Total Net Retail Sales	424	473	574	416	425	496	595	431	480	564

1. Results are from continuing operations only.

2. On December 28, 2015, the Company divested its Lifesize video conferencing business and, as a result, the Company reflected the Lifesize video conferencing business as discontinued operations in the consolidated statements of operations. As a result, the results of that business have been excluded from all line items for all periods presented.

3. Non-GAAP net income and diluted EPS for Q1'15 and Q2'15 have not been recast to exclude all discontinued operations.

GAAP TO NON-GAAP RECONCILIATION NOTES

Non-GAAP Financial Measures

To supplement our condensed consolidated financial results prepared in accordance with GAAP, we use a number of financial measures, both GAAP and non-GAAP, in analyzing and assessing our overall business performance, for making operating decisions and for forecasting and planning future periods. We consider the use of non-GAAP financial measures helpful in assessing our current financial performance, ongoing operations and prospects for the future as well as understanding financial and business trends relating to our financial condition and results of operations.

While we use non-GAAP financial measures as a tool to enhance our understanding of certain aspects of our financial performance and to provide incremental insight into the underlying factors and trends affecting both our performance and our cash-generating potential, we do not consider these measures to be a substitute for, or superior to, the information provided by GAAP financial measures. Consistent with this approach, we believe that disclosing non-GAAP financial measures to the readers of our financial statements provides useful supplemental data that, while not a substitute for GAAP financial measures, can offer insight in the review of our financial and operational performance and enables investors to more fully understand trends in our current and future performance. Our non-GAAP measures excluded items in the general categories set forth in the tables above and detailed under “Supplemental Financial Information” in our earnings press release or “Financial Statements only” posted to our website under “Quarterly Results” at <http://ir.logitech.com>.

The non-GAAP financial measures should not be considered in isolation from, or as a substitute for, a measure of financial performance prepared in accordance with GAAP. Further, investors are cautioned that there are inherent limitations associated with the use of each of these non-GAAP financial measures as an analytical tool. In particular, these non-GAAP financial measures are not based on a comprehensive set of accounting rules or principles and many of the adjustments to the GAAP financial measures reflect the exclusion of items that are recurring and may be reflected in the Company’s financial results for the foreseeable future. We compensate for these limitations by providing specific information in the reconciliation set forth above and in our earnings press release regarding the GAAP amounts excluded from the non-GAAP financial measures. In addition, as noted above, we evaluate the non-GAAP financial measures together with the most directly comparable GAAP financial information.
