consolidation of retailers or concentration of retail market share; our ability to maintain and enhance our brands; seasonal fluctuations of our business; fluctuations of our business based on the timing of new product introductions; risks associated with doing business globally; compliance with laws, regulations and policies, including the U.S. Foreign Corrupt Practices Act or other applicable anti-corruption legislation, as well as federal, state and local policies and executive orders regarding the COVID-19 pandemic; our ability to secure additional capital at all or on terms acceptable to us and potential dilution of holders of our common stock; lack of assurance of positive returns on capital investments; risks associated with acquisitions and investments;
