**Box 14:** Describe the organizational action and, if applicable, the date of the action or the date against which shareholders’ ownership is measured for the action. We executed a 1-for-15 reverse stock split of the issued shares of our common stock on October 29, 2024.

**Box 15:** Describe the quantitative effect of the organizational action on the basis of the security in the hands of a U.S. taxpayer as an adjustment per share or as a percentage of old basis. There is no change in basis as a result of the reverse split. Rather, the cost basis is allocated over a smaller number of shares, increasing the cost basis per share.

**Box 16:** Describe the calculation of the change in basis and the data that supports the calculation, such as the market values of the securities and the valuation dates. See Part II, Box 15.

**Box 17:** List the applicable Internal Revenue Code section(s) and subsection(s) upon which the tax treatment is based. The tax treatment described above is based on sections 368(a)(1)(E) and 354 of the Internal Revenue Code of 1986, as amended.

**Box 18:** Can any resulting loss be recognized? No.

**Box 19:** Provide any other information necessary to implement the adjustment, such as the reportable tax year. The reverse stock split took place on October 29, 2024.
