Freshpet is committed to leading the industry in the ethical treatment of people, animals, and natural resources as part of our mission to nourish Pets, People, and Planet. Freshpet celebrates the human-animal bond. Our relationships with pets inspire the way we work together, how we built our company and how we want to grow.

We believe it is our responsibility to protect and improve human rights in all aspects of our business. Some general guidelines inspired by learning and insights from dog and cat behavior and what the pet-parent bond teaches us:

- Welcome everyone to the pack with a wagging tail and a smile (or a purrr)
- Work together as a pack to achieve our goals and make sure everyone wins
- Conduct all personal and business interactions with compassion and enthusiasm
- Sniff out opportunities and use our instincts to increase the economic and social health of the pack and our communities
- Encourage pack members to speak up to make the pack better
- Supply our pack with good healthy food, clean water and a safe environment
- Work hard but ensure there is the right amount of time to rest and play
- Provide equal opportunity to all members of the pack
