Earnings Release Call

FORWARD-LOOKING STATEMENTS – DISCLAIMER

This presentation contains forward-looking statements within the meaning of the federal securities laws. Forward-looking statements include all statements that are not historical statements of fact and those regarding our intent, belief, or expectations, including, but not limited to: statements regarding Crane's portfolio composition and its relationship with Crane NXT, Co. following the business separation; benefits and synergies of the separation transaction; strategic and competitive advantages of Crane; future financing plans and opportunities; and business strategies, prospects and projected operating and financial results. We caution investors not to place undue reliance on any such forward-looking statements.

Words such as "anticipate(s)," "expect(s)," "intend(s)," "believe(s)," "plan(s)," "may," "will," "would," "could," "should," "seek(s)," and similar expressions, or the negative of these terms, are intended to identify such forward-looking statements. These statements are based on management's current expectations and beliefs and are subject to a number of risks and uncertainties that could lead to actual results differing materially from those projected, forecasted or expected. Although we believe that the assumptions underlying the forward-looking statements are reasonable, we can give no assurance that our expectations will be attained.

Risks and uncertainties that could cause actual results to differ materially from our expectations include, but are not limited to: changes in global economic conditions (including inflationary pressures) and geopolitical risks, including macroeconomic fluctuations that may harm our business, results of operation and stock price; the continuing effects from the COVID-19 pandemic on our business and the global and U.S. economies generally; information systems and technology networks failures and breaches in data security, theft of personally identifiable and other information, non-compliance with our contractual or other legal obligations regarding such information; our ability to source components and raw materials from suppliers, including disruptions and delays in our supply chain; demand for our products, which is variable and subject to factors beyond our control; governmental regulations and failure to comply with those regulations; fluctuations in the prices of our components and raw materials; loss of personnel or being able to hire and retain additional personnel needed to sustain and grow our business as planned; risks from environmental liabilities, costs, litigation and violations that could adversely affect our financial condition, results of operations, cash flows and reputation; risks associated with conducting a substantial portion of our business outside the U.S.; being unable to identify or complete acquisitions, or to successfully integrate the businesses we acquire, or complete dispositions; adverse impacts from intangible asset impairment charges; potential product liability or warranty claims; being unable to successfully develop and introduce new products, which would limit our ability to grow and maintain our competitive position and adversely affect our financial condition, results of operations and cash flow; significant competition in our markets; additional tax expenses or exposures that could affect our financial condition, results of operations and cash flows; inadequate or ineffective internal controls; specific risks relating to our reportable segments, including Aerospace & Electronics, Process Flow Technologies and Engineered Materials; the ability and willingness of Crane and Crane NXT, Co. to meet and/or perform their obligations under any contractual arrangements that are entered into among the parties in connection with the separation transaction and any of their obligations to indemnify, defend and hold the other party harmless from and against various claims, litigation and liabilities; and the ability to achieve some or all the benefits that we expect to achieve from the separation transaction.

Readers should carefully review Crane's financial statements and the notes thereto, as well as the section entitled "Risk Factors" in Item 1A of Crane's Annual Report on Form 10-K for the year ended December 31, 2022 and the other documents Crane and its subsidiaries file from time to time with the SEC. Readers should also carefully review the "Risk Factors" section of the information statement filed as an exhibit to Crane's registration statement on Form 10. These filings identify and address other important risks and uncertainties that could cause actual events and results to differ materially from those contained in the forward-looking statements.

These forward-looking statements reflect management's judgment as of this date, and Crane assumes no (and disclaims any) obligation to revise or update them to reflect future events or circumstances.

We make no representations or warranties as to the accuracy of any projections, statements or information contained in this document. It is understood and agreed that any such projections, targets, statements and information are not to be viewed as facts and are subject to significant business, financial, economic, operating, competitive and other risks, uncertainties and contingencies many of which are beyond our control, that no assurance can be given that any particular financial projections ranges, or targets will be realized, that actual results may differ from projected results and that such differences may be material. While all financial projections, estimates and targets are necessarily speculative, we believe that the preparation of prospective financial information involves increasingly higher levels of uncertainty the further out the projection, estimate or target extends from the date of preparation. The assumptions and estimates underlying the projected, expected or target results are inherently uncertain and are subject to a wide variety of significant business, economic and competitive risks and uncertainties that could cause actual results to differ materially from those contained in the financial projections, estimates and targets. The inclusion of financial projections, estimates and targets in this press release should not be regarded as an indication that we or our representatives, considered or consider the financial projections, estimates and targets to be a reliable prediction of future events.

CRANE

STRONG CORE SALES GROWTH OUTLOOK

Aerospace & Electronics

- Cyclical recovery of commercial A&E markets
- Content already won on large defense programs ramping over next few years
- Sole-sourced content on all major aerospace platforms
- Strong alignment with secular trends, most notably electrification

7%-9% Core Sales Growth

Process Flow Technologies

- Accelerating NPD with new product vitality at record levels
- Secular trends supporting continued growth in Chemical, Pharma, Wastewater and Industrial Automation markets
- Shifting portfolio with ~60% in high-growth end markets

3%-5% Core Sales Growth

Poised for accelerating growth given consistent, substantial investment in new products, technology and breakthrough innovation

SUBSTANTIAL GROWTH OPPORTUNITIES

- Fragmented end markets with robust M&A pipeline
- Strong balance sheet to support organic and inorganic strategic growth objectives, while providing a dividend in-line with peers
- ~\$1 Billion of M&A Capacity available today, growing to ~\$4 Billion through 2028

CRANE COMPANY POST-SEPARATION CAPITAL STRUCTURE

**~0.2x Net
Debt-to-EBITDA**

Additional Details

- Net Debt (total debt less total cash) of approximately \$65 million
- 2023 Guidance pro forma EBITDA of ~\$335 million implies net Debt-to-EBITDA of ~0.2x
- Interest rate on Term Loan expected to be variable rate (~6.6% in current market conditions)
- Term loan provides flexibility for early repayment from strong underlying free cash flow

Expected M&A capacity: \$1+ billion at separation / ~\$4 billion through 2028

* Reflects approximate cash and debt balances on April 4, 2023 after the issuance of a \$300 million term loan, payment of a \$275 million dividend to Crane NXT, Co., and the transfer of approximately \$83 million to Crane NXT, Co. that was previously allocated to Crane Company in its carve-out financial statements.

CAPITAL DEPLOYMENT POTENTIAL

~\$4 Billion Available from 2023-2028

Substantial additional value creation potential from flexible balance sheet

DISCIPLINED CAPITAL ALLOCATION STRATEGY

Maintain Strong Credit Metrics and Flexible Balance Sheet While Funding:

Internal Investments to Drive Organic Growth

- Capital expenditures
- Research & development
- Sales & marketing

Acquisitions to Enhance Growth

- Pursuing bolt-on transactions and adjacencies across both strategic growth platforms

Competitive Returns to Shareholders

- Target dividend payout of ~20%
 - Initial post-separation dividend of \$0.72/sh. annually (\$0.18/sh. quarterly)
- Opportunistic repurchases

Target long-term net-debt-to-EBITDA of ~2x-3x

LONG-TERM VISION FOR STRATEGIC GROWTH PLATFORMS

- Focus on high-return acquisitions that create value for shareholders and improve the strength of our strategic growth platforms
 - ~\$4 Billion of capital available through 2028
- Scale and business strength create optionality for future strategic portfolio decisions
- Disciplined approach with strict strategic and financial criteria
 - Have historically repurchased shares when M&A not actionable and/or attractive

CRANE COMPANY REVISED OPERATIONAL GUIDANCE

(\$ millions)	GAAP	Adjusted	Adjusted Ex-Supply	Prior (1/23/23)	Revised (5/10/23)	Revised 2023G vs. 2022A Adj. ex-Supply

Total Segment	15.8%	16.6%	16.6%	17.4%	18.0%	140 bps		

Additional Details

- Guidance assumes constrained and mixed overall activity, with only gradual improvement in supply chain
- Aerospace & Electronics recovery continues, and core business positioned to outgrow market
 - Expect to be capacity constrained in 2023, with ~\$50+ million of unmet demand to be delivered above "normal" +7%-9% core sales growth in 2023 and/or 2024 as supply chain conditions permit
- Process Flow Technologies delivering on strong backlog with expected deceleration in short-cycle markets; share gains continue
- Expect strong operating leverage in 2023 and beyond
- Well positioned to ramp output if macroeconomic conditions and supply chain permit

Strong operating leverage with operating profit growing >3x core sales growth

* Excludes Special Items. Please see non-GAAP Financial Measures tables for details.

** Excludes Special Items described in non-GAAP Financial Measures tables, and to better facilitate year-over-year comparability, further excludes all contribution from Crane Supply which was divested in May 2022.

*** "Total Leverage" defined as the change in Adjusted Operating Profit divided by the change in Sales. "Core Leverage" defined as the change in Adjusted Operating Profit divided by the change in core sales. Core sales is defined as the change in sales excluding the impact of foreign currency translation, acquisitions, and divestitures.

Additional Details

- Guidance items for 2023 below are based on annualized, post-separation run-rates
 - Expect annualized post-separation corporate costs of ~\$70 million in 2023, and declining as a percentage of sales thereafter
 - Expect 2023 annualized net non-operating expense of ~\$16 million
 - Expect post-separation adjusted tax rate of ~23%
 - Expect 2023 diluted shares of ~57.3 million
 - Expect average free cash flow conversion [(Operating Cash Flow less Capital Expenditures) / Adjusted Net Income] of ~90%-100% after adjusting for separation related cash items
- Pro Forma 2023 (non-segment income and expenses on an annualized, post-separation basis) guidance of \$3.60-\$3.90

Expect 2023 pro forma Crane Company EPS of ~\$3.60-\$3.90

NON-GAAP INFORMATION

MAY 10, 2023

NON-GAAP EXPLANATION (1/2)

Crane Company reports its financial results in accordance with U.S. generally accepted accounting principles (“GAAP”). This press release includes certain non-GAAP financial measures, including adjusted operating profit, adjusted operating margin, adjusted EPS, Free Cash Flow and Adjusted Free Cash Flow, that are not prepared in accordance with GAAP. These non-GAAP measures are an addition, and not a substitute for or superior to, measures of financial performance prepared in accordance with GAAP and should not be considered as an alternative to operating income, net income or any other performance measures derived in accordance with GAAP. We believe that these non-GAAP measures of financial results (including on a forward-looking or projected basis) provide useful supplemental information to investors about Crane Company. Our management uses certain forward looking non-GAAP measures to evaluate projected financial and operating results. However, there are a number of limitations related to the use of these non-GAAP measures and their nearest GAAP equivalents. For example, other companies may calculate non-GAAP measures differently or may use other measures to calculate their financial performance, and therefore our non-GAAP measures may not be directly comparable to similarly titled measures of other companies.

Reconciliations of certain forward-looking and projected non-GAAP measures for post-separation Crane Company, including Adjusted EPS, and Adjusted segment margin to the closest corresponding GAAP measure are not available without unreasonable efforts due to the high variability, complexity and low visibility with respect to the charges excluded from these non-GAAP measures, which could have a potentially significant impact on our future GAAP results. For post-separation Crane Company, these forward looking and projected non- GAAP measures are calculated as follows:

- “Adjusted Net Income” is calculated as Net Income adjusted for Special Items which include transaction related expenses such as tax charges, professional fees, and incremental costs related to the separation; interest expense on the 364-day term loan related to the 2022 asbestos transaction; repositioning related charges; pre-separation related party interest income; the impact of pension curtailments and settlements; and, standalone corporate cost and interest expense.
- “Adjusted EPS” is calculated as Adjusted Net Income divided by post-separation diluted shares.
- “Adjusted Operating Profit” is calculated as Operating Profit before Special Items which include repositioning related charges and transaction related expenses such as tax charges, professional fees, and incremental costs related to the separation.
- “Adjusted Operating Margin” is calculated as Adjusted Operating Profit divided by sales.
- “Adjusted EBITDA” is calculated as earnings before interest, tax, depreciation and amortization expenses, before Special Items which include transaction related expenses such as tax charges, professional fees and incremental corporate costs related to the proposed separation and other potential corporate transactions.
- “Adjusted EBITDA margin” is calculated as Adjusted EBITDA divided by sales.
- “Total Leverage” is calculated as the change in sales divided by the change in Adjusted Operating Profit.
- “Core Leverage” is calculated as the change in core sales divided by the change in Adjusted Operating Profit. The change in core sales is defined as the change in sales after excluding the impacts from foreign exchange, acquisitions, and divestitures.

NON-GAAP EXPLANATION (2/2)

We believe that each of the following non-GAAP measures provides useful information to investors regarding the Company's financial conditions and operations:

- "Adjusted Operating Profit" and "Adjusted Operating Margin" add back to Operating Profit items which are outside of our core performance, some of which may or may not be non-recurring, and which we believe may complicate the interpretation of the Company's underlying earnings and operational performance. These items include income and expense such as: transaction related expenses, repositioning related (gains) charges, and a standalone corporate cost adjustment to reflect our estimate of what corporate costs would have been had the separation transaction occurred at the beginning of the period. These items are not incurred in all periods, the size of these items is difficult to predict, and none of these items are indicative of the operations of the underlying businesses. We believe that non-GAAP financial measures that exclude these items provide investors with an alternative metric that can assist in predicting future earnings and profitability that are complementary to GAAP metrics.
- "Adjusted Net Income" and "Adjusted EPS" exclude items which are outside of our core performance, some of which may or may not be non-recurring, and which we believe may complicate the presentation of the Company's underlying earnings and operational performance. These measures include income and expense items that impacted Operating Profit such as: transaction related expenses, repositioning related (gains) charges, and a standalone corporate cost adjustment to reflect our estimate of what corporate costs would have been had the separation transaction occurred at the beginning of the period. Additionally, these non-GAAP financial measures exclude income and expense items that impacted Net Income and Earnings per Diluted Share such as: interest expense on the 364 Day term loan related to the 2022 asbestos transaction, the impact of pension curtailments and settlements, pre-separation related party interest income, and a standalone interest expense adjustment. These items are not incurred in all periods, the size of these items is difficult to predict, and none of these items are indicative of the operations of the underlying businesses. We believe that non-GAAP financial measures that exclude these items provide investors with an alternative metric that can assist in predicting future earnings and profitability that are complementary to GAAP metrics.
- "Adjusted EBITDA" adds back to net income: net interest expense, income tax expense, depreciation and amortization, miscellaneous expense, net, and Special Items including transaction related expenses. "Adjusted EBITDA Margin" is calculated as adjusted EBITDA divided by net sales. We believe that adjusted EBITDA and adjusted EBITDA margin provide investors with an alternative metric that may be a meaningful indicator of our performance and provides useful information to investors regarding our financial conditions and results of operations that is complementary to GAAP metrics.
- "Free Cash Flow" and "Adjusted Free Cash Flow" provide supplemental information to assist management and investors in analyzing the Company's ability to generate liquidity from its operating activities. The measure of free cash flow does not take into consideration certain other non-discretionary cash requirements such as, for example, mandatory principal payments on the Company's long-term debt. Free Cash Flow is calculated as cash provided by operating activities less capital spending. Adjusted Free Cash Flow is calculated as Free Cash Flow adjusted for certain cash items which we believe may complicate the interpretation of the Company's underlying free cash flow performance such as certain transaction related cash flow items related to the separation transaction. These items are not incurred in all periods, the size of these items is difficult to predict, and none of these items are indicative of the operations of the underlying businesses. We believe that non-GAAP financial measures that exclude these items provide investors with an alternative metric that can assist in predicting future cash flows that are complementary to GAAP metrics.
