NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Accounting Practices

The financial statements of ReliaStar Life Insurance Company of New York (“the Company” or “RNY”) are presented on the basis of accounting practices prescribed or permitted by the New York Department of Financial Services (“NYDFS”).

The New York Department of Financial Services recognizes only statutory accounting practices prescribed or permitted by the State of New York for determining and reporting the financial condition and results of operations of an insurance company and for determining its solvency under the New York Insurance Law. The National Association of Insurance Commissioners’ (“NAIC”) Accounting Practices and Procedures Manual (“NAIC SAP”) has been adopted as a component of prescribed or permitted practices by the State of New York. The Superintendent of the New York Department of Financial Services has the right to permit other specific practices that deviate from prescribed practices.

The Company did not have any prescribed or permitted practices as of March 31, 2014 and December 31, 2013.

	State of Domicile	2014	2013
Net Income:			
(1) RNY State basis (Page 4, Line 35, Columns 1 & 3)	New York	\$ 4,002,012	\$ 20,537,929

(8) NAIC SAP (5-6-7=8)		<u>\$ 336,814,742</u>	<u>\$ 329,459,729</u>

The Company made no significant changes to its accounting policies or practices as of March 31, 2014.

Certain amounts in the Company’s statutory basis financial statements have been reclassified to conform to the 2014 financial statement presentation.

2. Accounting Changes and Corrections of Errors

None

3. Business Combinations and Goodwill

None

4. Discontinued Operations

None

5. Investments

D. Loan-Backed Securities

- (1) Prepayment assumptions for loan-backed and structured securities are obtained from third party services, broker dealer survey values or internal estimates.
- (2) The Company did not have any other-than-temporary impairments (“OTTI”) recognized in accordance with structured securities subject to Statement of Statutory Accounting Principles (“SSAP”) No. 43R, *Loan-backed and Structured Securities* (“SSAP No. 43R”), as of March 31, 2014 due to intent to sell or inability or lack of intent to hold to recovery.
- (3) The Company did not have any OTTI’s that were recognized in accordance with structured securities subject to SSAP No. 43R as of March 31, 2014.

NOTES TO FINANCIAL STATEMENTS

(4) The following table shows all impaired securities at March 31, 2014 in the aggregate for which an OTTI has not been recognized in earnings as a realized loss, including securities with a recognized OTTI for non-interest related declines when a non-recognized interest related impairment remains:

a. Aggregate amount of unrealized losses:			
1. Less than 12 Months	\$	231,505	
2. 12 Months or Longer	\$	591,702	
b. The aggregate related fair value of securities with unrealized losses:			
1. Less than 12 Months	\$	19,048,497	
2. 12 Months or Longer	\$	5,680,394	

(5) If the fair value of a loan-backed or structured security is less than its amortized cost basis at the balance sheet date, the Company determines whether the impairment is other-than-temporary. Amortized cost basis includes adjustments made to the cost of an investment for accretion, amortization, collection of cash and previous OTTI recognized as a realized loss.

The general categories of information that the Company considers in reaching the conclusion that an impairment is other-than-temporary are as follows:

Intent to Sell - if the Company intends to sell the loan-backed or structured security (that is, it has decided to sell the security), an OTTI is considered to have occurred.

Intent and Ability to Hold - if the Company does not intend to sell the loan-backed or structured security, the Company determines whether it has the intent and ability to retain the investment in the security for a period of time sufficient to recover the amortized cost basis. If the Company does not have the intent and ability to retain the investment for the time sufficient to recover the amortized cost basis, an OTTI shall be considered to have occurred.

Recovery of the Amortized Cost Basis - if the Company does not expect to recover the entire amortized cost basis of the security, the Company would be unable to assert that it will recover its amortized cost basis even if it does not intend to sell the security and the entity has the intent and ability to hold. Therefore, in those situations, an OTTI shall be considered to have occurred. In assessing whether the entire amortized cost basis of the security will be recovered, the Company compares the present value of cash flows expected to be collected from the security with the amortized cost basis of the security. If present value of cash flows expected to be collected is less than the amortized cost basis of the security, the entire amortized cost basis of the security will not be recovered (that is, a non-interest related decline exists), and an OTTI shall be considered to have occurred.

The Company conducts a thorough quarterly review of all loan-backed and structured security holdings to conclude if the amortized cost basis of those securities is recoverable. This review is documented at a detailed level and encompasses numerous factors and assumptions. The overall credit tracking process yields a variety of key data that supports the impairment decision making process. The review process and related assumptions are updated quarterly based on trends in the marketplace.

As part of the quarterly review, the Company identifies securities whose ratio of credit enhancement to serious delinquency does not exhibit ample protection against principal loss. Those securities are put through a more detailed analysis which covers, among other factors, (a) an analysis of the underlying collateral characteristics; (b) a review of the historical performance of the collateral in the deal; (c) structural analysis of the security; and (d) cash flow scenario analysis.

The retrospective adjustment method is used to determine the amortized cost for the majority of loan-backed and structured securities. For certain securities, the prospective adjustments methodology is utilized, including interest-only securities and securities that have experienced an OTTI.

The market values for loan-backed and structured securities are obtained as follows:

1. For securities that are considered marketable – market values are received from third party pricing services or by obtaining a bid price from brokerage firms engaged in the business of trading those securities.
2. For securities that were privately placed and for which no ready market exists - the Company establishes fair market values using a matrix pricing system which considers key factors such as credit quality, industry sector, size of the issuer and transaction structure. A limited portion of the private placement portfolio is priced independently of the matrix system as described above.

Derivatives assets				
Equity contracts	—	337,505	—	337,505
Foreign exchange contracts	—	315,018	—	315,018
Interest rate contracts	—	12,350,958	—	12,350,958
Total Derivatives	\$ —	\$ 13,003,481	\$ —	\$ 13,003,481
Separate account assets	1,022,213,175	1,379,994	—	1,023,593,169
Total assets at fair value	\$ 1,059,201,966	\$ 15,083,672	\$ 667,935	\$ 1,074,953,573
b. Liabilities at fair value				
Deposit type contracts	\$ —	\$ 69,512,872	\$ —	\$ 69,512,872
Derivatives liabilities				
Foreign exchange contracts	—	315,018	—	315,018
Interest rate contracts	—	6,350,592	—	6,350,592
Total Derivatives	\$ —	\$ 6,665,610	\$ —	\$ 6,665,610
Total liabilities	\$ —	\$ 76,178,482	\$ —	\$ 76,178,482

There were no transfers between Level 1 and Level 2 during the reporting period of January 1, 2014 to March 31, 2014. The Company’s policy is to recognize transfers in and transfers out as of the beginning of the most recent quarterly reporting period.

(2) The table below summarizes the changes in fair value of the Company’s assets and liabilities using significant unobservable inputs (Level 3) during the reporting period of January 1, 2014 to March 31, 2014:

Description	Beginning balance at 01/01/2014	Transfers into Level 3	Transfers out of Level 3	Total gains and (losses) included in Net Income	Total gains and (losses) included in Surplus	Purchases	Issuances	Sales	Settlements	Ending balance at 03/31/2014
a. Assets										
Common Stock	\$ 667,935	\$ —	\$ —	\$ —	\$ —	\$ —	\$ —	\$ —	\$ —	\$ 667,935
Total Assets	\$ 667,935	\$ —	\$ —	\$ —	\$ —	\$ —	\$ —	\$ —	\$ —	\$ 667,935
b. Liabilities										
Total Liabilities	\$ —	\$ —	\$ —	\$ —	\$ —	\$ —	\$ —	\$ —	\$ —	\$ —

There were no transfers into or out of Level 3 during the reporting period of January 1, 2014 to March 31, 2014. Securities that are primarily valued using independent broker quotes, when prices are not available from one of the commercial pricing services, are reflected as transfers into Level 3. These securities are generally less liquid with very limited trading activity or where less transparency exists corroborating the inputs to the valuation methodologies. When securities are valued using more widely available information, the securities are transferred out of Level 3 and into Level 1 or 2, as appropriate.

NOTES TO FINANCIAL STATEMENTS

- (3) The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure fair value fall within different levels of the hierarchy, the category level is based on the lowest priority level input that is significant to the fair value measurement of the instrument.

Financial assets and liabilities recorded at fair value on the balance sheet are categorized as follows:

- Level 1 - Unadjusted quoted prices for identical assets or liabilities in an active market
 - Level 2 - Quoted prices in markets that are not active or inputs that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in non-active markets;
 - Inputs other than quoted market prices that are observable; and
 - Inputs that are derived principally from or corroborated by observable market data through correlation or other means.
 - Level 3 - Prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. These valuations, whether derived internally or obtained from a third party, use critical assumptions that are not widely available to estimate market participant expectations in valuing the asset or liability.
- (4) Fair values are based on quoted market prices when available. When market prices are not available, fair value is generally estimated using discounted cash flow analyses, incorporating current market inputs for similar financial instruments with comparable terms and credit quality (matrix pricing). In instances where there is little or no market activity for the same or similar instruments, the Company estimates fair value using methods, models and assumptions that management believes market participants would use to determine a current transaction price. These valuation techniques involve some level of management estimation and judgment which becomes significant with increasingly complex instruments or pricing models. Where appropriate, adjustments are included to reflect the risk inherent in a particular methodology, model or input used.

Derivatives are carried at fair value, which is determined using the Company's derivative accounting system in conjunction with observable key financial data from third-party sources, such as yield curves, exchange rates, S&P 500 Index prices and London Interbank Offered Rates ("LIBOR") and Overnight Index Swap Rates ("OIS"). For those derivatives that are unable to be valued by the accounting system, the Company typically utilizes values established by third-party brokers. Derivatives which qualify for special hedge accounting treatment are reported in a manner that is consistent with the accounting for the hedged asset or liability.

- (5) See Note 20A(1-4) for disclosures on derivative assets and liabilities.

B. Other Fair Value Disclosures
None

NOTES TO FINANCIAL STATEMENTS

C. Aggregate Fair Value Disclosures
The following table shows all financial instruments and the level within the fair value hierarchy in which the fair value measurements fall as of March 31, 2014:

Type of Financial Instrument	Aggregate Fair Value	Carrying Value	(Level 1)	(Level 2)	(Level 3)	Not Practicable (Carrying Value)

D. Reasons Not Practicable to Estimate Fair Value
None

21. Other Items

A. Extraordinary Items
In 2009, ING Groep, N.V. ("ING") announced the anticipated separation of its global banking and insurance businesses, including the divestiture of Voya Financial, Inc. (which changed its name from ING U.S., Inc. on April 7, 2014) together with its subsidiaries, including the Company. On May 2, 2013 the common stock of Voya Financial, Inc. began trading on the New York Stock Exchange under the symbol “VOYA.” On May 7, 2013 and May 31, 2013, Voya Financial, Inc. completed its initial public offering of common stock, including the issuance and sale by Voya Financial, Inc. of common stock and the sale by ING Insurance International B.V. (“ING International”), an indirect, wholly owned subsidiary of ING and previously the sole stockholder of Voya Financial, Inc., of 44,201,773 shares of outstanding common stock of Voya Financial, Inc. (collectively, the “IPO”). On September 30, 2013, ING International transferred all of its shares of Voya Financial, Inc. common stock to ING. On October 29, 2013, ING completed a sale of 37,950,000 shares of common stock of Voya Financial, Inc. in a registered public offering, reducing ING’s ownership in Voya Financial, Inc. to 57%.

On March 25, 2014, ING completed a sale of 30,475,000 shares of common stock of Voya Financial, Inc. in a registered public offering; also on March 25, 2014, pursuant to the terms of a share repurchase agreement between ING and Voya Financial, Inc., Voya Financial, Inc. acquired 7,255,853 shares of its common stock from ING (the “Direct Share Buyback”) (the public offering and the Direct Share Buyback collectively referred to as the “Transactions”). Upon completion of the Transactions, ING’s ownership of Voya Financial, Inc. was reduced to 43%.

C. Other Disclosures and Unusual Items
The financial turmoil in Europe continues to be a dominant investment theme across the global capital markets. While certain aspects of this crisis seem to have stabilized, the possibility of capital markets volatility spreading through a highly integrated and interdependent banking system remains elevated. The Company did not have any investments in sovereign debt of governments of Greece, Italy, Portugal, Spain or Ireland as of March 31, 2014.

NOTES TO FINANCIAL STATEMENTS

F. Subprime Mortgage-Related Risk Exposure

(1) The performance of pre-2008 vintage subprime and Alt-A mortgage collateral has exhibited sustained signs of recovery, after struggling through a multiyear correction in nationwide home values. While collateral losses continue to be realized, serious delinquencies and other measures of performance, like prepayments and severities, have displayed sustained periods of improvement. Reflecting these fundamental improvements, related bond prices and sector liquidity increased substantially since the credit crisis. Despite these improvements, the sector remains susceptible to various market risks. For example, in the third quarter of 2013, the upward momentum in bond prices and market liquidity was disrupted, at least in part, by the pick-up in interest rate volatility. As this volatility dissipated, prices and liquidity recovered into the end of the year, supported by strength in the US economy and, more specifically, the housing market. The first quarter of 2014 has been characterized by continued stability in underlying fundamentals, despite the adverse seasonal related impacts observed in certain housing activity related measures. In managing risk exposure to subprime and Alt-A mortgages, collateral performance and structural characteristics associated with the Company’s various positions are taken into account.

The Company does not originate or purchase subprime or Alt-A whole-loan mortgages. The Company does have exposure to residential mortgage-backed securities ("RMBS") and asset-backed securities ("ABS"). Subprime lending is the origination of loans to customers with weaker credit profiles. The Company defines Alt-A mortgages to include the following: residential mortgage loans to customers who have strong credit profiles but lack some element(s), such as a documentation to substantiate income; residential mortgage loans to borrowers that would otherwise be classified as prime but whose loan structure provides repayment options to the borrower that increase the risk of default; and any securities backed by residential mortgage collateral not clearly identifiable as prime or subprime.

(2) The Company does not have direct exposure through investments in subprime mortgage loans as of March 31, 2014.

(3) The Company’s direct exposure through other investments as of March 31, 2014:

	Actual Cost	Book/Adjusted Carrying Value (excluding interest)	Fair Value	Other Than Temporary Impairment Losses Recognized
a. Residential mortgage-backed securities	\$ 1,170,408	\$ 1,170,408	\$ 1,004,868	\$ —
b. Commercial mortgage-backed securities	—	—	—	—
c. Collateralized debt obligations	—	—	—	—
d. Structured securities	6,339,695	6,512,369	6,392,490	—
e. Equity investment in subsidiary, controlled or affiliated companies	—	—	—	—
f. Other assets	—	—	—	—
g. Total	<u>\$ 7,510,103</u>	<u>\$ 7,682,777</u>	<u>\$ 7,397,358</u>	<u>\$ —</u>

(4) The Company did not have underwriting exposure to subprime mortgage risk through Mortgage Guaranty or Financial Guaranty insurance coverage as of March 31, 2014.

H. Offsetting and Netting of Assets and Liabilities
None

22. Events Subsequent

Type I – Recognized Subsequent Events

The Company is not aware of any events occurring subsequent to March 31, 2014 that may have a material effect on the Company’s financial statements. The Company evaluated events subsequent to March 31, 2014 through May 14, 2014, the date the statutory financial statements were available to be issued.

Type II – Nonrecognized Subsequent Events

The Company is not aware of any events occurring subsequent to March 31, 2014 that may have a material effect on the Company’s financial statements. The Company evaluated events subsequent to March 31, 2014 through May 14, 2014, the date the statutory financial statements were available to be issued.

23. Reinsurance

No significant change

24. Retrospectively Rated Contracts and Contracts Subject to Redetermination

None

25. Change in Incurred Losses and Loss Adjustment Expenses

Reserves at December 31, 2013 were \$29,302,552. As of March 31, 2014, \$6,852,797 has been paid for incurred losses and loss adjustment expenses attributable to insured events of prior years. Reserves remaining for prior years are now \$10,745,396 as a result of re-estimation of unpaid claims and claim adjustment expenses principally on group life, accident

NOTES TO FINANCIAL STATEMENTS

and health and stop loss lines of insurance. Therefore, there has been a \$11,704,359 favorable prior-year development since December 31, 2013. The decrease is generally the result of ongoing analysis of recent loss development trends. Original estimates are increased or decreased as additional information becomes known regarding individual claims. Included in this decrease, the Company experienced \$0 of favorable prior year loss development on retrospectively rated policies. However, the business to which it relates may be subject to premium adjustments.

26. Intercompany Pooling Arrangements

None

27. Structured Settlements
