Plug Power Executives to Promote Hydrogen and Fuel Cell Solutions at Global Industry Events in March 2016

3/8/2016

Company to Exhibit and Present at Industry Events Including LogiMAT, the 12th International Hydrogen & Fuel Cell Conference, IWCE and APEC

LATHAM, N.Y., March 08, 2016 (GLOBE NEWSWIRE) -- Plug Power Inc. (NASDAQ:PLUG), a leader in providing clean, reliable energy solutions, is pleased to announce participation at a number of global industry events throughout March, including LogiMAT 2016, the 12th International Hydrogen & Fuel Cell Conference, IWCE and APEC.

- **LogiMAT 2016**, the 14th international trade fair for distribution, materials handling and information flow, will take place March 8-10, 2016, at the New Stuttgart Trade Fair Centre in Germany. Plug Power will exhibit in Hall 8, Stand 8F11, where it will display its GenFuel hydrogen infrastructure and GenDrive fuel cells for electric forklifts, pallet jacks and other material handling truck fleets.

- Plug Power's Vice President of Global Sales, Jose Luis Crespo, will speak at the **12th International Hydrogen & Fuel Cell Conference** on March 15. The event, which will focus on the commercialization of hydrogen and fuel cell technology, looking at small and large scale static applications alongside the exciting developments in transport and storage, will take place at the National Exhibition Centre in Birmingham, England.

- Plug Power will be represented at **IWCE's New Network Infrastructure Forum**, held March 22-23 at the Las Vegas Convention Center in Las Vegas, NV. On March 22, from 2:00-3:00 pm PDT, Mark Cohen, Plug Power Vice President of Product Management, Stationary Power, will highlight hydrogen and fuel cell solutions on the panel "The 21st Century Cell Site: How Technology is Revolutionizing It."

- The premier global event in applied power electronics, **APEC 2016** is happening March 20-24, 2016 at the Long
Beach, Calif., Convention & Entertainment Center. Plug Power’s Western Region Vice President of Sales, Fernando Corral, will speak on March 23, 2016 at 3:15 pm PDT as part of the Transportation Power Electronics Session with a presentation on viable fuel cell solutions for material handling applications.

As previously announced, the Company will release fourth quarter and year end 2015 results on March 10, 2016 including a live conference call and webcast at 10:00 am ET. Finally, Plug Power CEO, Andy Marsh, will present the company’s strategy to investors this month on March 15, 2016 at the 28th Annual ROTH Conference. Marsh will present at 4:00 pm PDT (7:00 pm EDT).

A current event schedule for the full year of 2016 can be found at http://www.plugpower.com/events/.

About Plug Power Inc.
The architects of modern fuel cell technology, Plug Power is revolutionizing the industry with cost-effective power solutions that increase productivity, lower operating costs and reduce carbon footprints. Long-standing relationships with industry leaders, including Walmart, Sysco, Procter & Gamble, and Mercedes Benz, forged the path for Plug Power’s innovative GenKey hydrogen and fuel cell system solutions. With more than 10,000 GenDrive units deployed to material handling customers, accumulating over 107 million hours of runtime, Plug Power manufactures tomorrow’s incumbent power solutions today.
