FootJoy PRO/SL shoe. Entering a new golf ball cycle, we launched the new Pro V1 and Pro V1x in January of 2017 and we are very pleased with the enthusiastic golfer reception and broad tour adoption worldwide.”

Summary of Fourth Quarter 2016 Financial Results

	2016	2015	\$ change	% change	\$ change	% change
<i>(in millions)</i>						
Net sales.....	\$329.8	\$320.2	\$9.5	3.0%	\$4.1	1.3%

Acushnet Holdings Corp.....	\$(0.2)	\$(20.4)	\$20.3	NM		
Adjusted EBITDA	\$38.1	\$29.6	\$8.6	28.9%		

Consolidated net sales increased by 3.0%, or by 1.3% on a constant currency basis:

- 19.2% increase in net sales (15.5% increase on a constant currency basis) of Titleist golf clubs as a result of strong demand for the new model 917 drivers and fairways launched in the fourth quarter of 2016 and continued growth in Vokey wedges and Scotty Cameron putters introduced in the first quarter of 2016; offset by lower sales of irons and hybrids that were launched in the fourth quarter of 2015
- 9.5% decrease in net sales (10.1% decrease on a constant currency basis) in FootJoy golf wear across all categories primarily as a result of the off-course U.S. retail channel disruption caused by the bankruptcy of Golfsmith International Holdings LP
- 5.9% decrease in net sales (6.2% decrease on a constant currency basis) of Titleist golf balls primarily as a result of the off-course U.S. retail channel disruption and the fact that our Pro V1 and Pro V1x balls are in the second year of their two-year product cycle

Consolidated net sales in the United States decreased by 3.6% primarily as a result of the off-course U.S. retail channel disruption. Acushnet posted year-on-year gains in net sales in regions outside the United States of 9.6% — on a constant currency basis, such net sales would have increased by 6.2%, with Japan up 14.3%, Korea up 10.5% and EMEA up 8.8%.

Net income (loss) attributable to Acushnet improved by \$20.3 million to a loss of \$0.2 million (compared to a loss of \$20.4 million) primarily due to the recognition of a loss in the fourth quarter of 2015 of \$13.8 million on the fair value measurement of the common stock warrants and lower interest expense in the fourth quarter of 2016.

Adjusted EBITDA increased by 28.9% primarily as a result of higher income from operations. Adjusted EBITDA margin increased to 11.6% for the fourth quarter from 9.2% for the prior year period.

Consolidated net sales for full year 2016 increased by 4.6%, or 4.5% on a constant currency basis:

- 11.0% increase in net sales (9.8% increase on a constant currency basis) of Titleist golf clubs reflecting strong demand for the new Vokey wedges launched in the first quarter of 2016, new drivers and fairways launched in the fourth quarter of 2016 and Scotty Cameron putters launched in the first quarter of 2016
- 3.4% increase in net sales (3.6% increase on a constant currency basis) of FootJoy golf wear across all categories
- 5.3% increase in net sales (5.5% increase on a constant currency basis) of Titleist golf gear driven by sales volume growth in all categories
- 4.0% decrease in net sales (3.7% decrease on a constant currency basis) of Titleist golf balls as a result of the off-course U.S. retail channel disruption caused by the bankruptcy of The Sports Authority, Inc. and Golfsmith International Holdings LP and the fact that our Pro V1 and Pro V1x balls are in the second model year

Consolidated net sales in the United States decreased by 0.1%, impacted by the off-course U.S. retail channel disruption. Acushnet posted year-on-year gains in regions outside the United States, increasing net sales by 10.1% — on a constant currency basis, such net sales would have increased by 9.8%, with Japan up 7.6%, Korea up 24.4% and EMEA up 9.9%.

Net income attributable to Acushnet increased to \$45.0 million, up \$46.0 million year over year. This increase was primarily a result of higher income from operations, lower losses on the fair value of the common stock warrants and lower interest expense, which were offset in part by higher income tax expense.

Adjusted EBITDA increased by 6.4% primarily as a result of higher income from operations. Adjusted EBITDA margin increased to 14.5% for the year ended December 31, 2016 from 14.3% for the prior year.

ACUSHNET HOLDINGS CORP.
Reconciliation of GAAP to Non-GAAP Measures
(Unaudited)

Use of Non-GAAP Financial Measures

The Company reports its financial results in accordance with general accepted accounting principles in the United States (“GAAP”). However, this release includes the non-GAAP financial measures of net sales in constant currency and Adjusted EBITDA. These non-GAAP financial measures are not measures of financial performance in accordance with GAAP and may exclude items that are significant in understanding and assessing the Company’s financial results. Therefore, these measures should not be considered in isolation or as an alternative to net sales, net income or other measures of profitability, liquidity or performance under GAAP. You should be aware that the Company’s presentation of these measures may not be comparable to similarly-titled measures used by other companies.

We use net sales on a constant currency basis to evaluate the sales performance of our business in period over period comparisons and for forecasting our business going forward. Constant currency information allows us to estimate what our sales performance would have been without changes in foreign currency exchange rates. This information is calculated by taking the current period local currency sales and translating them into U.S. dollars based upon the foreign currency exchange rates for the applicable comparable prior period. This constant currency information should not be considered in isolation or as a substitute for any measure derived in accordance with GAAP. Our presentation of constant currency information may not be consistent with the manner in which similar measures are derived or used by other companies.

Adjusted EBITDA represents net income (loss) attributable to Acushnet Holdings Corp. plus income tax expense, interest expense, depreciation and amortization, the expenses relating to the Acushnet Company Equity Appreciation Rights Plan, as amended (the “EAR Plan”), share-based compensation expense, a one-time executive bonus, restructuring charges, plant start-up costs, certain transaction fees, indemnification expense (income) from our former owner Beam Suntory, Inc. (formerly known as Fortune Brands, Inc.) (“Beam”), gains (losses) on the fair value of our common stock warrants, certain other non-cash gains, net and the net income relating to noncontrolling interests in our FootJoy golf shoe joint venture. We define Adjusted EBITDA in a manner consistent with the term “Consolidated EBITDA” as it is defined in our credit agreement. Consolidated EBITDA is used in our credit agreement at the Acushnet Company level for purposes of certain material terms, including (i) determining the applicable margin used to determine the interest rate per annum of outstanding borrowings and commitment fees for revolving commitments, (ii) calculating certain financial ratios used in financial maintenance covenants that require compliance on a quarterly basis, (iii) determining our ability to incur additional term loans or increases to our new revolving credit facility and (iv) determining the availability of certain baskets and the ability to enter into certain transactions.

We present Adjusted EBITDA as a supplemental measure because it excludes the impact of certain items that (i) we do not consider indicative of our ongoing operating performance, (ii) that relate to our acquisition of Acushnet Company, our operating subsidiary, from Beam on July

29, 2011 (the “Acquisition”) or (iii) that relate to our historical capital structure that will no longer be relevant after the closing of this offering. Management uses Adjusted EBITDA to evaluate the effectiveness of our business strategies, assess our consolidated operating performance and make decisions regarding pricing of our products, go to market execution and costs to incur across our business. Adjusted EBITDA is also used as a financial performance measure for purposes of determining the vesting of equity awards that were granted under our Acushnet Holdings Corp. 2015 Omnibus Incentive Plan.

We also believe Adjusted EBITDA provides useful information to investors regarding (i) our consolidated operating performance, (ii) our capacity to service debt, (iii) the applicable margin used to determine the interest rate per annum of outstanding borrowings and commitment fees for revolving commitments and (iv) our capacity to incur additional debt and utilize certain baskets and enter into transactions that may otherwise be restricted by our credit agreement. By presenting Adjusted EBITDA, we provide a basis for comparison of our business operations between different periods by excluding items that we do not believe are indicative of our core operating performance.

Adjusted EBITDA is not a measurement of financial performance under GAAP. It should not be considered an alternative to net income (loss) attributable to Acushnet Holdings Corp. as a measure of our operating performance or any other measure of performance derived in accordance with GAAP. In addition, Adjusted EBITDA should not be construed as an inference that our future results will be unaffected by unusual or non-recurring items, or affected by similar non-recurring items. Adjusted EBITDA has limitations as an analytical tool, and you should not consider such measure either in isolation or as a substitute for analyzing our results as reported under GAAP. Our definition and calculation of Adjusted EBITDA is not necessarily comparable to other similarly titled measures used by other companies due to different methods of calculation.

The following table presents reconciliations of net income (loss) attributable to Acushnet to Adjusted EBITDA for the periods presented (dollars in thousands):

All outstanding EARs under the EAR Plan vested as of December 31, 2015. The EAR Plan expired on December 31, 2016 and the outstanding EAR liability of \$151.5 million was settled in full by a cash payout to participants during the first quarter of 2017.
- (b) For the year ended December 31, 2016, reflects compensation expenses with respect to equity-based grants under the 2015 Omnibus Incentive Plan which were made in 2016. - (g) Fila Korea Co., Ltd. exercised all of our outstanding common stock warrants in July 2016 and we used the proceeds from such exercise to redeem all of our outstanding 7.5% bonds due 2021.
- (h) Reflects legal judgment in favor of us associated with the Beam value-added tax dispute recorded in other (income) expense.
- (i) Reflects the net income attributable to the interest that we do not own in our FootJoy golf shoe joint venture.
- (j) Adjusted EBITDA margin measures our Adjusted EBITDA as a percentage of sales.

A reconciliation of non-GAAP Adjusted EBITDA, as forecasted for 2017, to the closest corresponding GAAP measure, net income (loss), is not available without unreasonable efforts on a forward-looking basis due to the high variability and low visibility of certain charges that may impact our GAAP results on a forward-looking basis, such as the measures and effects of share based compensation and adjustments related to the indemnification obligations owed to us by Beam.

ACUSHNET HOLDINGS CORP.
Schedule A: Impact of accounting adjustments
on the fourth quarter and full year 2016

During the fourth quarter of 2016, the Company made the following two immaterial revenue adjustments:
