NEWS RELEASE

Arista Cloud Networking Portfolio Receives Application Certification from ServiceNow

5/11/2015

SANTA CLARA, Calif. -- May 11, 2015 -- Arista Networks, Inc. (NYSE: ANET) today announced it has received certification of its application Arista Cloud Networking Portfolio with ServiceNow®. Certification by ServiceNow signifies that Arista Cloud Networking Portfolio has successfully completed a set of defined tests focused on integration interoperability, security and performance. The certification also ensures that best practices are utilized in the design and implementation of **Arista's Cloud Networking Portfolio** with ServiceNow.

"This certification highlights the open architecture of **Arista EOS** and the power of ServiceNow in delivering an automated customer solution enabling greater operating expenditure (opex) savings and higher service level agreements for today's data center environments," said Christian Renaud Senior Analyst, Networking for 451 Research. Leveraging the power of the ServiceNow Service Management and workflow management platform with Arista EOS (extensible operating system), the newly certified integration is expected to be the first of many tools that will allow complete management of the network infrastructure via ServiceNow.

Customers can have complete configuration archival and versioning, merging DevOps concepts with the power of ServiceNow. The Arista Cloud Networking Portfolio integration with the ServiceNow platform allows users to backup and track changes to switch configurations minimizing operator errors and resulting in less downtime and greater SLA's.

About Arista Networks
Arista Networks was founded to deliver software-driven cloud networking solutions for large data center and computing environments. Arista's award-winning 10/40/100 GbE switches redefine scalability, robustness, and price-performance, with over 3,000 customers and more than three million cloud networking ports deployed worldwide. At the core of Arista's platform is EOS, an advanced network operating system. Arista Networks

products are available worldwide through distribution partners, systems integrators and resellers. ARISTA, EOS and Spline are among the registered and unregistered trademarks of Arista Networks, Inc. in jurisdictions around the world.
