TABLE OF RATES

FROM	TO	Rates in Cents per Barrel of 42 United States Gallons	Rate Type
Cushing Lincoln, Co.....OK	Tulsa Tulsa, Co.....OK	36.00	Non-Incentive
		08.00	Incentive

Incentive Rate Terms:

Incentive rate applicable to all Barrels of Crude Petroleum shipper ships in a contract quarter (as such term is defined in the applicable agreement between such shipper and Carrier) in excess of a quantity equal to 100,000 Barrels per day multiplied by the number of days in such quarter.

Rate Escalation:

The rates in this Tariff will be adjusted on July 1 of each calendar year by an amount equal to the upper change in the annual change rounded to four decimal places of the Producers Price Index-Commodities-Finished Goods, (PPI), et al. ("PPI"), produced by the U.S. Department of Labor, Bureau of Labor Statistics. The series ID is WPUFD49207 as of June 1, 2016, located at <http://www.bls.gov.data/>. The change factor shall be calculated as follows: annual PPI index (most current year), less annual PPI index (most current year minus 1), divided by annual PPI index (most current year minus 1). An example for year 2014 change is [PPI (2013) – PPI (2012) or (197.3 – 193.3) / 193.3 or .021 or 2.1%. However, the annual PPI adjustment hereunder will not exceed two percent (2%) for any year. If the PPI index change is negative in a given year, then there will be no change in the rates in this Tariff for that year.
