NEWS RELEASE

AEVEX Appoints Jason Gursky Vice President of Investor Relations and Treasury

2026-02-10

SOLANA BEACH, Calif., — AEVEX today announced the appointment of Jason Gursky as Vice President of Investor Relations and Treasury. Gursky brings deep capital markets, investor relations, and corporate finance expertise to AEVEX as the company continues to scale its operations and expand its leadership position across unmanned systems, autonomy, and advanced defense technologies.

In his role, Gursky will lead AEVEX's investor relations and treasury functions, supporting strategic financial planning, capital allocation, and engagement with investors and financial stakeholders. He will work closely with AEVEX's executive leadership team to strengthen financial communications, optimize capital structure, and support the company's long-term growth objectives.

Gursky joins AEVEX from Citi, where he most recently served as Managing Director and Equity Analyst covering the aerospace and defense industries. Prior to Citi, he was Corporate Treasurer and Vice President of Investor Relations at Maxar Technologies, where he played a key role in navigating complex capital markets environments and engaging global investor audiences. Earlier in his career, Gursky held equity research roles at both Citi and JPMorgan, advising institutional investors across aerospace, defense, and industrial sectors.

“Jason brings a strong combination of capital markets insight, investor credibility, and hands-on corporate finance leadership,” said Roger Wells, CEO of AEVEX. “As AEVEX continues to scale, his experience across capital planning, treasury operations, and strategic finance will be critical as we engage investors, strengthen financial discipline, and position the company for long-term success.”

Gursky has a proven track record of leading strategic and financial planning, capital markets transactions, and investor communications in high-growth, steady-state, and complex operating environments. His experience includes leading multi-billion-dollar financings, optimizing capital structures, and building strong relationships with investors, banks, and key stakeholders.

Gursky holds an MBA from the University of California, Berkeley, an MA from Johns Hopkins University, and a BA from the University of California, Davis.

About AEVEX: AEVEX supports U.S. and partner nation security objectives by providing comprehensive aviation and technology-based solutions. The company offers a diverse portfolio of Unmanned Aircraft Systems (UAS), combat-proven loitering munitions, and multi-mission Unmanned Surface Vehicles (USV). These capabilities complement AEVEX's strengths in custom engineering, manned and unmanned aircraft modification, sensor integration, intelligence analysis, and specialized mission systems. AEVEX is headquartered in Solana Beach, California, with additional facilities in California, Florida, Ohio, and Virginia.
