INNOVATIVE INDUSTRIAL PROPERTIES

NYSE: IIPR
INNOVATIVEINDUSTRIALPROPERTIES.COM
COMPANY PRESENTATION
POSTED: NOVEMBER 10, 2022

FORWARD LOOKING STATEMENTS

This presentation and our associated comments include "forward-looking statements" (within the meaning of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended) that are subject to risks and uncertainties. In particular, statements pertaining to our capital resources, portfolio performance and results of operations contain forward-looking statements. Likewise, our statements regarding anticipated growth in our funds from operations and anticipated market and regulatory conditions, our strategic direction, our dividend rate and policy, demographics, results of operations, plans and objectives are forward-looking statements. Forward-looking statements involve numerous risks and uncertainties, and you should not rely on them as predictions of future events. Forward-looking statements depend on assumptions, data or methods which may be incorrect or imprecise, and we may not be able to realize them. We do not guarantee that the transactions and events described will happen as described (or that they will happen at all). You can identify forward-looking statements by the use of forward-looking terminology such as "believes", "expects", "may", "will", "should", "seeks", "approximately", "intends", "plans", "estimates" or "anticipates" or the negative of these words and phrases or similar words or phrases. You can also identify forward-looking statements by discussions of strategy, plans or intentions. The following factors, among others, could cause actual results and future events to differ materially from those set forth or contemplated in the forward-looking statements: rates of default on leases for our assets, concentration of our portfolio of assets and limited number of tenants; the estimated growth in and evolving market dynamics of the regulated cannabis market inflation dynamics; our inability to improve our internal controls over financial reporting, including our inability to remediate the identified material weakness, and the costs and time associated with such efforts; the impact of the ongoing COVID-19 pandemic, or future pandemics, on us, our business, our tenants, or the economy generally; war and other hostilities, including the conflict in Ukraine; our business and investment strategy; our projected operating results; actions and initiatives of the U.S. or state governments and changes to government policies and the execution and impact of these actions, initiatives and policies, including the fact that cannabis remains illegal under federal law; availability of suitable investment opportunities in the regulated cannabis industry; our understanding of our competition and our potential tenants' alternative financing sources; the demand for regulated cannabis facilities; the expected medical-use or adult-use cannabis legalization in certain states; shifts in public opinion regarding regulated cannabis; the potential impact on us from litigation matters, including rising liability and insurance costs; the additional risks that may be associated with certain of our tenants cultivating, processing and/or dispensing adult-use cannabis in our facilities; the state of the U.S. economy generally or in specific geographic areas; economic trends and economic recoveries; our ability to access equity or debt capital; financing rates for our target assets; our expected leverage; our level of indebtedness, which could reduce funds available for other business purposes and reduce our operational flexibility; covenants in our debt instruments, which may limit our flexibility and adversely affect our financial condition; our ability to maintain our investment grade credit rating; changes in the values of our assets; our expected portfolio of assets; our expected investments; interest rate mismatches between our assets and our borrowings used to fund such investments; changes in interest rates and the market value of our assets; the degree to which any interest rate or other hedging strategies may or may not protect us from interest rate volatility; the impact of and changes in governmental regulations, tax law and rates, accounting guidance and similar matters; our ability to maintain our qualification as a REIT; our ability to maintain our exemption from registration under the Investment Company Act of 1940; availability of qualified personnel; and market trends in our industry, interest rates, real estate values, the securities markets or the general economy.

The risks included here are not exhaustive, and additional factors could adversely affect our business and financial performance. In addition, we discussed a number of material risks in our most recent Annual Report on Form 10-K and subsequent Quarterly Reports on Form 10-Q. Those risks continue to be relevant to our performance and financial condition. Moreover, we operate in a very competitive and rapidly changing environment. New risk factors emerge from time to time and it is not possible for management to predict all such risk factors, nor can it assess the impact of all such risk factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements. Any forward-looking statement made by us speaks only of the date on which we make it. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required by law. Stockholders and investors are cautioned not to unduly rely on such forward-looking statements when evaluating the information presented in our filings and reports.

Market and industry data are included in this presentation. We have obtained substantially all of this information from internal studies, public filings, other independent published industry sources and market studies prepared by third parties. We believe these internal studies, public filings, other independent published industry sources and market studies prepared by third parties are reliable. However, this information may prove to be inaccurate. No representation or warranty is made as to the accuracy of such information. All amounts shown in this presentation are unaudited. This is not an offer to sell or solicitation to buy securities of Innovative Industrial Properties, Inc. Any offers to sell or solicitations to buy securities of Innovative Industrial Properties, Inc. shall be made only by means of a prospectus approved for that purpose.

WHY IIPR WAS FORMED

Outsized Need for Capital

U.S. cannabis operators have an outsized need for capital to fund growth

Founded in 2016

We are the first and only publicly traded company on the New York Stock Exchange (NYSE: IIPR) to provide real estate capital to the regulated cannabis industry

Specialized Real Estate

U.S. cannabis operators require mission critical facilities with specialized buildouts to optimize environment and conform to licensing and zoning requirements

High Growth Industry

Regulated cannabis sales estimated to grow to $52 billion by 2026, almost double 2021 estimated regulated sales of $27 billion(1)

Limited Access to Financing

Due to federal prohibition and being a nascent industry, U.S. cannabis operators were historically required to fund growth through highly dilutive forms of capital absent other forms of financing

Rapid Adoption of State Legalization

As of May 2022, 38 states and Washington, D.C. have legalized cannabis for medical-use, and 21 states and Washington, D.C. have legalized cannabis for adult-use(1)

(1) Source: 2022 U.S. Cannabis Report, New Frontier Data.

OUR BUSINESS MODEL & BENEFITS

Structured long-term cash flows

- Generally, 15-20 year initial lease terms (vs. ~5 years for traditional industrial leases)
- Leases generally subject to parent company guarantees covering operations throughout the United States

Strong initial rental yields with annual escalations

Capital efficient lease structure

- Target leases are 100% triple-net
  - No reoccurring capital expenditures during lease term
  - All property expenses paid by the tenant, including capital repairs and replacements

We work closely with state-licensed cannabis operators

Execute sale-leasebacks and fund improvements for cultivation, processing and retail properties

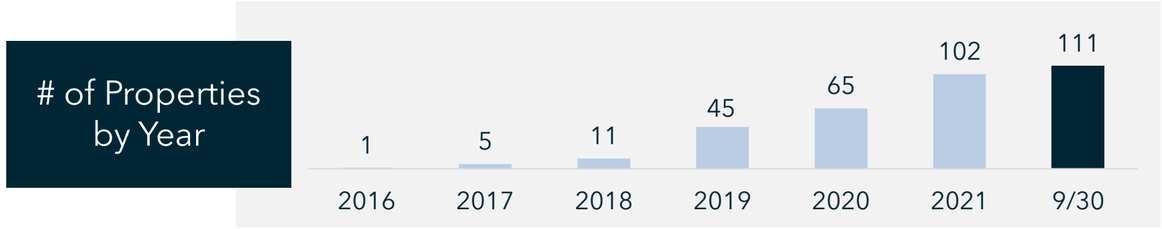

Provide non-dilutive capital

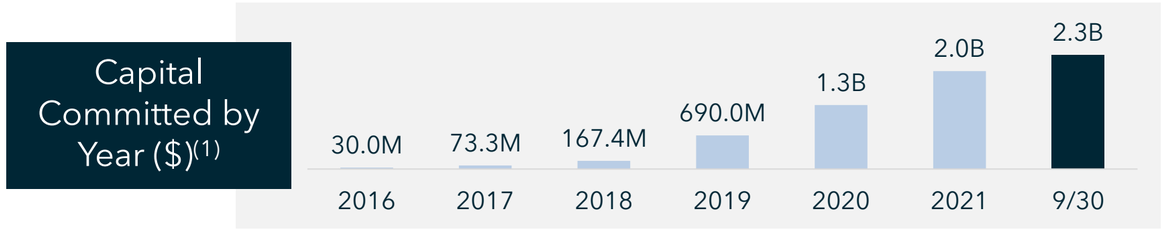

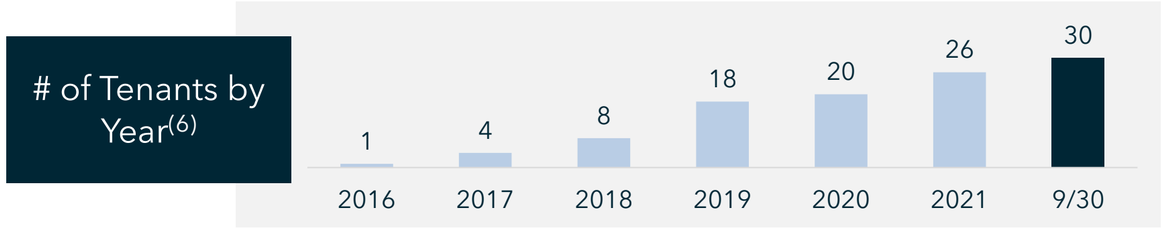

Facilitate our tenants' growth plans

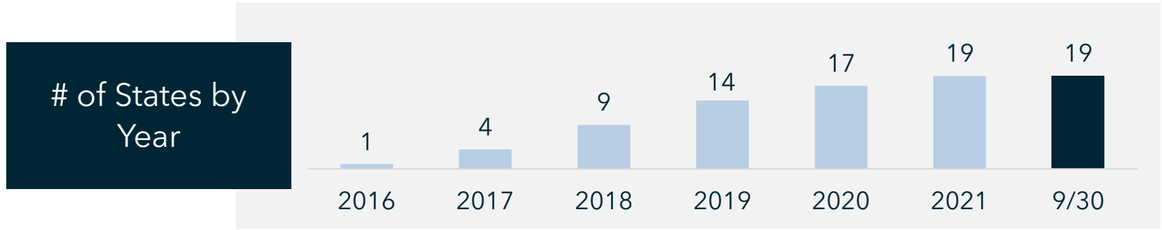

IIPR AS OF SEPTEMBER 30, 2022

Note: Data as of September 30, 2022, unless otherwise noted. Subsequent to September 30, 2022, the Company sold a Pennsylvania industrial property leased to a subsidiary of Maitri Holdings, LLC for $23.5 million (approximately $461 per square foot).

(1) Total Committed / Invested Capital includes (1) total investments in properties (consisting of purchase price and construction funding and improvements reimbursed to tenants, if any, but excluding transaction costs) and (2) total additional commitments to reimburse certain tenants and sellers for completion of construction and improvements at the properties. Excludes an $18.5 million loan commitment from us to a developer for construction of a regulated cannabis cultivation and processing facility in California.

(2) Operating Portfolio is defined as all properties that (a) are leased or (b) are not leased but ready for their intended use. Operating Portfolio includes approximately 1.6 million square feet under development or redevelopment.

(3) Reflects annualized common stock dividend paid on October 14, 2022 of $1.80 per share. The decision to declare or pay dividends is in the sole discretion of our board of directors in light of conditions then existing, and there can be no assurance that a dividend will be declared or paid for any time period in any amount.

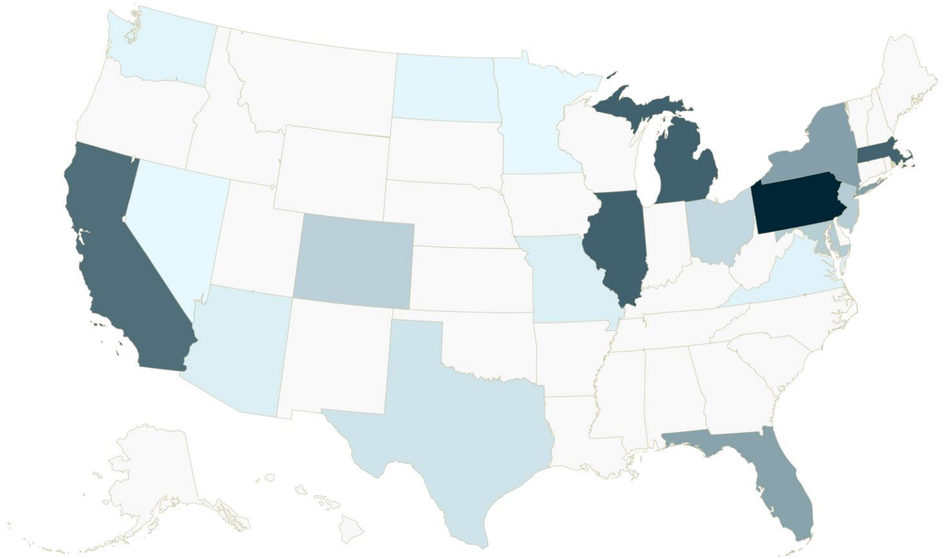

(4) Annualized based on Q3 2022 total revenues as of September 30, 2022 of approximately $70.9 million.

(5) Weighted average lease length calculated by weighting the remaining lease term based on the base rent and management fees, after the expiration of applicable base rent phase-in periods for the Operating Portfolio.

(6) Each "Tenant" represents the parent company of the tenant, for which the parent company has provided a corporate guaranty. A parent company may have multiple tenant subsidiaries across IIP's properties.

PORTFOLIO OVERVIEW

IIPR has a geographically diversified portfolio of properties throughout the United States

State Diversification(1)

4FRONT · AWH · Columbia Care · CRESCO LABS · curaleaf · Green Thumb · HOLISTIC INDUSTRIES · Parallel · PHARMACANN · Trulieve

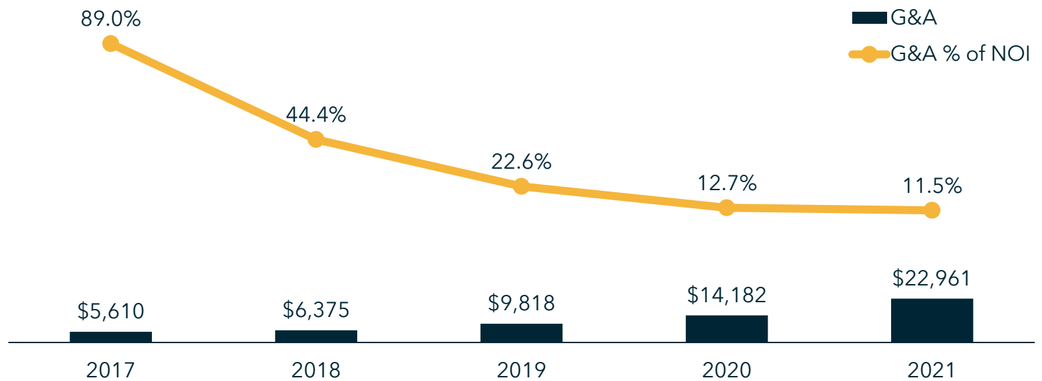

Note: Data as of September 30, 2022, unless otherwise noted. Subsequent to September 30, 2022, the Company sold a Pennsylvania industrial property leased to a subsidiary of Maitri Holdings, LLC for $23.5 million (approximately $461 per square foot).
(1) As a % of Total Committed / Invested Capital. % based on the Total Portfolio for State Diversification. % based on Operating Portfolio for all others. See footnote (1) on page 5.
(2) "MSO" means the tenant (or guarantor) conducts cannabis operations in more than one state. "SSO" means the tenant (or guarantor) conducts cannabis operations in a single state.
(3) "Industrial" reflects facilities utilized or expected to be utilized for regulated cannabis cultivation, processing and/or distribution activities, which can consist of industrial and/or greenhouse space.

TRACK RECORD OF GROWTH AND PROFITABILITY

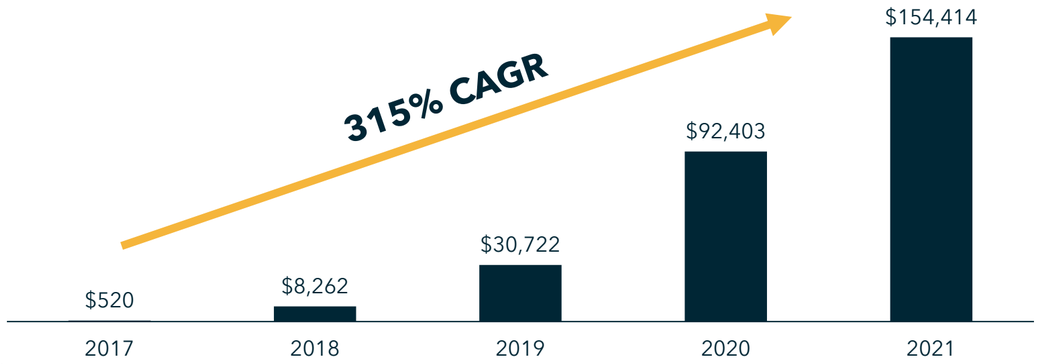

Year Over Year Net Operating Income (NOI)[1][2]

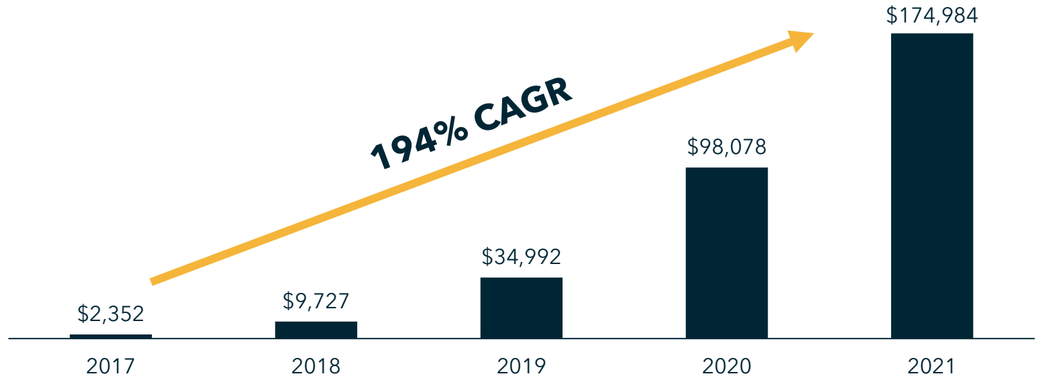

Year Over Year G&A as a % of NOI[1][3]

Year Over Year FFO[2][4]

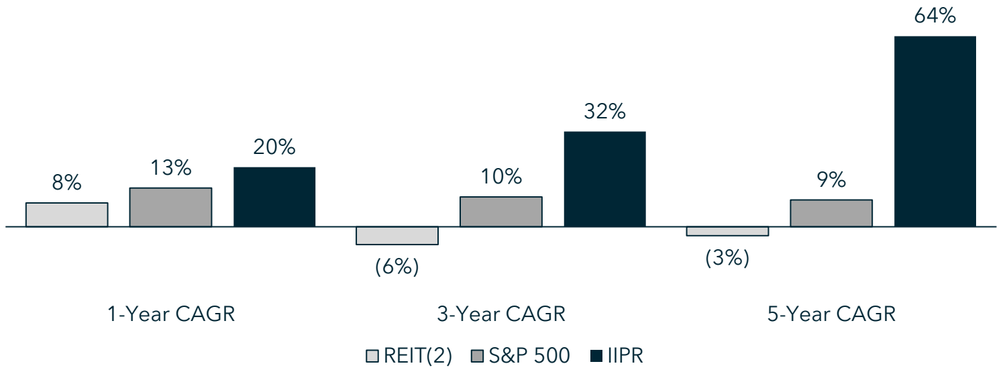

Year Over Year AFFO[2][4]

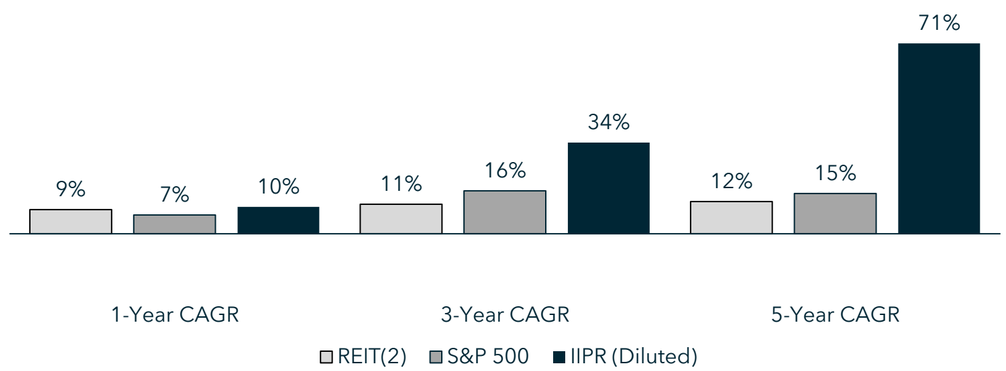

Note: Dollars in thousands.
(1) "Net Operating Income (NOI)" reported as total revenue less property expenses on the company's consolidated statements of income.
(2) "CAGR" represents compound annualized growth rate for the relevant metric.
(3) "G&A" reported as "general and administrative expense" on the company's consolidated statements of income.
(4) See the company's applicable periodic reports filed with the SEC for definitions of funds from operations ("FFO") and adjusted funds from operations ("AFFO") (each a supplemental non-GAAP financial measure) and reconciliation of FFO and AFFO to GAAP net income attributable to common stockholders.

COMPARATIVE PERFORMANCE

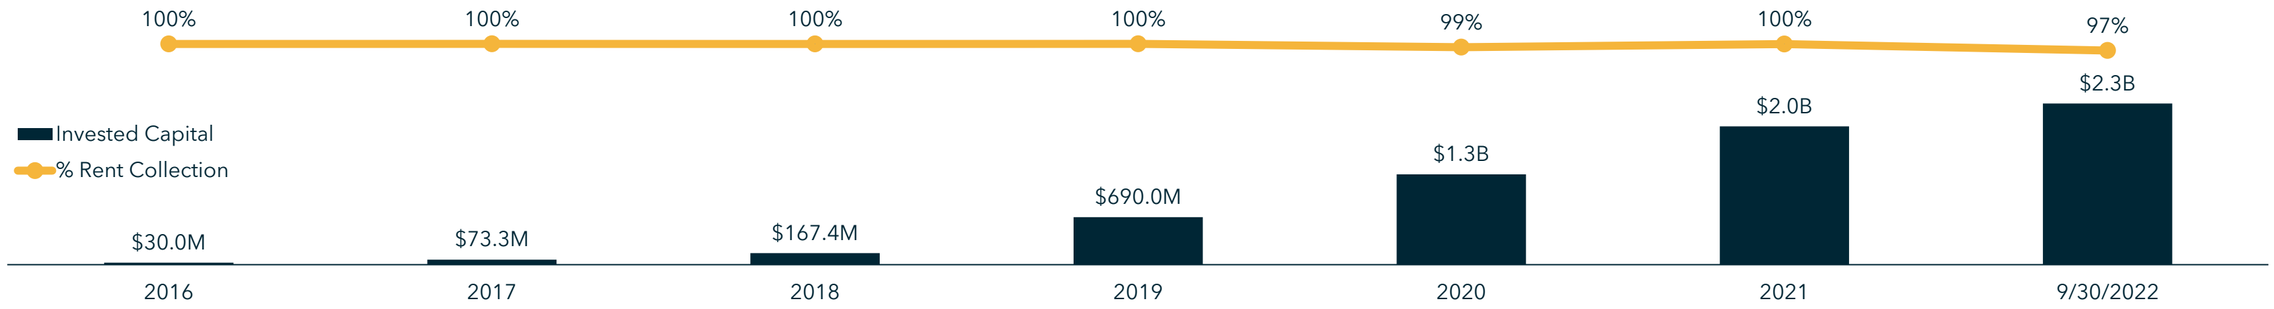

Common Stock Dividend Per Share[1]

Net Income Attributable to Common Stockholders Per Share[1]

Historical Rent Collection

(1) Per S&P Capital IQ Pro latest available data as of November 2, 2022. S&P Capital IQ Pro excludes outliers for each index. See footnote (2) on page 7.
(2) REIT index is made up of constituent data for the FTSE NAREIT U.S. Real Estate Index Series found on the National Association of Real Estate Investment Trusts ("NAREIT") website, representing publicly traded REITs across the United States.

TOP FIFTEEN TENANTS BY INVESTED CAPITAL

Top 15 tenants represent ~86% of the company's invested capital

(2) Square feet in thousands.
(3) Dollars in millions, based on each company's public securities filings and earnings release, available at www.sec.gov, www.sedar.com, or each company's respective website, for the quarter ended June 30, 2022.
(4) Adjusted EBITDA is a non-GAAP financial measure utilized in the industry. For definitions and reconciliations of Adjusted EBITDA to net income, see each company's public securities filings, available at www.sec.gov or www.sedar.com.
(5) Dollars in millions, per S&P Capital IQ Pro as of 09/30/2022.
(6) See footnote (2) on page 6.
(7) See Note 11 "Commitments and Contingencies" to IIP's condensed consolidated financial statements included in its Quarterly Report on Form 10-Q for the quarter ended September 30, 2022 filed with the SEC on November 9, 2022 for more information.

LICENSING, ZONING, & REGULATORY DYNAMICS

Establishing a Cultivation, Processing or Dispensary Facility is a Multifaceted Process with Significant Hurdles

Licensing

- A regulated cannabis operator must obtain proper licensing from the state for the facility
- Licensing driven by state specific program requirements, including limited licensing, costs and applicant requirements for licensing, identification of specific real estate for license approval
- In many states, a highly competitive process, with highly valued license

Zoning

- Limited opportunities for locating regulated cannabis facilities based on zoning and permitting requirements imposed at county and city levels, including community support
- Extensive negotiations with local governments for permitting and approvals

Regulatory

- Highly regulated at the state and local levels, including extensive security, fire protection, seed to sale tracking, testing, and other requirements
- Periodic inspections by local fire and safety officials and cannabis authorities to ensure compliance

UNDERWRITING & MONITORING

Detailed Background on Management

- Experienced management team
- Alignment of management within ownership of the business

Ability to Raise Capital

- Evaluation of the macro environment surrounding strategic capital raising in the tenants' prospective markets
- History of successful capital raising and a cash balance on hand today

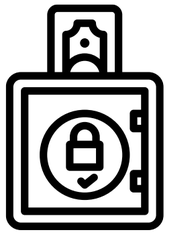

Detailed Financial Underwriting

- Evaluation of financial projections utilizing existing knowledge of industry dynamics
- Detailed review of financial statements, strategic initiatives, and growth plans

Guarantees and Security Deposits

- Leases generally subject to parent company guarantees covering operations throughout the United States
- Security deposits with larger deposits for less mature tenants

Ongoing Monitoring

- Quarterly reviews and requests for information pertaining to financials and ongoing operations of all properties
- Meetings with tenants to talk through operations and financials

INSIDE LOOK: CULTIVATION AND PROCESSING FACILITY

Grow Rooms:

- Mother room – houses the large plants with genetics desired for the production plants
- Clone room – leaves from the mother plants are used to propagate new plants
- Veg room – clone room plants are transferred to the veg room, which may include tiered benching for efficiency
- Flower room – veg room plants are transferred to the flower room, which may also include tiering for enhanced productivity

Mother Room

Extraction Room

Extraction Room Methods:

- Carbon dioxide extraction
- Ethanol extraction
- Hydrocarbon extraction
- Solventless extraction

Extraction Core Focus:

- Safety
- Workflow
- Scalability

Flower rooms generally require the following:

- Temperature and humidity maintenance
- Grow lighting
- A growing medium or substrate
- Irrigation and fertigation control systems
- Carbon dioxide
- Mechanical ventilation

Flower Room

Fertigation Room

Other Key Infrastructure Considerations:

- Enhanced mechanical, electrical, and plumbing infrastructure (“MEP”)
- Significant ceiling clearance
- Water recycling systems
- Emergency power systems
- On-site energy generation

Note: For illustrative purposes only; building infrastructure specifications can vary significantly from property to property.
