

# Quarterly Investor Supplement

September 30, 2015

This report should be read in conjunction with Voya Financial, Inc.'s Quarterly Report on Form 10-Q for the quarter ended September 30, 2015. Voya Financial's Annual Reports on Form 10-K, and Quarterly Reports on Form 10-Q, can be accessed upon filing at the Securities and Exchange Commission's website at [www.sec.gov](http://www.sec.gov), and at our website at [investors.voya.com](http://investors.voya.com). All information is unaudited.

Results for the prior periods reflect revisions to Voya Financial, Inc.'s financial statements to correct an overstatement of liabilities, identified during the second quarter of 2015, related to the embedded derivative in certain guaranteed minimum withdrawal with life payouts products in the Closed Block Variable Annuity segment. The correction was not material to the previously filed quarterly and annual financial statements in the Company's Quarterly reports on Form 10-Q and Annual reports on Form 10-K. As a result, amendment of such reports is not required. For a further description, please refer to Voya Financial, Inc.'s Quarterly Report on Form 10-Q for the three months ended September 30, 2015, which will be filed on or before November 9, 2015. The revisions are identified on page 48 of this document and all numbers, including related income tax expenses (benefits) have been updated throughout the document.

## Explanatory Note on Non-GAAP Financial Information

Operating earnings before income taxes is a financial measure we use to evaluate segment performance. Operating earnings before income taxes is a non-GAAP financial measure and does not replace Net income (loss) as the U.S. GAAP measure of our results of operations. Each segment's Operating earnings before income taxes is calculated by adjusting Income (loss) before income taxes for the following items:

- Net investment gains (losses), net of related amortization of deferred policy acquisition costs ("DAC"), value of business acquired ("VOBA"), sales inducements and unearned revenue. Net investment gains (losses) include gains (losses) on the sale of securities, impairments, changes in the fair value of investments using the fair value option ("FVO") unrelated to the implied loan-backed security income recognition for certain mortgage-backed obligations and changes in the fair value of derivative instruments, excluding realized gains (losses) associated with swap settlements and accrued interest;
- Net guaranteed benefit hedging gains (losses), which include changes in the fair value of derivatives related to guaranteed benefits, net of related reserve increases (decreases) and net of related amortization of DAC, VOBA and sales inducements, less the estimated cost of these benefits. The estimated cost, which is reflected in operating results, reflects the expected cost of these benefits if markets perform in line with our long-term expectations and includes the cost of hedging. Other derivative and reserve changes related to guaranteed benefits are excluded from operating results, including the impacts related to changes in our nonperformance spread;
- Income (loss) related to businesses exited through reinsurance or divestment;
- Income (loss) attributable to noncontrolling interest;
- Income (loss) related to early extinguishment of debt;
- Impairment of goodwill, value of management contract rights and value of customer relationships acquired;
- Immediate recognition of net actuarial gains (losses) related to our pension and other postretirement benefit obligations and gains (losses) from plan amendments and curtailments; and
- Other items, including restructuring expenses (severance, lease write-offs, etc.), certain third-party expenses and deal incentives related to the divestment of the Company by ING Group, and expenses associated with the rebranding of Voya Financial, Inc. from ING U.S., Inc.

Adjusted operating earnings is also a non-GAAP financial measure. This measure excludes from Operating earnings before income taxes the following items:

- DAC/VOBA and other intangibles unlocking;
- The net gains and losses included in operating earnings from a distribution of cash and securities in conjunction with a Lehman Brothers bankruptcy settlement and the losses as a result of the decision to dispose of certain Low Income Housing Tax Credit partnerships ("LIHTC") as a means of exiting this asset class;
- A gain related to the amendment or recapture of certain reinsurance agreements; and
- Interest expense related to debt in our Corporate segment.

We report Ongoing Business adjusted operating ROE and adjusted operating ROC because we believe these measures are useful indicators of how effectively we use capital resources allocated to our Ongoing Businesses. The most directly comparable U.S. GAAP measure to Ongoing Business adjusted operating ROE and adjusted operating ROC is return on equity. For a reconciliation of these non-GAAP measures to return on equity, see the "Calculation and Reconciliation of ROE and ROC" page in this document

In addition to book value per share including accumulated other comprehensive income (AOCI), we also report book value per share excluding AOCI and shareholders' equity excluding AOCI. Included in AOCI are investment portfolio unrealized gains or losses. In the ordinary course of business we do not plan to sell most investments for the sole purpose of realizing gains or losses, and book value per share excluding AOCI and shareholders' equity excluding AOCI provide a measure consistent with that view.

# Voya Financial

## Explanatory Note on Non-GAAP Financial Information

Our Closed Block Variable Annuity ("CBVA") segment is managed to focus on protecting regulatory and rating agency capital rather than achieving operating metrics and, therefore, we exclude its results of operations from Operating earnings before income taxes. When we present the adjustments to Net Income (loss) before income taxes on a consolidated basis, each adjustment excludes the relative portions attributable to our CBVA segment.

The most directly comparable U.S. GAAP measure to Operating earnings before income taxes is Net income (loss) before income taxes. For a reconciliation of Operating earnings before Net income taxes to income (loss) before income taxes, refer to the "Consolidated Earnings Before Income Taxes" page in this document. In addition, please refer to "Adjusted Operating Earnings by Segment" for reconciliation from Total Operating earnings before income taxes to Total adjusted operating earnings before income taxes.

Operating revenues is a measure of our segment revenues and a non-GAAP financial measure. Each segment's Operating revenues are calculated by adjusting Total revenues for the following items:

- Net realized investment gains (losses) and related charges and adjustments, which include gains (losses) on the sale of securities, impairments, changes in the fair value of investments using the FVO unrelated to the implied loan-backed security income recognition for certain mortgage-backed obligations and changes in the fair value of derivative instruments, excluding realized gains (losses) associated with swap settlements and accrued interest. These items are net of related amortization of unearned revenue;
- Gain (loss) on change in fair value of derivatives related to guaranteed benefits, which include changes in the fair value of derivatives related to guaranteed benefits, less the estimated cost of these benefits. The estimated cost, which is reflected in operating results, reflects the expected cost of these benefits if markets perform in line with our long-term expectations and includes the cost of hedging. Other derivative and reserve changes related to guaranteed benefits are excluded from operating revenues, including the impacts related to changes in our nonperformance spread;
- Revenues related to businesses exited through reinsurance or divestment;
- Revenues attributable to noncontrolling interest; and
- Other adjustments to operating revenues primarily reflect fee income earned by our broker dealers for sales of non-proprietary products, which are reflected net of commission expense in our segments' operating revenues, as well as other items where the income is passed on to third parties.

Operating revenues also excludes the revenues of our CBVA segment, since this segment is managed to focus on protecting regulatory and rating agency capital rather than generating operating earnings. When we present the adjustments to Total revenues on a consolidated basis, each adjustment excludes the relative portions attributable to our CBVA segment.

The most directly comparable U.S. GAAP measure to Operating revenues is Total revenues. For a reconciliation of Operating revenues to Total revenues, please refer to the "Operating Revenues and Operating Earnings by Segment" page in this document.

We analyze our ongoing businesses performance based on the sources of earnings. We believe this supplemental information is useful in order to gain a better understanding of our Operating earnings (loss) before income taxes for the following reasons: (1) we analyze our business using this information and (2) this presentation can be helpful for investors to understand the main drivers of Operating earnings (loss) before income taxes of our ongoing businesses. The sources of earnings are defined as such:

- Investment spread and other investment income consists of net investment income and net realized investment gains (losses) associated with swap settlements and accrued interest, less interest credited to policyholder reserves.
- Fee based margin consists primarily of fees earned on assets under management ("AUM"), assets under administration ("AUA"), and transaction based recordkeeping fees.
- Net underwriting gain (loss) and other revenue contains the following: the difference between fees charged for insurance risks and incurred benefits, including mortality, morbidity, and surrender results, contractual charges for universal life and annuity contracts, the change in the unearned revenue reserve for universal life contracts, and that portion of traditional life insurance premiums intended to cover expenses and profits. Certain contract charges for universal life insurance are not recognized in income immediately, but are deferred as unearned revenues and are amortized into income in a manner similar to the amortization of DAC.
- Administrative expenses are general expenses, net of amounts capitalized as acquisition expenses and exclude commission expenses and fees on letters of credit.
- Trail commissions are commissions paid that are not deferred and thus recorded directly to expense.
- For a detail explanation of DAC/VOBA and other intangibles amortization/unlocking see "Unlocking of DAC/VOBA and other Contract Owner/Policyholder Intangibles" in our SEC filings.

For a reconciliation of the sources of earnings presentation to the line items within Operating revenues and Operating benefits and expenses, please refer to the "Ongoing Business Sources of Earnings" pages in this document.

Financial information, unless otherwise noted, is rounded to millions, therefore may not sum to its corresponding total.

<sup>(1)</sup> Capital is allocated to each of our segments in proportion to each segment's target statutory capital, plus an allocation of the differences between statutory capital and total Voya Financial, Inc. shareholders' equity on a GAAP basis (excluding AOCI), based on each segment's portion of these differences. Statutory surplus in excess of target statutory capital and certain corporate assets and liabilities, such as certain deferred tax assets and liabilities for unfunded pension plans, are allocated to the Corporate segment.

<sup>(2)</sup> Assumes debt-to-capital ratio of approximately 25%, and the actual weighted average pre-tax interest rate for all periods presented. Assumes 32% tax rate for 2015 and 35% tax rate for 2014.

<sup>(3)</sup> Includes capital impacts related to the Term Life Coinsurance Agreement in our Individual Life segment effective 10/1/2014.

<sup>(4)</sup> Deferred Tax Asset (DTA) related to Federal Net Operating Loss Carry Forwards ("Federal NOLs"), Life Subgroup Deferred Losses related to Closed Block VA Hedge Losses, and Non-Life Subgroup Deferred Losses related to tax-based goodwill, net of \$783 million tax valuation allowance related to Federal NOLs

<sup>(5)</sup> Reflects reallocation of approximately \$750 million of capital from Closed Block VA to Corporate and Other Closed Blocks during the fourth quarter of 2014 related to Deferred Tax Assets on Closed Block VA Hedge Losses that were not previously offset by a tax valuation allowance. Effective 12/31/2014, all deferred tax assets related to Closed Block VA Hedge Losses (including those previously offset by a tax valuation allowance) along with deferred tax assets related to Federal NOLs, and Non-Life Subgroup Deferred Losses, net of remaining tax valuation allowances related to Federal NOLs will be reflected in the capital allocated to Corporate and Other Closed Blocks

<sup>(1)</sup> Adjustments include the elimination of intercompany transactions between the Company and its consolidated investment entities, primarily the elimination of the Company's equity at risk recorded as investments by the Company (before consolidation) against either equity (private equity and real estate partnership funds) or senior and subordinated debt (CLOs) of the funds.

<sup>(2)</sup> Fixed Maturity Securities includes fixed maturities,available for sale , fixed maturities at fair value using the fair value option and securities pledged to creditors.

<sup>(3)</sup> Subprime asset-backed securities are included as a component of Non-Agency RMBS under this presentation.

<sup>(4)</sup> ARO ratings do not directly translate into NAIC ratings.

<sup>(5)</sup> Includes fixed maturities securities related to businesses exited through reinsurance where assets are retained on The Company's balance sheet. Refer to page in "Additional Information" section.

<sup>(1)</sup> Operating income from CMO-B portfolio assets, including derivatives, is included in fixed maturity securities.

<sup>(2)</sup> Fair value adjustments include adjustments related to CMO-B assets carried at fair value, among other income sources.

<sup>(3)</sup> Income related to reinsurance transactions, in which investment results are passed directly to the reinsurers pursuant to contracted terms of the reinsurance agreement.

<sup>(4)</sup> Consolidation/eliminations includes:

- The impact of consolidation of investment entities into the Consolidated Statements of Operations, net of the elimination of the Company's management fees expensed by the funds and recorded as operating revenues (before consolidation) by the Company;
- The elimination of intersegment expenses, primarily consisting of asset-based management and administration fees charged by our Investment Management Segment;
- Other intersegment eliminations.

<sup>(5)</sup> Investment results related to businesses exited through reinsurance are excluded.

<sup>(1)</sup> Effective in the second quarter of 2015, approximately \$110 million of alternative assets previously allocated to excess capital in the Corporate Segment is now allocated to all segments in proportion to each segment's target statutory capital.

<sup>(2)</sup> Our Closed Block Variable Annuity segment is managed to focus on protecting regulatory and rating agency capital rather than achieving operating metrics and, therefore, its results of operations are not reflected within investment income.

<sup>(3)</sup> Alternative investment income excludes the net investment income from Lehman Recovery/LIHTC in the three months ending 9/30/15, 6/30/14, and 3/31/14.
