2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation—The accompanying condensed consolidated financial statements of the Company were prepared in accordance with accounting principles generally accepted in the United States (“GAAP”) for interim financial information and Article 10 of Regulation S-X. Accordingly, the condensed consolidated financial statements do not include all of the disclosures required by GAAP for a complete set of annual audited financial statements. The condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2021. In the opinion of management, all adjustments which are of a normal and recurring nature and considered necessary for a fair presentation of the results of the interim periods presented have been included. The results of operations for the interim periods are not necessarily indicative of results for the full year. All intercompany transactions and account balances within the Company have been eliminated.

For U.S. Dollar LIBOR, the overnight, one-month, three-month, six-month and one-year LIBOR rates will be discontinued in June 2023, while other U.S. Dollar LIBOR rates were discontinued at the end of 2021. The amendments in this update are effective immediately and may be applied through December 31, 2022. Adoption of this ASU did not have a material impact on the Company’s consolidated financial statements.

4. IMPAIRMENT OF REAL ESTATE INVESTMENTS, ASSETS HELD FOR SALE, NET AND ASSET SALES

In connection with the Company’s ongoing review and monitoring of its investment portfolio and the performance of its tenants, during the first quarter of 2022, the Company determined to pursue the sale of 27 properties and the repurposing of three properties representing an aggregate of approximately 10% of contractual cash rent as of March 31, 2022. As of March 31, 2022, the Company determined that these 27 properties met the criteria to be classified as assets held for sale and, in connection with this determination, the Company recognized an aggregate impairment charge of \$59.7 million related to 20 of the 27 held for sale properties, which is reported in impairment of real estate investments in the condensed consolidated statements of operations for the nine months ended September 30, 2022. The impairment charge was recognized to write down the properties’ aggregate carrying value to their aggregate fair value, less estimated costs to sell.

Following the asset sales and held for sale reclassifications discussed below, 19 properties continued to meet the criteria to be classified as held for sale as of September 30, 2022. During the third quarter of 2022, the Company recognized an additional aggregate impairment charge of \$12.3 million related to 16 of the 19 held for sale properties to reduce their carrying value to estimated fair value less costs to sell. As of September 30, 2022, the real estate comprising the remaining 19 properties classified as held for sale had an aggregate carrying value of \$77.7 million.

The fair value of the assets held for sale was based on estimated sales prices, which are considered to be Level 3 measurements within the fair value hierarchy. Estimated sales prices were determined using a market approach (comparable sales model), which relies on certain assumptions by management, including: (i) comparable market transactions, (ii) estimated prices per unit, and (iii) binding agreements for sales and non-binding offers to purchase from unrelated third-parties. There are inherent uncertainties in making these assumptions. For the Company’s impairment calculations, the Company’s fair value estimates primarily relied on a market approach and utilized prices per unit ranging from \$35,000 to \$145,000, with a weighted average price per unit of \$80,000.

During the second quarter of 2022, the Company recognized an impairment charge of \$1.7 million related to one SNF. The Company wrote down its carrying value of \$2.8 million to its estimated fair value of \$1.1 million, which is included in real estate investments, net on the Company’s condensed consolidated balance sheets. The fair value of the asset was based on comparable market transactions. For the Company’s impairment calculation, the Company’s fair value estimates primarily relied on a market approach and utilized prices per unit of \$20,000.

Asset Sales and Held for Sale Reclassifications

During the first quarter of 2022, the Company determined that one ALF that was classified as held for sale at December 31, 2021 no longer met the held for sale criteria. The Company reclassified this ALF’s carrying value of \$4.8 million out of assets held for sale and recorded catch-up depreciation of approximately \$0.1 million during the nine months ended September 30, 2022.

On February 22, 2022, the Company closed on the sale of one SNF, operated by affiliates of Cascadia Healthcare, LLC (“Cascadia”), consisting of 83 beds located in Washington with a carrying value of \$0.8 million, for net sales proceeds of \$1.0 million. During the nine months ended September 30, 2022, the Company recorded a gain of \$0.2 million in connection with the sale. There was no rent reduction under the Cascadia master lease in connection with the sale.

The Company reclassified this ALF out of assets held for sale at its fair value at the date of the decision not to sell of approximately \$4.9 million, or a weighted average price per unit of \$125,000.

On September 29, 2022, the Company closed on the sale of six SNFs and one multi-service campus, operated by affiliates of Trio Healthcare Holdings, LLC (“Trio”), consisting of 708 beds located in Ohio for net proceeds of \$32.8 million. In September 2022, the Company extended a \$24.9 million term loan as part of a larger, multi-tranche real estate secured term loan facility to a skilled nursing real estate owner. The secured term loan was structured with an “A” and a “B” tranche (with the payments on the “B” tranche being subordinate to the “A” tranche pursuant to the terms of a written agreement between the lenders). The Company’s \$24.9 million secured term loan constituted the entirety of the “B” tranche with its payments subordinated accordingly. The secured term loan is primarily secured by four skilled nursing facilities operated by an operator in the Southeast. The “B” tranche secured term loan is set to mature on September 8, 2025, with two one-year extension options and may (subject to certain restrictions) be prepaid in whole or in part before the maturity date for an exit fee ranging from 1% to 3% of the loan plus unpaid interest payments; provided, however, that no exit fee is payable in connection with portions of the loan being refinanced pursuant to a loan (or loans) provided by or insured by the United States Department of Housing and Urban Development, Federal Housing Administration, or a similar governmental authority. The “B” tranche secured term loan provides for an earnout advance of \$4.7 million if certain conditions are met. The “B” tranche secured term loan bears interest at a rate based on term SOFR, calculated as a fraction, with the numerator being the difference between (i) the monthly payment of interest of term SOFR plus a 4.50% spread and (ii) the amount of such monthly payment of interest of term SOFR plus a 2.85% spread, and with the denominator being the average daily balance of the outstanding principal amount during the applicable month, with such fraction expressed as a percentage and annualized, with a term SOFR floor of 1.0% and less a subservicing fee of 100% over 9.00%. The “B” tranche secured term loan requires monthly interest payments. The Company elected the fair value option for the “B” tranche secured term loan.

In August 2022, the Company extended a \$22.3 million term loan as part of a larger, multi-tranche real estate secured term loan facility to a skilled nursing real estate owner. The secured term loan was structured with an “A” and a “B” tranche (with the payments on the “B” tranche being subordinate to the “A” tranche pursuant to the terms of a written agreement between the lenders). The Company’s \$22.3 million secured term loan constituted the entirety of the “B” tranche with its payments subordinated accordingly. The secured term loan is primarily secured by five skilled nursing facilities, four of which will be operated by an existing operator and one of which will be operated by a large, regional skilled nursing operator. The “B” tranche secured term loan is set to mature on August 1, 2025, with two one-year extension options and may (subject to certain restrictions) be prepaid in whole or in part before the maturity date for an exit fee ranging from 2% to 3% of the loan plus unpaid interest payments; provided, however, that no exit fee is payable in connection with portions of the loan being refinanced pursuant to a loan (or loans) provided by or insured by the United States Department of Housing and Urban Development, Federal Housing Administration, or a similar governmental authority. The “B” tranche secured term loan bears interest at a rate based on term secured overnight financing rate, calculated as a fraction, with the numerator being the difference between (i) the monthly payment of interest of term SOFR plus a 4.25% spread and (ii) the amount of such monthly payment of interest of term SOFR plus a 2.75% spread, and with the denominator being the average daily balance of the outstanding principal amount during the applicable month, with such fraction expressed as a percentage and annualized, with a term SOFR floor of 1.0% and less a subservicing fee of 50% over 8.25%. The “B” tranche secured term loan requires monthly interest payments. The Company elected the fair value option for the “B” tranche secured term loan.

In June 2022, the Company extended a \$75.0 million term loan to a skilled nursing real estate owner as part of a larger, multi-tranche, senior secured term loan facility. The senior secured term loan was structured with an “A” tranche, a “B” tranche, and a “C” tranche (with the “C” tranche being the most subordinate). The Company’s \$75.0 million term loan constituted the entirety of the “C” tranche with its payments subordinated accordingly. The senior secured term loan facility is secured by an 18-facility skilled nursing portfolio in the Mid-Atlantic region, operated by a large, regional skilled nursing operator. In connection with the senior secured term loan facility and the borrower’s acquisition of the skilled nursing portfolio, the Company also extended to the borrower group a \$25.0 million mezzanine loan. The “C” tranche of the senior secured term loan bears interest at 8.5%, less a servicing fee equal to the positive difference, if any, between the lesser of the contractual interest payment and actual payment of interest made by the borrower and a hypothetical interest payment at a rate of 8.25%, resulting in an effective interest rate of 8.375%. The “C” tranche senior secured term loan is set to mature on June 30, 2027 and may (subject to certain restrictions) be prepaid in whole or in part before the maturity date for an exit fee ranging from 1% to 3% of the loan plus unpaid interest payments through the end of the month of prepayment; provided, however, that no exit fee is payable in connection with portions of the loan being refinanced pursuant to a loan (or loans) provided by or insured by the United States Department of Housing and Urban Development, Federal Housing Administration, or a similar governmental authority. The mezzanine loan bears interest at 11% and is secured by a pledge of membership interests in an up-tier affiliate of the borrower group. The mezzanine loan is set to mature on June 30, 2032, and may (subject to certain restrictions) be prepaid in whole or in part before the maturity date, commencing on June 30, 2029, for an exit fee ranging from 1% to 3% of the loan plus unpaid interest payments through the date of prepayment. The “C” tranche senior secured term loan and mezzanine loan both require monthly interest payments. The Company elected the fair value option for both the “C” tranche term loan and the mezzanine loan.

The fair value option is elected on an instrument by instrument basis and must be applied to an entire instrument and is irrevocable once elected. The Company's primary purpose in electing the fair value option for these instruments was to align with management's view of the underlying economics of the loans and the manner in which they are managed.

6. FAIR VALUE MEASUREMENTS

The Company determines fair value based on quoted prices when available or through the use of alternative approaches, such as discounting the expected cash flows using market interest rates commensurate with the credit quality and duration of the investment. GAAP guidance defines three levels of inputs that may be used to measure fair value:

Level 1 – Quoted prices in active markets for identical assets and liabilities that the reporting entity has the ability to access at the measurement date.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability or can be corroborated with observable market data for substantially the entire contractual term of the asset or liability.

Level 3 – Unobservable inputs reflect the entity's own assumptions about the assumptions that market participants would use in the pricing of the asset or liability and are consequently not based on market activity, but rather through particular valuation techniques.

The determination of where an asset or liability falls in the hierarchy requires significant judgment and considers factors specific to the asset or liability. In instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety. The Company evaluates its hierarchy disclosures each quarter and, depending on various factors, it is possible that an asset or liability may be classified differently from quarter to quarter. Changes in the type of inputs may result in a reclassification for certain assets. The Company does not expect that changes in classifications between levels will be frequent.

Items Measured at Fair Value on a Recurring Basis

The following table presents information about the Company's assets and liabilities measured at fair value on a recurring basis as of September 30, 2022 and December 31, 2021, aggregated by the level in the fair value hierarchy within which those instruments fall (dollars in thousands):

Assets:

The following table details the Company's assets measured at fair value on a recurring basis using Level 3 inputs (dollars in thousands):

Unrealized loss on other real estate related investments	(2,998)	(1,708)
Balance as of September 30, 2022	\$ 119,991	\$ 38,671

Real estate secured and mezzanine loans receivables: The fair value of the secured and mezzanine loans receivables were estimated using an internal valuation model that considered the expected future cash flows of the investment, the underlying collateral value, market interest rates and other credit enhancements. As such, the Company classifies each instrument as Level 3 due to the significant unobservable inputs used in determining market interest rates for investments with similar terms. During the three months ended September 30, 2022, the Company recorded an unrealized loss of \$4.7 million on the Company's secured and mezzanine loans receivable due to rising interest rates. Future changes in market interest rates could

materially impact the estimated discounted cash flows that are used to determine the fair value of the secured and mezzanine loans receivable. As of September 30, 2022 and December 31, 2021, the Company did not have any loans measured at fair value that were 90 days or more past due.

The following table shows the quantitative information about unobservable inputs related to the Level 3 fair value measurements comprising the investments in secured and mezzanine loans receivables as of September 30, 2022:

Type	Book Value as of September 30, 2022	Valuation Technique	Unobservable Inputs	Range
Secured loans receivable	\$ 119,991	Discounted cash flow	Discount Rate	9% - 13%
Mezzanine loans receivable	38,671	Discounted cash flow	Discount Rate	12% - 14%

For the three and nine months ended September 30, 2022, there were no classification changes in assets and liabilities with Level 3 inputs in the fair value hierarchy.

Items Disclosed at Fair Value

Considerable judgment is necessary to estimate the fair value disclosure of financial instruments. The estimates of fair value presented herein are not necessarily indicative of the amounts that could be realized upon disposition of the financial instruments. A summary of the face value, carrying amount and fair value of the Notes (as defined in Note 7, *Debt*, below) as of September 30, 2022 and December 31, 2021 using Level 2 inputs is as follows (dollars in thousands):

Cash and cash equivalents, accounts and other receivables, accounts payable, and accrued liabilities: The carrying values for these instruments approximate their fair values due to the short-term nature of these instruments.

Senior unsecured notes payable: The fair value of the Notes was determined using third-party quotes derived from orderly trades.

Unsecured revolving credit facility and senior unsecured term loan: The fair values approximate their carrying values as the interest rates are variable and approximate prevailing market interest rates for similar debt arrangements.

The obligations under the Notes are fully and unconditionally guaranteed, jointly and severally, on an unsecured basis, by the Company and all of CareTrust’s existing and future subsidiaries (other than the Issuers) that guarantee obligations under the Amended Credit Facility (as defined below); provided, however, that such guarantees are subject to automatic release under certain customary circumstances.

The indenture governing the Notes contains customary covenants such as limiting the ability of the Company and its restricted subsidiaries to: incur or guarantee additional indebtedness; incur or guarantee secured indebtedness; pay dividends or distributions on, or redeem or repurchase, capital stock; make certain investments or other restricted payments; sell assets; enter into transactions with affiliates; merge or consolidate or sell all or substantially all of their assets; and create restrictions on the ability of the Issuers and their restricted subsidiaries to pay dividends or other amounts to the Issuers. The indenture governing the Notes also requires the Company and its restricted subsidiaries to maintain a specified ratio of unencumbered assets to unsecured indebtedness. These covenants are subject to a number of important and significant limitations, qualifications and exceptions. The indenture governing the Notes also contains customary events of default.

As of September 30, 2022, the Company was in compliance with all applicable financial covenants under the indenture governing the Notes.

Unsecured Revolving Credit Facility and Term Loan

On February 8, 2019, the Operating Partnership, as the borrower, the Company, as guarantor, CareTrust GP, LLC, and certain of the Operating Partnership’s wholly owned subsidiaries entered into an amended and restated credit and guaranty agreement with KeyBank National Association, as administrative agent, an issuing bank and swingline lender, and the lenders party thereto (the “Amended Credit Agreement”). Borrowing availability under the Revolving Facility is subject to no default or event of default under the Amended Credit Agreement having occurred at the time of borrowing. Future borrowings under the Amended Credit Facility will be used for working capital purposes, for capital expenditures, to fund acquisitions and for general corporate purposes.

The interest rates applicable to loans under the Revolving Facility are, at the Operating Partnership’s option, equal to either a base rate plus a margin ranging from 0.10% to 0.55% per annum or LIBOR plus a margin ranging from 1.10% to 1.55% per annum based on the debt to asset value ratio of the Company and its consolidated subsidiaries (subject to decrease at the Operating Partnership’s election if the Company obtains certain specified investment grade ratings on its senior long-term unsecured debt). The interest rates applicable to loans under the Term Loan are, at the Operating Partnership’s option, equal to either a base rate plus a margin ranging from 0.50% to 1.20% per annum or LIBOR plus a margin ranging from 1.50% to 2.20% per annum based on the debt to asset value ratio of the Company and its consolidated subsidiaries (subject to decrease at the Operating Partnership’s election if the Company obtains certain specified investment grade ratings on its senior long-term

unsecured debt). In addition, the Operating Partnership will pay a facility fee on the revolving commitments under the Revolving Facility ranging from 0.15% to 0.35% per annum, based on the debt to asset value ratio of the Company and its consolidated subsidiaries (unless the Company obtains certain specified investment grade ratings on its senior long-term unsecured debt and the Operating Partnership elects to decrease the applicable margin as described above, in which case the Operating Partnership will pay a facility fee on the revolving commitments ranging from 0.125% to 0.30% per annum based on the credit ratings of the Company's senior long-term unsecured debt). As of September 30, 2022, the Operating Partnership had \$200.0 million of borrowings outstanding under the Term Loan and \$180.0 million outstanding under the Revolving Facility.

The Revolving Facility has a maturity date of February 8, 2023, and includes, at the sole discretion of the Operating Partnership, two, six-month extension options. The Term Loan has a maturity date of February 8, 2026.

The Amended Credit Facility is guaranteed, jointly and severally, by the Company and its wholly owned subsidiaries that are party to the Amended Credit Agreement (other than the Operating Partnership). The Amended Credit Agreement contains customary covenants that, among other things, restrict, subject to certain exceptions, the ability of the Company and its subsidiaries to grant liens on their assets, incur indebtedness, sell assets, make investments, engage in acquisitions, mergers or consolidations, amend organizational documents and pay certain dividends and other restricted payments. The Amended Credit Agreement requires the Company to comply with financial maintenance covenants to be tested quarterly, consisting of a maximum debt to asset value ratio, a minimum fixed charge coverage ratio, a minimum tangible net worth, a maximum cash distributions to operating income ratio, a maximum secured debt to asset value ratio, a maximum secured recourse debt to asset value ratio, a maximum unsecured debt to unencumbered properties asset value ratio, a minimum unsecured interest coverage ratio and a minimum rent coverage ratio. The Amended Credit Agreement also contains certain customary events of default, including the failure to make timely payments under the Amended Credit Facility or other material indebtedness, the failure to satisfy certain covenants (including the financial maintenance covenants), the occurrence of change of control and specified events of bankruptcy and insolvency.

As of September 30, 2022, the Company was in compliance with all applicable financial covenants under the Amended Credit Agreement.

9. STOCK-BASED COMPENSATION

All stock-based awards are subject to the terms of the CareTrust REIT, Inc. and CTR Partnership, L.P. Incentive Award Plan (the “Plan”). The Plan provides for the granting of stock-based compensation, including stock options, restricted stock, performance awards, restricted stock units, relative total stockholder return based stock awards (“TSR Awards”) and other incentive awards to officers, employees and directors in connection with their employment with or services provided to the Company. Under the Plan, 5,000,000 shares have been authorized for awards.

Under the Plan, restricted stock awards (“RSAs”) granted in fiscal 2022 to employees vest in equal annual installments beginning on the first anniversary of the grant date over a three year period. RSAs granted to non-employee members of the Board of Directors (“Board Awards”) vest in full on the earlier to occur of the Company’s next annual meeting of stockholders or the first anniversary of the grant date. Performance stock awards (“PSA”) granted to employees are subject to both time and performance based conditions and vest over a one-to-three year period for PSAs granted in 2021 or over a one-to-four year period for PSAs granted prior to 2021.

11. COMMITMENTS AND CONTINGENCIES

The Company and its subsidiaries are and may become from time to time a party to various claims and lawsuits arising in the ordinary course of business, which are not individually or in the aggregate anticipated to have a material adverse effect on the Company’s results of operations, financial condition or cash flows. Claims and lawsuits may include matters involving general or professional liability asserted against the Company’s tenants, which are the responsibility of the Company’s tenants and for which the Company is entitled to be indemnified by its tenants under the insurance and indemnification provisions in the applicable leases.

Capital expenditures for each property leased under the Company’s triple-net leases are generally the responsibility of the tenant, except that, for the facilities leased to subsidiaries of Ensign and Pennant, the tenant will have an option to require the Company to finance certain capital expenditures up to an aggregate of 20% of the Company’s initial investment in such property, subject to a corresponding rent increase at the time of funding. For the Company’s other triple-net master leases, the tenants also have the option to request capital expenditure funding that would generally be subject to a corresponding rent increase at the time of funding, which are subject to tenant compliance with the conditions to the Company’s approval and funding of their requests. As of September 30, 2022, the Company had committed to fund expansions, construction and capital improvements at certain triple-net leased facilities totaling \$16.1 million, of which \$3.9 million is subject to rent increase at the time of funding.

12. CONCENTRATION OF RISK

Concentrations of credit risk arise when one or more tenants, operators, or obligors related to the Company’s investments are engaged in similar business activities or activities in the same geographic region, or have similar economic features that would cause their ability to meet contractual obligations, including those to the Company, to be similarly affected by changes in economic conditions.

Overview

CareTrust REIT is a self-administered, publicly-traded REIT engaged in the ownership, acquisition, financing, development and leasing of skilled nursing, seniors housing and other healthcare-related properties. As of September 30, 2022, we owned and leased to independent operators, 221 skilled nursing facilities ("SNFs"), multi-service campuses, assisted living facilities ("ALFs") and independent living facilities ("ILFs") consisting of 23,135 operational beds and units located in 29 states with the highest concentration of properties by rental revenues located in California, Texas, Louisiana, Idaho and Arizona. As of September 30, 2022, we also had other real estate related investments consisting of three real estate secured loans receivable and two mezzanine loans receivable with an aggregate carrying value of \$158.7 million.

We generate revenues primarily by leasing healthcare-related properties to healthcare operators in triple-net lease arrangements, under which the tenant is solely responsible for the costs related to the property (including property taxes, insurance, maintenance and repair costs and capital expenditures, subject to certain exceptions in the case of properties leased to Ensign and Pennant). From time to time, we also extend secured mortgage loans to healthcare operators, secured by healthcare-related properties, and secured mezzanine loans to healthcare operators, secured by membership interests in healthcare-related properties. We conduct and manage our business as one operating segment for internal reporting and internal decision-making purposes. We expect to grow our portfolio by pursuing opportunities to acquire additional properties that will be leased to a

diverse group of local, regional and national healthcare providers, which may include new or existing skilled nursing operators, as well as seniors housing operators, behavioral health facilities and related businesses. We also anticipate diversifying our portfolio over time, including by acquiring properties in different geographic markets, and in different asset classes. In addition, we actively monitor the clinical, regulatory and financial operating results of our tenants, and work to identify opportunities within their operations and markets that could improve their operating results at our facilities. We communicate such observations to our tenants; however, we have no contractual obligation to do so. Moreover, our tenants have sole discretion with respect to the day-to-day operation of the facilities they lease from us, and how and whether to implement any observation we may share with them. We also actively monitor the overall occupancy, skilled mix, and other operating metrics of our tenants on at least a monthly basis including, beginning in the quarter ended June 30, 2020, any stimulus funds received by each tenant. We have replaced tenants in the past, and may elect to replace tenants in the future, if they fail to meet the terms and conditions of their leases with us. In addition, we have, and may from time to time in the future, repurpose facilities for other uses, such as behavioral health. The replacement tenants may include tenants with whom we have had no prior landlord-tenant relationship as well as current tenants with whom we are comfortable expanding our relationships. We have also provided select tenants with strategic capital for facility upkeep and modernization, as well as short-term working capital loans when they are awaiting licensure and certification or conducting turnaround work in one or more of our properties, and we may continue to do so in the future. In addition, we periodically reassess the investments we have made and the tenant relationships we have entered into, and have selectively disposed of facilities or investments, or terminated such relationships, and we expect to continue making such reassessments and, where appropriate, taking such actions.

Recent Developments

COVID-19 and Market Conditions Update

Tenants of our properties operating pursuant to triple-net master leases have been adversely impacted, and we expect that they will continue to be adversely impacted, by the COVID-19 pandemic. Our tenants are experiencing increased operating costs as a result of actions they are taking to prevent or mitigate the outbreak or spread of COVID-19 at their facilities, including in connection with their implementation of safety protocols and procedures and other regulatory requirements. Our tenants are also experiencing labor shortages resulting in limited admissions, reduced occupancy and higher agency expense.

At a portfolio wide level, occupancy levels at our seniors housing facilities remained relatively stable from the onset of the COVID-19 pandemic until the beginning of the fourth quarter of 2020, at which time we began to see a decline. This decline in occupancy continued through the first quarter of 2021 then remained flat through the fourth quarter of 2021. Seniors housing occupancy modestly increased through the first three quarters of 2022 compared to the fourth quarter of 2021, but still lags compared to pre-pandemic occupancy levels. Occupancy levels at our SNFs, which declined at the onset of the COVID-19 pandemic and continued to decline through January 2021, have been on a slow incline from February 2021 through the third quarter of 2022, but have not reached pre-pandemic levels. Beginning in early 2020, the federal government temporarily suspended the three-day hospital stay requirement for a patient's Medicare benefits to refresh. Providers can now "skill in place," eliminating the risk of transferring the patient to the hospital. Because of the temporary waiver of the three-day hospital stay requirement, overall skilled mix began increasing at the start of the COVID-19 pandemic and peaked in December 2020, at which time it began declining while still remaining above pre-pandemic levels. Skilled mix remained elevated during the first three quarters of 2022 compared to the pre-pandemic skilled mix during the three months ended March 31, 2020. However, the skilled mix in our SNFs during the three months ended September 30, 2022 is lower compared to the peak level seen in December 2020, and we anticipate that the skilled mix in our SNFs will continue to decline if cases of COVID-19 decline or if the suspension of the three-day hospital stay requirement is lifted as referenced below. An increase in skilled mix can, but may not necessarily, offset some or all of the adverse financial impact to the operator of the SNF from a decline in occupancy.

The U.S. Department of Health and Human Services ("HHS") recently renewed the COVID-19 Public Health Emergency, which is currently set to be in force through January 2023, and that allows HHS to continue providing temporary regulatory waivers, including the waiver of the three-day hospital stay requirement for a patient's Medicare benefits to refresh. The Coronavirus Aid, Relief, and Economic Security Act (the "CARES Act") included a temporary suspension of a 2% Medicare sequestration cut through the end of March 2022. Beginning April 1, 2022, a 1% sequestration cut went into effect through June 30, 2022 with the full 2% cut resuming thereafter. A temporary 6.2% increase in Federal Medical Assistance Percentages ("FMAP"), which was approved retroactive to January 1, 2020, is effective through March 31, 2023. If the COVID-19 Public Health Emergency expires or the three-day hospital stay requirement suspension is otherwise lifted or temporary FMAP increases end, our SNFs may experience decreases in occupancy levels or revenues, which may adversely impact the business and financial condition of the operators of our SNFs.

The current limited availability or unavailability of grants and other funds being made available to our seniors housing facilities for healthcare related expenses or lost revenues attributable to COVID-19, as well as the tapering of grants and other funds for our SNFs, has also impacted some of our tenants' ability to continue to meet some of their financial obligations, as they continue to experience lower occupancy levels and higher operating costs.

As a result of the foregoing impacts of the COVID-19 pandemic, our tenants' ability to continue to meet some of their financial obligations to us has been negatively impacted. See "Impairment of Real Estate Assets, Assets Held for Sale and Asset Sales" below. During the three and nine months ended September 30, 2022, we collected 93.4% and 94.2% of contractual rents due from our operators including cash deposits used to offset rent shortfalls, and 92.5% and 93.1% excluding cash deposits, respectively. In October 2022, we collected 95.6% of contractual rents due from our operators, which includes cash deposits. Excluding those cash deposits, contractual cash rents collected was 92.7%.

During the three months ended March 31, 2022, we determined that it was not probable that we would collect substantially all of the contractual obligations from four existing and former operators and, accordingly, we reversed \$0.7 million of operating expense reimbursements, \$0.2 million of contractual rent and \$0.1 million of straight-line rent. In addition, we determined that the collectibility of contractual rents from two operators was not reasonably assured and we moved these two operators to a cash basis method of accounting during the three months ended March 31, 2022. During the three months ended June 30, 2022, we moved one additional operator to a cash basis method of accounting.

The substantial inflationary pressures that our economy continues to face has resulted in many headwinds for us and our tenants, most notably in the form of rising interest rates, volatility in the capital markets, a softening of consumer sentiment and early signs of a potential broader economic slowdown. These current macroeconomic conditions, particularly inflation (including rising wages and supply costs), rising interest rates and related changes to consumer spending, including, but not limited to, causing individuals to delay or defer moves to seniors housing, could adversely impact our tenants' ability to meet some of their financial obligations to us. Rising interest rates also increase our costs of capital to finance acquisitions and increase our borrowing costs, and future changes in market interest rates could materially impact the estimated discounted cash flows that are used to determine the fair value of our other real estate related investments. In addition, current macroeconomic conditions and the resulting market volatility may adversely impact our ability to sell properties on acceptable terms, if at all, which could result in additional impairment charges.

For more information regarding the potential impact of COVID-19 and macroeconomic conditions on our business, see "Risk Factors" in Item 1A of Part I of our Annual Report on Form 10-K for the year ended December 31, 2021.

SNF Reimbursement Rates

On July 29, 2022, the Centers for Medicare and Medicaid Services ("CMS") issued a final rule that will increase the aggregate net payment by 2.7% for fiscal year 2023. CMS estimates that the aggregate impact of the payment policies in the final rule will result in an increase of approximately \$904 million in Medicare Part A payments to SNFs in fiscal year 2023 compared to fiscal year 2022. The payment rates became effective on October 1, 2022.

Impairment of Real Estate Assets, Assets Held for Sale, and Asset Sales

In connection with our ongoing review and monitoring of our investment portfolio and the performance of our tenants, during the first quarter of 2022, we determined to pursue the sale of 27 properties and the repurposing of three properties, representing an aggregate of approximately 10% of contractual cash rent as of March 31, 2022. As of March 31, 2022, we determined that these 27 properties met the criteria to be classified as assets held for sale and, in connection with this determination, we recognized an aggregate impairment charge of \$59.7 million related to 20 of the 27 held for sale properties, which is reported in impairment of real estate investments in the condensed consolidated statements of operations for the nine months ended September 30, 2022. The impairment charge was recognized to write down the properties' aggregate carrying value to their aggregate fair value, less estimated costs to sell.

Following the asset sales and held for sale reclassifications discussed below, 19 properties continued to meet the criteria to be classified as held for sale as of September 30, 2022. During the third quarter of 2022, we recognized an aggregate impairment charge of \$12.3 million related to 16 of the 19 held for sale properties to reduce their carrying value to estimated fair value less costs to sell. As of September 30, 2022, the real estate assets comprising the remaining 19 properties classified as held for sale had an aggregate carrying value of \$77.7 million.

During the second quarter of 2022, we recognized an impairment charge of \$1.7 million related to one SNF. We wrote down its carrying value of \$2.8 million to its estimated fair value of \$1.1 million.

Asset Sales and Held for Sale Reclassifications

During the first quarter of 2022, we determined that one ALF that was classified as held for sale at December 31, 2021 no longer met the held for sale criteria. We reclassified this ALF's carrying value of \$4.8 million out of assets held for sale and recorded catch-up depreciation of approximately \$0.1 million during the three months ended March 31, 2022.

During the first quarter of 2022, we closed on the sale of one SNF consisting of 83 beds located in Washington with a carrying value of \$0.8 million, for net sales proceeds of \$1.0 million. During the nine months ended September 30, 2022, we recorded a gain of \$0.2 million in connection with the sale.

During the third quarter of 2022, we determined that one ALF, with a carrying value of \$4.9 million, that was classified as held for sale at June 30, 2022 no longer met the held for sale criteria. We reclassified this ALF out of assets held for sale at its fair value at the date of the decision not to sell of approximately \$4.9 million.

During the third quarter of 2022, we closed on the sale of six SNFs and one multi-service campus, operated by affiliates of Trio Healthcare Holdings, LLC ("Trio"), consisting of 708 beds located in Ohio for net proceeds of \$32.8 million. In connection with the sale, we provided affiliates of the purchaser of the properties with a \$7.0 million term loan that bears interest at 8.5% and has a maturity date of September 30, 2025. We also provided a \$5.0 million bridge loan to four individuals that bears interest at 8.5% and has a maturity date of November 29, 2022. The seven properties were classified as held for sale at June 30, 2022 with a carrying value of \$46.9 million. During the three months ended September 30, 2022, we recorded a loss of \$2.1 million in connection with the sale.

Portfolio Activity

During the third quarter of 2022, a lease we entered into with Landmark Recovery of Maryland, LLC ("Landmark Maryland") commenced. In connection with this lease, we are repurposing an existing ALF (previously leased to affiliates of Noble Senior Services) as a behavioral health treatment center that will be operated by Landmark Maryland. Rent under the lease will commence one year following commencement of the lease term or, if earlier, upon Landmark Maryland obtaining all licensure, permits, and other required regulatory authorizations with respect to operating the facility. The lease will expire on the 20th anniversary of the rent commencement date and contains one 10-year renewal option and CPI-based rent escalators. See Note 3, *Real Estate Investments, Net* in the Notes to condensed consolidated financial statements for additional information.

Recent Investments

From January 1, 2022 through November 8, 2022, we acquired 1 SNF and 1 multi-service campus for approximately \$21.9 million, which includes capitalized acquisition costs. These acquisitions are expected to generate initial annual cash revenues of approximately \$2.1 million and an initial blended yield of approximately 9.4%. See Note 3, *Real Estate Investments, Net* in the Notes to condensed consolidated financial statements for additional information.

In September 2022, we extended a \$24.9 million term loan as part of a larger, multi-tranche real estate secured term loan facility to a skilled nursing real estate owner. The secured term loan was structured with an “A” and a “B” tranche (with the payments on the “B” tranche being subordinate to the “A” tranche pursuant to the terms of a written agreement between the lenders). Our \$24.9 million secured term loan constituted the entirety of the “B” tranche with its payments subordinated accordingly. The secured term loan is primarily secured by four skilled nursing facilities operated by an operator in the Southeast. The “B” tranche secured term loan is set to mature on September 8, 2025, with two one-year extension options and may (subject to certain restrictions) be prepaid in whole or in part before the maturity date for an exit fee ranging from 1% to 3% of the loan plus unpaid interest payments; provided, however, that no exit fee is payable in connection with portions of the loan being refinanced pursuant to a loan (or loans) provided by or insured by the United States Department of Housing and Urban Development, Federal Housing Administration, or a similar governmental authority. The “B” tranche secured term loan provides for an earnout advance of \$4.7 million if certain conditions are met. The “B” tranche secured term loan bears interest at a rate based on term secured overnight financing rate (“SOFR”), calculated as a fraction, with the numerator being the difference between (i) the monthly payment of interest of term SOFR plus a 4.50% spread and (ii) the amount of such monthly payment of interest of term SOFR plus a 2.85% spread, and with the denominator being the average daily balance of the outstanding principal amount during the applicable month, with such fraction expressed as a percentage and annualized, with a term SOFR floor of 1.00% and less a subservicing fee of 100% over 9.00%. The “B” tranche secured term loan requires monthly interest payments.

In August 2022, we extended a \$22.3 million term loan as part of a larger, multi-tranche real estate secured term loan facility to a skilled nursing real estate owner. The secured term loan was structured with an “A” and a “B” tranche (with the payments on the “B” tranche being subordinate to the “A” tranche pursuant to the terms of a written agreement between the lenders). Our \$22.3 million secured term loan constituted the entirety of the “B” tranche with its payments subordinated accordingly. The secured term loan is primarily secured by five skilled nursing facilities, four of which will be operated by an existing operator and one of which will be operated by a large, regional skilled nursing operator. The “B” tranche secured term loan is set to mature on August 1, 2025, with two one-year extension options and may (subject to certain restrictions) be prepaid in whole or in part before the maturity date for an exit fee ranging from 2% to 3% of the loan plus unpaid interest payments; provided, however, that no exit fee is payable in connection with portions of the loan being refinanced pursuant to a loan (or loans) provided by or insured by the United States Department of Housing and Urban Development, Federal Housing Administration, or a similar governmental authority. The “B” tranche secured term loan bears interest at a rate based on term SOFR, calculated as a fraction, with the numerator being the difference between (i) the monthly payment of interest of term SOFR plus a 4.25% spread and (ii) the amount of such monthly payment of interest of term SOFR plus a 2.75% spread, and with the denominator being the average daily balance of the outstanding principal amount during the applicable month, with such fraction expressed as a percentage and annualized, with a term SOFR floor of 1.00% and less a subservicing fee of 50% over 8.25%. The “B” tranche secured term loan requires monthly interest payments.

There was no ATM Program activity for the three and nine months ended September 30, 2022 and the three months ended September 30, 2021. The following table summarizes the ATM Program activity for the nine months ended September 30, 2021 (in thousands, except per share amounts).

Liquidity and Capital Resources

To qualify as a REIT for federal income tax purposes, we are required to distribute at least 90% of our REIT taxable income, determined without regard to the dividends paid deduction and excluding any net capital gains, to our stockholders on an annual basis. Accordingly, we intend to make, but are not contractually bound to make, regular quarterly dividends to common stockholders from cash flow from operating activities. All such dividends are at the discretion of our board of directors.

Our short-term liquidity requirements consist primarily of operating and interest expenses directly associated with our properties, including:

- interest expense and scheduled debt maturities on outstanding indebtedness;
- general and administrative expenses;
- dividend plans;
- operating lease obligations; and
- capital expenditures for improvements to our properties.

Our long-term liquidity needs consist primarily of funds necessary to pay for acquisitions and other investments (including mortgage and mezzanine loan originations), capital expenditures, and scheduled debt maturities. We intend to invest in and/or develop additional healthcare and seniors housing properties as suitable opportunities arise and so long as adequate sources of financing are available. We expect that future investments in and/or development of properties, including any improvements or renovations of current or newly-acquired properties, will depend on and will be financed by, in whole or in part, our existing cash, borrowings available to us under the Amended Credit Facility (as defined below), future borrowings or the proceeds from sales of shares of our common stock pursuant to our ATM Program or additional issuances of common stock or other securities. In addition, we may seek financing from U.S. government agencies, including through Fannie Mae and the U.S. Department of Housing and Urban Development, in appropriate circumstances in connection with acquisitions and refinancing of existing mortgage loans.

We believe that our expected operating cash flow from rent collections, interest payments on our other real estate related investments, and borrowings under our Amended Credit Facility, together with our cash balance of \$4.9 million, available

borrowing capacity of \$420.0 million under the Revolving Facility and availability under the ATM Program of \$476.5 million, each at September 30, 2022, will be sufficient to meet ongoing debt service requirements, dividend plans, operating lease obligations, capital expenditures, working capital requirements and other needs for at least the next 12 months. We expect to meet our long-term liquidity needs with cash flows from operations and financing arrangements. While we are currently pursuing the sale, re-tenanting or repurposing of certain of our assets in connection with our ongoing review and monitoring of our investment portfolio as described under “Recent Developments” above, we currently do not expect to sell any of our properties to meet liquidity needs, although we may do so in the future. Our quarterly cash dividend, any share repurchases under our Repurchase Program (as defined below) and any failure of our operators to pay rent or of our borrowers to make interest or principal payments may impact our available capital resources.

On March 20, 2020, our board of directors authorized a share repurchase program to repurchase up to \$150.0 million of outstanding shares of our common stock (the “Repurchase Program”). Repurchases under the Repurchase Program, which expires on March 31, 2023, may be made through open market purchases, privately negotiated transactions, structured or derivative transactions, including accelerated share repurchase transactions, or other methods of acquiring shares, in each case subject to market conditions and at such times as shall be permitted by applicable securities laws and determined by management. Repurchases under the Repurchase Program may also be made pursuant to a plan adopted under Rule 10b5-1 promulgated under the Securities Exchange Act of 1934, as amended (the “Exchange Act”). We expect to finance any share repurchases under the Repurchase Program using available cash and may also use short-term borrowings under the Revolving Facility. Through September 30, 2022, we have not repurchased any shares of common stock under the Repurchase Program and, as of September 30, 2022, we had \$150.0 million of remaining authorization under the Repurchase Program. The Repurchase Program may be modified, discontinued or suspended at any time.

We have filed an automatic shelf registration statement with the U.S. Securities and Exchange Commission that expires in March 2023 and at or prior to such time we expect to file a new shelf registration statement. The shelf registration statement allows us or certain of our subsidiaries, as applicable, to offer and sell shares of common stock, preferred stock, warrants, rights, units and debt securities through underwriters, dealers or agents or directly to purchasers, in one or more offerings on a continuous or delayed basis, in amounts, at prices and on terms we determine at the time of the offering.

Although we are subject to restrictions on our ability to incur indebtedness, we expect that we will be able to refinance existing indebtedness or incur additional indebtedness for acquisitions or other purposes, if needed. However, there can be no assurance that we will be able to refinance our indebtedness, incur additional indebtedness or access additional sources of capital, such as by issuing common stock or other debt or equity securities, on terms that are acceptable to us or at all.

We currently are in compliance with all debt covenants on our outstanding indebtedness.

Net cash provided by operating activities decreased \$7.7 million for the nine months ended September 30, 2022 compared to the nine months ended September 30, 2021. Operating cash inflows are derived primarily from the rental payments received under our lease agreements, including as a result of new investments, and interest payments on our other real estate related investments. Operating cash outflows consist primarily of interest expense on our borrowings and general and administrative expenses. The net decrease of \$7.7 million in cash provided by operating activities for the nine months ended September 30, 2022 is primarily due to an increase in cash paid for general and administrative expense, interest expense, a decrease in rental income received and operating expenses related to assets we plan to sell, have sold, or repurpose, partially offset by interest income received on our other real estate related investments.

Cash used in investing activities for the nine months ended September 30, 2022 was primarily comprised of \$171.6 million in acquisitions of real estate and investments in real estate related and other loans and \$5.5 million of purchases of equipment, furniture and fixtures and improvements to real estate, partially offset by \$34.1 million in net proceeds from real estate sales and \$1.2 million of principal payments received from other loans receivable. Material Cash Requirements

Our material cash requirements from known contractual and other obligations, including commitments for capital expenditures, include:

3.875% Senior Unsecured Notes due 2028

On June 17, 2021, our wholly owned subsidiary, CTR Partnership, L.P. (the “Operating Partnership”), and its wholly owned subsidiary, CareTrust Capital Corp. (together with the Operating Partnership, the “Issuers”), completed a private offering of \$400.0 million aggregate principal amount of 3.875% Senior Notes due 2028. The Notes accrue interest at a rate of 3.875% per annum payable semiannually in arrears on June 30 and December 30 of each year, commencing on December 30, 2021. As of September 30, 2022, we were in compliance with all applicable financial covenants under the indenture governing the Notes. See Note 7, *Debt*, to our condensed consolidated financial statements included in this report for further information about the Notes.

Unsecured Revolving Credit Facility and Term Loan

Our amended and restated credit and guaranty agreement with KeyBank National Association, as administrative agent, an issuing bank and swingline lender, and the lenders party thereto (the “Amended Credit Agreement”) provides for: (i) an unsecured revolving credit facility (the “Revolving Facility”) with revolving commitments in an aggregate principal amount of \$600.0 million, including a letter of credit subfacility for 10% of the then available revolving commitments and a swingline loan subfacility for 10% of the then available revolving commitments and (ii) an unsecured term loan credit facility (the “Term Loan” and, together with the Revolving Facility, the “Amended Credit Facility”) in an aggregate principal amount of \$200.0 million. Future borrowings under the Amended Credit Facility will be used for working capital purposes, for capital expenditures, to fund acquisitions and for general corporate purposes.

As of September 30, 2022, we had \$200.0 million outstanding under the Term Loan and \$180.0 million outstanding under the Revolving Facility. The Revolving Facility has a maturity date of February 8, 2023, and includes, at our sole discretion, two, six-month extension options. The Term Loan has a maturity date of February 8, 2026.

The interest rates applicable to loans under the Revolving Facility are, at the Operating Partnership’s option, equal to either a base rate plus a margin ranging from 0.10% to 0.55% per annum or LIBOR plus a margin ranging from 1.10% to 1.55% per annum based on the debt to asset value ratio of our consolidated subsidiaries (subject to decrease at the Operating Partnership’s election if we obtain certain specified investment grade ratings on our senior long-term unsecured debt). The interest rates applicable to loans under the Term Loan are, at the Operating Partnership’s option, equal to either a base rate plus a margin ranging from 0.50% to 1.20% per annum or LIBOR plus a margin ranging from 1.50% to 2.20% per annum based on the debt to asset value ratio of our consolidated subsidiaries (subject to decrease at the Operating Partnership’s election if we obtain certain specified investment grade ratings on our senior long-term unsecured debt). In addition, the Operating Partnership will pay a facility fee on the revolving commitments under the Revolving Facility ranging from 0.15% to 0.35% per annum, based on the debt to asset value ratio of our consolidated subsidiaries (unless we obtain certain specified investment grade ratings on our senior long-term unsecured debt and the Operating Partnership elects to decrease the applicable margin as described above, in which case the Operating Partnership will pay a facility fee on the revolving commitments ranging from 0.125% to 0.30% per annum based off the credit ratings of our senior long-term unsecured debt). Interest payments on the Term Loan and Revolving Facility are due monthly and facility fee payments are due quarterly.

As of September 30, 2022, we were in compliance with all applicable financial covenants under the Amended Credit Agreement. See Note 7, *Debt*, to our condensed consolidated financial statements included in this report for further information about the Amended Credit Agreement.

Capital Expenditures

As of September 30, 2022, we had committed to fund expansions, construction and capital improvements at certain triple-net leased facilities totaling \$16.1 million, of which \$3.9 million is subject to rent increase at the time of funding. We expect to fund the capital expenditures in the next one to two years. See Note 11, *Commitments and Contingencies*, to our condensed consolidated financial statements included in this report for further information regarding our obligation to finance certain capital expenditures under our triple-net leases.

Dividend Plans

We are required to pay dividends in order to maintain our REIT status and we expect to make quarterly dividend payments in cash with the annual dividend amount no less than 90% of our annual REIT taxable income, determined without regard to the dividends paid deduction and excluding any net capital gains. See Note 8, *Equity*, to our condensed consolidated financial statements included in this report for a summary of the cash dividends per share of our common stock declared by our Board of Directors for the three and nine months ended September 30, 2022.

Critical Accounting Policies and Estimates

Our condensed consolidated financial statements included in Item 1 of this Quarterly Report on Form 10-Q have been prepared in accordance with accounting principles generally accepted in the United States (“GAAP”) for interim financial information set forth in the Accounting Standards Codification, as published by the Financial Accounting Standards Board. GAAP requires us to make estimates and assumptions regarding future events that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. We base these estimates on our experience and assumptions we believe to be reasonable under the circumstances. However, if our judgment or interpretation of the facts and circumstances relating to various transactions or other matters had been different, we may have applied a different accounting treatment, resulting in a different presentation of our financial statements. We periodically reevaluate our estimates and assumptions, and in the event

they prove to be different from actual results, we make adjustments in subsequent periods to reflect more current estimates and assumptions about matters that are inherently uncertain. Please refer to “Critical Accounting Policies and Estimates” in the “Management’s Discussion and Analysis of Financial Condition and Results of Operations” section of our Annual Report on Form 10-K for the year ended December 31, 2021, filed with the SEC on February 16, 2022, for further information regarding the critical accounting policies that affect our more significant estimates and judgments used in the preparation of our condensed consolidated financial statements included in Part I, Item 1 of this Quarterly Report on Form 10-Q. There have been no material changes in such critical accounting policies during the nine months ended September 30, 2022.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Our primary market risk exposure is interest rate risk with respect to our variable rate indebtedness.

Our Amended Credit Agreement provides for revolving commitments in an aggregate principal amount of \$600.0 million and an unsecured term loan facility in an aggregate principal amount of \$200.0 million from a syndicate of banks and other financial institutions.

The interest rates applicable to loans under the Revolving Facility are, at the Company’s option, equal to either a base rate plus a margin ranging from 0.10% to 0.55% per annum or LIBOR plus a margin ranging from 1.10% to 1.55% per annum based on the debt to asset value ratio of the Company and its consolidated subsidiaries (subject to decrease at the Operating Partnership’s election if the Company obtains certain specified investment grade ratings on its senior long-term unsecured debt). The interest rates applicable to loans under the Term Loan are, at the Operating Partnership’s option, equal to either a base rate plus a margin ranging from 0.50% to 1.20% per annum or LIBOR plus a margin ranging from 1.50% to 2.20% per annum based on the debt to asset value ratio of the Company and its consolidated subsidiaries (subject to decrease at the Operating Partnership’s election if the Company obtains certain specified investment grade ratings on its senior long-term unsecured debt). As of September 30, 2022, we had a \$200.0 million Term Loan outstanding and had \$180.0 million outstanding under the Revolving Facility.

An increase in interest rates could make the financing of any acquisition by us more costly as well as increase the costs of our variable rate debt obligations. Rising interest rates could also limit our ability to refinance our debt when it matures or cause us to pay higher interest rates upon refinancing and increase interest expense on refinanced indebtedness. Increased inflation may also have a pronounced negative impact on the interest expense we pay in connection with our outstanding indebtedness, as these costs could increase at a rate higher than our rents.

In addition, the Chief Executive of the U.K. Financial Conduct Authority (the “FCA”), which regulates LIBOR, has announced that the FCA will no longer persuade or compel banks to submit rates for the calculation of LIBOR after 2021. However, for U.S. dollar LIBOR, the relevant date was deferred to June 30, 2023 for certain tenors (including overnight and one, three, six and 12 months), at which time the LIBOR administrator will cease publication of U.S. dollar LIBOR. Despite this deferral, the LIBOR administrator has advised that no new contracts using U.S. dollar LIBOR should be entered into after December 31, 2021. These actions indicate that the continuation of U.S. LIBOR on the current basis cannot and will not be guaranteed after June 30, 2023. Moreover, it is possible that U.S. LIBOR will be discontinued or modified prior to June 30, 2023. Upon the earlier of LIBOR ceasing to exist or the maturity date of our Revolving Facility, we expect to enter into an amendment to the Amended Credit Agreement and, while we cannot predict what alternative index would be negotiated with our lenders, we expect the secured overnight financing rate (“SOFR”) to be used as the replacement for LIBOR. If future rates based upon SOFR or any other successor reference rate are higher or more volatile than LIBOR rates as currently determined or if our lenders have increased costs due to changes in LIBOR, we may experience potential increases in interest rates on our variable rate debt, which could adversely impact our interest expense, results of operations and cash flows. Based on our outstanding debt balance as of September 30, 2022 described above and the interest rates applicable to our outstanding debt at September 30, 2022, assuming a 100 basis point increase in the interest rates related to our variable rate debt, interest expense would have increased approximately \$2.9 million for the nine months ended September 30, 2022.

We may, in the future, manage, or hedge, interest rate risks related to our borrowings by means of interest rate swap agreements. However, the REIT provisions of the Internal Revenue Code of 1986, as amended, substantially limit our ability to hedge our assets and liabilities. See “Risk Factors — Risks Related to Our Status as a REIT — Complying with REIT requirements may limit our ability to hedge effectively and may cause us to incur tax liabilities,” which is included in our Annual Report on Form 10-K for the year ended December 31, 2021. As of September 30, 2022, we had no swap agreements to hedge our interest rate risks. We also expect to manage our exposure to interest rate risk by maintaining a mix of fixed and variable rates for our indebtedness.

Item 4. Controls and Procedures.

Disclosure Controls and Procedures

We maintain disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) that are designed to ensure that information required to be disclosed in our reports under the Exchange Act is processed, recorded, summarized and reported within the time periods specified in the SEC's rules and regulations and that such information is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow for timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

As of September 30, 2022, we carried out an evaluation, under the supervision and with the participation of management, including our Chief Executive Officer and Chief Financial Officer, regarding the effectiveness of our disclosure controls and procedures. Based on the foregoing, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective, at the reasonable assurance level, as of September 30, 2022.

Changes in Internal Control over Financial Reporting

There has been no change in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during the quarter ended September 30, 2022 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II—OTHER INFORMATION

Item 1. Legal Proceedings.

The Company and its subsidiaries are and may become from time to time a party to various claims and lawsuits arising in the ordinary course of business, but none of the Company or any of its subsidiaries is, and none of their respective properties are, the subject of any material legal proceedings. Claims and lawsuits may include matters involving general or professional liability asserted against its tenants, which are the responsibility of its tenants and for which the Company is entitled to be indemnified by its tenants under the insurance and indemnification provisions in the applicable leases.

Item 1A. Risk Factors.

We have disclosed under the heading “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2021 risk factors which materially affect our business, financial condition, or results of operations. There have been no material changes from the risk factors previously disclosed.
