
ENVIRONMENTAL POLICY

We are committed to sustainable development and recognize that the long-term sustainability of our business is dependent upon good stewardship in both the protection of the environment and the efficient management of the exploration and extraction of mineral resources. Our values and business principles are based on a “zero harm” environmental management performance, they underpin our environmental policy and represent the minimum guidelines for the Company in this respect.

- We will comply with all applicable environmental laws, regulations and requirements.
- We are committed to establishing and maintaining management systems to identify, monitor and control the environmental aspects of our activities.
- We will ensure that resources are available to meet our reclamation and environmental obligations.
- We will ensure that our employees and contractors are aware of this policy as well as their relevant responsibilities.
- We will work with local representatives in the communities in which we operate to educate the community on the environmental obligations associated with our activities.
- We will conduct audits to evaluate the effectiveness of our environmental management systems.
- We are committed to transparent communication and consulting with interested and affected parties on environmental aspects of our activities.
- We will work to continually improve our environmental performance and to promote sustainable development in the areas in which we operate.
- We will participate in debate on environmental matters at international, national and local levels.
