Visitors to Booth 1933 on Level 3 of the Tampa Convention Center will have the opportunity to engage with AEVEX leaders, engineers, and operational experts while exploring a broad array of capabilities across air, maritime, and additive manufacturing mission sets.

Throughout the week, visitors to Booth 1933 on Level 3 of the Tampa Convention Center will have the opportunity to engage with AEVEX leaders, engineers, and operational experts while exploring a broad array of capabilities across air, maritime, and additive manufacturing mission sets. AEVEX's lineup of unmanned systems will be on display inside its booth, complemented by outdoor demonstrations and exhibits.

Featured AEVEX activities include:

- Daily demonstrations of the Mako Lite unmanned surface vehicle (USV) operating each morning in the harbor outside the Tampa Convention Center
- ForgeX Additive Manufacturing capability displayed at the Convention Center entrance, showcasing rapidly deployable, forward-relevant production and sustainment concepts
- AEVEX launched effects, autonomous systems, advanced positioning, navigation and timing (A2PNT), and

mission-tailored unmanned solutions at Booth 1933

“AEVEX continues to deliver adaptable, affordable, and operationally relevant capabilities that enhance the effectiveness of U.S. and allied forces,” said Craig Anders, SVP, Business Development at AEVEX. “SOF Week remains an important venue as we engage with customers and partners on mission priorities.”

AEVEX welcomes the opportunity to connect with attendees throughout SOF Week to discuss how the company is advancing autonomous systems, affordable mass, additive manufacturing, and multi-domain operational solutions.
