AEVEX Secures \$88.1 Million Awards to Deliver Long-Range Precision Strike Systems

2026-07-28

SOLANA BEACH, Calif.--(BUSINESS WIRE)-- AEVEX Corp. (NYSE: AVEX), a leading provider of advanced unmanned systems and mission technologies, today announced it has secured new production orders totaling \$88.1 million to deliver long-range precision strike capabilities to U.S. government customers.

These awards enhance AEVEX's support for mission needs across high-priority operational theaters. The company continues to deliver capabilities aligned with evolving mission demands, reinforcing AEVEX's role as a trusted partner for critical national defense missions.

"AEVEX customers continue to have confidence in our ability to deliver precision-focused autonomous capabilities at operationally relevant scale," said Roger Wells, Chief Executive Officer at AEVEX. "Our long-range precision strike product portfolio is built from real-world mission experience and proven success in the contested environments of modern warfare. We're proud to deliver the capabilities our warfighters need, on time and at the speed and scale required by today's operational tempo."

AEVEX's autonomous systems, mission autonomy software, and deployment architecture are designed to meet rapidly evolving defense requirements across air and maritime domains. The company's scalable production footprint and modular technology stack support rapid fielding, adaptation, and delivery of mission-aligned capabilities, enabling U.S. and allied forces to maintain readiness and operational advantage.

AEVEX continues to invest in manufacturing scale, mission autonomy technologies, and customer-aligned engineering to meet growing demand across the Department of War and international partners. These efforts support the company's broader strategy of aligning with defense procurement priorities and expanding its ability to deliver solutions across emerging mission sets.
